

NEW MILFORD

A collaborative partnership of students, educators, family, and community

SAFE RETURN TO IN-PERSON INSTRUCTION AND CONTINUITY OF SERVICES PLAN

UPDATED JUNE 2022

Introduction

Dear New Milford Community,

The Superintendent in conjunction with the Central Office Cabinet and Building Administration, created the first development of the Safe Return to In-Person Instruction and Continuity of Services Plan required by the State of Connecticut in June 2021. The physical health and safety of students and staff remains the priority in the opening of schools this fall. This revision includes updates based on current guidance from the CDC, the Governor's Office, the Connecticut State Department of Education (CSDE), the CT Department of Health and the New Milford Health Department. We will continue to reassess and review updated guidance as it is received and as we are advised by our local Department of Public Health and our District Medical Advisor.

Districts are required to conduct a periodic review and, as necessary, revise their opening plan at least every six months through September of 2023. Each review must include seeking public comment on the plan and updating the plan thereafter. Below are the dates that districts must submit an updated plan to the CSDE.

- December 23, 2021
- June 23, 2022
- December 23, 2022

With the reopening of schools for 2022-23, we plan to provide continuity of learning with 100% full in-person instruction, 5 days per week.

Sincerely,

Austra Di Corpo

Alisha DiCorpo Superintendent of Schools

Health and Safety Strategies

The district followed all Executive Orders and CDC guidance provided throughout the COVID-19 pandemic, as well as worked in conjunction with the New Milford Department of Public Health and District Medical Advisor, who have reviewed and given guidance to our reopening plan.

Our schools will be prepared to reinforce healthy practices among our students and staff, take preventive actions to prevent the spread of illness, and prepare for any potential cases or increased transmission of COVID-19. The district will include in decision making guidance from the CDC, the Governor's Office, the Connecticut State Department of Education (CSDE), the CT Department of Public Health and the New Milford Health Department.

Our primary focus always is to make informed decisions in support of the health and safety of our staff, students and local community.

Mitigation strategy	LEA response
100% In-person Learning	 With the reopening of schools for 2022-23, we plan to provide continuity of learning with 100% full in-person instruction, 5 days per week. Remote learning is no longer a unilateral option for families. Schools will be fully open 5 days per week. Connecticut law does not permit remote learning to count toward the 180 school day requirement. Remote learning was temporarily permitted due to the state of emergency created by the COVID-19, but that ended for the 2021-22 school year. Weather related closures will be counted as traditional snow days and made up at the end of the year.
Masks	Mask wearing is optional for all students, staff and visitors to our schools.
Transportation	Transportation will resume at full capacity.
Lunch/Cafeteria Food sharing and celebrations	Lunch location and schedule will be determined on a school by school basis. Food sharing is not permitted. At this time, food will not be part of classroom or school celebrations.
Athletics	We anticipate a full athletics schedule this year. Fans will be permitted at games (outdoor and indoor) subject to current guidance issued by CDC, CSDE, CTDPH, and the local Health Department.
Handwashing and respiratory etiquette	 Students, teachers, and staff must engage in frequent hand washing or sanitizing upon arrival, before and after meals, after bathroom use, and after coughing or sneezing. Building Administrators will ensure, in accordance with CDC guidance, that hand washing/sanitizing includes: Opportunities for students and staff to meet hand washing/sanitizing frequency guidance. Sufficient access to handwashing and sanitizer stations.

Mitigation strategy	LEA response
Cleaning and maintaining healthy facilities, including improving ventilation	Custodial staff will be provided equipment and PPE for cleaning and disinfecting.
	The Director of Facilities and Principals will ensure that schools meet high cleanliness standards prior to reopening and maintain a high level of cleanliness during the school year.
	The Director of Facilities and Principals will communicate cleaning and hygiene protocols as recommended by the State of Connecticut and the CDC to staff and families.
	Our Facilities department will also continue to follow the CT Guidance for School Systems for the Operation of Central and non-Central Ventilation Systems during the COVID-19 Pandemic guidelines to maintain our schools ventilated at a healthy level.
	The Director of Facilities will use products that are approved for the State of Connecticut that are labeled to be effective against emerging viral pathogens, following label directions for appropriate dilution rates and contact times.
	Cleaning logs will be used in each building to track cleaning frequency of areas including bathrooms.
Music and Art	Music, including choral and instrumental groups, will be permitted to practice and perform following current guidance issued by CDC, CSDE, CTDPH, and the local Health Department. Shared use of materials and equipment in Art and Unified Arts will be allowed. Materials and equipment will be periodically cleaned and disinfected.
Library Media Center	We will return to regular distribution and sharing of books and materials.
Travel	For the most up to date travel guidelines, visit the cdc.gov travel page at <u>https://www.cdc.gov/coronavirus/2019-ncov/travelers/idex.html</u>

Mitigation strategy	LEA response
Quarantine/Contact tracing/Diagnostic screening and testing	 The Department of Public Health (DPH) has provided school districts with a set of recommended strategies to support us with our ongoing efforts. The document is entitled <i>Transitioning to a Model of Routine Respiratory Disease Prevention and Enhanced Outbreak Management and Control for COVID-19 in PreK-12 School Settings</i> and can be viewed on the State's portal here: <u>DPH guidance</u>. The highlights of the guidance include the following information: Recommending COVID-19 vaccination for all eligible students and staff including booster vaccine doses when appropriate. Supporting students and staff who choose to continue wearing masks in school settings. Following isolation guidelines for students and staff who have symptoms or have tested positive for COVID-19. Following existing quarantine guidance for students and staff who have been notified of certain higher-risk close contact exposures (e.g., household exposures, crowded social gatherings). Recommending COVID-19 transmission prevention strategies, including testing (self-testing and/or at provider sites) and masking for students and staff, following illness
	 or exposures to COVID-19 cases. Note: This will still include a return on Day 6 after being positive for COVID-19 with the recommendation that a mask be worn through Day 10. Continuing to advise parents to report all cases of COVID-19 to the school. Being prepared to respond quickly to rapid increases in cases or clusters of cases in schools (including increases in absenteeism due to respiratory illness). Home Test Kits are available at all schools.
Vaccinations	CDC, CSDE, CTDPH, and local Health Departments advise that vaccination remains a critical prevention strategy against COVID-19. We will continue to support the vaccination of staff and eligible students. Parents, please share your child's vaccination status with the school purse. Doing so will belo

Mitigation strategy	LEA response
Support for Quarantined Students who are Otherwise Healthy	Quarantine period is 10 days, with a test out option of a negative PCR test result taken anytime on or after day 5 post exposure. Day 8 is the earliest return date with this negative PCR test. The student and staff member must also be asymptomatic. Students who are required to quarantine will be provided assignments through Google Classroom, participating asynchronously. Support via email check-in and/or through Google Meet will be provided by a building substitute when available. The schedule will be determined by school and the children's developmental level. Students absent from school due to any illness will not be expected to access Google Classroom, nor be
	expected to participate in any school related activities.

Note: All information contained in this document is subject to change based on requirements and/or guidance from the CDC, Governor's Office, CSDE, CTDPH.

We will continue to reassess and review updated guidance as it is received and as we are advised by our local Department of Public Health and our District Medical Advisor.

Any changes will be communicated to all stakeholders in a timely manner.

Updates will also be posted on the New Milford Public Schools website under the COVID-19 page.
