

LAS LINKS/DRC Testing ORG Unit ID setup

Chromebox, Chromebook, and windows computer lab devices that are set to DRC testing will auto-launch the app in lockdown mode and will show the below screen that needs to be setup per student or teacher when ready to test.

Organizational Unit ID are to be used as follows :

Amanda Elzy Campus High and Jr. will use this ID : 231793479

Bankston Elem / Greenwood High / Greenwood Middle / Threadgill Primary will use this ID : 251817629

Claudine Brown & East Elem will use this ID : 242819360

Leflore Elem and High will use this ID : 180189297

Directions are to enter in the ORG Unit ID in the box above and Click the blue button for **ADD** –

You will then see the screen below. Click the blue button for **ASSIGN DEVICE TO ORG UNIT-**

Configuration Not Found

Please raise your hand and wait for help.

Contact your technical resource and provide them with the following information:

DRC INSIGHT cannot retrieve the configuration profile associated with this device because it cannot find the Device Toolkit ORG Unit ID. The ORG Unit ID was entered incorrectly, was deleted, or was not assigned to this device.

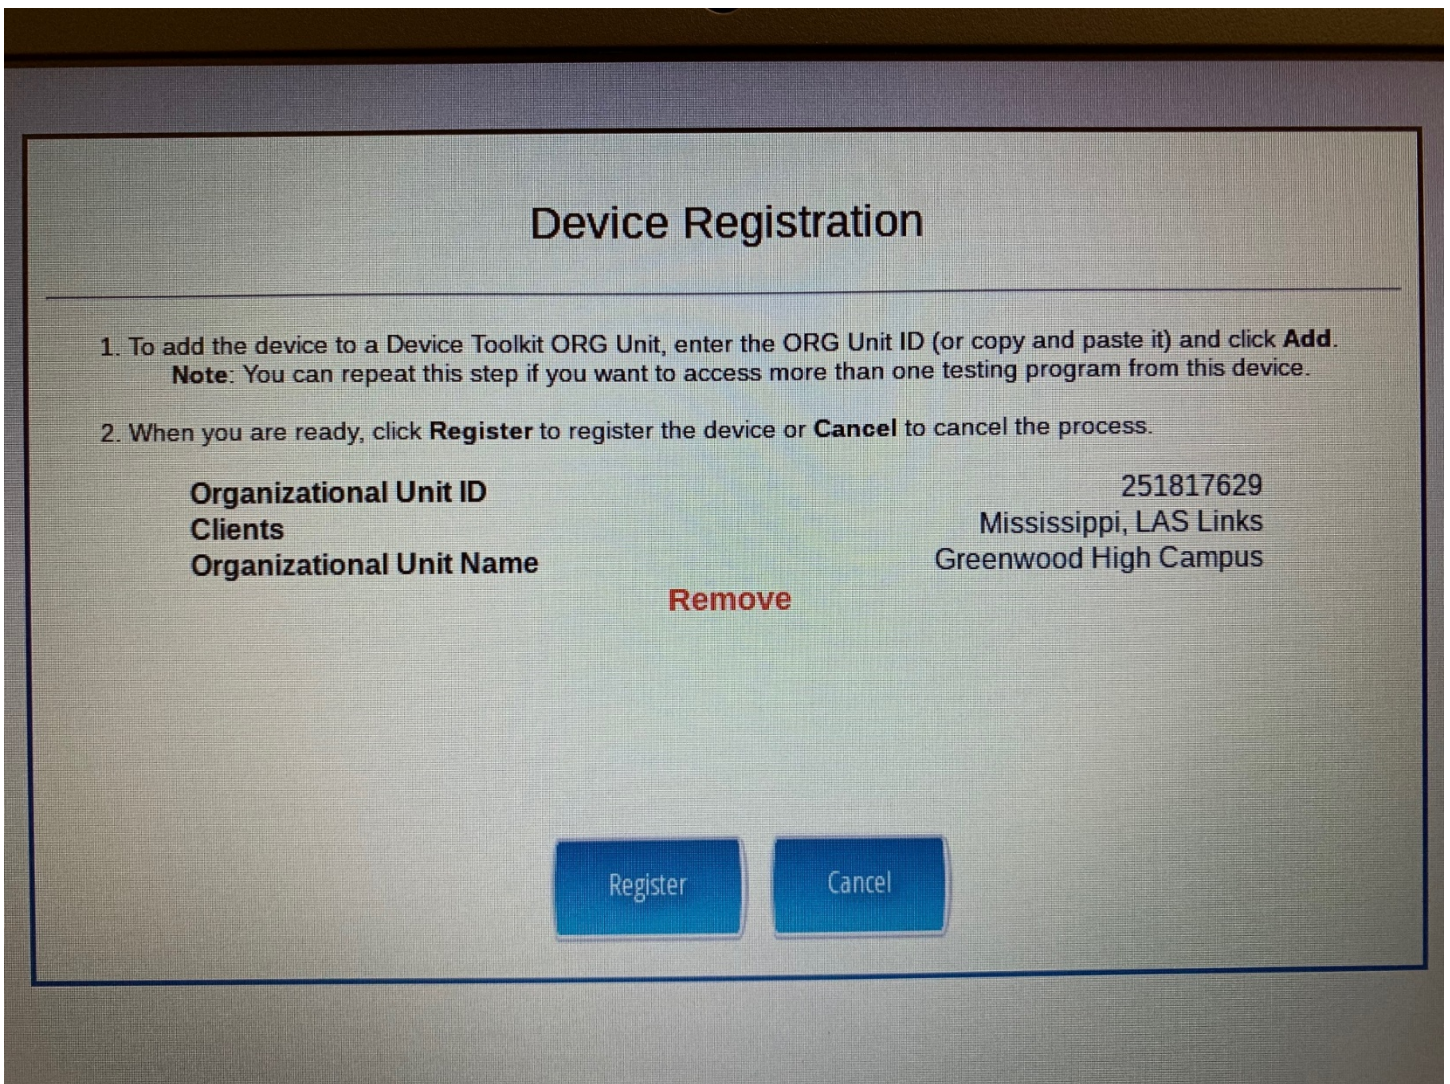

Click **Assign Device to ORG Unit** to enter the correct ORG Unit ID, or click **Cancel** to end the process.

Assign Device
to ORG Unit

Cancel

Do not refer to the ORGANIZATIONAL UNIT NAME showing on YOUR screen for a match of your school name when you arrive at this screen. We are using 4 servers for this testing at various locations and not 1 per school. This has been done using this method for 5 years now so we will continue with our student counts we are testing using this platform.

Last Click the REGISTER button as shown below and the Las Links and Mississippi main page will appear that matches any instructions provided for testing.

If this does not work or need extra assistance, have your point of contact at the school call Technology for further help.
