Advisory Board/School Council Minutes February 14, 2025

The Advisory Board/School Council met on 2-14-2025. Mrs. Shumway reported the following:

LRPS had its second School Improvement (SIP) visit from the Central office, and it went very well. She explained the rubric that the visitors used to assess how well the teachers are doing. The rubric assesses areas such as teacher clarity, student engagement, applying standards-based instruction, challenging and rigorous instruction. Feedback is provided to the administrative team who then lets the teachers know areas of strengths and areas of growth.

Mrs. Shumway shared that the Teacher Recruitment Fair is coming up. Although our school allotment has not been given to schools yet, we do have some teacher vacancies for next year due to retirements and teachers moving out of district.

Mrs. Shumway stated that LRPS is still trying to hire a custodian. Attempts have been made but we have not been able to find our third custodian for the building yet. Interviews will continue until we have filled the position.

Winter MAP growth was shared with the Advisory Board. Mrs. Shumway shared a specific report known as the "Diamond Report", which shows if grade levels met their expected growth on the MAP assessment. We anticipate more growth once students take the Spring MAP assessment. Until this time, teachers will use current MAP data to strategically plan small groups to fill in any academic gaps.
