Rapp Nature Camp's home base is on the Upper Hazel River in Sperryville, one mile west of Route 231.

Rapp Nature Camp activities are almost all outdoors. Activities include: games and songs, hiking, river time, quiet time, identifying plants and animals, assessing water quality, safely catching and releasing animals, caring for plants, creating your own special nature-based project, music, and drawing and writing for our camp newsletter.

Campers will share their special projects and songs with visitors on the Friday afternoon of each session. To learn more, check out our newsletter, "News from Singing Creek", on our website or pick up a copy at the Library. **Questions? email rappnaturecamp@gmail.com**
