# What is School-Wide PBIS?

## Definition

Positive Behavioral Interventions and Supports (PBIS) is an evidence-based, data-driven framework proven to reduce disciplinary incidents, increase a school's sense of safety and support improved academic outcomes. More than 22,000 U.S. schools are implementing PBIS and saving countless instructional hours otherwise lost to discipline. The premise of PBIS is that continual teaching, combined with acknowledgement or feedback of positive student behavior will reduce unnecessary discipline and promote a climate of greater productivity, safety and learning. PBIS schools apply a multi-tiered approach to prevention, using disciplinary data and principles of behavior analysis to develop school-wide, targeted and individualized interventions and supports to improve school climate for all students (OSEP Technical Assistance Center on Positive Behavior Interventions & Supports, 2009). The Positive Behavior Interventions and Support program is based upon the idea of recognizing positive contributions of students. Our goal is to help each child develop self-discipline. Home and school share the responsibility for developing good citizens. Parents, teachers, and students must work together to maintain a safe and positive learning environment. As part of PBIS, teachers, administrators, counselors and support staff will have responsibility to TEACH positive behavior expectations to students. PBIS means students will know exactly what is expected of them. Students who take responsibility will be recognized and rewarded in a variety of ways.

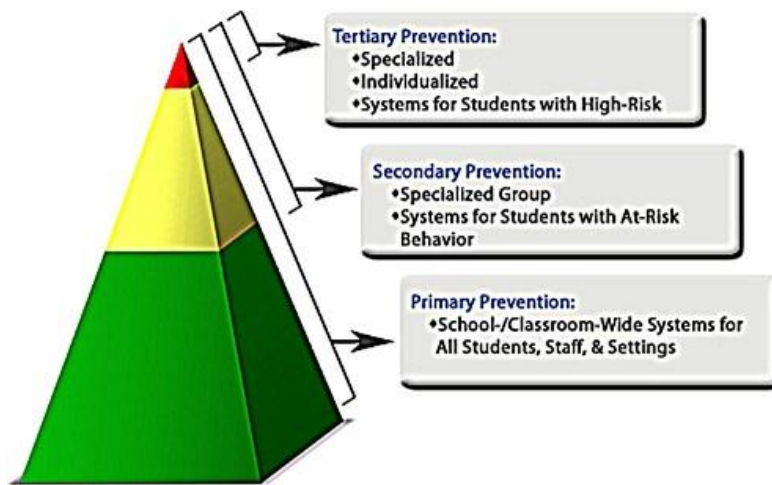

## What is PBIS at The Houston County WIN Academy?

- The Houston County WIN Academy School-Wide Expectations for students are to show their Cougar Pride and:
- **Be Positive, Be Respectful, Be Involved, Be Dependable, and we strive for Excellence**
- These expectations, along with the appropriate positive behaviors, are displayed in different areas of the school as reminders for students that we at The Houston County WIN Academy have Cougar Pride. Students will receive on-going instruction from staff on our school-wide expectations in all areas of our school. The hallway, cafeteria, restroom, gym, media center/computer lab, buses, Check-In, and the main office are all settings where students are expected to act in an appropriate manner showing the characteristics of Cougar PRIDE.

# Multi-Tiered Systems of Support

## (MTSS)/Response to Interventions (RTI)

School-wide means that educators support appropriate behavior in classroom and non-classroom (bathrooms, assemblies, hallways) areas. This support happens along a continuum from Tier 1 for all students and Tier 2 for a small group of students to Tier 3 for individual students. The goal is to create an environment that sets up ALL students for success.

An important aspect of SW-PBIS is the understanding that appropriate behavior and social competence is a skill that requires direct teaching to students just like math and reading. There is no assumption, in SW-PBIS, that students will learn social behavior automatically or pick it up as they go through life. This critical feature in SW-PBIS leads to its effectiveness.

## MTSS/RTI Team Meetings

Our MTSS/RTI Teams meet on a biweekly basis to discuss academic and behavioral concerns in order to support our students and address their needs. Our MTSS/RTI Team consists of our Assistant Principal for Instruction, School Guidance Counselor, Intervention Specialist, middle and high school teachers. Parents, students, and other stakeholders will be included as necessary in order to help support student success.

# Behavioral Expectations

Behavioral expectations: We at WIN Academy will show our pride:

We are **P**ositive, **R**espectful, **I**nvolved, **D**ependable, and Striving for **E**xcellence

- Behavior matrix: a matrix with settings, events, or classroom routines along the top with the behavioral expectations in the left column. Each matrix junction (box) contains the behavior indicators, or what the behavior expectation looks like in that particular setting or event.
- Behavior indicators: what the behavioral expectations look like in a particular school-wide setting, event, or classroom routine.
- Procedures: specific ways for students to complete tasks. An example of this is how to behave responsibly during transitions: 1. Clean up your area, 2. Stand and push in your chair, 3. Eyes are on me.

Adult behavior when providing corrections is:

- Consistent
- Brief
- Immediate
- Respectful

The continuum of strategies to respond to inappropriate behavior:

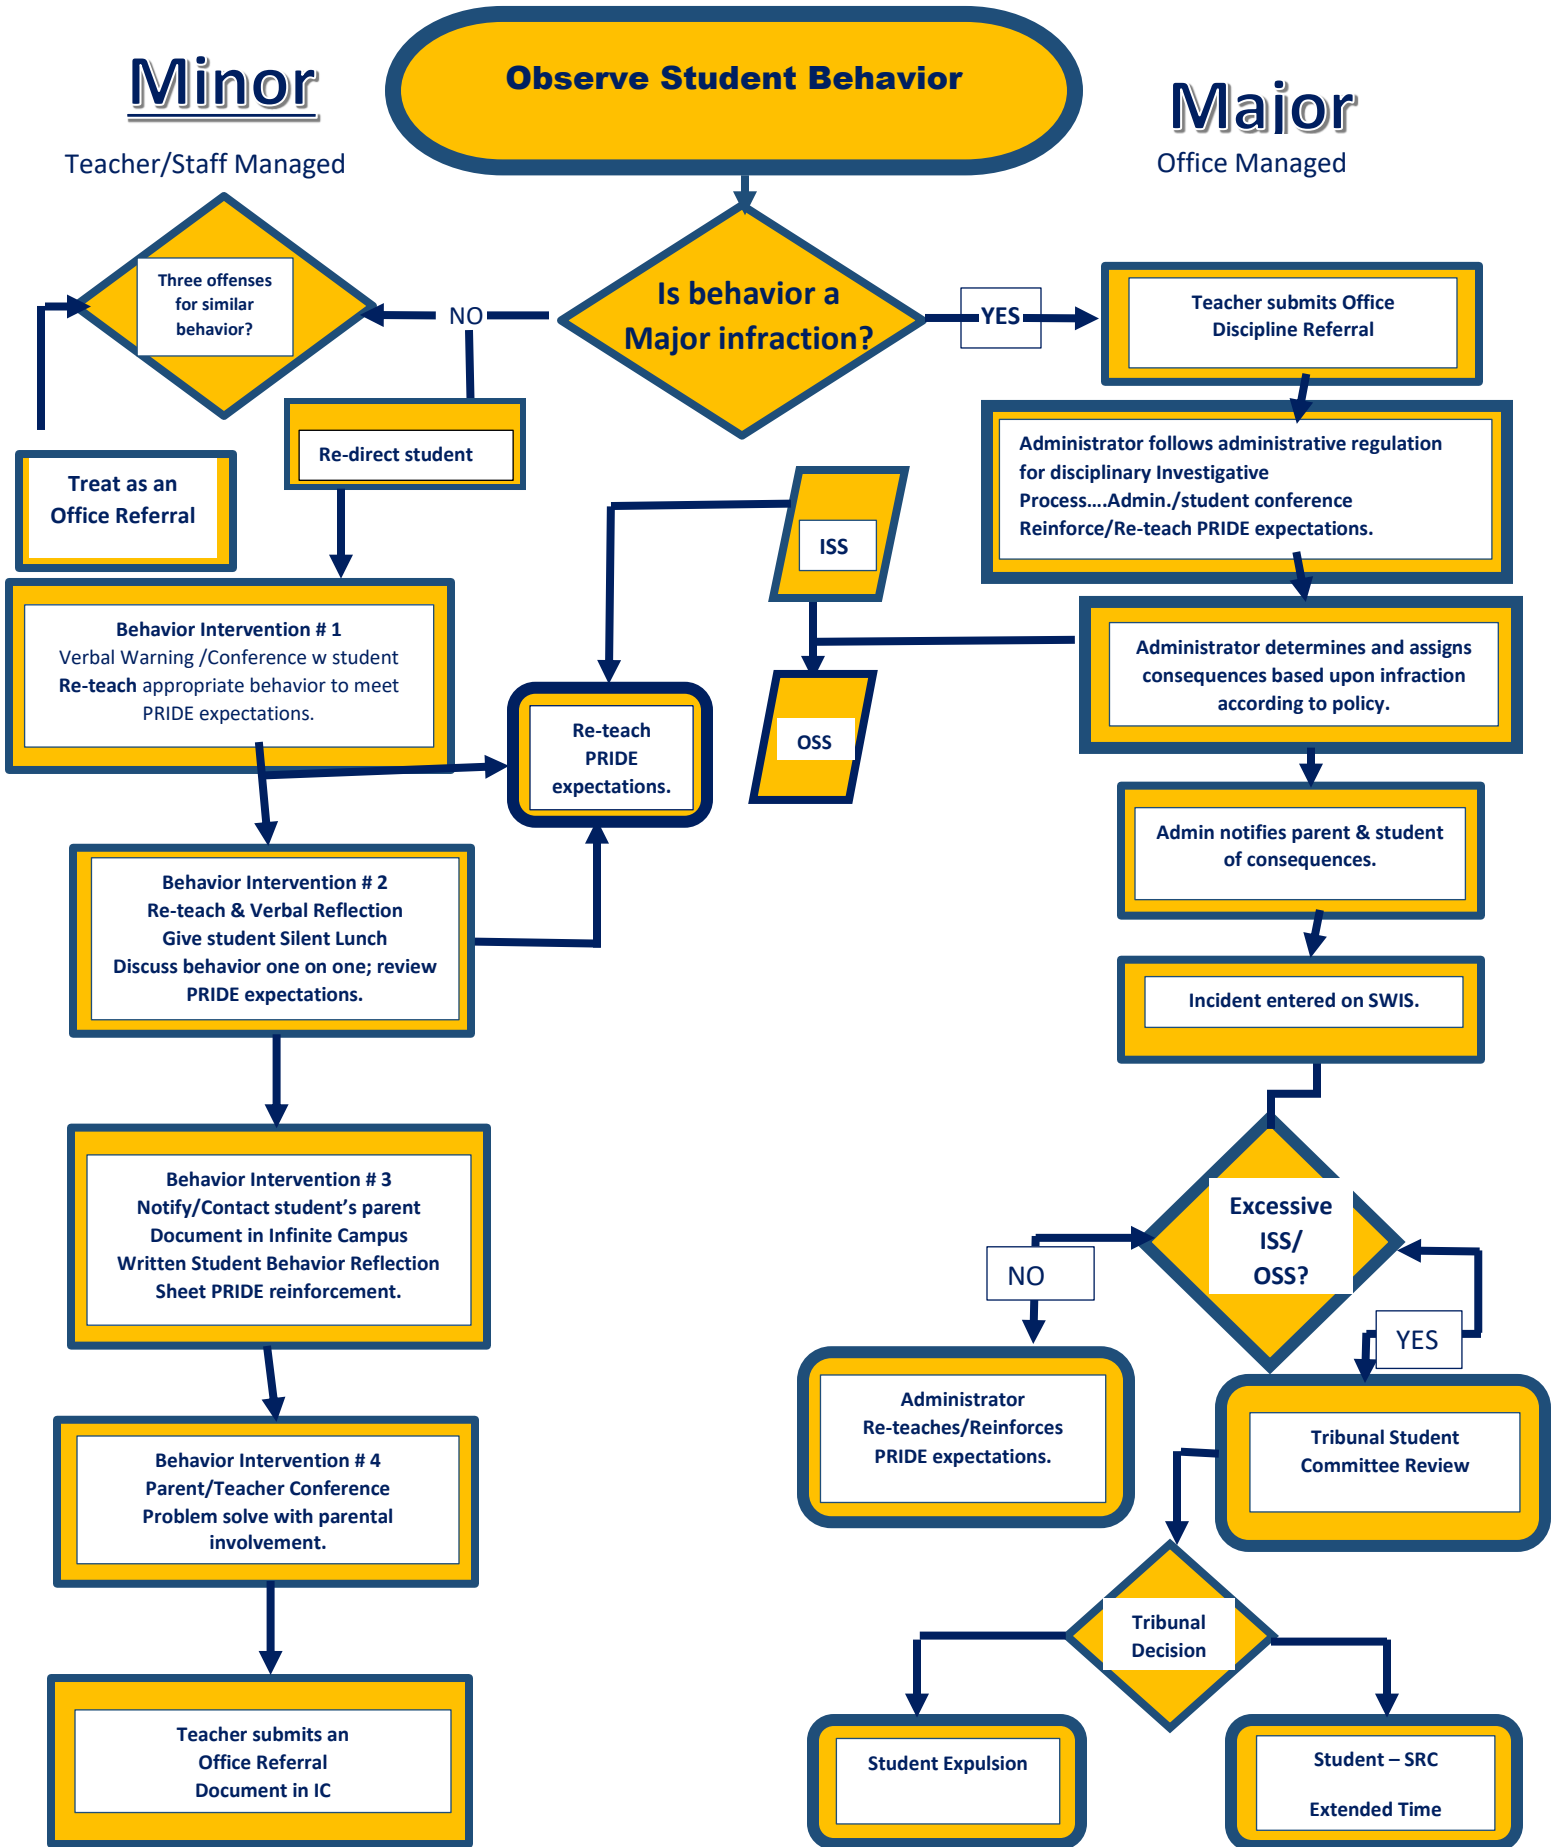

Correction Technique	Words/actions an adult can use
Prompt	Provide verbal and/or visual cue.
Redirect	Restate the matrix behavior.
Reteach	State and demonstrate the matrix behavior. Have student demonstrate. Provide immediate feedback.
Provide Choice	Give choice to accomplish task in another location, about the order of task completion, using alternate supplies to complete the task or for a different type of activity that accomplishes the same instructional objective.
Conference	Describe the problem. Describe the alternative behavior. Tell why the alternative is better. Practice. Provide feedback.

Specific student conference procedures:

1. Positive, private, using quiet voice
2. Describe the problem
3. Describe the alternative (what the student should do instead)
4. Tell why alternative is better
5. Practice (student should tell and/or show)
6. Provide feedback

Part of these guidelines was adapted from Center for PBS, College of Education, University of Missouri, Missouri School-wide Positive Behavior Support (MO SW-PBS)

# Active Supervision Guidelines

Active Supervision is a monitoring procedure that uses three components: moving, scanning and interacting frequently.

## Moving Effectively

- Constant
- Make presence known and obvious
- Proximity to all students
- More frequent proximity to students requiring extra support
- Randomized
- Targets Problem Areas

## Scanning Effectively

- All students observed on a regular basis
- Make eye contact with students in more distant locations of the room
- Look and listen for signs of a problem

## Interacting Frequently

- Positive contacts
- Friendly, helpful, open demeanor
- Proactive, non-contingent
- High rate of delivery
- Positive reinforcement
- Immediate and contingent on behavior
- Delivered at high rates and consistently
