## **PARENT/GUARDIAN'S ACKNOWLEDGEMENT OF RECEIPT OF *STUDENT CODE OF CONDUCT***

**The school needs your help and cooperation. *Your signature on the Online Student Enrollment Information indicates that you have received this Student Code of Conduct and you will read and discuss it with your son/daughter.***

This code has been developed to help your son/daughter gain the greatest possible benefit from his/her school experience. The policies apply to all students and parents/guardians in the Mobile County Public School System at all school campuses, school buses and school-related activities and events.

Parents/guardians have the responsibility for the actions of their child/children and should be involved in the education of their child/children. The parent/guardian should take special notice of the weapons, controlled substance, suspension and expulsion sections, as well as the provisions of this *Student Code of Conduct*.

A parent or guardian's failure to sign the *Online Student Enrollment Information* will not relieve the student or the parent/guardian from their responsibility to know the contents of the *Student Code of Conduct* and will not excuse any student's failure to comply with the *Student Code of Conduct*.

**The parent/guardian is legally responsible for student's behavior as stated in the *Code of Alabama, Section 16-28-12* (see detailed information on page 2 of this handbook).**

# PREFACE

Students need an environment that is safe and appropriate for learning. To provide and maintain that environment, the *Student Code of Conduct* provides guidelines that:

- Describes a positive school environment
- Describes conduct that is disruptive to the school's environment
- Works to create standard procedures for school employees to respond to disruptive situations
- States the rights and responsibilities of administrators, teachers, parents/guardians and students
- Creates a system for the school district to distribute information to parents/guardians each year, as required by federal and state laws

The principal shall work cooperatively with faculty, parents/guardians and students to review the *Student Code of Conduct* for the Mobile County Public School System and will make sure that teachers, parents/guardians and students have access and/or receive a new copy including any revisions, each year. During the first two weeks of school, the principal will ensure that teachers review the *Student Code of Conduct* with students in a manner appropriate for the students' age group.

If there are changes in federal or state law that require changes to the Student Code of Conduct, it will be revised and approved by the Board of School Commissioners.

As students' progress through their school career, the school district expects them to take more responsibility for their actions. Age is considered when determining what type of disciplinary action is appropriate. However, the procedures outlined in the *Student Code of Conduct* apply to all students who attend schools or participate in activities as part of the Mobile County Public School System.

## **The *Student Code of Conduct* is in force:**

- During regular school hours
- Anytime on school board property
- While students are being transported on a school bus
- At any other times and places where school administrators have responsibility for students including, but not limited to, school-sponsored events, field trips, athletic functions, and other activities

For safety reasons, a bus driver has the authority to require a reasonable degree of quiet; to assign seats; require that students remain seated; and prevent unsafe and disruptive behavior. Students are expected to follow the directions of the bus driver or face disciplinary action. That disciplinary action may include losing the privilege of riding the bus. Bus drivers will report all misconduct to the principal.

In addition, the principal or a person he identifies to act on his behalf is authorized to take administrative action whenever a student's misconduct away from school has a negative effect upon other students or on the orderly educational process.

# SECTION I

## INTRODUCTION

Discipline in our schools helps to prepare youth to be active citizens in our democratic society. Schools must establish discipline policies and procedures to teach respect for authority and to maintain learning conditions free from distractions and misbehavior.

Creating a school environment that allows for meaningful and effective learning experiences requires efforts by parents/guardians, students, and school personnel. It is the responsibility of school administrators and teachers to see that the rules and regulations of the school are carried out in a consistent manner that promotes fairness, honesty, and genuine concern for the school community.

Therefore, the Board of School Commissioners of Mobile County Public Schools believes that self-discipline is critical to a democratic society. Self-discipline is developed through a progressive learning process. In order to be effective, discipline must be directed toward improving self-control and providing corrective guidance rather than punishment. Behavior and discipline policies must demonstrate the need for maintaining a proper atmosphere for learning within each school.

The *Code of Alabama*, Section 16-28-12: (states in pertinent part)

- A. Each parent, guardian, or other person having control or custody of any child required to attend school or receive regular instruction by a private tutor who fails to have the child enrolled in school or who fails to send the child to school, or have him or her instructed by a private tutor during the time the child is required to attend a public school, private school, church school, denominational school, or parochial school or be instructed by a private tutor, or fails to require the child to regularly attend the school or tutor, or fails to compel the child to properly conduct himself or herself as a pupil in any public school in accordance with the written policy on school behavior adopted by the local board of education pursuant to this section and documented by the appropriate school official which conduct may result in the suspension of the pupil, shall be guilty of a misdemeanor and, upon conviction, shall be fined not more than one hundred dollars (\$100) and may also be sentenced to hard labor for the county for not more than 90 days. The absence of a child without the consent of the principal, teacher of the public school he or she attends or should attend, or of the tutor who instructs or should instruct the child, shall be prima facie evidence of the violation of this section.
- B. Each local public board of education shall adopt a written policy for its standards on school behavior. Each local public school superintendent shall provide at the commencement of each academic year a copy of the written policy on school behavior to each parent, guardian, or other person having care or control of a child who is enrolled. Included in the written policy shall be a copy of this section. The signature of the student and the parent, guardian, or other person having control or custody of the child shall document receipt of the policy.
- C. Any parent, guardian, or other person having control or custody of any child enrolled in public school who fails to require the child to regularly attend the school or tutor, or fails to compel the child to properly conduct himself or herself as a pupil in accordance with the written policy on school behavior adopted by the local board of education and documented by the appropriate school official which conduct may result in the suspension of the pupil, shall be reported by the principal to the superintendent of education of the school system in which the suspected violation occurred. The superintendent of education or his or her designee shall report suspected violations to the district attorney within 10 days.

Should the Superintendent determine that no reasonable basis for an expulsion recommendation to the Board of School Commissioners exists, all interested parties will be informed, in writing, and the student shall immediately return to school with no penalty for absences related to the investigation. This does not refer to the initial school suspension if reasonable in nature. Student records shall be properly updated to indicate that grounds for expulsion were insufficient. If the Superintendent determines that the student was falsely accused and that the charges are clearly unfounded, the student's records relating to the expulsion charge will be promptly expunged.

#### Notice of Extension of Suspension

1. The Superintendent may extend an existing school suspension pending the results of the investigation if he has reason to believe that a return to school or continued attendance at school would be detrimental to the student, the school staff, other students, or would disrupt the orderly conduct of the educational process.
2. If the Superintendent extends a school suspension, the parent/guardian shall be notified by certified U.S. Mail and/or by hand delivery.

#### Informal Hearing/Placement Conference

1. After receiving the notice of the extension of suspension, the parent/guardian has the right to request a placement conference with the Director of Discipline and Student Placement.
2. The placement conference must be requested, in writing, within ten (10) days of receipt of the extension of suspension.
3. The placement conference will allow the student another opportunity to present a detailed account of the incident.
4. Failure to request a placement conference shall be deemed a waiver of a conference, unless good cause is shown.

#### Superintendent's Notice of Charges, Recommendation and Hearing

1. Should it be determined that grounds for expulsion exist, a summary of the charges including facts, legal and policy grounds for the proposed expulsion shall be prepared.
2. The parent/guardian shall be notified by certified U.S. Mail of the Superintendent's charges and recommendation. Certified mail addressed to the last known address of the parent/guardian shall be considered sufficient notice.
3. The Superintendent's charges and recommendation shall include notice of:
  - a) The date and time at which the Board of School Commissioners is scheduled to take final action of the Superintendent's recommendation, if no appeal hearing is requested.
  - b) The opportunity to request an appeal hearing on the charges. A request for an appeal hearing must be received in writing at the office of the Superintendent within ten (10) days from receipt of the charges.

- c) Failure to request an appeal hearing in a timely manner shall be deemed a waiver of a hearing, unless good cause is shown.
- 4. If an appeal hearing is requested, the Superintendent, acting for the Board of School Commissioners, may set an appeal hearing date. Adequate time for preparation shall be allowed. Without objection, which is timely raised, fourteen (14) days shall be deemed sufficient preparation time when calculated from the next day following actual personal notice or written notice of hearing by certified mail.
- 5. Failure to appear at an appeal hearing after notice of the date of hearing shall be deemed a waiver of the right of hearing. However, upon presentation of good and sufficient reasons for non-appearance, the Board President may direct that an appeal hearing be rescheduled at a reasonable time convenient to the parties.
- 6. If no appeal hearing is requested, the Board shall proceed with final action on the Superintendents recommendation in a regular or special session. The parent/guardian shall receive written notification of the Board's decision by certified mail.

#### Appeal Hearing Before the Board of School Commissioners

- 1. Upon written request of the parent/guardian, the Board of School Commissioners may conduct or designate a member of the Board to conduct the hearing to determine questions of fact, disputed or undisputed, as well as to receive evidence or statements in mitigation of the recommended action set forth in the charges.

- 5. The Hearing Officer shall ensure that the hearing has been tape-recorded and the hearing shall be maintained with the file of the proceedings.

#### Action of the Board of School Commissioners (Post Hearing)

- b. The request shall be made in writing and must be received in the office of the Superintendent no later than thirty (30) days prior to the start of a semester. The request should state the specific reasons why re-admission is sought and should describe the student's activities and conduct since the date of expulsion.
- c. The Superintendent will schedule a hearing before the Hearing Officer, Board Member or Board of School Commissioners, notify the student, and contact the original hearing agent and staff to schedule a preliminary meeting.
- d. A Hearing Officer, Board Member or the Board of School Commissioners will consider the student's request at the scheduled hearing. The student and parent/guardian may attend and address the Hearing Officer, Board Member or the Board.

- f. The Superintendent or designee shall notify the parent/guardian and student of the official Board of School Commissioner's action by certified mail in a timely manner.

## **SECTION IV**

### **ADDITIONAL DISCIPLINE PROCEDURES**

**STUDENTS EIGHT (8) YEARS OR YOUNGER MAY NOT RECEIVE A LONG-TERM SUSPENSION FOR A OR B OFFENSES AND SHOULD NOT BE SUSPENDED FOR ANY OFFENSE EXCEPT AS A LAST RESORT.**

A student will not be allowed to remain at school if that student is a threat to the safety of other students, teachers, or staff, or if the student is presenting a significant obstacle to the teacher's ability to teach and the other students' ability to learn. The time that the student is out of school before the approval will count towards the student completing the suspension.

#### **Make-Up Work/Homework:**

When a student is not allowed to attend school pending a conference, whenever possible that student will receive homework assignments and make-up work. When a student is suspended, the school will make its best efforts to provide make-up work during the suspension. The student will be allowed to make up work missed when he or she returns to school.

#### **Withdrawal Process:**

A student will not be able to withdraw from or enroll in any other school in the Mobile County Public School System while under suspension or expulsion. Exceptions are enrollment in home schools, private schools or other school systems. The withdrawal record will indicate the student is currently under suspension or expulsion.

#### **Appeal Forms:**

Appeal forms will be available at every school and will be reasonably clear and easy to understand. If a parent needs assistance filing an appeal, the school will make assistance available, subject to economic realities and feasibility.

#### **Superintendent's Review:**

The Superintendent or her/his representative will review any proposed suspensions over 10 school days, and her or his approval of any such long-term suspension will be required. If the Superintendent selects a representative, that representative will either be an Assistant Superintendent, or the Executive Director of Student Support Services.

## **SECTION V**

### **SCHOOL RESPONSE TO INAPPROPRIATE BEHAVIORS**

The mission of the Mobile County Public School System is to graduate citizens who are literate, responsible, and committed to learning over a lifetime. In order to achieve that goal, the school system sets high expectations for appropriate behavior and promotes academics that support the school system's mission.

School administrators are the first line of defense in advancing this mission and have the responsibility to ensure that the school is a safe and orderly environment. When students become disruptive or exhibit inappropriate behaviors that interfere with teaching and learning, administrators must respond promptly, consistently, and in a manner that is proportional to the seriousness of the disruption.

The following pages detail the school's response to inappropriate behaviors. The sections are divided from minor disciplinary infractions to major disciplinary infractions. They range in codes from "A" offenses (minor infractions) to "E" offenses (extremely serious infractions). Before each level of infractions, a description of the school level response is provided. For example, administrators will limit their response to an "A" level offense to level 1 and level 2 responses first or subsequent offenses within each level. For example, when a "B" offense is committed the first time, the administrator will impose the lowest level response. However, if a student continues to exhibit inappropriate behavior, administrators will impose more severe punishments in response to each occurrence or severity of offense.

When administrators, teachers, and other staff members respond to student misbehavior, they must consider a student's age, health, decision-making ability and disability or special education status. Administrators, teachers, and other staff members may also consider prior conduct, student willingness to correct the behavior, and the seriousness of the incident. Before imposing a disciplinary response, school officials will examine the impact of a student's inappropriate behavior on the entire school community. Finally, school officials will contact parents/guardians whenever code of conduct violations occur.

**SECTION VI**  
**STUDENT MISCONDUCT**

The principal or other administrative staff member will release the student into the custody of the law enforcement agent after the agent signs the release form. The principal or other administrative staff member will contact the involved student's parent/guardian immediately or as soon as practical and advise same of the circumstances.

## E. Sexual Harassment

Sexual harassment is an unlawful form of discrimination on the basis of sex under Title VII of the Civil Rights Act of 1964, as amended in 1972 and 1991, Title IX of the Education Amendment of 1972, and Code of Alabama. Some forms of sexual harassment may amount to criminal conduct and result in criminal penalties. By issuing a single comprehensive policy statement, the Board of Education seeks to clarify and reaffirm its commitment to ensuring that all Mobile County Public School System employees and students are provided with a work and learning environment that is free of sexual harassment.

The Board of School Commissioners of Mobile County does not condone or tolerate any form of sexual harassment of, or by, staff (including non-employee volunteers) or students and is committed to the creation and maintenance of a learning and work environment in which all individuals who participate in school programs and activities can function in an atmosphere free from all forms of sexual harassment.

It is the intention of Mobile County Public School System to take all necessary action to prevent, correct, and, if necessary, discipline behavior which violates this policy.

It is the responsibility of every supervisor and principal to recognize acts of sexual harassment and take necessary action to ensure that such instances are addressed swiftly, fairly and effectively.

Consequently, all Mobile County Public School System administrative and supervisory staff in schools, offices, and other facilities must be aware of and responsible for effectively implementing the sexual harassment policy. If the complaint involves only students, the investigation will follow the procedures laid out in the *Student Code of Conduct*.

Malicious or frivolous complaints of sexual harassment are prohibited and subject to disciplinary action.

Retaliation of any kind is strictly prohibited against any person who has filed a report of sexual harassment, testified as a witness, assisted, or participated in any manner in any investigation or proceeding under this policy.

Reporting of sexual harassment, or participation in a sexual harassment investigation, must not affect the individual's status or future grades, assignments, employment, etc.

Sexual harassment is defined as unwelcome sexual advances, requests for sexual favors, and other inappropriate verbal, written, or physical conduct of a sexual nature that takes place under any of the following circumstances:

- When submission to unwelcome sexual advances, performance of sexual favors or other inappropriate conduct of a sexual nature is made an explicit or implicit condition of employment, instruction, or participation in other school activities.
- When submission to or rejection of unwelcome sexual advances, performance of sexual favors, or other inappropriate conduct of a sexual nature is used as the basis for making personnel or academic decisions.
- When unwelcome sexual advances, performance of sexual favors, or other inappropriate conduct of a sexual nature unreasonably interferes with an individual's work and/or academic performance or creates an intimidating, hostile, or offensive work or learning environment.

**NOTATION:** Sexual harassment is determined only by looking at the record as a whole and evaluating each situation on a case-by-case basis.

#### F. **Pregnancy**

The school system will not discriminate against or exclude any student from its education program or activity, including any class or extracurricular activity, on the basis of the student's pregnancy, childbirth, false pregnancy, termination of pregnancy, or recovery from the termination of pregnancy, unless the student requests voluntarily to participate in a separate program or activity that is offered for students under those circumstances.

The school may require any student who is pregnant, has given birth to a child, or had a false pregnancy, terminated pregnancy or is recovering from terminating a pregnancy to obtain a physician's certification that she is physically and emotionally able to participate in the normal education program or activity only if the school requires all students returning from other physical or emotional conditions to provide a similar certification.

Any student who is pregnant, has given birth to a child, had a false pregnancy, terminated pregnancy or is recovering from terminating a pregnancy shall be treated in the same manner as any other student who is absent for medical reasons. The parent/guardian and student are responsible for completing the Medical Leave Contract and notifying the school within 48 hours once the student's absence begins.

## G. Parental/Guardian, Family or Marital Status

The School System will not treat students differently on the basis of gender, actual or potential parent/guardian, family, or marital status.

## H. Mandatory Immunization Law

The Alabama Department of Public Health requires the Mobile County Health Department to audit immunization records in all public schools in order to ensure a healthy and safe school environment.

The Guidelines for Implementation of the Mandatory Immunization Law, requires that all children receive the following immunizations before attending school:

- Pre-K – three (3) and four (4) year old children must show proof of at least one (1) Pneumococcal Conjugate Vaccine (PCV).
- 4 doses of Diphtheria/Tetanus/Pertussis (DTaP):  
One dose has to be given after the 4<sup>th</sup> birthday, if not the student must receive a 5<sup>th</sup> dose of the DTaP. Booster doses of tetanus and diphtheria toxoids vaccine (Td) must be given 5-10 years after the preschool booster. However, effective for students entering sixth grade beginning fall of 2010, a booster dose of tetanus and diphtheria toxoids and acellular Pertussis vaccine (Tdap) must be given at 11 or 12 years of age. This requirement will escalate by one successive grade each year for the following 6 years to include sixth through twelfth grades, beginning fall of 2016.
- 3 doses of either the Oral Polio Vaccine (OPV) or the Inactivated Poliomyelitis Vaccine (IPV):  
One dose has to be given after the 4<sup>th</sup> birthday; if not the student must receive a 4<sup>th</sup> dose of the OPV or IPV.
- 2 doses of Measles/Mumps/Rubella (MMR):  
Must have 2 doses before entering school, *NO* booster shot needs to be given for the vaccine.
- 1 dose of Varicella (Chicken Pox):  
Must have vaccine, a doctor/clinic documentation with date of disease or lab test immunity. It is required for children entering pre-school through 8<sup>th</sup> grades for the 2009-10 school year.

Parents/guardians must provide the school with the immunization record – a BLUE Form IMM-50 that contains all immunization data and lists exemptions.

### Important Information on Meningococcal Disease and Vaccine

Meningococcal disease is a serious illness, caused by bacteria. It is the leading cause of bacterial meningitis in children 2-18 years old in the United States.

MCV4, or the meningococcal vaccine, is recommended for all children 11-12 years of age and for unvaccinated adolescents at high school entry (15 years of age). High school seniors should also consider obtaining the vaccine prior to entering college, especially if they are planning on living in a dormitory. Please consult your physician or local health department for more information. For more information on this and other vaccine recommendations go to: [www.adph.org/immunization](http://www.adph.org/immunization).

## I. Medications at School

The goal of giving medication during school hours is to assist students in maintaining an optimal state of wellness thus enhancing their educational experience.

- Parent/guardian should treat minor illnesses at home. For example, a student with a cold severe enough to require frequent medication should remain at home.
- Medication prescribed three times a day should be given at home – just before leaving for school, upon returning home in the afternoon, and at bedtime.
- The only exception is medication that must be given before or with meals. The following requirements provide parents/guardians, and students with the guidance necessary to provide safe and proper assistance with medication in schools

- The parent/guardian and physician must sign the Alabama State Department of Education’s School medication Prescriber/Parent Authorization Form granting permission for a child to receive prescription medication at school.
- The parent/guardian must provide the school with medication in a correctly labeled prescription bottle (which includes student’s name, prescriber’s name, name of medication, strength, dosage, time interval, route, and date of drug’s discontinuation when applicable).
- The parent/guardian must provide the school with a new signed School Medication Prescriber/Parent Authorization Form at the beginning of each school year and/or before any prescription medication can be given at the school. This consent form authorizes school personnel to assist students with medication. If the medication order is changed during the school year (e.g., change of dosage), an additional prescriber authorization/order is necessary.
- The parent/guardian or the parent-designated responsible adult must deliver all medication to the school nurse or other school personnel designated by the nurse.
- The parent/guardian must give the student the first dose of a new medication or a change in dosage (increase or decrease) of a current medication at home, with the exception of emergency medications (e.g., EpiPen injection).
- The parent/guardian will pick up the student’s unused medication (when the medicine is completed, out-of-date, or at the end of the school year). The school nurse or designated school personnel will destroy medications not picked up by the parent/guardian.
- Non-prescription medications (over-the-counter medications) will be given at school only when the student has a chronic condition. The parent/guardian and physician must sign the School Medication Prescriber/Parent Authorization Form for all non-prescription medication.

J. Medical Leave

Students who will be absent, due to planned or emergency medical leave (i.e., surgery, pregnancy, accident) are required to complete a Medical Leave Contract. The parent/guardian and student are responsible for completing the Medical Leave Contract and notifying the school within 48 hours once the student’s absence begins. The parent/guardian and student should make arrangements with the school’s administrator and teachers regarding make-up work. It is the responsibility of the parent/guardian and student to pick up and return work to and from the school.

Dear Parents and Physicians/Health Care Providers,

To better serve our students and promote each child attending and participating in school we have been working to address chronic illnesses and absences. We would like for all children to come to school each day ready to learn. However, some children often need to be late or absent due to medical conditions beyond their control.

To better assist in helping children remain in school, unless absolutely necessary, a **Physician Statement of Chronic Illness form will need to be completed each semester.** Your child's healthcare provider must complete the medical information to include: diagnosis, the anticipated number of absences due to chronic illness and the requirement of returning back to the Physician's office. When reporting an absence, indicate the absence is due to the chronic condition listed on the Physicians Statement of Chronic Illness. Your student should submit this in the form of a parent note **no later than 3 days** after returning to school for the absence to be excused. Please be advised that while this form may excuse an absence, the student is **NOT** exempt from completing school assignments and responsibilities. The school nurse may request updated information at any point during the school year.

We are striving to improve each child's school experience and provide quality health services when needed to remove barriers to learning. If we can be of further service, please do not hesitate to call 251-221-4292.

## CHRONIC AILMENT PARENT FORM

Student Name (print) \_\_\_\_\_ Date of Birth \_\_\_\_\_ Grade \_\_\_\_\_

Below are the guidelines for completing the form correctly to establish and maintain this authorization.

1. Mobile County Public School System does not accept a Chronic Ailment Form (CAF) that does not have the expected frequency of episodes, length of absence, diagnosis, or appropriate symptoms listed. Physicians must sign and date the CAF and return it to the parent/guardian for completion.
2. The school nurse may contact the physician's office to verify the CAF authenticity should a question arise. The school nurse will refuse to accept any CAF that is found to be fraudulent.
3. Please monitor the expected frequency and length of the episode for reasonable compliance with the physician's guidelines outlined on the form in order for absences to be excused. If there is a concern about the student not making academic progress due to these absences or that the privilege is being misused, the school will contact the student and parent/guardian to discuss these concerns.
4. Remember, the form expires at the end of each semester. Obtain a new form twice per year (beginning of 1<sup>st</sup> semester and beginning of 2<sup>nd</sup> semester).

For questions, please contact one of the Lead Nurses listed below at 221-4292.

Sharon Bailey MSN, RN    or    Pamela Smith MSN, RN

Mobile County Public School System will authorize absences resulting from a chronic medical condition or extended illness once this form is on file with your child's school. Your child's healthcare provider must complete the medical information on the attached Physician Chronic Ailment Statement form before returning the form to the school nurse. When reporting an absence, indicate the absence is due to the chronic condition listed on the Physician's Chronic Ailment Statement. Your student should submit this in the form of a parent note no later than 3 days after returning to school for the absence to be excused. Please be advised that while this form may excuse an absence, the student is NOT exempt from completing school assignments and responsibilities. Your signature on this letter also authorizes a release of information between the school nurse and healthcare provider regarding the child's chronic health issue and its impact on school attendance. The school nurse may request updated information at any point during the school year.

## SECTION XII

### SPECIAL EDUCATION

This section is based upon the Individuals with Disabilities Education Improvement Act, 2004, Section 615.

A. Detention after School Hours of Special Education Students

See Section III. Specific Procedures for Formal Disciplinary Action, 1. Detention After School Hours.

B. Assignment to In-school Suspension Program

The same procedures as those for long-term and short-term suspension apply when placing students with a disability in an In-school Suspension Program. If a disabled student is to be placed in the program short-term (as defined in short-term suspensions), the short-term suspension procedure must be followed. If a student with a disability will be placed in the program long-term, the long-term suspension procedure must be followed. The student's IEP must be implemented while in the program.

The days spent by a student in an in-school suspension program are not considered suspension days if the student is provided the opportunity to continue to meet the goals specified in the student's Individualized Education Program and to participate with students with a disability to the extent he/she would in his/her current placement.

C. Suspension of Special Education Students from Transportation Services

A student with disabilities cannot be suspended from transportation services unless:

1. The student poses an immediate threat to the safety of himself/herself or others; or
2. Some alternative means of continuing educational service can be established for the student.
3. A student may be removed from the bus for short-term suspensions. However, if the student does not come to school, these days count in his "10 days" of suspensions for the year.

D. Suspension of Special Education Students (Out-of-School)

The following procedures shall apply to the disciplining of students enrolled in the special education program. These procedures shall also apply to students referred for evaluation for a special education program, pending the determination from the eligibility committee.

All students enrolled in Mobile County Public Schools are subject to the rules and restrictions outlined in the *Student Code of Conduct*, provided, however, that the following shall apply in the disciplining of those students who are disabled as defined in the Individuals with Disabilities Education Improvement Act of 2004.

Short-Term Suspension

A special education student who commits an act of misconduct that warrants suspension may be placed on a short-term suspension following the same procedures that apply to all students, as outlined in Section III A of the *Student Code of Conduct*. Please involve the case manager before the suspension takes place.

EXCEPTION: If the school administrator who is suspending the student has knowledge that the student's behavior has a direct and significant relationship to the student's disability, the student cannot be suspended unless the student poses an immediate threat to the safety of himself/herself or others, in which case the student may be temporarily excluded from school for up to ten (10) days.

A short-term suspension is defined as a suspension for up to, but no more than ten (10) consecutive school days for any one disciplinary action. A student may not be repeatedly placed on short-term suspension in an effort to avoid placing the student on long-term suspension. If a short-term suspension will result in more than ten (10) suspension days in a school year for a student, the school administration must follow the procedure below:

1. The IEP Team must convene to determine if the placement is appropriate, to conduct a functional behavior assessment, and to develop a behavior intervention plan to address the inappropriate behavior. If the student has a behavior intervention plan, the IEP Team shall review the plan and modify it as necessary.
2. The principal/designee, must consult with the special education teacher of the student to determine the extent to which services are necessary to enable the child to appropriately progress in the general curriculum and appropriately advance toward achieving the goals set out in the student's IEP during the time of suspension.
3. Within five (5) school days, the principal/designee must notify the special education resource teacher assigned to the school in writing. The notification should include the student's name, the number of days suspended, and the plan for continuing services.

NOTE: A series of short-term suspensions that create a pattern of excluding the student from school constitutes a significant change in placement, and the procedure for long-term suspension must be followed. Partial school days must be included in determining whether a student has been removed for more than ten (10) cumulative school days or is subject to a change of placement. Please involve the case manager before the suspension takes place.

#### Long -Term Suspension

Any of the following constitutes a long-term suspension:

1. A suspension for more than ten (10) consecutive school days; or
2. A series of short-term suspensions that create a pattern of excluding the student from school.

Before a student is placed on long-term suspension, the school administration must follow the procedure below:

1. The school administration shall notify the student's parent/guardian of the student's misconduct and the proposed suspension. An IEP Team meeting may be held as soon as is reasonably possible, but in no case later than ten (10) school days. **Please involve the case manager before the suspension takes place.**
2. The IEP Team shall determine whether further information is needed and shall determine whether the student's misconduct had a direct and significant relationship to his/her disability (Manifestation Determination). **Once the student has been suspended for ten (10) days, a Manifestation Meeting must be held before the decision for another suspension is made.**
3. If it is determined by the IEP Team that the student's misconduct did not have a direct and significant relationship to the student's disability, the principal may then suspend the student in accordance with Section III B of the *Student Code of Conduct*, in the same manner and to the same extent as a similarly situated student without a disability; however, education services must not completely cease during the time of suspension.

**If the decision is made that the student will receive a long term suspension of more than ten (10) days, the school administrator must reconvene an IEP Team meeting to determine appropriate educational placement. A special education resource teacher must be notified. The IEP Team must develop a functional behavior assessment and a behavior intervention plan to address the inappropriate behavior. If the student already has a behavior intervention plan, the IEP Team shall review the plan and modify it as necessary.**

4. If it is the determination of the IEP Team that the student's misconduct did have a direct and significant relationship to the student's disability, the IEP Team must determine whether the student's current educational placement is appropriate. **A student with a disability may not be placed on long-term suspension for any misconduct that had a direct and significant relationship to the student's disability.** The IEP Team must develop a functional behavior assessment and a behavior intervention plan to address the inappropriate behavior. If the student already has a behavior intervention plan, the IEP Team shall review the plan and modify it as necessary.

5. If the IEP Team recommends a change in placement, the student and his/her parent/guardian are entitled to be given notice of the proposed change, an opportunity to examine relevant records, an impartial hearing with an opportunity to participate or be represented by counsel, and a review of the IEP Team's decision about the proposed change in placement.

**If the parent/guardian requests a due process hearing relative to the IEP Team's determination of the change in placement, the student must remain in his/her current educational placement, until the change of placement is confirmed.**

EXCEPTION: If the student poses an immediate threat to the safety of himself/herself or others, the principal may request that the school system seek an expedited hearing from a hearing officer to obtain an order to have the student temporarily removed from the present educational placement until the issue is resolved.

Educational services may not completely cease during the time the student is removed from school, unless authorized or ordered by the court.

NOTE: None of the above described procedures shall prevent a school from using normal, reasonable procedures short of a change in placement, for dealing with students who are endangering themselves or others. When a student presents an immediate threat to the safety of himself/herself or others, school officials may temporarily adjust the placement or exclude the student from school for up to ten (10) school days, in accordance with rules that are applied to all students.

#### E. Expulsion Procedure for Special Education Students

When a student with a disability is accused of a violation for which the *Student Code of Conduct* recommends expulsion, the principal may recommend expulsion from school if the behavior is determined by the IEP Team NOT to be a manifestation of the student's disability.

If the IEP Team determines that the misconduct is a manifestation of the disability, the student may not be expelled.

The procedures below shall be followed if a student is to be considered for expulsion.

##### 1. **Notice**

The student and/or parent/guardian must be told by the principal of the reason(s) for consideration of suspension or expulsion.

##### 2. **Hearing**

The student must be given the opportunity to present his/her account of the incident, verbally and/or in writing, and must have the opportunity to present witnesses to the incident.

##### 3. **Principal's Recommendation**

If the principal determines that there are sufficient grounds for expulsion, then the principal shall inform the student that he/she is being suspended from school beginning the next school day.

##### 4. **Formal Notice to Attend Conference**

The principal/designee shall report in writing to the student's parent/guardian that the student has been suspended and will be considered for expulsion. This report shall include (1) notice of an IEP Team meeting, and (2) procedures for expulsion of a student with a disability and be mailed or delivery initiated within seventy-two (72) hours of the start of the suspension or on the next regular workday. Reasonable effort shall be made to contact the parent/guardian prior to the start of the suspension.

##### 5. **IEP Team Meeting**

The IEP Team must be comprised of the principal or his/her designee, a special education teacher, a regular education teacher of the student, the parent/guardian and, if appropriate, the student. A special education resource teacher must also attend. The IEP Team will determine whether the conduct is a manifestation of the disability (Manifestation Determination).

**6. Opportunity for Informal Hearing**

After the Manifestation Determination is completed, the parent/guardian shall be given an opportunity for an informal hearing with the principal on the grounds for expulsion. This opportunity shall be provided within seventy-two (72) hours of the request (excluding Saturday, Sunday, and school holidays).

**7. Principal's Decision**

At the conclusion of the hearing, the principal, after reviewing the case with the parent/guardian, will either advise the parent/guardian of his/her decision to recommend expulsion, or based upon consideration of the facts and circumstances explained at the hearing and the findings of the IEP Team, will advise the parent/guardian of the school's intention to re-admit the student and take some alternative action.

**8. IEP Team Must Reconvene**

After the principal's decision has been made, the IEP Team must reconvene immediately. The student may be referred to Psychological Services for re-evaluation if the student has not been evaluated within the past year or if additional testing is necessary to determine the most appropriate educational placement.

a. If the student's misconduct was determined to be a manifestation of his/her disability and the student may not be expelled, the IEP Team must find educational alternatives for resolving the problem other than an expulsion.

1) The IEP Team must develop a functional behavior assessment and a behavior intervention plan to address the inappropriate behavior.

If the student already has a behavior intervention plan, the IEP Team must review the plan and modify it as necessary.

2) The IEP Team will examine and recommend alternatives for continuing educational programs and services. These alternatives may include, but are not limited to:

- Continuation in present program with some modifications;
- A reduced day program;
- Placement in a more restrictive environment;
- A homebound program or other alternative educational setting;
- Other options or some combination of the above.

3) The IEP Team shall inform the parent/guardian of due process rights for students with disabilities.

b. If the IEP Team has determined that the misconduct is not a manifestation of the student's disability, then the student may be expelled from the regular school environment; however, expulsion shall not result in cessation of special education, related services, and/or access to general curriculum.

The IEP Team must develop a functional behavior assessment and a behavior intervention plan to address the inappropriate behavior. If the student already has a behavior intervention plan, the IEP Team must review the plan and modify it as necessary. Options for providing appropriate educational services may include, but are not limited to the following:

- Placement in a more restrictive environment;
- A homebound program or other alternative educational setting;
- Other options, or some combination of the above.

**9. Principal's Recommendation**

The principal shall notify the Superintendent and the Executive Director for Special Services in writing of the suspension, the IEP Team's determination, and the recommendation for expulsion. This notice shall be made within twenty-four (24) hours of the IEP Team's determination. The principal shall include a detailed report on the alternative measures, if applicable, taken prior to the recommendation for expulsion.

This report shall include, but not be limited to, information on the following:

- a. Attendance, conduct, and suspension.
- b. A listing of efforts by the school's support services personnel such as counselors, school psychologists, resource teachers and others.
- c. Interventions developed by the IEP Team.
- d. IEP/Curriculum adjustments.
- e. The extent and results of parent/guardian involvement in the student's adjustment problems.
- f. Other measures taken by the school to bring about a change in the behavior of the student, (e.g., implementing a Behavior Intervention Plan).

- g. Current Individualized Educational Plan, most recent psychological evaluation, and IEP Team report.

The remainder of the expulsion procedure for students with disabilities shall be in accordance with expulsion procedures (Section III 4).

NOTE: If a student with a disability carries a weapon to school or to a school function or if the student with a disability knowingly possesses or uses illegal drugs or sells or solicits the sale of a controlled substance or if the student causes serious bodily injury to another individual while at school or a school function, school personnel may unilaterally order a change in placement of the student with a disability to an appropriate alternative educational setting for not more than forty-five (45) school days. A decision from a hearing officer is necessary to extend the time for more than forty-five (45) school days.

The IEP Team including the parent/guardian may remove the student to an alternative setting for more than forty-five (45) school days with the parent/guardian's consent. If the parent/guardian does not consent to the placement, the maximum time in the alternative setting can only be forty-five (45) school days. If the IEP Team decides to place a student in alternative school setting, the system procedures for placing a student in an alternative school must be followed.

## F. Seclusion and Restraint

In order to protect the safety of students and staff, the Mobile County Public School System will adhere to the Alabama State Board of Education's adopted Rule 290-3-1-.02 SECLUSION AND RESTRAINT FOR ALL STUDENTS. This rule prohibits the use of seclusion and limits the use of restraint to those situations in which students are a danger to themselves or others.

### 1. Definitions

The definitions established here are provided explicitly for reference and are exactly the same as the definitions in the rule (Rule 290-3-1-.02).

- a. Chemical Restraint: Refers to any medication that is used to control violent physical behavior or restrict the student's freedom of movement that is not a prescribed treatment for the student's medical or psychiatric condition.
- b. Mechanical Restraint: Refers to the use of any device or material attached to or adjacent to a student's body that is intended to restrict the normal freedom of movement and which cannot be easily removed by the student. The term does not include an adaptive or protective device recommended by a physician or therapist when used as recommended by the physical functioning, and/or to prevent self-injurious behavior. The term also does not include seatbelts and other safety equipment when used to secure students during transportation.
- c. Physical Restraint: Refers to direct physical contact from an adult that prevents or significantly restricts a student's movement. The term physical restraint does not include prone restraint, mechanical restraint, or chemical restraint. Physical restraint does not include: providing limited physical contact and/or redirection to promote student safety or prevent self-injurious behavior, providing physical guidance or prompting when teaching a skill, redirecting attention, providing guidance to a location, providing comfort, or providing limited physical contact as reasonably needed to prevent imminent destruction to school or another person's property.
- d. Prone Restraint: Refers to a specific type of restraint in which a student is intentionally place face down on the floor or another surface, and physical pressure is applied to the student's body that restricts the flow of air into the student's lungs. Use of this type of restraint is prohibited in Alabama schools.
- e. Seclusion: Refers to a procedure that isolates and confines the student in a separate, locked area until he or she is no longer an immediate danger to himself/herself or others. The seclusion occurs in a specifically constructed or designated room or space that is physically isolated from common areas and from which the student is physically prevented from leaving. Seclusion does not include situations in which a staff member trained in the use of de-escalation techniques or restraint is physically present in the same unlocked room as the student, time-out as defined in paragraph (1)(f) of this rule, in-school suspension, detention, or a student-requested break in a different location in the room or in a separate room.

- f. Time Out: Refers to a behavior intervention in which the student is temporarily removed from the learning activity. Time-out is used appropriately when;
- The non-locking setting used for time-out is appropriately lighted, ventilated, and heated or cooled.
  - The duration of the time-out is reasonable in light of the purpose of the time-out and the age of the child.
  - The student is reasonably monitored while in time-out.
  - The time-out space is free of objects that unreasonably expose the student or others to harm.

2. Prohibition on the Use of Seclusion

**State Board Rule 290-3-1-0# SECLUSION AND RESTRAINT FOR ALL STUDENTS prohibits use of seclusion in all public Alabama schools and educational programs.**

3. Limitations on the Use of Restraint

- a. The use of chemical restraints is prohibited in Mobile County Public Schools and educational programs. School or educational program staff cannot administer any medication that is used to control behavior or restrict the student's freedom of movement when it is not a prescribed treatment for the student's medical or psychiatric condition. Staff must provide medication exactly as prescribed including the appropriate dosage and frequency as prescribed.
- b. The use of mechanical restraints is prohibited in Mobile County Public Schools and educational programs. Mechanical restraints include devices or materials attached to or adjacent to student's body to restrict the normal freedom of movement and cannot be easily removed by the student. Adaptive or protective devices recommended by a physician or therapist are not considered to be mechanical restraints and are allowed when used to promote normative body positioning and physical functioning.
- c. Seatbelts and other safety equipment such as safety harnesses are not considered to be mechanical restraints and are permitted when used as recommended to secure students during transportation.
- d. Prone physical restraints are prohibited in Mobile County Public Schools and educational programs.**

4. Student and Staff Safety

- a. When using physical restraint to protect students who are a danger to themselves or others, the following procedures are recommended:
  - Less restrictive interventions should first be used to de-escalate the behavior and the student should only be restrained when these less intensive interventions prove unsuccessful.
  - Restraints should be conducted by staff who are trained in the restraint procedures that have been adopted by the school or program. Staff must know and utilize the prescribed procedures for requesting assistance.
  - Staff should carefully observe the student throughout the restraint to observe the student's physical status and to determine when the child is no longer a danger to himself/herself or others. Restraint should be immediately terminated if the child is observed to be in severe distress. The student's breathing should be carefully monitored, and the restraint should be immediately terminated if the student is exhibiting any respiratory distress.
  - When possible, all potentially dangerous materials such as pencils, pens, or other sharp objects should be removed to ensure the student's safety.
  - The restraint should be removed as soon as the student is no longer a danger to himself/herself or others. Students should be restrained for very short periods of time. Additional staff support should be provided and the documentation log should record restraints that last for longer periods of time.
  - As soon as appropriate after the restraint is removed, the staff should discuss the incident leading up to the restraint with the student and discuss alternative behaviors that could have been utilized. When the student is no longer a danger to himself/herself or others, he/she should be returned to the instructional activity, if appropriate, or to a less restrictive environment.
  - The restraint should be documented in an incident report that is turned in to the school or program administrator.

5. Parents should be informed that restraint was used within a reasonable time not to exceed one school day from the use of restraint. Written Policies and Procedures

**Parents must be provided information regarding the school or program's policies governing the use of physical restraint. This information should be provided to parents at the beginning of each school year or upon the student's enrollment in school if the student enrolls after school has started.**

  - a. The written policies must include the following provisions:
    - Staff and faculty training on the use of physical restraint and the school or programs policy and procedures. It is suggested that multiple teams be trained in order to respond quickly to a crisis situation. This is especially important in schools that have multiple buildings.
    - Written parental notification when physical restraint is used to restrain their student within a reasonable time not to exceed one school day from the use of restraint. The parents will be notified, as soon as possible after the incident, by phone or a conference and receive a paper copy of the Seclusion and Restraint Log within 1 day of the incident. Parents will be asked to sign that they received the Seclusion and Restraint Log.
    - Documentation of the use of physical restraint by staff or faculty participating in or supervising the restraint for each student in each instance in which the student is restrained will be reported, electronically, on the Seclusion and Restraint Log and also in Review 360.
    - Procedures for the periodic review of the use of restraint and the documentation will be provided by the Special Education Resource Teachers, who will review the Seclusion and Restraint Logs quarterly. A report will be generated, by school, and provided to the Executive Director of Special Education.
    - Procedures for reporting the use of restraint and the documentation will be that the staff participating in and the one(s) observing the restraint
    - Procedures for reporting the use of restraint and the documentation described in paragraph (2)(vii)(III) and any prohibited use of seclusion and chemical, mechanical, or physical restraint to the local board of education annually. The Executive Director will provide an annual report to the Board of Education.
6. Staff Training
  - a. Schools and educational programs that use physical restraint must ensure that staff and faculty are trained in the use of physical restraint. This training shall be provided as part of a program which addresses crisis intervention, de-escalation techniques, and positive behavior intervention strategies.
  - b. Schools and educational programs must maintain written or electronic documentation on training provided and the list of participants in each training. Records of these trainings must be made available to the Alabama Department of Education.
7. Documentation of the Use of Restraint
  - a. This documentation should be provided using an incident report that is completed for each student in each instance in which the student is restrained. Completed incident reports should be reviewed by school or program administrators and other staff on weekly basis or as appropriate.
  - b. Information from the individual incident reports as well as the summary reports should be used to regularly assess the effectiveness of the use of physical restraint techniques. When the student repeatedly must be restrained the staff should determine if the interventions are effectively meeting the student's needs.
8. Parental Notification
  - a. Upon entry into a school or educational program that uses restraint, a student's parents should be notified in writing that restraint may be used in situations in which the student is in immediate danger to himself/herself or others. The notice should inform parent that they will be notified in writing each time their child has been restrained.
  - b. Parents and school staff may mutually agree that notification may be provided via e-mail or handwritten communication.

- c. Staff should promptly notify parents when their child is injured in a restrained situation and/or is removed from the school setting by law enforcement or medical personnel.

9. Role of Law Enforcement and Emergency Medical Personnel

- a. It may be necessary to seek assistance from law enforcement and/or emergency medical personnel in situations in which the student is a danger to himself or others.
- b. Nothing in the restraint and seclusion rule or in this guidance document should be construed to interfere with the duties of law enforcement or emergency medical personnel.

Parents must be informed as soon as possible when students are removed from the school or educational program setting by emergency medical or law enforcement personnel.

## SECTION XIII

### GIFTED STUDENTS

#### Definition of Gifted Students

Gifted students are those who perform or whom have demonstrated the potential to perform at high levels in academic or creative fields when compared to others of their age, experience or environment. These students require services not ordinarily provided by the general education program. Students possessing these abilities may be found in all populations, across all economic strata, and in all areas of human endeavor. Gifted students may demonstrate the following characteristics:

- Takes initiative.
- Shows leadership.
- Is curious.
- Takes creative risks.
- Uses ideas and learning in new situations.
- Shows persistence.
- Becomes passionately interested in a topic or idea.
- Chooses difficult tasks.
- Has a keen sense of humor.
- Expresses thoughts with ease, often at great length.
- Have many different and unusual ideas.
- Is resourceful in solving problems.

#### Identification of Gifted Students

Students must be enrolled in a public school and at least six (6) years of age in order to be referred, evaluated and served. A student may be referred for gifted services by teachers, counselors, administrators, parents, or guardians, peers, self or any other individuals with knowledge of the student's abilities. Additionally, all second-grade students will be observed as potential gifted referrals using a gifted checklist.

For each referral, information is gathered in the following three areas:

- **Aptitude** – individual or group test of intelligence or creativity.
- **Characteristics** – behavior rating scale designed to assess gifted behaviors completed by a classroom teacher.
- **Performance** – three indicators of performance at the gifted level (i.e., achievement test scores, grades, products, work samples, portfolios, leadership, motivation.)

This information is then entered on a screening/eligibility matrix where points are assigned according to established criteria. The total number of points earned determines if the student is eligible for gifted services.

#### Gifted Services

Alabama State Act 106 mandates that school systems identify and serve gifted students. Guidelines are set forth in the “*gifted*” section of the Alabama Department of Education’s Administrative Code for eligibility, evaluation, identification, and services for gifted students.

The Mobile County Public School System’s program that provides services for gifted students is called the Pursuing Academics, Creativity and Excellence Program (PACE). The PACE Program was authorized in 1982; however gifted classes have been available since 1970.

The PACE curriculum is based on a framework of the processes needed by gifted students, which include creative thinking, critical thinking, discipline methodologies, and research skills. These processes are applied in all content areas. Specific program content is determined through a Gifted Education Plan (GEP). Service delivery is provided as follows.

**Kindergarten – 2<sup>nd</sup> Grade:** Consultative Services in the general education setting.

**3<sup>rd</sup> – 5<sup>th</sup> Grade:** Resource Room Pull-out Services (3 hours).

*(Both options provided by Gifted Specialist.)*

**Middle School:** Advanced Core, Pre-AP, Courses, Guidance and Counseling

*(General Education Teachers teach all classes.)*

**High School:** Advanced Classes, AP Courses, Dural Enrollment Courses, Distance Learning Courses, IB Courses (at selected school), Guidance and Counseling

*(General Education Teachers teach all classes.)*

## SECTION XIV

### SECTION 504 ELIGIBLE STUDENTS

Section 504 of the Rehabilitation Act states in part: “No otherwise qualified individual with a disability in the United States . . . shall, solely by reason of his or her disability, be excluded from the participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving federal financial assistance . . .”

The Coordinator of Section 504 is responsible for the district’s efforts to comply with Section 504 of the Rehabilitation Act of 1973. The Section 504 Office is located at Denton Magnet School, 3800 Pleasant Valley Rd., Mobile, AL 36609. The telephone numbers are (251) 221-5188.

#### Notice of Parent/Guardian/Student Educational Rights under Section 504 of the Rehabilitation Act of 1973

Under Section 504 of the Rehabilitation Act of 1973 and its regulations, students with disabilities are entitled to be free from discrimination solely on the basis of their disabilities. In addition, they have the right to receive a free and appropriate public education that meets their educational needs as adequately as the needs of non-disabled students are met. Student with disabilities under Section 504 include those determined to have a disability by a 504 team, those for whom the development of an Individual Health Care Plan has been determined necessary and those who have been determined to be in need of Hospital/Homebound services. For students who have been found to have a disability under the IDEA, there are additional procedural safeguards and parent rights notices that are required to be provided.

If it is determined that your child has a physical or mental impairment that substantially limits major life activity, your child is considered disabled under Section 504 of the Rehabilitation Act of 1973. When making this determination, the ameliorative effects of mitigating measures (such as medication, assistive technology, etc.) will not be considered and the fact that an impairment is episodic or in remission will not preclude the existence of a disability if the impairment would substantially limit a major life activity when active. However, the ameliorative effects of mitigating measures or remission of a condition may be considered in determining whether your child needs are met as adequately as those of nondisabled children. In addition, if your child does not have a disability but has a record of a disability or is considered disabled by school personnel, your child is protected from discrimination under Section 504 but may not be considered currently disabled or in need of accommodations. If your child is disabled or you believe that your child is disabled or has been discriminated against, you are entitled to certain rights. This notice is designed to provide you with information about those rights.

Under Section 504, the parent/guardian has the right to:

1. Have your child participate in all school activities without discrimination solely on the basis of disability;
2. Have your child educated in facilities and receive services that are comparable to those provided to non-disabled students;
3. Have your child receive a free appropriate public education (FAPE) that consists of regular or special education and related services designed to meet the educational needs of your child. If it is determined that your child is eligible for special education, those services will be provided under the Individuals with Disabilities Education Act (IDEA) through an Individualized Education Plan (IEP);
4. With respect to the provision of educational services, the parent/guardian:
  - a. Notice with respect to actions regarding the identification/eligibility, evaluation or educational placement to your child;
  - b. Access to all records relevant to decisions concerning identification/eligibility, evaluation or educational placement of your child;
  - c. The right to challenge any action regarding the identification/eligibility, evaluation or educational placement of your child by requesting mediation or an impartial hearing or, in the alternative, filing a grievance with the school system’s Section 504 Coordinator listed below;
  - d. The right to attend any hearing requested;
  - e. The right to be represented by counsel if a hearing is requested; and
  - f. The right to have any decision made at a hearing reviewed.

The procedures and forms for the initiation of an impartial hearing regarding the identification, evaluation or educational placement of your child are generally the same as those for students without disabilities under the Individuals with Disabilities Education Act (IDEA) and may be obtained from the School District's Section 504 Coordinator listed above.

5. With respect to complaints of discrimination that do not relate to the identification/eligibility, evaluation or educational placement of your child, you have the right to file a local grievance with the school systems in accordance with its grievance procedures. Procedures and forms for the initiation of an informal grievance may be obtained from the School District's Executive Director of Special Services, listed below.
6. With respect to complaints of discrimination based upon a record of a disability or the fact that school personnel are treating your child as disabled, you have the right to file a local grievance with the school system in accordance with its grievance procedures. Procedures and forms for the initiation of an informal grievance may be obtained from the School District's Executive Director of Special Services, Ms. Sharon Magee at 221-4236.

## **504 Grievance Procedure**

### Purpose

This procedure shall be used to resolve promptly and equitably, at the lowest possible administrative level, student complaints, differences, and issues relating to discrimination as based on Section 504 of the Rehabilitation Act of 1973 and the Americans with Disabilities Act. These proceedings shall be kept as informal and confidential as may be appropriate at all levels of the procedure.

### Definitions

1. A grievance is a complaint by any student, parent/guardian.
2. A grievance procedure is a description of the systematic process by which a person may seek to correct what the person considers to be an injustice or inconsistency.

### Level One

The grievant must first discuss his/her grievance with the school principal with the objective of resolving the matter informally.

The grievant and his/her principal shall confer with a view toward arriving at a mutually satisfactory resolution of the grievance. At the conference, the grievant may appear alone or be accompanied by a mutually acceptable person. Principals may be afforded the same privilege.

### Level Two / Step One

If a resolution is not reached, after a discussion between the grievant and principal, then within five school days he/she shall set forth his/her grievance in writing to the principal by completing a 504 Grievance Form, which shall include the following:

1. The nature of the grievance;
2. The nature or extent of the injury, loss, or inconvenience;
3. The results of the previous discussion and reason for dissatisfaction;
4. The remedy expected.

The principal will communicate his/her decision to the grievant in writing within five school days of receipt of the written grievance. If a grievance is pursued beyond this level, written records shall be forwarded to the next level of procedure.

### Step Two

If the grievant is not satisfied with the disposition of his/her grievance at Level Two, Step One, within five school days, he/she shall submit the Grievance Form to the 504 Coordinator. The 504 Coordinator will review the written record, counsel with the grievant, interview witnesses if needed, and render a decision in writing within ten school days after receipt of the parent/guardian's request.

### Level Three / Step One

In the event the grievant is not satisfied with the disposition of his/her grievance at Level Two, Step Two, he/she may request a final review by forwarding a written request to the Executive Director for Special Programs. This must be made within five school days after the decision from Level Two, Step Two.

Within twenty days of the receipt of this request the Executive Director will do the following:

1. Review the file
2. Conduct any additional investigation, if needed
3. Convene a meeting with the grievant and other relevant parties
4. Notify the grievant of the decision in writing

#### Step Two

The Executive Director's decision is final and binding on all parties. If dissatisfied with the decision, the grievant may file an action in a court of proper jurisdiction.

#### 504 Impartial Hearing Procedure

In addition to making its formal grievance procedure available to those who believe that they have been discriminated against on the basis of disability, the Mobile County School System makes available the opportunity for an impartial due process hearing with respect to issues related to the identification/eligibility, evaluation or educational program/placement of a student with a disability.

The following procedures are applicable to such hearings:

1. The parent/guardian/student will request an impartial hearing in writing and set forth the alleged violation, relevant issues and proposed resolution of the issues.
2. If it is determined that the requested hearing addresses issues of identification/eligibility, evaluation or educational programming for a student with a disability, the school system will appoint an impartial hearing officer to preside over the hearing.
3. The hearing officer will contact the parties and/or counsel for the parties to schedule a pre-hearing conference (via telephone) in order to address the following:
  - a. Scheduling a date for the hearing that is mutually convenient to the parties and the hearing officer and is within a reasonably expeditious period of time;
  - b. Advise the parties as to specific hearing procedures that will be adopted, such as the order of presentation, document and witness list exchanges, etc.;
  - c. Preside over the hearing. At the hearing, the parties will have the following rights:
    - i. The right to participate in the hearing;
    - ii. The right to representation by counsel at the hearing; and
    - iii. The right to confront and cross-examine witnesses.
  - d. Render a decision as soon as practicable after the close of the hearing; and
  - e. Provide a written decision to the parties.
4. Should either party wish to seek review of the decision of the hearing officer, review should be sought in federal district court.

This section is based upon the Rehabilitation Act of 1973, Section 504.

A. Detention after School Hours of Section 504 Eligible Students

See Section III Specific Procedures for Formal Disciplinary Action, 1. Detention after School Hours.

B. Assignment to In-School Suspension Program

See Section III Specific Procedures for Formal Disciplinary Action, 2. In-School Suspension.

C. Suspension of Section 504 Eligible Students (Out-of-School)

The following procedures shall apply to the disciplining of students enrolled in the Section 504 Program. These procedures shall also apply to students referred for evaluation for Section 504 placement, pending the determination of the eligibility committee.

All students enrolled in the Mobile County Public Schools are subject to the rules and restrictions outlined in the *Student Code of Conduct*, provided, however, that the following shall apply in the disciplining of those students who are disabled as defined under Section 504 of the Rehabilitation Act of 1973.

Short-Term Suspension

A Section 504 eligible student who commits an act of misconduct that warrants suspension may be placed on a short-term suspension following the same procedures that apply to all students, as outlined in Section III A of the Mobile County Public School System's *Student Code of Conduct*.

EXCEPTION: If the school administrator who is suspending the student has knowledge that the student's behavior has a direct and significant relationship to the student's disability, the student cannot be suspended unless the student poses an immediate threat to the safety of himself/herself or others, in which case the student may be temporarily excluded from school for up to ten (10) days.

A short-term suspension is defined as a suspension for up to, but no more than ten (10) consecutive school days for any one disciplinary action. A student may not be repeatedly placed on short-term suspension in an effort to avoid placing the student on long-term suspension. If a short-term suspension will result in more than ten (10) suspension days in a school year for a student, the school administration must follow the procedure for long-term suspension.

Long-Term Suspension

Any of the following constitute a long-term suspension:

A suspension for more than ten (10) consecutive school days; or

A series of short-term suspensions that create a pattern of excluding the student from school.

Before a student is placed on long-term suspension, the school administration must follow the procedure below:

1. The school administration shall notify the student's parent/guardian of the student's misconduct and suspension and shall schedule a Section 504 Team meeting as soon as is reasonably possible, but in no case later than ten (10) school days.
2. The Section 504 Team shall determine whether further information is needed and shall determine whether the student's misconduct had a direct and significant relationship to his/her disability (Manifestation Determination). Once the student has been suspended for ten (10) days, a Manifestation Determination meeting must be held before the decision for another suspension is made.
3. If it is determined by the Section 504 Team that the student's misconduct did not have a direct and significant relationship to the student's disability, the principal may then suspend the student in accordance with Section III B of the *Student Code of Conduct*, in the same manner and to the same extent as a similarly situated student without a disability.

4. If it is the determination of the Section 504 Team that the student's misconduct did have a direct and significant relationship to the student's disability, the Section 504 Team must determine whether the student's current educational placement is appropriate.
5. A Section 504 student may not be placed on long-term suspension for any misconduct that had a direct and significant relationship to the student's disability. The Section 504 Team must develop a functional behavior assessment and a behavior intervention plan to address the inappropriate behavior. If the student already has a behavior intervention plan, the Section 504 Team shall review the plan and modify it as necessary.

NOTE: 504 students are not entitled to "stay put" status. Students suspended over 10 days are not provided services or support.

None of the above described procedures shall prevent a school from using normal, reasonable procedures short of a change in placement, for dealing with students who are endangering themselves or others.

When a student presents an immediate threat to the safety of himself/herself or others, school officials may temporarily adjust the placement or exclude the student from school for up to ten (10) scholastic days in accordance with rules that are applied to all students.

#### D. Expulsion Procedure for Section 504 Eligible Students

When a student with a disability is accused of a violation for which the *Student Code of Conduct* recommends expulsion, the principal may recommend expulsion from school if the behavior is determined by the Section 504 Team NOT to be a manifestation of the student's disability.

If the Section 504 Team determines that the misconduct is a manifestation of the disability, the student may not be expelled.

The procedure below shall be followed if a student is to be considered for expulsion.

1. Notice  
The student and/or parent/guardian must be told by the principal of the reason(s) for consideration of suspension or expulsion.
2. Hearing  
The student must be given the opportunity to present his/her account of the incident, verbally and/or in writing, and must have the opportunity to present witnesses to the incident.
3. Principal's Determination  
If the principal determines that there are sufficient grounds for expulsion, then the principal shall inform the student that he/she is being suspended from school beginning the next school day.
4. Formal Notice to Attend Conference  
The principal or designee shall report in writing to the student's parent/guardian that the student has been suspended and will be considered for expulsion. This report shall include (1) notice of a Section 504 Team meeting, and (2) procedures for expulsion of a student with a disability and be mailed or delivery initiated within seventy-two (72) hours of the start of the suspension or on the next regular workday. Reasonable effort shall be made to contact the parent/guardian prior to the start of the suspension.
5. Opportunity for Informal Hearing  
After the Manifestation Determination is completed, the parent/guardian shall be given an opportunity for an informal hearing with the principal on the grounds for expulsion. This opportunity shall be provided within seventy-two (72) hours of the request (excluding Saturday, Sunday and school holidays).
6. Principal's Decision  
At the conclusion of the hearing, the principal, after reviewing the case with the parent/guardian, will either advise the parent/guardian of his/her decision to recommend expulsion, or based upon consideration of the facts and circumstances explained at the hearing and the findings of the Section 504 Team, will advise the parent/guardian of the school's intention to re-admit the student and take some alternative action.

7. Principal's Recommendation

The principal shall notify the Superintendent in writing of the suspension, Section 504 Team's determination, and the recommendation for expulsion. This notice shall be made within twenty-four (24) hours of the Section 504 Team's determination.

The principal shall include a detailed report on the alternative measures, if applicable, taken prior to the recommendation for expulsion. This report shall include, but not be limited to, information on the following:

- a. Attendance, conduct, and suspension
- b. A listing of efforts by the school's support services, personnel such as counselors and others
- c. Interventions developed by the r & i/Section 504 Team
- d. Curriculum adjustments
- e. The extent and results of parent/guardian involvement in the student's adjustment problems
- f. Other measures taken by the school to bring about a change in the behavior of the student
- g. Current Section 504 Plan and most recent psychological evaluation, if available

- **NOTE: If a Section 504 student carries a weapon to school or to a school function, or if the student with a disability knowingly possesses or uses illegal drugs, sells or solicits the sale of a controlled substance while at school or a school function, he/she may be disciplined under guidelines used for students without a disability.**

## SECTION XV

### STUDENT ENROLLMENT

“The district requests birth certificates to verify that students fall within a minimum and maximum age requirement. However, the school district will not bar students from enrolling because they have a foreign birth certificate or present no birth certificate at all. In those instances, the school district will allow for the presentation of alternative documentation to prove age.”

“The district requests Social Security Numbers, however, disclosure of Social Security Numbers (SSN) is voluntary only. SSN are used by the district for the limited purpose of properly identifying students for record-keeping and transcripts and are kept confidential. The lack of or refusal to provide a SSN will have no impact on the district’s enrollment decision. Students who enroll without a Social Security Number will be assigned an alternate identification number.”

In the event that a student has two parents and one parent has custody, the noncustodial parent has the right to receive copies of their child/children’s educational records including, but not limited to, a copy of report cards, unless such rights have been denied by a court order or other legally binding documents. The noncustodial parent will be allowed to conference with administrators and teachers at the child/children’s school. The primary role of our schools is to provide a safe learning environment for all students and the schools will not become the environment for parental custodial disputes. These types of issues must be dealt with away from the school campus.

#### **Legal Guardianship and Custody**

##### **OPTION 1: LEGAL GUARDIANSHIP:**

Once the guardian has met with an attorney, the process includes a hearing before the judge who must approve the request. Once the judge issues the Legal Guardianship, the judge is the only person who can change the order. Note: Legal guardianship requires a judge’s signature; any other delegation of parental rights is not legal guardianship. The cost varies; however, the guardian may request legal assistance through the Volunteer Lawyers Program 251-438-1102 and the Alabama Bar Referral 1-800-392-5660.

##### **OPTION 2: ORDER OF CUSTODY THROUGH JUVENILE COURT**

An Order of Custody gives authority to the guardian for the dependent child. The order is issued if a parent is unable to care for the child personally or if there are other issues; the guardian is then responsible for the child’s total care.

The guardian should call the Juvenile Court office at Strickland Youth Center (251-574-1450) for information or the guardian may contact an attorney directly. This process includes a hearing before the judge who must approve the request. Once the judge issues the Order of Legal Custody, the judge is the only person who can change the order. The cost varies for this option.

#### **Permission for Emergency Enrollment**

On a limited basis, permission to enroll a student in school will be given to an adult who does not have legal custody of the student if one or more of the following conditions/circumstances are present:

1. Removal of a student from his/her home, by the Department of Human Resources, with placement in a relative’s home or in a shelter/assessment setting. (official documentation from DHR is required).
2. Incarceration of parent/guardian (official proof must be provided to staff in the Division of Student Support Services for verification).
3. Death of parent/guardian (copy of obituary, funeral program and /or death certificate required).
4. Military service that requires out-of-town/out-of-country placement (documentation from the military or a copy of the deployment order/out-of-town placement is required).
5. Long-term hospitalization of parent/guardian (official doctor’s statement required).

Permission for Emergency Enrollment is only valid for the current school year. Applications must be completed in the Division of Student Support Services. Applicants must bring current photo identification, the child's birth certificate and appropriate documentation as listed above in order to complete the application.

### **Non-Resident Students**

Students who reside out-of-county or out-of-state may apply for enrollment, tuition free provided space is available. Out of county student are not eligible for magnet schools.

### **Advanced Enrollment**

If a family plans to move into a particular attendance zone within three months, advanced enrollment may be requested through the Division of Student Support Services. Prior to approval, documentation of the planned move must be provided (lease agreement, purchase agreement, etc).

### **Parent/Custody Issues**

Due to the overwhelming number of custody issues involving students, all Mobile County Public School System employees will follow the same procedure as outlined below relating to noncustodial parent visitation. **School system employees should not be placed in position of reading and attempting to interpret divorce decrees and/or other legal documents to resolve custody issues.**

**The Student Enrollment Information, as completed, by the enrolling parent, will govern issues relating to pick up, visitation, withdrawal from school, etc., of students at school.** The custodial parent, who completes the Student Enrollment Information at the time of enrollment, may complete the Parent/Legal Guardian #2 section for noncustodial parent. Visitation of children at school, by the noncustodial parent, **is not** allowed unless written permission is given by the custodial parent or the noncustodial parent's name is on the enrollment information labeled Guardian #2. This includes lunch, field trips, class parties, etc. All other contacts should be placed in the Emergency Contact section of the enrollment card.

# SECTION XVI

## DRESS AND PERSONAL GROOMING

All students are expected to observe the basic standards of cleanliness, modesty, pride, good judgment in their clothing, and good grooming. Final determination about whether a student is complying with this policy is left to the discretion of the principal.

### **Statement of Policy**

All elementary, middle, and high schools in the Mobile County Public School System, with the exception of the magnet schools, shall implement the mandatory uniform policy beginning with the 1997-98 school year. This policy shall not apply to the magnet schools as they already have uniform dress provisions. The term “school” as used throughout this policy shall mean all elementary, middle, high schools, and other district offices of the Mobile County Public School System.

Students shall present themselves in proper uniform attire when addressing a school-related issue before the Board or in hearings with administrative personnel. (Examples: School Board Meetings/ Discipline Appeal Hearings)

### **Uniform Policy**

The uniform policy was approved by the Alabama State Legislature and signed into law by Governor Fob James on May 27, 1997 § 97-581.

The uniform policy was adopted by the Board of School Commissioners on August 27, 1997 and implemented on September 15, 1997.

### **Information Dissemination**

- A. It is the responsibility of district and school support staffs to adequately communicate to parent/guardian information common to all school sites, including general guidelines for enforcement of the uniform policy.
- B. Each school shall communicate to parent/guardian information specific to the individual school sites, *by the last day of school for the previous year*, including:
  - 1. Types and colors of uniform;
  - 2. Requirements for jackets/outer garments;
  - 3. Optional articles of attire, if any;
  - 4. Compliance measures to be employed;
  - 5. Availability of any financial support for uniforms;
  - 6. Methods to facilitate recycling of uniforms within the school community;
  - 7. Notice of uniform sales and lists of competitive prices from vendors of uniform articles.
- C. The school should distribute this information one or more of the following ways:
  - 1. System-wide newsletters;
  - 2. School newsletters;
  - 3. Parent/guardian forums;
  - 4. Telephonic notification or through use of a telephone hotline;
  - 5. PTA meetings and newsletters;
  - 6. Parent/guardian advisory meetings;
  - 7. Television, radio, and/or newspaper announcements;
  - 8. Posters displayed at school and in the community;
  - 9. Registration materials.

### **Compliance Measures**

Students who do not comply with policy will face disciplinary action and will be denied admission into the school until such time as they are in compliance with the policy. Reasonable accommodation should be made for religious beliefs if such accommodation would not unduly interfere with the effective functioning of the classroom. Additional students who willfully violate the uniform policy may be subject to disciplinary steps listed under Group A and Group B offenses.

## SECTION XVII

### INTERNET ACCEPTABLE USE AND SAFETY POLICY

The Board recognizes that advances in technology improve access to and communication of information and, may also improve and enrich instruction and student learning. The Board generally supports students accessing rich information resources and developing appropriate analysis and evaluation skills. In a free and democratic society, access to information is a fundamental right of citizenship.

Information technology resources have significantly altered the information landscape for schools. Board Policy 3.50 requires that all school materials be consistent with district-adopted guidelines, supporting and enriching the curriculum while taking into account the varied instructional needs, learning styles, abilities, and developmental levels of students. In the past, instructional and library media materials could usually be screened prior to use by committees of educators and community members intent on subjecting all such materials to reasonable selection criteria. Digital resources, which can be accessed through the Internet from any publicly available fileserver in the world, open classrooms to electronic information that may not have been screened by educators for use by students of various ages.

Information literacy skills, in a digital world, are fundamental for digitally literate citizens and 21<sup>st</sup> century employees. The Board expects that staff will blend thoughtful use of such skills throughout the curriculum and that the staff will provide guidance and instruction to students in the appropriate use of digital tools and resources. Staff will consult the guidelines for instructional materials contained in the system's guidelines and will honor the goals for selection of instructional materials contained therein.

Network and Internet access is provided as a tool for education. Access will be provided to students who agree to act in a considerate and responsible manner. Students are responsible for good behavior on the school computer network and Internet just as they are in a classroom or a school hallway.

As communications on the network and Internet are often public in nature, general school rules for behavior and communications apply (see *Student Code of Conduct*). Independent but supervised student use of digital resources will be permitted upon the submission of the agreement form located in the student enrollment information. Access to the network and the Internet enables students to explore a seemingly infinite number of resources. The Board believes that the benefits of student access to information resources and opportunities for collaboration exceed the potential disadvantages. Ultimately, however, parents/guardians of minors are responsible for setting and conveying the standards that their children should follow when using digital resources.

The Mobile County Public School System will not be liable for the actions of any person, student or staff, connected to the Internet through the Mobile County Public School System. All users assume full liability—legal, financial, or otherwise—for their actions.

#### CORE RULES FOR SAFE AND ACCEPTABLE USE OF THE INTERNET

The use of Internet resources accessed from any computer that is the property of the school system or any computer connected to a local area network within any school system facility is a privilege, not a right, and inappropriate use will result in the cancellation of those privileges and/or punishment for such violations as prescribed in the *Student Code of Conduct*. Mobile County Public School System will utilize filtering software or other technologies to prevent students from accessing materials that are (1) obscene, (2) pornographic, or (3) harmful to minors. Schools will also monitor the online activities of students, through direct observation and/or technological means.

Unacceptable uses of the school network and Internet include the following:

- Using the network to access or send pornography (both written and graphic), inflammatory material, profane or obscene material.
- Using the network to access or send any material not specifically related to the instructional lesson, objective, or assignment.
- Deliberate introduction of malevolent software or programming code, including viruses, worms, Trojan horses, malware, or spyware.
- Activities, including hacking, that interfere with or disrupt network users, services, or equipment.
- Using the network for financial gain, commercial activity, or any illegal activity.
- Cyber-bullying or any harassing behavior which threatens the health and/or welfare of any person and is inappropriate for school, through any digital means.
- Lending passwords to other individuals.
- Altering and forwarding personal communication without the author's prior consent.
- Spoofing or otherwise attempting to send anonymous messages of any kind.
- Copying and/or distributing commercial software in violation of copyright laws.
- Using copyrighted materials in reports without permission.
- Using the network for sending and receiving a large number of personal messages.
- Any other use that is unacceptable or not in keeping with the mission or goals of the Mobile County Public School System.

All users should be aware that the inappropriate use of Internet resources could be a violation of local, state, and federal laws.

#### Contract Regarding Safe and Acceptable Use of the Internet

By signing the Parent/Guardian and Student Acknowledgment for the *Student Code of Conduct*, which is found on the student enrollment information, the parent/guardian agrees to the rules and regulations stated in the Internet Acceptable Use and Safety Policy.

The parent/guardian of this student has read the terms and conditions for system Internet access privileges. The parent/guardian understands this access is for educational purposes and that the Mobile County Public School System has taken reasonable precautions in forewarning and educating all interested parties of the controversial material that is accessible through the Internet. The parent/guardian also recognizes that it is impossible for the Mobile County Public School System to restrict access to all controversial materials. The parent/guardian will not hold the Mobile County Public School System or its employees responsible for materials acquired by their child over the school system network. The parent/guardian accepts that inappropriate behavior may lead to penalties, including revoking of Internet access, disciplinary action, and/or legal action. The student agrees to abide by all rules that are listed in the Mobile County Public School System's *Core Rules for Safe and Acceptable Use of the Internet*. The student realizes that the primary purpose of the Mobile County Public School System's Internet connection is educational, and that as such, educational purposes shall take precedence over all others. The student realizes that the use of the Internet is a privilege, not a right.

## SECTION XVIII

# STUDENT EDUCATION RECORDS, SURVEY INFORMATION, MILITARY RECRUITERS, AND DIRECTORY INFORMATION

### Education Records

The Mobile County Public School System provides for the creation and maintenance of education records necessary for the education of students. Education records are those records, files, documents, and other materials which contain information directly related to a student and as further defined by the Family Educational Rights and Privacy Act (FERPA).

Statute: 20 U.S.C. § 1232g. Regulations: 34 CFR Part 99.

Education records are confidential and access to them is protected by federal law. The following guidelines apply to the release of student education records:

1. Parents or guardians shall be provided on request with a list of the types of records directly related to students which are maintained by the school system.
2. If any material or document in the education record of a student includes information on more than one student, the parents or guardians of one of such students shall have the right to inspect and review only such part of such material or document as relates to such student or to be informed of the specific information contained in such part of such material.

The Family Educational Rights and Privacy Act (FERPA) afford parents and students over 18 years of age ("eligible students") certain rights with respect to the student's education records.

These rights are:

1. The right to inspect and review the student's education records (34 CFR § 99.10) within 45 days of the day the school receives a request for access. Parents or eligible students should submit to the school principal a written request that identifies the record(s) they wish to inspect. The principal or his/her designee will make arrangements for access and notify the parent or eligible student of the time and place where the records may be inspected.
2. The right to request a change to the student's education records (34 CFR §§ 99.20, 99.21, and 99.22) that the parent or eligible student believes are inaccurate. Parents or eligible students may ask the school to amend a record that they believe is inaccurate. They should write the school principal, clearly identify the part of the record they want changed and specify why it is inaccurate. If the school decides not to amend the records as requested by the parent or eligible student, the school will notify the parent or eligible student of the decision and advise them of their right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the parent or eligible student when notified of the right to a hearing.
3. The right to agree to disclosure of personally identifiable information contained in the student's education records, except as specified by law (34 CFR §§ 99.30 and 99.31). One exception, which permits disclosure without consent, is disclosure to school officials with legitimate educational interests. A school official is a person employed by the school as an administrator, supervisor, instructor, or support staff member (including health or medical staff and law enforcement unit personnel); a person serving on the school Board; a person or company with whom the school has contracted to perform a special task (such as an attorney, auditor, medical consultant, or therapist); or a parent or student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility. Upon request, the school discloses education records without consent to officials of another school district in which a student seeks or intends to enroll (34 CFR §§ 99.7 and 99.34(a)(ii)).

1. The right to file a complaint with the U.S. Department of Education about allegations that the Board of School Commissioners of Mobile County failed to follow the requirements of FERPA.

The name and address of the office that administers FERPA are:

Family Policy Compliance Office  
U.S. Department of Education  
400 Maryland Avenue, S.W.  
Washington, DC 20202-5920

#### Military Recruiters

The Board of School Commissioners of Mobile County allows military recruiters the same access to secondary school students as it provides to colleges and universities or to prospective employers. Additionally, the Board of School Commissioners of Mobile County will provide student's names, addresses and telephone listings, when requested by military recruiters. Parents/guardians have the right to request that this information not be released to military recruiters for their children.

Directory information, which is information that is generally not considered harmful or an invasion of privacy if released, can also be disclosed to outside organizations without a parent's prior written consent. Outside organizations include, but are not limited to, companies that manufacture class rings or publish yearbooks. In addition, two federal laws require local education agencies (LEAs) receiving assistance under the Elementary and Secondary Education Act of 1965 (ESEA) to provide military recruiters, upon request, with three directory information categories - names, addresses and telephone listings - unless parents have advised the LEA that they do not want their student's information disclosed without their prior written consent.
