

Business Manager Report

Esser grant was finally approved!!

As of now I am guessing I have everything that the auditors need as I have not been asked to get them any other information.

WRT was here during Christmas break to install the new phones; I will reach out to David on the grant money I planned to use.

Kim Dressler will be helping me through the year end stuff.

I sent a list of all the sub teachers for the front office to track on who has eaten, so we can include this in the lunch debt it needed in the future.
