Any student that begins the academic year ineligible will sit out of all competition for the first three weeks of school. These students will only be able to practice during the first three week probationary period. The ineligible student must sit out any scheduled games during this three week period. At the beginning of the fourth week the ineligible student's grades will be checked every Wednesday using Powergrade by the Cook Middle School athletic director. The ineligible student will then have an opportunity to become eligible on a week by week basis if ALL classes have a grade of 70 or above. As per GHSA rules, To be eligible for the second semester sports, a student must have passed 3 out of the 4 academic classes during semester 1.

Student Extracurricular Activities

All Cook County athletes and coaches are expected to demonstrate behavior that reflects pride and excellence in the athletic program at Cook Middle School. We are proud of the winning tradition, which demands the best out of everyone connected with athletics. Appearance coupled with attitude and actions reflect on the student as an individual and as a representative of the school. Students should strive to be the best in their own eyes thereby strengthening the championship tradition that exists at Cook Middle School.

1. All athletes will follow the school conduct rules and will strive to be model students and good examples. It will be the responsibility of the entire coaching staff to make all athletes aware of their expectations and to see that rules are enforced and adhered to consistently.
2. In order to participate in any athletic activity, each student must meet all current Georgia High School Association eligibility requirements.
3. The coach of each respective sport will have the right and responsibility of selecting and supervising his/her athletes. All athletes will adhere to general rules set by the athletic department.
4. If an athlete violates a school rule or breaks the law, the team coach, athletic director, and principal will decide the proper action to be taken in regard to the athlete's participation in our athletic program. All athletes who are referred to the office for disciplinary action will be treated on the same basis as a non-athlete. **Any student assigned to ISS at 3:00 or is absent on the day of a sporting event MAY NOT participate.**
5. An athlete who elects to "quit" a team during that particular season will be required to "sit-out" the remainder of that regular season before he/she can begin participation in any other sport. All cases will be reviewed by the administration and the coach. Athletes must see that all equipment issued by the school is returned immediately upon his/her quitting.
6. An athlete who consistently does not attend practice or is dismissed from the team by the coach is considered quitting.
7. Athletes will be expected to be neat in appearance during the school year. Hair must be neat and well groomed year round. Athletes in violation of this rule will be suspended from participation until in compliance.
8. Athletes will be transported to out-of-town events by transportation provided by the school. If an athlete travels to an athletic event on a school bus, he/she will return on the bus unless the coach releases the athlete to a parent or legal guardian in writing. **Athletes will be released to their parents/guardians and no one else.**
9. Good sportsmanship conduct will be expected at all times from all athletes. Athletes are expected to exhibit good manners and good behavior at all times.

10. All athletic uniforms must be worn as they are designed to be worn. The coach will decide all uniform policies for his/her sport.
11. Missing practice is a serious violation of athletic conduct. Unexcused absences will not be tolerated. If there is a need to be absent from school athletic practice, it is the responsibility of the athlete to clear this with his/her coach. Each coach will outline the rules for practice requirements.
12. All students participating in athletics, including practice sessions must be properly insured against accidents. Proof of insurance is required to participate. School insurance is available for purchase if needed. The Cook County Board of Education **DOES NOT** provide insurance coverage for athletic competition.
13. All students are encouraged to participate in as many extracurricular activities as they desire. Students wishing to participate in activities, whose seasons coincide, must have written permission from the head coach of each respective sport as well as the athletic director in order to participate.
14. Before a player can be removed from the athletic program, the principal and the athletic director must approve the action.
15. Physical examinations are required by state law. Cook Middle School sets up one appointment during the spring of the school year for physicals. These are free of charge to the athletes and cheerleaders. Any other examination or referrals to specialists are the responsibility of the parents/guardians of the athlete or cheerleader and will not be paid for by Cook Middle School. All physicals taken after April 1st are valid until the end of the next school year.

Cook County School District / Parents / Visiting a School

Visiting a School

Cook County School District welcomes parents and other community members into our schools for special events, meetings, tours and other occasions. However, keeping our students and staff safe while at school is something we take very seriously. In order to increase security at all of our school buildings, we have started using the School Check- In Visitor Management System to track visitors. This system will be used in conjunction with our existing exterior door buzzers and security cameras.

If you'd like to enter the building farther than the school office, you must register by presenting a valid, government-issued ID to the school's office staff. Registration takes a few minutes the first time because it requires an office staff member to complete the process. It will be quicker during subsequent visits.

Why do we need a visitor management system like School Check- In?

Part of keeping our students safe is knowing who is in our buildings at all times. The School Check- In system allows us to track visitors, contractors and volunteers in our schools, and assist with student checkout. School Check- In conducts a limited background check against the national database of registered sex offenders.

Visitors entering a school beyond the office receive a printed ID sticker that must be worn and visible during the entire stay. This makes it easier for our school staff to know who is allowed inside the school.

What forms of ID will the system accept?

School Check- In accepts any state-issued ID, including state-issued driver's licenses and state ID cards. It also accepts military IDs, government IDs.

What if I don't have a valid form of ID or don't want it scanned?

If you don't have a state- or government-issued ID or don't want your ID scanned, there is still a way for you to get access to our schools, but you will not be able to enter the school without a staff member escorting you. You will need to speak directly with school office staff members, who will provide the school with some form of legal document showing your legal name, date of birth, you will also be asked your relationship to the student and reason for visiting. Office staff will manually confirm your identification from your legal documents and run a background check.

What type of background check does School Check- In run?

School Check- In scans your name, date of birth and a photo for comparison with a national database of registered sex offenders, but it does not check criminal or traffic history.

Will you scan my ID every time I visit?

Yes. The first time you come to the school office, office staff will scan your ID and register you in the system. Your registration will be good at all Cook County buildings. After you have registered, you will be able to have your ID quickly scanned in the school office when you visit. If you are entering the building beyond the school office, an ID sticker will print for you to wear during your stay. ID stickers make it easy for school staff to know you checked in and are approved to visit.

What information does School Check- In scan and keep?

School Check- In collects and stores your full name, date of birth, first four digits of your license number and photo when your ID is scanned. It does not keep a digital copy of your ID.

How does School Check- In keep my data secure?

School Check- In uses firewalls, intrusion prevention systems, host integrity monitoring and port filtering, as well as the latest security processes to protect all of its systems and data. All information entered into School Check- In gets encrypted using 256-bit AES encryption. School Check- In does not share data with any third parties.

What if I have an outstanding warrant or am undocumented? Will you report me to the police or immigration?

The National Sex Offender Public Registry and Cook County School District's student information system are the only two databases that School Check- In checks. The system will not alert office staff or even know if you have an outstanding warrant or are undocumented.

Cook County School District does cooperate with police. If authorities contact us to alert us to someone who might pose a threat to school safety, this information can be entered into the system so administration gets alerted if that person visits one of our schools.

Are vendors and other regular school visitors who enter the building required to have an ID scanned?

Yes. Everyone who enters the building beyond the school office will be required to have an ID scanned and wear a printed ID sticker.

What happens if I am a registered sex offender but have a child at the school?

Upon scanning your ID, a silent alert goes to office staff members so they can meet with you privately.

According to Cook County Board of Education policy, the superintendent may grant permission for a parent, guardian or custodian of a student to be on district property for the limited purpose of attending meetings with

district staff or in other situations where the student may benefit. Permission will be granted sparingly, if ever, and only in situations where the parent, guardian or custodian will be supervised at all times or will not be alone with a child. If the superintendent does not grant permission, the parent, guardian or custodian may seek permission from the board. The superintendent will inform the principal and other relevant district staff of the scope of the permission granted.

Do other schools and institutions use a system like this?

Yes. Some surrounding districts use School Check- In to help ensure school and student safety.

STUDENT ATTENDANCE PROTOCOL
2022-2023
Cook County Schools

This document includes a protocol for addressing and decreasing the incidence of truancy in Cook County. This protocol reflects commitments that various local agencies, offices, and individuals have made to promote the educational progress of children and families in Cook County.

This protocol was created by a local Student Attendance Protocol Committee, which included representatives of the following entities:

Cook County Superior Court
Cook County Juvenile Court
Cook County District Attorney's Office
Georgia Department of Juvenile Justice
Cook County Board of Education Representatives
Cook County Board of Education Attorney
Cook County Sheriff's Office
Cook County Department of Family and Children Services
Cook County Health Department
Cook County CCY (Family Connection)
Cook County Chamber of Commerce
Chief of Police from Adel, Lenox, and Sparks

The purpose of the committee is to make recommendations to the Cook County Board of Education regarding attendance policy and procedures, as well as to create guidelines for collaboration between local and state agencies having an interest or function related to educational achievement and school attendance in Cook County.

The Student Attendance Protocol Committee has agreed upon procedures, which are intended to allow the reduction of truancy at the individual, family, and community levels. It is understood, however, that these procedures are general guidelines, and extenuating circumstances may be considered, as allowable by law, for each student and family. In addition, it is understood that each state and local agency involved must first adhere to its own policies, which were considered in the development of this protocol.

Operational Authority

The Student Attendance Protocol Committee is operational under authority of the chief superior court judge as defined in O.C.G.A. 20-2-690.2. Following adoption of this written protocol and filing with the Georgia Department of Education (GADOE), the committee will meet quarterly during its first year and twice annually thereafter for the purpose of evaluating compliance and effectiveness, and to modify the protocol as appropriate.

Code of Conduct For All Middle School Students in the COOK County Schools

It is the purpose of the COOK County School District to operate each school in a manner that will provide an orderly process of education and that will provide for the welfare and safety of all students who attend the schools within the district. In accordance with that purpose, the Cook County Board of Education has adopted a policy which requires all schools to adopt codes of conduct which provide guidelines of behavior for students in order to facilitate a learning environment for themselves and other students. These standards of behavior require students to respect each other and school district employees, to obey student behavior policies adopted by the Board, and to obey student behavior rules established at the school within the district.

The school's primary goal is to educate, not to punish; however, when the behavior of an individual student comes in conflict with the rights of others, corrective action may be necessary for the benefit of that individual and for the school as a whole. Accordingly, students may be governed by policies, regulations and rules set forth in this Code of Conduct.

The Code of Conduct is effective during the following times and in the following places:

- At school or on school property at any time;
- Off school grounds at any school activity, function, or event and while traveling to and from such events;
- On vehicles provided for transportation by the school system.

Also, students may be disciplined for conduct off-campus, which could result in the student being criminally charged with a felony and which makes the student's continued presence at school a potential danger to persons or property at the school or which disrupts the educational process.

Parents are encouraged to become familiar with the Code of Conduct and to be supportive of it in their daily communication with their children and others in the community.

Authority of the Principal

The principal is the designated leader of the school and, in concert with the staff, is responsible for the orderly operation of the school. In cases of disruptive, disorderly, or dangerous conduct not covered in this Code, the principal may undertake corrective measures which he or she believes to be in the best interest of the student and of the school provided any such action does not violate school board policy or procedures.

Parental Responsibilities

The school anticipates the support of parents in dealing with behavioral problems which may arise. Parent cooperation should be apparent to the student/school. Students are expected to show respect for authority and follow school rules, regulations, and procedures at all times. Cook Middle School strongly encourages parents and guardians to inform children of the consequences of misbehavior at

school, including criminal penalties, for violent behavior, underage sexual conduct and crimes for which a minor can be tried as an adult.

Teacher Authority

The school superintendent and principal shall fully support the authority of every teacher to remove a student from the classroom. Any teacher who has knowledge that a student has exhibited behavior which violates the student code of conduct and repeatedly or substantially interferes with the teacher's ability to communicate effectively with the students in his/her class or with the ability of such student's classmates to learn shall file a report of such behavior with the principal or the principal's designee. The principal and teacher shall thereafter follow the procedures set forth in Georgia law, specifically O.C.G.A. 20-2-737-738.

The Superintendent fully supports the authority of principals and teachers in the school system to remove a student from the classroom pursuant to provisions of state law.

Each teacher shall comply with the provisions of O.C.G.A. § 20-2-737 which requires the filing of a report by a teacher who has knowledge that a student has exhibited behavior that repeatedly or substantially interferes with the teacher's ability to communicate effectively with the students in his or her class or with the ability of such student's classmates to learn, where such behavior is in violation of the student code of conduct. Such a report shall be filed with the principal or designee on the school day of the most recent occurrence of such behavior, shall not exceed one page, and shall describe the behavior. The principal or designee shall, within one school day after receiving such a report from a teacher, send to the student's parents or guardian a copy of the report and information regarding how the student's parents or guardians may contact the principal or designee.

The principal or designee shall notify in writing the teacher and the student's parents or guardian of the discipline or student support services which have occurred as a result of the teacher's report within one school day from the imposition of discipline or the utilization of the support services. The principal or designee shall make a reasonable attempt to confirm that the student's parents or guardian has received the written notification, including information as to how the parents or guardian may contact the principal or designee.

The following disciplinary actions may be imposed by school administrators for any violation of this Code of Conduct:

- Warning and/or Counseling with a School Administrator or Counselor
- Loss of Privileges
- Isolation or Time Out
- Temporary Removal from Class or Activity
- Notification of Parent
- Parent Conference
- Detention / Saturday School Detention
- In-School Suspension

- Short-term Suspension
- Placement in an Alternative Education Program
- Referral to a Tribunal for Long-term Suspension or Expulsion
- Suspension or Expulsion from the School Bus
- Referral to Law Enforcement of Juvenile Court Officials: Georgia law requires that certain acts of misconduct be referred to the appropriate law enforcement officials. The School will refer any act of misconduct to law enforcement officials when school officials determine such referral to be necessary or appropriate.

Before a student is suspended for ten days or less, the principal or designee will inform the student of the offense for which the student is charged and allow the student to explain his or her behavior. **If the student is suspended, the student's parents will be notified if possible.** School officials may involve law enforcement officials when evidence surrounding a situation necessitates their involvement or when there is a legal requirement that an incident be reported.

The maximum punishments for an offense include long-term suspension or expulsion, including permanent expulsion; however, only a disciplinary tribunal as outlined in the COOK County Board of Education policies will determine those punishments.

In the event that a student is referred to a disciplinary tribunal, parents or the student may elect not to contest whether the student has violated the Code of Conduct or the appropriate discipline, and in such cases, an agreement may be negotiated which would include the parents or student waiving a right to a hearing before a disciplinary tribunal. The tribunal facilitator from the superintendent's office must approve such an agreement or waiver.

SEARCH AND SEIZURE

Students and parents are hereby notified that school officials may search a student if there is reasonable suspicion the student is in possession of an item that is illegal or against school rules. Student vehicles brought on campus, student book bags, school lockers, desks and other school property are subject to inspection and search by school authorities at any time without further notice to students or parents. Students are required to cooperate if asked to open book bags, lockers or any vehicle brought on campus. Metal detectors and drug or weapon sniffing dogs may be utilized at the school or at any school function, including activities which occur outside normal school hours or off the school campus at the discretion of administrators. A student's failure to permit search and seizure will be considered grounds for disciplinary action. All confiscated items will be TURNED OVER TO SRO.

Assembly Behavior

Students are expected to behave appropriately during assemblies. They should remain seated until the program is completed even if the bell rings. Provisions will be made for them to return to class without a tardy. Cat calls and unnecessary noises are not appropriate. Sleeping and talking are not appropriate.

Students not behaving appropriately will be disciplined, and he/she will not be allowed to attend future assemblies.

BAT - (Behavior Team Analysis)

Once a student receives 2 days of ISS on the discipline chart, they will be referred to the BAT in which a behavior plan process will begin. The assistant principals are responsible for the referral. Teachers may also complete referrals in response to student behaviors and concerns.

Book Bags -

In classrooms, teachers may develop specific policies regarding book bags. On school buses, book bags should always be held securely or placed under the student's seat. All book bags, backpacks, gym bags, etc. should be clearly marked with the student's name so the owner of the item can be identified immediately. Students should never carry large amounts of money to school, and they should not place anything of value in the exterior pockets of book bags or backpacks or in bags that open at the top. Student property, including but not limited to backpacks, book bags, athletic bags, and purses, may be searched by school administrators when reasonable suspicion exists. Any search of a student shall be conducted in a manner designed to preserve the privacy and dignity of the student to the extent possible according to the circumstances of the situation.

Cell Phone & Electronic Device Policy

The regulations of electronic devices include the following:

- a. Cell phones and all electronic devices and accessories must be turned off, out of sight and cannot be used during class time, unless permission is given by the teacher. Teachers may require students to put their cell phone in a designated area during class time.

Bullying

The Cook County School District believes that all students have a right to a safe and healthy school environment. All schools within the district have an obligation to promote mutual respect, tolerance, and acceptance among students, staff, and volunteers. Behavior that infringes on the safety of any student will not be tolerated. A student shall not bully, harass, or intimidate another student through words or actions. Such behavior includes but is not limited to: direct physical contact such as hitting or shoving; verbal assaults such as teasing or name-calling; the use of electronic methods to harass, threaten or humiliate, and social isolation and/or manipulation.

HB 131-End to Cyberbullying Act

Issue: O.C.G.A. § 20-2-751.4 requires every local board to have a policy prohibiting bullying and to notify students and parents of such prohibition in the student handbook or code of conduct. Effective now, the bullying definition is revised as to acts of bullying that involve electronic communication. The old definition was limited to an act “by use of data or software that is accessed through a computer, computer system, computer network, or other electronic technology of a local school system,” that otherwise complies with the statute. The new definition also applies to acts of cyberbullying which occur through the use of electronic communication, “whether or not such electronic act originated on school property or with school equipment, if the electronic communication (1) is directed specifically at students or school personnel, (2) is maliciously intended for the purpose of threatening the safety of those specified or substantially disrupting the orderly operation of the school, and (3) creates a reasonable fear of harm to the students' or school personnel's person or property or has a high likelihood of succeeding in that purpose.”

The school district policy prohibiting bullying is included in the student code of conduct and includes but is not limited to the following:

- Any student who engages in bullying shall be subject to disciplinary action up to and including expulsion.
- Students are expected to immediately report incidents of bullying to the principal or designee.

- Students can rely on staff to promptly investigate each complaint of bullying in a thorough and confidential manner.
- If the complainant student or the parent of the student feels that appropriate resolution of the investigation or complaint has not been reached after consulting the school principal, the student or the parent of the student should contact the local superintendent or his or her designee.
- The school system prohibits retaliatory behavior against any complainant or any participant in the complaint process.

All students and/or staff shall immediately report incidents of bullying, harassment and intimidation to the school principal or designee. School staff members are expected to immediately intervene when they see a bullying incident occur. Each complaint of bullying shall be promptly investigated. This policy applies to students on school grounds, while traveling on a school bus to and from school or a school-sponsored activity and during a school-sponsored activity.

Bullying, harassment or intimidation will not be tolerated. Disciplinary action will be taken after each incident of bullying and upon a finding of guilt. Disciplinary action after the first incident of bullying may include but is not limited to the following:

- Loss of a privilege
 - Reassignment of seats in the classroom, cafeteria or school bus
 - Reassignment of classes
 - In-school suspension
 - Out-of-school suspension
 - Detention
 - Expulsion (through appropriate due process hearing)
 - Assignment to an alternative school (through appropriate due process hearing)

If necessary, counseling and other interventions should also be provided to address the social-emotional, behavioral, and academic needs of students who are victims of bullying and students who commit an offense of bullying.

Students, parents/guardians and other stakeholders may report incidents of bullying to an administrator, teacher, counselor or other staff member by using the school district's complaint procedures or by calling the Georgia Department of Education's 1-877 SAY-STOP (1-877-729-7867) School Safety Hotline. Please note: Any form of electronic bullying (cyberbullying) using school equipment, school networks, e-mail systems or committed at school is strictly prohibited. The procedures for intervening in bullying behavior include, but are not limited, to the following:

- All staff, students and their parents will receive a summary of this policy prohibiting bullying at the beginning of the school year as part of the student code of conduct.
- The school shall keep a report of bullying and the results of an investigation confidential.
- Staff are expected to immediately intervene when they see a bullying incident occur or upon receipt of any report of bullying.
- People witnessing or experiencing bullying are encouraged to report the incident to the school principal designee.

The following actions will be taken when bullying is reported:

Investigate

- Upon receipt of any report of bullying, schools will direct an immediate investigation involving appropriate personnel. The investigation should begin no later than the following school day.

The investigation shall include interviewing the alleged perpetrator(s) and victim(s), identified witnesses, teacher(s) and staff members and reviewing video surveillance if available. School police, school counselors, school social workers and/or other support staff should be utilized for their expertise as determined by the circumstances of the matter.

Notify

- At an appropriate time during or after the investigation, parents/guardians of the accused and the victim must be notified. If the incident involves an injury or similar situation, appropriate medical attention should be provided and the parent/guardian should be notified immediately.

Discipline

- Upon confirming that bullying has occurred, the accused student should be charged with bullying and given an age-appropriate consequence which shall include, at minimum and without limitation, disciplinary action or counseling as appropriate under the circumstances.
- Students in grades six through twelve found to have committed the offense of bullying for the third time in a school year shall be assigned to an alternative school through appropriate due process by disciplinary hearing officers, panels, or tribunals.

Schools should clearly communicate to all parties that retaliation following a report of bullying is strictly prohibited and may result in strong disciplinary action.

Follow Up

- Follow up is important to the accused and the victim. Implement a planned method to provide aftercare and follow up. Reiterate to all the previously stated prohibition on retaliation.

ANTI-VAPING CODE

The Cook County School District is committed to the health, safety, and welfare of its students. The District has determined that the use of vapes, vaporizers, e-cigarettes, or other devices used to inhale vapor by means of an electronic device ("vaping") is harmful to the health of students and the good order of the School District. Vaping requires the use of a purpose-made or homemade device that vaporizes oil that may contain flavoring, nicotine, Cannabidiol ("CBD") oil of varying concentrations, tetrahydrocannabinol ("THC") oil of varying concentrations, or other substances that may or may not be legal to possess ("vape"). A vaping device is generally composed of a vaporizer, battery, reservoir for smoking oil, and a battery charger. By way of example and not as a limitation, vaping devices may be called vapes, Juuls, e-cigarettes, e-cigs, dab pens or other brand names.

It will be a violation of the Cook County Discipline Code to possess, use or transfer a vape as provided below.

For purposes of this section, the following definitions will apply:

- Cannabis. Tetrahydrocannabinol (THC) and cannabidiol (CBD) are the two primary cannabinoids that occur naturally in the cannabis sativa plant.
- CBD Oil. CBD oil is derived from a cannabis plant called hemp. Hemp contains a very high concentration of CBD and less than .3% by volume of THC.
- Low-THC Oil. Low-THC oil is derived from the cannabis plant that produces marijuana. Low-THC oil contains no more than 5% by volume of THC and may only be possessed or used under a doctor's supervision with a prescription. Possession of Low-THC oil without a valid prescription is a felony.

- THC Oil. THC oil is derived from the cannabis plant and contains more than 5% by volume of THC. Some THC oil may contain up to 98% by volume of THC (3 - 5 times stronger than typical marijuana). Possession of THC oil is a felony.
- Vape. A vape is a purpose-made or homemade device that electronically vaporizes liquid to allow a user to inhale the vapor created in the lungs (i.e. vapes, juuls, e-cigarette, e-cig, dab pen, vape sticks, etc.) Vape will include individually or together vape battery(ies), reservoir(s), vaporizer(s), and/or vape charger(s).
- Vape Juice. Vape juice is a slang term for the liquid used by the vaporizer to create vapor. Vape juice may contain flavored juice, CBD oil, Low THC oil or THC oil.

At present, there is no proven technology to quickly, easily and accurately test vape juice to identify its composition as flavored juice, nicotine juice, CBD oil, Low-THC oil or THC oil. Because of the documented, extreme health effects associated with high concentration THC oil this code creates a rebuttable presumption that vapes and vape juice contain THC oil. Absent clear and convincing evidence to the contrary the possession and/or use of vape juice will be treated as a Level 5 violation of this code.

1 THE USE, ATTEMPT TO POSSESS, OR THE POSSESSION INDIVIDUALLY OR IN CONNECTION WITH OTHERS OF VAPE JUICE CONTAINING NICOTINE OR CBD OIL IN OR OUT OF A VAPE.

REPORTING CCSD Police

Message to Parents: Vaping Policy

Dear Parents:

While CCSD's student discipline code already prohibits the possession or use of vaping devices and oils anywhere on campus, this new policy adds more serious repercussions.

There has been a rising number of students not only using these devices at school to inhale nicotine, but also marijuana-based CBD and THC oil and other oils with dangerous contents that often are unknown to the student due to lack of regulation of these products. Students are becoming ill, overdosing, having seizures, passing out and requiring 911 response and hospitalization due to vaping. Students are encouraging classmates to try their devices at school and are using devices in

shared spaces such as restrooms... further expanding the number of students negatively impacted by vaping.

Any students found with vaping devices or oil will be treated as if they are in possession of felony-level marijuana CBD and THC oil. Punishments will include immediate external suspension from school, long-term reassignment to an alternative school and possible expulsion.

Students must prove that their devices and oils do not contain marijuana-derived CBD and THC oil in order to avoid the most serious punishments, but even if that is proved, students still will face discipline for possessing nicotine-based or other vaping products (if you are not aware, these products are not legal for children younger than 18 to purchase or possess anywhere in Georgia).

We agree there are many other negative issues that impact students, from bullying to academic stress to economic struggles, and all of those are a priority and addressed through different policies and practices. Vaping is a new and serious threat to our students that is not yet on the radar of all parents. We need you to join us in helping protect the health of students by talking with your children about the dangers of vaping.

Information about this discipline code policy is being shared with all middle and high school students during school today by their Principal, and that message is online [here](#). The U.S. Surgeon General website lists tips on how to talk with your child about vaping. If your child already is vaping and may be addicted to nicotine or THC, please seek assistance for them. GIFTED EDUCATION
COOK COUNTY SCHOOLS
2019-20

DEFINITION: The definition of a student eligible for gifted education services in Georgia may be found in the Official Code of Georgia Annotated. This section defines services for students as intellectually gifted. The definition is expanded in Georgia Board of Education Rules 160-4-2-.08 Gifted Education and 160-4-2-.38 Education Program for Gifted Students. The latter states in section (2) definitions, (a) Gifted Student: " . . . a student who demonstrates a high degree of intellectual, creative and/or artistic ability(ies), possesses exceptional leadership skills, or excels in specific academic fields and who needs special instruction and/or special ancillary services to achieve at levels commensurate with his or her abilities."

REFERRAL PROCEDURES: Student referrals shall be non-discriminatory with respect to race, religion, national origin, sex, disability, or economic background. Students may be referred in the following ways:

1. Automatic Referral: Any student who scores 90% on state adopted norm referenced test on total reading, total math, or total battery shall be referred for further testing. Reasonable consideration shall be applied to this referral procedure concerning the number of times a given student should be referred after mental ability testing indicates he/she is not qualified. Factors to be considered include difference between obtained score and required score; possibility of detriment to the student's self-esteem; and social or developmental factors that indicate the need for additional testing.
2. A teacher or any responsible person who has knowledge of the student's intellectual functioning may also refer a student. This may include teachers, parents, self or peers.
3. Re-evaluation of Ineligible Students: Unless there is compelling evidence that a child's performance level has changed, a two year waiting period is recommended.

Section 504 of the Rehabilitation Act of 1973, commonly referred to as "Section 504," is a nondiscrimination statute enacted by the United States Congress. The purpose of Section 504 is to prohibit discrimination and to assure that disabled students have educational opportunities and benefits equal to those provided to non-disabled students.

Section 504 Procedural Safeguards

1. Overview: Any student or parent or guardian ("grievant") may request an impartial hearing due to the school system's actions or inactions regarding your child's identification, evaluation, or educational placement under Section 504. Requests for an impartial hearing must be in writing to the school system's Section 504 Coordinator; however, a grievant's failure to request a hearing in writing does not alleviate the school system's obligation to provide an impartial hearing if the grievant orally requests an impartial hearing through the school system's Section 504 Coordinator. The school system's Section 504 Coordinator will assist the grievant in completing the written Request for Hearing.

2. Hearing Request: The Request for the Hearing must include the following:

- a. The name of the student.
- b. The address of the residence of the student.
- c. The name of the school the student is attending.
- d. The decision that is the subject of the hearing.
- e. The requested reasons for review.
- f. The proposed remedy sought by the grievant.
- g. The name and contact information of the grievant.

Within 10 business days from receiving the grievant Request for Hearing, the Section 504

Coordinator will acknowledge the Request for Hearing in writing and schedule a time and place for a hearing. If the written Request for Hearing does not contain the necessary information noted above, the Section 504 Coordinator will inform the grievant of the specific information needed to complete the request. All timelines and processes will be stayed until the Request for Hearing contains the necessary information noted above.

3. Mediation: The school system may offer mediation to resolve the issues detailed by the grievant in his or her Request for Hearing. Mediation is voluntary and both the grievant and school system must agree to participate. The grievant may terminate the mediation at any time. If the mediation is terminated without an agreement, the school system will follow the procedures for conducting an impartial hearing without an additional Request for Hearing.

4. Hearing Procedures:

The Section 504 Coordinator will obtain an impartial review official who will conduct a hearing within 45 calendar days from the receipt of the grievant's Request for Hearing unless agreed to otherwise by the grievant or a continuance is granted by the impartial review official.

Upon a showing of good cause by the grievant or school system, the impartial review official, at his or her discretion, may grant a continuance and set a new hearing date. The request for a continuance must be in writing and copied to the other party.

The grievant will have an opportunity to examine the child's educational records prior to the hearing.

The grievant will have the opportunity to be represented by legal counsel at his or her own expense at the hearing and participate, speak, examine witnesses, and present information at the hearing. If the grievant is to be represented by legal counsel at the hearing, he or she must inform the Section 504 Coordinator of that fact in writing at least 10 calendar days prior to the hearing. Failure to notify the Section 504 Coordinator in writing of representation by legal counsel shall constitute good cause for continuance of the hearing.

The grievant will have the burden of proving any claims he or she may assert. When warranted by circumstances or law, the impartial hearing officer may require the recipient to defend its position/decision regarding the claims (i.e. A recipient shall place a disabled student in the regular educational environment operated by the recipient unless it is demonstrated by the recipient that the education of the person in the regular environment with the use of supplementary aids and services cannot be achieved satisfactorily. 34 C.F.R. §104.34). One or more representatives of the school system, who may be an attorney, will attend the hearing to present the evidence and witnesses, respond to the grievant testimony and answer questions posed by the review official.

The impartial review official shall not have the power to subpoena witnesses, and the strict rules of evidence shall not apply to hearings. The impartial review official shall have the authority to issue pre-hearing instructions, which may include requiring the parties to exchange documents and names of witnesses to be present.

The impartial review official shall determine the weight to be given any evidence based on its reliability and probative value.

The hearing shall be closed to the public.

The issues of the hearing will be limited to those raised in the written or oral request for the hearing.

Witnesses will be questioned directly by the party who calls them. Cross-examination of witnesses will be allowed. The impartial review official, at his or her discretion, may allow further examination of

witnesses or ask questions of the witnesses.

Testimony shall be recorded by court reporting or audio recording at the expense of the recipient. All documentation related to the hearing shall be retained by the recipient.

Unless otherwise required by law, the impartial review official shall uphold the action of the school system unless the grievance can prove that a preponderance of the evidence supports his or her claim.

Failure of the grievance to appear at a scheduled hearing unless prior notification of absence was provided and approved by the impartial review official or just cause is shown shall constitute a waiver of the right to a personal appearance before the impartial review official.

5. Decision: The impartial review official shall issue a written determination within 20 calendar days of the date the hearing concluded. The determination of the impartial review official shall not include any monetary damages or the award of any attorney's fees.

6. Review: If not satisfied with the decision of the impartial review official, any party may pursue any right of review, appeal, cause of action or claim available to them under the law or existing state or federal rules or regulations.

Cook County School District
Bus Rider's
Safety Management Plan Handbook
Transportation Office
(229) 896-2294

Dear Parent:

The CCSD provides transportation to and from school as a courtesy for eligible students residing in the district. The State of Georgia prescribes the conditions governing school bus operations and funds the service by allowing the District a given amount for eligible students transported.

Eligible students are defined by State statute as those residing in the District at least two miles from the school they should attend, as measured by the nearest practical route. The nearest practical route is the nearest traveled public road which may or may not be the road used by the school bus. However, in Cook County, we transport all students regardless of the distance that they may live from the school. Address eligibility is continually audited year round so that we may determine whether a student is riding the proper bus. CCSD does not run buses on private roads.

In order to meet the conditions outlined by the State and provide safe, prompt movement of students, the School district has adopted standard regulations and procedures and has provided restrictive

measures for violations of the rules. For your information, these guidelines and regulations are outlined in this handbook.

The School District is pleased to provide transportation for its eligible students and solicits your assistance in helping create a safe and healthy operation. You may do so by reading this handbook and acknowledge receipt by completing a consent form provided by the bus driver and return this form within three days to the bus driver. We ask your cooperation with school personnel in developing proper behavior for those who ride buses.

If you need information concerning bus routes, call the Transportation office.

Thank You

Bus Safety Information

Bus Rules

Parents or guardians are responsible for the safety, conduct, and timely arrival of their children to, from, and at the designated school bus stop before the arrival of the school bus for pick-up and transport to school and the timely departure of the child after the school bus leaves the designated school bus stop after transporting the children from school.

School bus transportation plays a critical role in the education of our nation's students and is the direct link between a neighborhood and the classroom. More than 25 million children ride the yellow bus every school day. Here are tips to keep our children safe at the bus stop from the National Association for Pupil Transportation.

Getting Ready for School

- Have your children put everything they carry in a backpack or school bag so that they won't drop things along the way.
- Encourage them to wear bright, contrasting colors so they will be more easily seen by drivers.
- Make sure children leave home on time so they can arrive at the bus stop before it is due,

ideally at least five minutes early. Running after or in front of a bus is dangerous.

Walking to the Bus Stop

- Walk young children to the bus stop or encourage children to walk in groups. There is safety in numbers; groups are easier for drivers to see.
- Practice good pedestrian behavior: walk on the sidewalk, and if there is no sidewalk stay out of the street. If you must walk in the street, walk single file, face traffic and stay as close to the edge of the road as you can.
- Stop and look left, right and then left again if you must cross the street. Do the same thing at drive -ways and alleys. Exaggerate your head turns and narrate your actions so your child knows you are looking left, right and left.

At the Bus Stop

- Have children wait in a location where the driver can see them while driving down the street. Try to avoid waiting in a house or car.
- Do not let children play in the street. Playing with balls or other toys that could roll into the street is also dangerous.

Getting On and Off the Bus

- Warn children that if they drop something getting on and off the bus, they should never pick it up. Instead, they should tell the driver and follow the driver's instructions.
- Remind children to look to the right before they step off the bus.
- If you meet your child at the bus stop after school, wait on the side where the child will be dropped off, not across the street. Children can be so excited to see you after school that they dash across the street and forget the safety rules.

Mobile Devices

Cell phones and other electronic devices can be permitted on the school bus as long as:

- The Bus driver has given permission to use electronic devices on the bus.
- They are in backpacks or other holders, keeping hands free to use handrails while boarding and departing the bus.
- Sound is muted or headphones, earbuds or similar devices are used.
- Content does not violate the law or school district policy and procedures.
- Students cannot communicate or video on cellphones while on the bus.
- Use does not create a distraction for the driver.

Bus Expectations

Bus Safety:

1. Obey bus driver instructions at all times
2. Remain seated, facing forward
3. Be respectful by keeping hands to self and using appropriate language
4. Do not throw items inside the bus or out of the window
5. Keep all noise levels low, including voices, cell phones, or anything the bus driver indicates is too loud or distracting
6. Bus drivers have the right to assign seats to students.
7. Obey Bus drivers rules that may be posted on the bus.

Driver will enforce disciplinary rules for SAFETY, RESPECT, and RESPONSIBILITY

PARENTS & STUDENTS: Remember these important safety policies:

1. Cell phones, audio, video recording, or any other items determined by the driver to cause disruptive or unsafe conditions may not be transported. Students are responsible for any and all electronics brought onto the bus.

B. Please note - bus driver will give your child(ren) a Consent Form/Receipt of Handbook form that must be completed, signed and returned to the bus driver within 3 days

C. Students must depart the bus at their **designated bus stop** except when the student has a

signed bus stop assignment form from the parent/guardian, approved through the school office, giving permission to get off at another stop. No more than two bus stops may be authorized for each student.

4. Students are responsible to use seatbelts when provided.
5. Parents or guardians are responsible for the safety, conduct, and timely arrival of their children to, from, and at the designated school bus stop before the arrival of the school bus for pick up.
6. Students, parents, or guardians shall arrive at least 10 minutes prior to pick-up or drop off scheduled bus stop times.
7. **Kindergarten students** may not be left unattended or released without an authorized adult at a bus stop. By registering students for home-to-school transportation, parents acknowledge all other grades have the ability to get themselves home.
8. Parents may be financially responsible for any damage done by their student.
9. Prohibited Items: Live animals, weapons, skateboards, scooters, bikes, balloons, glass containers. Large products should be transported by parent/guardian.

SCHOOL BUS DISCIPLINE PROCEDURE

COOK COUNTY SCHOOL DISTRICT TRANSPORTATION

The Cook County District Transportation system exists to provide safe and efficient transportation to and from each child's educational learning environment. Students who have the opportunity to ride district school buses may do so as long as they display behavior that is reasonable and safe. Choosing to engage in unacceptable behavior will result in loss of bus service. As per Georgia law "Riding a school bus is a privilege, not a right."

- Every time a student violates a bus rule raises the chance a driver is distracted.
- Therefore, every time a student violates a bus rule directly raises the chance of a bus being in an accident.

The responsibility for student supervision by the District shall begin when the lights are activated on the bus in the morning and is retained until the child leaves the bus at the end of the day; or until released to the parent/guardian in a manner consistent with guidelines on release of students. Drivers are responsible for student conduct on their bus.

The Student Transportation Code of Conduct, as well as, each school Student Code of Conduct is in effect on the bus and at bus stops. When necessary, the Transportation Supervisor will conduct a preliminary investigation for violations of these rules that have occurred on the school bus or at bus stops. All student codes of conduct are in accordance with the Cook County School District Board Policy **JCDAD-R/EDCB-R** Code of Conduct.

The following information is a guideline for disciplinary actions when rules are violated. These guidelines are subject to change depending upon the severity of the student's actions. The transportation administrator and Student Services Director will review as required disciplinary consequences so it's effective and fair to all stakeholders to ensure a safe, orderly, and effective bus environment. Any violation of District school bus policy could be recommended for an expulsion hearing or could be removed from all Cook County public school buses for the remainder of the school year.

Bus Discipline

Consequences for school bus/bus stop misconduct will apply to all routes. Decisions regarding a student's ability to ride the bus in connection with co-curricular and extra-curricular events (i.e., field trips or competitions) will be the sole discretion of the school district. Parents or guardians will be notified of any suspension of bus privileges.

Special Ed. students will receive discipline in conjunction with the student's I.E.P.

Based on the severity of a student's conduct, more serious consequences may be imposed at any time. Depending on the nature of the offense, consequences such as suspension or expulsion from school may also result from school bus/bus stop misconduct.

Records of school bus/bus stop misconduct will be forwarded to the individual school building and will be retained in the same manner as other student discipline records. Reports of serious misconduct will be provided to the School SRO and Student Services. Records may also be maintained in the transportation office.

Students damaging school buses will be responsible for the damage. Failure to pay such damages/restitution (or make arrangements to pay) within two weeks will result in the loss of bus privileges until damages are paid.

In cases involving criminal conduct (i.e., assault, weapons, possession or vandalism), the transportation office will press charges on the student involved and will inform the Superintendent, local law enforcement officials and the Director, Student Services

Except as otherwise set forth herein, the general progressive discipline plan for bus misbehavior is as follows:

Disciplinary action will be at the principal's discretion:

1st Violation: A documented warning from the Principal or designee. parent contact and documented.

2nd Violation: Bus suspension for PK – 3 and Elementary (Loss of School Privilege) Middle School two (2) days. High School three (3) days

3th Violation: Bus suspension for PK – 3 and Elementary one (1) day, Middle School three (3)

days. High School five (5) days

4th Violation: Bus suspension for PK – 3 and Elementary three (3) days, Middle School five (5) days. High School seven (7) days

5th Violation: Bus suspension for PK – 3 and Elementary five (5) days, Middle School seven (7) days. High School ten (10) days

6th Violation: Bus suspension for PK – 3 and Elementary seven (7) day, Middle School ten (10) days. High School, A disciplinary hearing will be called. Students are prohibited from riding the bus pending their disciplinary hearing.

7th Violation: Bus suspension for PK – 3 and Elementary ten (10) day, Middle School, A disciplinary hearing will be called. Students are prohibited from riding the bus pending their disciplinary hearing.

8th Violation: PK -3 and Elementary, A disciplinary hearing will be called. Students are prohibited from riding the bus pending their disciplinary hearing.

Once students have reached the cumulative number of referrals based on grade level he/she will automatically be suspended from bus school, pending hearing with the District Hearing Officer.

During the period of bus suspension, parents/guardians will be responsible for providing the student's transportation to/from school. Bus suspension is not an excused absence or tardy. If a student causes damage to a school bus, parents/ guardians will be required to repay the cost of any damage to the bus. At the discretion of the principal, parents/guardians may be asked to meet with school officials to develop a school bus behavior contract for the student.

Level One: Disorderly Conduct

Disorderly conduct includes any activity in which a student engages that tends to impede the orderly operation of or disturbs school bus operating procedures or activities.

Acts of disorderly conduct include, but are not limited to, the following:

If a student causes damage to a school bus, parents/ guardians will be required to repay the cost of any damage to the bus. At the discretion of the principal, parents/guardians may be asked to meet with school officials to develop a school bus behavior contract for the student.

Level Two: Disruptive Conduct

Disruptive conduct includes those activities in which students engage that are directed against persons or property and the consequences of which tend to endanger the health or safety of themselves or others. Fighting on a bus is among the most serious offenses committed by students, as it endangers everyone riding the bus by causing the driver's attention to be diverted. Fighting on a school bus may result in immediate suspension from the bus and/or school with no prior warning or progressive disciplinary action being taken.

During the period of bus suspension, parents/guardians will be responsible for providing the student's transportation to/from school. Bus suspension is not an excused absence or tardy. If a student causes damage to a school bus, parents/ guardians will be required to repay the cost of any damage to the bus. At the discretion of the principal, parents/guardians may be asked to meet with school officials to develop a school bus behavior contract for the student.

Criminal conduct includes those activities in which students engage that result in violence to themselves or to another's person or property or that pose a direct and serious threat to the safety of themselves or others in or around the school bus and at the school bus stop while the bus is present. These activities usually require administrative actions that result not only in the immediate permanent removal of the student from the school bus and the school but also in the intervention of law enforcement authorities and/or in action by the board.

Acts of criminal conduct include, but are not limited to, the following on school-supervised property, equipment (including state- and district-owned school buses) and at school bus stops when the school bus is present:

Seclusion and Restraint

Cook County Schools shall require that all schools and programs within the district comply with State Board of Education Rule 160-5-1-.35 concerning "seclusion" and "restraint," as those terms are defined within the rule.

Rationale: Cook County Schools is committed to the mission of providing a safe learning environment for all students. However, it may be necessary at some times to utilize physical restraint of a student in situations of immediate danger. This policy provides the requirements regarding the use of physical restraint of students.

Definition: Physical restraint is direct physical contact from an adult that prevents or significantly reduces a student's movement. Physical restraint does not include providing limited physical contact and/or redirection to promote student safety, providing physical guidance or prompting when teaching a skill, redirecting attention, providing guidance to a location, or providing comfort.

Use: Physical restraint of a student may be used only in those situations in which a student is an immediate danger to self or others and is not responsive to less intensive behavioral interventions including verbal directives or other de-escalation techniques. Physical restraint will be terminated when the student is no longer an immediate danger to self or others or if the student is observed to be in severe distress.

Requirements: The designated staff members must be trained in the use of physical restraint utilizing a common restraint curriculum selected for Cook County Schools. The curriculum will include information about positive techniques, prevention strategies and de-escalation strategies as well as restraint techniques. Staff members will not participate in a restraint prior to being trained in the restraint curriculum and in this policy. Parents will be provided information about the program's policy governing the use of physical restraint. Parents will be notified in writing within one school day when physical restraint is used with their student. Each use of restraint will be documented by staff participating in or supervising the restraint using the Cook County Schools incident report form A log of the use of physical restraint will be maintained by each school site administrator and will be submitted regularly to the special education director. Incident reports will be reviewed by Cook County leadership staff or restraint curriculum trainers on a minimum of a monthly basis. Reasonable efforts should be made to ensure that incidents of physical restraint are observed by another staff member who is trained in the restraint curriculum. Documentation of training in the restraint curriculum will be maintained by each school site principal and submitted to the special education director at the completion of each training activity. No Cook County staff member shall participate in the restraint of a student without being trained according to Cook County's chosen restraint curriculum. Students in immediate danger to himself/herself or others will be moved if possible by the team to a supervised area until behavior is no longer a threat to himself/herself or others.

Prohibited Actions: The use of prone restraint, mechanical restraint and chemical restraint is prohibited. The use of seclusion is prohibited. Seclusion is a procedure that isolates and confines the student in a separate area until he or she is no longer an immediate danger to himself/herself or others. Physical restraint is prohibited as a form of discipline or punishment, when the student cannot be safely restrained, or when the use would be contraindicated due to the student's psychiatric, medical, or physical conditions as described in the student's educational records.

COMPLAINTS & GRIEVANCES

STUDENT COMPLAINTS AND GRIEVANCES

Grievance Procedure: This procedure is established in order to provide a formal method for the resolution of any grievance concerning the treatment of students by district personnel which is alleged to violate either district policy or student legal rights. These formal procedures should not be used unless informal conferences with the appropriate teacher(s) and principal do not resolve the matter to the satisfaction of the grievant. A grievance may be brought by any students, or the parents of such students, rights under any district policy or applicable law have allegedly been violated. However, when a grievance is brought by a minor student, the parent(s) or guardian(s) will be a party to the proceedings. Grievances should be settled as close as possible to their point of origin. It is important that grievances be settled quickly. The number of days specified on each level should be considered a maximum, but may be extended by mutual agreement. All hearings should be as informal as possible, but must be conducted in accordance with due process. A grievant may be represented by counsel and shall be allowed to introduce all relevant evidence and to cross examine adverse witnesses. A grievant who chooses to be represented by counsel must give sufficient advance notice to enable the school district to be likewise represented. All decisions shall be in writing, shall be confined to matters brought forth in the hearing, and shall state the facts and reasoning upon which they are based. If mutual agreement cannot be reached, the grievant shall be given reasonable notice of the time and place for the hearing. All such hearings shall be private except that any hearing before the Board shall be public unless the grievant declares the subject matter to be private and the Board chooses to go into executive session. The district Title IX Coordinator shall be consulted whenever sex discrimination is alleged in a formal grievance.

LEVEL ONE

Grievant who cannot resolve a matter informally may submit a grievance in writing to the principal of the school in which the grievance arose. All grievances must be submitted within ten school days after the date on which the action complained of has occurred. It must clearly state the district policies or student legal rights which are alleged to have been violated. A hearing may not be necessary at this level because the principal may not have become aware of all pertinent information through previous informal conference.

However, a hearing will be held at the request of either the principal or the grievant. Such hearing shall be held within five school days after the grievance is submitted unless a later date is mutually agreeable. The principal shall render a decision within three school days after submission of the grievance or holding of a hearing as appropriate. If the grievant is not satisfied with the decision or if

no decision is given within the allotted time, the grievance may be taken to level two, provided that notice of appeal is made within five school days.

LEVEL TWO

Grievances may be initiated at this level by the filing of timely notice of appeal with the Superintendent within five school days. Such notice must be in writing and accompanied by copies of the original grievance and the decision, if any, made at level one.

If the notice of appeal contains a request for a hearing or the Superintendent believes one to be necessary, a hearing shall be held within ten days of such notice unless a later date is agreeable to both parties. The Superintendent shall render a decision within five school days of the notice of appeal or hearing as appropriate. If the grievant is not satisfied with the decision or if no decision is given within the allotted time, the grievance may be taken to level three provided that notice of appeal is made within ten school days.

LEVEL THREE

The grievance may request a hearing before the Board by submitting a timely notice of appeal with the Superintendent within ten school days. Such notice shall be accompanied by a copy of the original grievance and the decisions, if any, made at level one and two. In addition, such notice shall contain a statement of reasons why such decisions are unacceptable. FERPA

Family Educational Rights and Privacy Act

FERPA affords parents and eligible students (over 18 years of age or attending a postsecondary institution) certain rights with respect to the student's education records. These rights are:

- (1) The right to inspect and review the student's education records within 45 days after the school receives a request for access. Parents or eligible students should submit to the principal (or appropriate official) a written request that identifies the records they wish to inspect. The principal or designee will make arrangements for access and notify the parent or eligible student of the time and place where the records may be inspected.
- (2) The right to request the amendment of the student's education records that the parent or eligible student believes are inaccurate, misleading, or otherwise in violation of the student's privacy rights under FERPA. To request amendment of a student record, parents or eligible students should submit to the school principal a written request, specifying the part of the record they want changed and why it is inaccurate, misleading, or otherwise in violation of the student's privacy rights. If the school decides not to amend the record, it will notify the parents or eligible students of the decision and inform them of their right to a hearing. Additional information regarding the hearing procedure will be provided with the notification of the right to a hearing.
- (3) The right to provide written consent before the school discloses personally identifiable information (PII) from the student's education records, except to the extent that disclosure without prior written consent is authorized by FERPA and its implementing regulations at 34 C.F.R. § 99.31. One exception that permits disclosure without consent is to school officials with legitimate educational interest. A school official has a legitimate educational interest if the official needs to review an educational record in order to fulfill his or her professional responsibility. A school official is a person employed by the school district as an administrator, supervisor, instructor, or support staff member (including school nurses and school resource officers); a member of the school board; a person or company with whom the district has contracted to perform a specific task (such as attorney, auditor, medical consultant, therapist, or online educational services provider); a contractor, consultant, volunteer, or other party to whom the school district has outsourced services, such as electronic data storage; or a parent or student serving on an official committee (such as a disciplinary or grievance committee) or assisting another school official in performing his or her tasks. The district allows school officials to access only student records in which they have a legitimate educational interest. School officials remain under the district's control with regard to the use and maintenance of PII, which may be used only for the purpose for which disclosure was made, and cannot be released to other parties without authorization.

Upon request, the district discloses education records without consent to officials of another school district in which a student seeks/intends to enroll or is already enrolled if the disclosure is for

purposes of the student's enrollment or transfer.

(4) FERPA requires the school district, with certain exceptions, to obtain written consent prior to the disclosure of personally identifiable information from the student's education records. However, the district may disclose appropriate designated "directory information" without written consent, unless the parent or eligible student has advised the district to the contrary in accordance with district procedures. The primary purpose of directory information is to allow the school to include this type of information from the student's education records in certain school publications, such as the annual yearbook, graduation or sports activity programs, honor roll or other recognition lists, or on websites or social media sites affiliated with the school or school district.

The School District has designated the following information as directory information:

- (a) Student's name, address, & telephone number;
- (b) Student's date and place of birth;
- (c) Student's email address;
- (d) Student's participation in official school activities and sports;
- (e) Weight and height of members of an athletic team;
- (f) Dates of attendance at schools within the district;
- (g) Honors and awards received during the time enrolled in district schools;
- (h) Photograph; and
- (i) Grade level.

Unless you, as a parent/guardian or eligible student, request otherwise, this information may be disclosed to the public upon request. In addition, two federal laws require school districts receiving federal financial assistance to provide military recruiters, upon request, with students' names, addresses, and telephone numbers unless parents have advised the school district that they do not want their student's information disclosed without their prior written consent. You have the right to refuse to allow all or any part of the above information to be designated as directory information and to refuse to allow it to be disclosed to the public upon request without your prior written consent. If you wish to exercise this right, you must notify the principal of the school at which the student is enrolled in writing within 10 business days after officially enrolling in school or within 10 business days of the date of the release of this notice.

(5) You are also notified that from time to time students may be photographed, videoed, or interviewed by the news media at school or at some school activity or event. The principal will take reasonable steps to control access to students by the media or other individuals not affiliated with the school or district. However, your submission of a written objection does not constitute a guarantee that your student will not be photographed, videoed, or interviewed, or that such information will not be posted on websites or social media sites not affiliated with the school or district, or in circumstances which are not within the knowledge or control of the principal.

(6) You have the right to file with the U. S. Department of Education a complaint concerning alleged failures by the school district to comply with the requirements of FERPA. The name and address of the Office that administers FERPA is:

Family Policy Compliance Office
U.S. Department of Education
400 Maryland Avenue, SW

Washington, D.C. 20202

(7) The Georgia Student Data Privacy, Accessibility, and Transparency Act affords parents and eligible students the right to file a complaint with the school district regarding a possible violation of rights under O.C.G.A. § 20-2-667 or under other federal or state student data privacy and security laws. Such complaints may be filed with:

Superintendent of Cook County Schools; 1109 N. Parrish Ave., Adel, GA 31620
