Phone: 662-581-3032

Contractor Requirements

The contractor must, as a minimum, provide the following specifications:

The program should have the following, but not limited to, specifications:

- Specifically developed to meet the rigor and demands of the college and career ready standards in reading and mathematics.
- Must provide supporting evidence of alignment to the Mississippi College- and Career-Readiness Standards in reading and mathematics.
- Instruction must be proven effective with a wide range of students, including English language learners, students with disabilities, and other students with special needs or considerations; as well as the ability to challenge high ability students.
- Provide evidence of research and efficacy.
- Must provide step-by-step guidance and supports for teacher-led instruction with individuals, small groups, and large groups. A downloadable library of lesson plans should be available to help teachers differentiate instruction for students based on their assessment results.
- ELA instruction program must emphasize complex, authentic texts with informational and literary texts included equally and separately.
- The computer-adaptive assessment system provides universal screening and progress monitoring in early literacy, reading, and math.
- Reading instruction must support foundational skill building, emphasize complex text and use of authentic literature, and include interdisciplinary passages that feature academic vocabulary.

- Math instruction must focus on conceptual math understanding and procedural fluency, must embed support for mathematical practice standards, and must include animated instruction that involves word problems, problem solving, and key mathematical topics.
- Establishes individual learning paths that are aligned with the Mississippi College and Career-Readiness Standards
- Students are generally able to complete an assessment in 30 minutes or less.
- The online programs offers several opportunities for progress monitoring.
- Reports are available to teachers and administrators in real time, as soon as students finish testing.
- Courseware remediation and recovery that's aligned to the Mississippi Curriculum.
- The program is cloud-based and is accessible using a range of devices, including iPads, Chromebooks, and other laptop and tablet computers.
- The vendor is compliant with The Family Educational Rights and Privacy Act (FERPA) and other regulations governing data privacy.
- The vendor is able to provide onsite training and professional development for key staff
- The assessment must include a differentiated growth model that provides two benchmarks for understanding student growth: the average annual growth of students at each grade and placement level and also the growth recommended to put below-grade level students on a path to proficiency and on-grade level students on a path to advanced proficiency levels.
- The assessment must provide both criterion-referenced and norm-referenced scores, showing how students are performing relative to grade level standards as well as relative to other students.
- The diagnostic assessment must offer a range of administration times, may be broken into multiple sessions, be untimed, and be designed for administration up to three times per year (beginning, mid, and end of year).
