Child Find

Finding Children with Special Needs

DISCOVERY REGIONAL HIGH SCHOOL CHILD FIND

Do you know a child with a disability who is not being served?

CHILD FIND NOTICE

Discovery Regional High School is a completion high school designed to provide instruction for students age 14-21 years old in need of courses taught in grades 9 through 12. In accordance with federal IDEA regulations and State Board Rule 160-4-7.03, Discovery Regional High School seeks to ensure that all students with disabilities who are in need of special education enrolled with Discovery Regional High School are identified, evaluated and served. Final identification of students with disabilities and programming for such students occurs only after an appropriate evaluation and a determination by a placement team. Once it is determined a student is in need of special education services, they may receive services. Personnel can support you in exploring what services may be available. All children suspected of having a disability and who are in need of special education are part of the child find process, regardless of age.

- Discovery Regional High School is a State Completion High School located in other Public School Districts obligatory attendance zones. Discovery Regional High School is obligated to follow Child Find obligations to those students that are enrolled at Discovery Regional High School.

- For High School aged students enrolled in Discovery Regional High School who are suspected of having a disability, please contact the campus Site Director or Counselor at your student's campus about the referral process.
