| | Four Hours or Less | Each Hour over Four | Maintenance Fee |
|-------------------------|--------------------|----------------------------|-----------------|
| Lighted Athletic Fields | \$35.00 | \$15.00 | \$20.00 |

Rental fees do not include custodial services. These services will be billed separately when such services are required by the principal of the school.

Rental fees do not include use of kitchens/kitchen equipment. Kitchens and kitchen equipment must be operated by school nutrition personnel only. These services will be billed separately when such services are required.

ELIGIBLITY TO USE FACILITIES

There are four categories of groups who may use school facilities. They are:

Category 1 - School sponsored, school-related and school affiliated groups, including student organizations, organizations formed to support the school in some manner, such as PTA, PTO, teachers and principals organizations and Booster clubs.

Category 2 – Governmental entities and public agencies supported by tax funds of the community.

Category 3 – Private, non-profit organizations and agencies. The term "non-profit organization" shall mean any civic, service, political, fraternal, governmental, religious, charitable, or recreational agency, association, organization, corporation, partnership or person which is not engaged in a business or enterprise to produce income or a financial gain for its members, its directors or officers. This definition is not intended to preclude a non-profit organization from engaging in fundraising activities or charging fees for services to defray the organizations costs of for charitable purposes. Any question or dispute concerning the application of this definition to a particular organization shall be referred to and resolved by the principal of the school where the facility is located.

Category 4 – All private, for-profit organizations whose activities do not include either actual sales or solicitations on school premises or the exploitation of children. The term "for-profit organization" shall mean any person, partnership, association, organization or corporation engaged in a business for profit which desires to use a school facility to engage in a profit making enterprise for its owners, members, officers, directors or stockholders. The term does not include the recreational use of school facilities by employees of for-profit enterprises. Any question or dispute concerning the application of this definition to a particular organization shall be referred to and resolved by the principal of the school where the facility is located.
