

2nd Grade

Newsletter

The Week of September 21st, 2026

Upcoming Dates

9/25 - Homecoming parade! We will watch the parade in Deary, take part in the pep assembly at the Deary school, then release students from the Deary bus pad at 3:10pm. Students who live in Bovill will ride the bus back and arrive in Bovill at about 3:45.
9/28 - Vision and Hearing Screenings
10/7 - Picture Day! Dress your best ☺
10/12 - Late Start - School begins at 10:30

A Note To You

Hello Families,
Welcome back! I hope you had a great fair week. We will be jumping right back into things this week. Reminder that we have library and music on Monday and PE on Wednesday. On Friday, we will take a trip to Deary to watch the Homecoming parade before heading to the Deary school to take part in the homecoming pep assembly.
Have a great week!
Mrs. Summerfield

Practice At Home

- ❖ UFLI at home practice will guide you through the spelling pattern we are learning in class. We will be learning/reviewing a foundational concept for our reading & spelling this week: open and closed syllable types! See "This Week's Agenda" and "UFLI Foundations Home Practice" sheet in your folder for more details on the pattern and how to practice from home.
- ❖ Math practice sheets reflect what we have been learning in class so that you can do a little more at home.

This Week's Agenda

Spelling: Open & Closed Syllables

Open - these syllables end in a vowel (a, e, i, o, u, y) They are special because the vowel says its name when it ends a syllable, like in "ra/ven" and "o/pen". If we don't have an open syllable to support a long vowel sound, we have to use a silent 'e' or vowel team.

Closed - These syllables have a consonant following a single vowel. The vowel sound is short and just says its sound like in "sun/set".

Reading: We will begin reading about schools in other countries. We will learn about problems other schools have encountered and how they solve those problems. This will guide our reading and writing over the next couple of weeks.

Math: We will be learning and investigating even and odd numbers this week.

Social Studies: We will continue to learn about the government, its role, and the way it's structured.
