

Zackarie Bond

Zack Bond, from Bethlehem NH, is having a wonderful beginning of the school year. As a new student here at North Country Charter Academy, Zack got to work very quickly. In just under a month Zack earned two credits by completing an English class and Life Science class; No small feat. Not only did he earn two credits, but in each of these classes he earned a 99% and 97%, respectively. Furthermore, Zack is an integral part of our community and culture here at school. Zack possesses an inquisitive mind and his questions during group discussions help push others to learn more. He is also incredibly helpful to his teachers and other students by providing help when asked. In fact, within a couple of weeks he helped trouble shoot a common problem our students faced on our learning platform, Edmentum. Also, during his free time on Thursday nights he volunteers at the local community dinner. He is not only a terrific student, but also a fantastic person. We are happy to have Zack here at NCCA. Keep up the good work!
