

PUSD #8 Summer Programming

Students grades 6-8

2024 Programming Guide and Sign up Information

Page Middle School- Summer Programming

Dear Parent/Guardian:

This summer we are offering various programs to our students in grades 6-8: **STEM Academy, Summer Bridge Programs, and a Career and Technical Institute in Robotics**. With the programming, a student also has access to FREE breakfast and lunch as well as transportation. In order to plan for staffing and learning experiences, we ask that you register as soon as possible. Spots are limited. Some students may be placed on a waiting list.

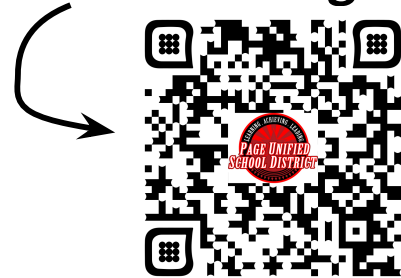

The attached packet provides you information about the program offerings, transportation, and food service. Everyday attendance is expected; please commit to 16 days of programming. Take a look at the calendar to ensure the program dates work with your family's summer schedule.

Sign ups are happening now! Use the QR code provided below to sign up your child. **The deadline for sign ups is April 1, 2024**. A school staff member will follow up by phone to confirm enrollment once the application is received.

Other important details about our programming:

- When: June 3 – June 27, 2023 - 8:30 am to 1:30 pm
 - Monday-Thursday
- **Where: Page Middle School**
- Breakfast & Lunch is served FREE of charge

Program Offerings

STEM Academy (Science, Technology, Engineering, and Mathematics)

For students in grades 6-8

- Students engage in hands-on learning opportunities that focus on design thinking and build STEM-based literacy through multidisciplinary, interactive experiences that foster creativity and build problem-solving skills.

Summer Bridge Program- Algebra Readiness

For students in grades 7-8

- Students strengthen their understanding of fundamental math and algebraic concepts to provide a solid foundation for success in Algebra 1.

Summer Bridge Program- Language Development

For students in grades 6-8

- Students engage in interactive team-building activities that focus on developing a comfortable and connected scholarly community, while accelerating language acquisition and providing access to rigorous language development coursework.

Summer Bridge Program- Math for 7th grade

For students in grades 6-7

- Students strengthen their understanding of rational number operations and concepts, algebraic expressions and equations, proportionality, and measurements to provide a solid foundation for success in middle school mathematics.

Summer Bridge Program- Science- Mission Possible

For students in grades 6-8

- Students engage in hands-on science to develop critical thinking and scientific problem-solving skills, and to make science fun! Students will track a dangerous scientist around the world to prevent his release of a deadly microorganism. On their virtual journey students will perform scientific investigations in biology, chemistry, physics, environmental science and math that relate to the geographic areas where they follow scientists.

Career and Technical Institute: Robotics

For students in grades 8-11

- The activities and projects will range from an introduction to the robotics brain, to building, testing, calibrating, and programming the robotics to maneuver either to its environment or on its own. All activities and projects can be tailored to your own pace and learning with a tad bit of challenge.

Attendance Expectations and Procedures

Attendance is expected everyday of a program. Take a look at the program calendar to ensure a good fit with your family's summer schedule. If a student enrolls in a program and doesn't show up for summer programming, the school will make efforts to contact the family. If contact is unsuccessful, the school will open the spot for a student on the waiting list to attend. Please keep contact information up-to-date with your child's school to ensure communication gets through.

Behavior Expectations and Procedures

We aim for engaging learning environments during summer programming. In order to achieve this, we expect our students to come to programming ready to participate and learn. The school will utilize their established Code of Conduct in order to deliver engaging learning environments for all students. The school will also utilize their established procedures for intervening on and addressing behavior issues that do not meet the Code of Conduct.

Transportation Information

The district has three (3) summer routes. Make sure to select your primary method of transportation on the application form. Use route information below to make this decision. If your transportation method needs to change, contact your school to communicate the changes. Depending on the timeliness of your communication, the request may or may not be possible.

SUMMER SCHOOL ROUTES/TIMES

ROUTE 17: BITTER SPRINGS/MARBLE CANYON/CEDAR RIDGE/HWY89 (ANY STOPS IN MARBLE CANYON-NAVAJO SPRINGS WILL BOARD THE BUS AT THE ENTRANCE TO BITTER SPRINGS HOUSING)
