The Starblazer Chronicle

"Blazing a path to the stars!"

Miss Meli/4th Grade Teacher:

Hello Starblazers, my name is Ms. Sabrina Meli and I am excited to be a part of the Starline family. I was born and raised in Lake Havasu City. I have always known that I wanted to be a teacher and I am excited for this opportunity to teach your children. For the past four and a half years, I have been working as a paraprofessional at one of our local elementary schools. I am currently finishing my Bachelor's degree in Elementary Education with Northern Arizona University. My hobbies include spending time with family, fishing, and karaoke. My summers are spent traveling to Italy to visit family. I am very thankful for this opportunity and look forward to finishing the school year with the Starline Family!

Mrs. Turton/Special Education Paraprofessional:

My name is Delia Turton. I moved to Lake Havasu City in 1994. I am a proud graduate of Lake Havasu High. My early career was healthcare focused. I worked as a Medical Assistant for many years, and enjoyed pediatrics. My husband and I have two children. Our daughter is currently attending NAU, and our son is a Freshman at Lake Havasu High. I went on to continue my education at Mohave Community College, and graduated with an Associates in Applied Science for Physical Therapist Assisting. I gained valuable knowledge in this field and enjoyed my position. I have always wanted to work with children, and I was able to apply for a part time position as a Lunch Duty Aid. I had so much fun and built a good rapport with students and staff. I now enjoy a Personal Care Assistant position, and hope to continue to grow with Starline Elementary.

**Starline's 2021-20202 Yearbook is
now on SALE!**

Buy early to save money! Yearbooks purchased before January 31st are only \$20. Prices increase to \$25 through February 28th. Any yearbook purchased after February 28th will cost \$30. The deadline to purchase a yearbook is April 11th. There will be limited yearbooks available for purchase after that time, so buy early! Click the link below to buy online.

You may also purchase them in the office cash
only!

No Tardy Picnic

For our new Starline families... At the end of the quarter, we always have a No Tardy Picnic celebration. It is a fun time when families can come to school, bring a special lunch and eat outside on the Starline field. The No Tardy Picnic will be on January 7 from 11:30-12:30. Students who have had only one tardy through the second quarter will be able to attend the picnic with their families. Any students not attending will eat lunch in the gym while a movie is playing. Remember that each quarter we start over being able to have a new opportunity to attend the No Tardy Picnic. I want to take this time to thank all the kind and generous families that invite children to join their picnic! After the picnic, children and families can play on the field and new playground equipment.

School Parent Involvement Survey
Lake Havasu Unified School District
2021-2022

This survey is intended to assist the Lake Havasu Unified School District to obtain feedback about our schools and gather information about parental involvement. We value your input and greatly appreciate your cooperation in completing this survey.

Spirit Day: "People That Make a Difference"

One of our Spirit Days this month is for students to dress as people that have made a difference in the world or are making a difference. What a great discussion to have with your children! We are honoring Martin Luther King Day this month as well.

Here are some people that have made a difference in the world. Look them up and find out how or ask your children since they are learning about some of these famous individuals in their new history and science curriculum... Who will you dress up as?

- ◆ Niels Bohlin
- ◆ Maurice Ralph Hilleman
- ◆ Thomas Jefferson
- ◆ Martin Luther King
- ◆ Abraham Lincoln
- ◆ Confucius
- ◆ Christopher Columbus
- ◆ Mozart
- ◆ Albert Einstein

We made it!

Days of School

The Hundredth Day of School

The 100th Day of School is January 19! It would be so exciting for each classroom to work toward 100% attendance on the 100th Day! The Spirit Day on that day is to dress as someone 100 years old! We might have to play even more carefully during recess and plan some soft food at lunch since 100 year old individuals will be joining our classrooms. We will have some wise individuals coming to school on that day with their many years of experience. Plan to do some activities with your family on that day that allow your children to experience the number 100!

Look at a map to find what is 100 miles north, south, east, and west of your school.

What was happening 100 years ago: Who was President? What were some new inventions?

String necklaces with 100 beads or Cheerios.

Calculate what year it will be when you turn 100 years old.

Write a story about what the world will be like in 100 years.

Find the names of two cities in every state, to add up to 100 cities.

Are there buildings taller than 100 stories? Find out.

Do 100 hops or 100 jumping jacks.

Measure a stack of 100 pennies.

Build the tallest structure you can, using tape and 100 craft sticks or straws.

Count and glue 100 beans or seeds to a piece of cardboard.

Count by 2's to 100.

Then, count by 5's.

What would you do with \$100?

What would you do with 100 Popsicles?

What would you do with 100 elephants?

Close your eyes and open them when you think 100 seconds have passed. How close were you?

If you have 100 quarters, how many dollars do you have?

Write a story that uses exactly 100 words.

Make a list of 100 fun things to eat!

A century lasts 100 years. A decade is 10. Find one fact about each decade of the 20th century.

How did you spend the last 100 hours? How many hours did you sleep? How many did you do homework? How many did you spend eating?

Toys for Tots

Thank you all for your generosity!
Starline's Toys for Tots box was overflowing!
Special Thank you to Mr. Tony!!

Winter Wonderland Math Night*

When: January 27, 2022

Where: Starline Elementary School

Time: 5:30-6:30 PM

Purpose: Present information about Singapore Math and participate in activities and concepts children are learning in math.

Parents will meet in the gym and listen to a presentation by Larry Olsen, Master Math Teacher. During the presentation, students will be involved in math activities throughout the building. After the presentation, parents join their children so they can also participate in the fun math learning activities.

*Two gift baskets will be given away. One to a K-2 student and another to a 3-6 student.
