in Clarkston
5/31 Last Day of School
-Awards at 12:15
-Early Release at 1:10

A Note To You

Hello Families,

Take note of the activities our class will be taking part in as the end of the year draws near.

Have a great week,
Mrs. Summerfield

Things You Can Do At Home

Break words apart into syllables to find out what they say.
Spell, spell, spell. You could go for a walk and try to find a word beginning with A-Z to spell.
Partition shapes into equal pieces. Discuss what fractions you can make out of it and practice writing those fractions.
Read an analog clock to tell time.
Continue to practice adding and subtracting on a number line and with a hundreds, tens, and ones drawing.

This Week's Agenda

Reading

Now that we've completed our research about bats and butterflies, we will choose a pollinator to write a strong paragraph about.
Our spelling pattern this week is -ous and -us. -ous is used with adjectives like 'glamorous' or 'enormous', while -us is used with nouns like 'bonus' and 'campus'.

Math

We are continuing to discuss shapes, and fractions! We will relate fractions of partitioned shapes to fractions of a set. For example, if we have 10 pencils and 5 of them are red, what fraction of the pencils are red? $\frac{5}{10}$!
