MISSION

The Riverview Gardens School District, along with families and the community, nurtures academic excellence in all students, preparing them to be college and career ready in an ever-changing society.

VISION

The Riverview Gardens School District creates a community of learners equipped to be competitors in a global society and leaders demonstrating social and civic responsibility.

Special Administrative Board

Veronica Morrow-Reel
President, Master C.B.M.

Reggie Jones
Vice-President, C.B.M.

Mary Oswald
Treasurer, C.B.M.

Miranda Avant-Elliott, Ed.D.
Secretary

Lynn Beckwith, Jr., Ed.D.
Member, Advanced C.B.M.

Dear Parent/Guardian,

The Missouri Assessment Program (MAP) End-of-Course (EOC) Assessments evaluate students' progress toward the Missouri Learning Standards.

The Missouri Learning Standards define the knowledge and skills students need in each grade level and course for success in college, other post-secondary training and careers. These expectations are aligned to the Show-Me Standards, which define what all Missouri high school graduates should know and be able to do. Find more information about the standards at <https://dese.mo.gov/college-career-readiness/curriculum/mls-for-parents>.

A policy statement, adopted by the Missouri State Board of Education, designated the purposes of the Missouri Assessment Program as:

- Improving students' acquisition of important knowledge, skills and competencies;
- Monitoring the performance of Missouri's education system;
- Empowering students and their families to improve their educational prospects; and
- Supporting the teaching and learning process.

EOC Assessments provide important information that contributes to decisions concerning individual students, groups of students, and educational programs.

EOC Assessments are taken when a student has received instruction on the Missouri Learning Standards for an assessment, regardless of grade level.

Missouri offers ten EOC assessments, four of which are required at the state level. Districts must ensure that students complete EOC assessments in Algebra I, English II, Biology, and Government prior to high school graduation. For students who complete the Algebra I EOC assessment prior to high school, Algebra II is the required high school mathematics assessment for accountability purposes. Districts may also give EOCs in Algebra II, American History, English I, Geometry, Personal Finance and Physical Science for local purposes.

The effectiveness of an assessment program depends on the wise choice of assessment methods, appropriate administration procedures and accurate interpretation of results.

The EOC Assessments include multiple types of questions or items:

- Selected Response (also known as multiple choice) items are composed of a question followed by a series of possible responses. Students must select the correct response or responses.
- Constructed Response or Short Text items require students to supply an appropriate response rather than making a selection from a list of choices.
- Performance Tasks/Events allow students to work through more complicated items using real world scenarios.
- Writing Task items require students to write either narrative, information/explanatory or opinion/argumentative essay.

Each test produces an Individual Student Report (ISR) that includes an Achievement Level, which will describe the student performance as Below Basic, Basic, Proficient, or Advanced. The report also includes a short description of the knowledge and skills that are typically demonstrated by students in each Achievement Level.

The Missouri Department of Elementary and Secondary Education (DESE) publishes a Guide to Interpreting Results (GIR) that provides additional details about the content of the Individual Student Reports. The GIR is available on the DESE website at: <http://dese.mo.gov/college-career-readiness/assessment/end-course>.

In Partnership,

Dr. Stacey Nichols
Assistant Superintendent of Curriculum and Instruction
