Introduction

Frazier High School History

Frazier High School originated on July 1, 1966, with the jointure of the Perry and Lower Tyrone Schools. The new school district and its high school selected the current name to honor Mary Fuller Frazier, whose generous contributions to the school and the community have greatly benefited our area and its people. The commodore was selected as the mascot of our school in honor of Commodore Oliver Perry, hero of the Battle of Lake Erie in the War of 1812, for whom the local community is named.

School Colors

The official Frazier School colors are red and white.

Vision

The Frazier School District is committed to providing students with an academically rigorous curriculum while developing deeper learning competencies in all students. Frazier sets high expectations in support of students' efforts to strive to achieve academically and in the acquisition of the skills necessary for life success.

Mission

The mission of the Frazier School District is to inspire and empower our students so that they can become lifelong learners who are respectful, responsible and productive citizens in a global society.

Policy on Non-Discrimination

The Frazier School District is an equal education institution and, as such, will not discriminate on the basis of race, color, national origin, sex, marital status, parental status and handicap in its employment and promotional practices or in admission, access and treatment of its various programs or activities as required by Title IX of the Education Amendments of 1972 and Section 504 of the Rehabilitation Act of 1973.

Alma Mater

The Alma Mater is our school song. It represents the tie between you and everyone else who has ever gone to school at Frazier. When this song is played or sung, you should respond with the traditional respect and decorum afforded to your alma mater. Both students and alumni should stand still with heads uncovered during the alma mater. It is generally expected that students and alumni sing along whenever the alma mater is heard. The words to your alma mater are as follows:

*Hail alma mater, hats off to you
Ever you'll find us, loyal and true.
Firm and undaunted, always we'll be.
Hail to the school we love
Here's a toast to thee.*

Academic Program

Assembly Programs

Frazier High School offers a series of assembly programs designed to supplement the classroom curriculum. These programs are presented throughout the year and are designed to provide diversity to the program of studies. At assemblies, students are to behave in a polite and courteous manner. Students who exhibit unacceptable behavior such as whistling, uncalled for clapping, rude and unnecessary shouting, will be promptly removed from the assembly. These students will forfeit their right to attend future assemblies.

Assessment/Tests

According to district policy, parent(s) and/or guardian(s) of children in the Frazier School District may have their children excused from taking the State Assessment Test, for religious reasons, upon the receipt by the school administrator of a written request for such exemption from the parent(s) and/or guardian(s). The request must be dated and hand delivered to the school office.

Central Westmoreland CTC

Students who attend Central Westmoreland Vo-Tech will ride to and from Frazier High School on the regular secondary bus schedules.

Morning Classes:

7:30 AM - Depart from Frazier – Arrive at 7:55 AM

10:30 AM - Depart Central Westmoreland – Arrive Frazier at 10:55 AM

Afternoon Classes:

11:00 AM - Depart Frazier – Arrive Central Westmoreland 11:25 AM

1:35 PM - Depart Central Westmoreland – Arrive Frazier at 2:00 PM

Class Rank

Class rank will be calculated based upon the unit value of each course and the weighted grade received in that course. Class rank will be posted at the end of each academic year. Only classes scheduled for students in grades 9-12, will appear on transcripts and calculated in GPA and Class Rank.

Course Levels and Grade Weighing

Grade weighing in grades 9-12 will be based upon the letter grade value presented in the following chart:

Curriculum

Frazier High School offers a wide array of educational programs and courses that are designed to meet the individual needs of its students. Specific information regarding these educational programs and courses can be obtained from the guidance office. The “Frazier High School Program of Studies,” a publication prepared by the guidance office, contains a description of the curriculum offered to students in grades 9–12. The publication also provides a description of each course offered to students as well as information on the advanced placement program.

Evaluation and Assessment Procedures

- a. A grading system provides a means to measure students’ proficiency with respect to the planned course (as defined by the approved district planned program of students) and its objectives.
- b. The grading system provides a means to inform students and parent(s) and/or guardian(s) of the students’ progress towards achieving the course objectives.
- c. This procedure is designed to bring a degree of uniformity, consistency and fairness into the grading system while still allowing teachers sufficient latitude of judgment in measuring student achievement. Research has

shown that teachers differ greatly in determining how students will be evaluated; therefore, the evaluation procedure must be clearly stated in a student evaluation system.

Assessment: any number of methods that may be utilized to gather information about the performance of students.

The purpose of assessment is to monitor students' learning and to guide instruction. Assessment must be aligned with the goals and learning outcomes of the planned course and units.

In order to accurately analyze student performance, a teacher must use multiple assessment methods. Accurate assessment requires the use of a range of instruments; not just multiple choice, true/false, fill in the blank or paper and pencil tests.

When a student is offered a fixed number of options (e.g., multiple choice, true/false, fill in the blank) a scoring key can be used to score the items by comparing the option to the scoring key. Performance based methods (open-ended questions, performance tests, journals, exhibitions, and portfolios) depend, to a greater extent, on teacher judgment of a response. Instead of a scoring key, a rubric provides the guidelines laid out for judging student work on performance-based tasks.

Evaluation: what the teacher does with the information collected in the assessment program. Once the assessment data is collected, teachers will interpret their findings and make judgments about student learning.

Students are **evaluated** on the **product** of their learning experiences – not on the learning process; however, the students' participation in the learning process (e.g., cooperative education) may be evaluated.

Student Learning Experience (Process)

Learning Outcome (Product)

Learning Outcome: What a student knows and can do (Procedural and Declarative Knowledge). Since classroom activities and learning focuses on such instruments as labs, demonstrations and hands-on activity, much of the assessment must be performance based.

Test: A test typically denotes the presentation of a specific set of questions to be answered. The questions are normally essay, multiple-choice, true/false, matching, or fill in the blank. Tests must assess the specific objectives of the planned course. **Teachers should "test what they value and value what they test!"** Tests must also address the Pennsylvania Core Standards.

Portfolio: A representative and judicious collection of a student's best work, over time. A portfolio can provide documentation of the student's work and serve as a basis for **evaluation** of work in progress or work over time by providing evidence of how the student's work evolved and was refined.

Product: The tangible results of the learning process. The product is valid if it reflects the knowledge or skills that were taught and appropriately samples the **essential learning outcomes of the course**.

Rubric: A set of scoring guidelines for giving scores (points) to a student's work. The rubric is to be designed to answer the question: What does proficient (and varying degrees of proficiency) at this task look like?

A sample rubric:

- Contains a scale of different possible points to be assigned, often ranging from one (1) to six (6), with six (6) being the highest score.
- States all the different major traits or dimensions to be examined (e.g. syntax or understanding of scientific method)
- Provides key signs or salient points of performance or product for finding the right place on the scoring scale to measure student mastery of the task

Mastery Grading: grading students on what they know and can do rather than grading them on how they compare with one another (curve). We do not grade on a curve. We grade on a straight percentage.

Student Evaluation System: Grades 9–12

1. Evaluation Grade

Evaluation grades reflect students' mastery of planned course objectives on assessment instruments such as tests, reports, projects, homework, papers, labs, quizzes, journals, diaries, portfolios, observational checklists, exhibitions, videotapes, audiotapes, interviews, performances, debates and other assessment instruments.

A minimum of one (1) graded application project per course is required in each course.

Teachers must review assessment with students so that students may learn from their errors. Assessment must be graded and be available for review by the parent(s) and/or guardian(s) or student, if requested.

Research indicates time spent on graded homework correlates positively with student achievement. (The more time spent, the higher the achievement.) Teachers must give adequate relevant homework designed to develop and achieve automaticity in skills and extend knowledge. **Assignment and completion** of a representative amount of homework **must** be included as part of each marking period grade.

Research indicates that frequent quizzes have been found to correlate positively with student achievement in secondary students. Teachers should use an adequate number of quizzes or equivalent evaluation instruments reasonably spaced throughout the marking period and include them as part of the marking period grade.

Evaluation grades **must be recorded in the grade book as a point system that must be converted to a percent** for grading upon request so that a student, parent and/or guardian, or administrator can be informed of the student's academic progress during the marking period. Total points earned will be converted to a percent for the marking period grade.

Grade Percentage	Grade	Proficiency Level
98 – 100	A+	Advanced
93 – 97	A	
90 – 92	A-	
87 - 89	B+	High Proficient
83 - 86	B	
80 - 82	B-	
77 - 79	C+	Proficient
73 - 76	C	
70 - 72	C-	
67 - 69	D+	Basic
63 - 66	D	
60 - 62	D-	
0 – 59	F	Below Basic

Example:

Student earned 250 points out of a possible 300 points for the marking period

$$\frac{250}{300} = 83.3\% = B$$

$$\frac{\text{Points Earned}}{\text{Points Available}} = \text{Percent} = \text{Letter Grade}$$

- a. Teachers must use an adequate **number** and **variety** of evaluation instruments to determine the marking period grade. A minimum of ten (10) evaluation **grades**, of which at least three (3) must be major (of substantial depth), graded separately and reasonably spaced, will be required to be recorded in the grade book for each student, per marking period. This does not include midterms or finals. Most teachers will have significantly more evaluation grades.

- b. Student class participation **or** performance **must** be evaluated and be a reasonable portion of the student's marking period grade, though not counted as part of the minimum number of evaluation grades, as described in six (6) above.
- c. **Students in grades 9–12, who have an illegal absence or unexcused absence as a result of a class cut must receive a zero (0), recorded in the grade book for each day of such absence (does not include suspensions).**
- d. **Students** in grades 9–12 must be informed, in writing, by the teacher at the beginning of the course as to the evaluation process used and what is expected from them to determine the student's marking period grade and final course grade.
 - I. A student's grades must be private, not discussed or distributed to anyone who does not have a legitimate educational reason to know the grades. Student grades must never be announced or published in the classroom.
 - II. Teachers must allow students access to their grades, at reasonable times, as recorded in the grade book, so that the students may regularly be aware of their progress in the planned course.

2. Grade Interpretation: Grades 9–12

Note that plus (+s) and minus' (-s) are a definite part of the grading scale.

* The grading scale of that school will govern classes taken at Central Westmoreland Career/Technology Center.

Final Course Grade Computation Formula

$$\frac{\text{Sum of Marking Point Percent Grades}}{\text{\# of Grade Marking Periods}} = \text{Grade}$$

Example: MP1 MP2 MP3 MP4 EQUALS 356 ÷ 4 = 89%
 87% 89% 91% 89% 89% = B+ For Final Report Card
 Grade

Rounding

.0 - .4 do not round up
 .5 - .9 round up

Example:

87.4% = 87%
 87.5% = 88%

3. Midterm and Final Assessment Grades

Students in grades 9–12 will receive a mid-term and final assessment in each course of one (1) credit or more. The mid-term grade and final assessment grade will become part of the marking period grade in which they are administered. Semester courses will include the mid-term grade with the first (1st) marking period grade and final assessment grade with the second (2nd) marking period grade. Full year courses will include the mid-term grade with the second (2nd) marking period grade; and the final assessments grade with the fourth (4th) marking period grade.

Mid-term assessments and final assessments must count a maximum of **twenty (20%)** percent of the marking period points available as per teacher discretion.

Example:

If there are 750 points in a marking period, a minimum of 150 points must be from the midterm or final test.

4. Pass/Fail

Certain courses will be designated Pass/Fail. The teacher will mark a **P** for any marking period grade averaging sixty-five percent (**60%**) or higher and an **F** for any score of fifty-nine percent (**59%**) or lower.

5. Make-Up Work

Students will only have one day per absence to make up graded assessments. If the student does not meet the deadline, he/she will receive a zero (0) for the graded assessment. In the event of an extended illness, special arrangements may be made through the principal.

Students who are suspended from school may turn in graded assignments only on the day returning from suspension. Otherwise, failure to do so will result in zeros on the assignments.

Field Trip Requirements

1. Field trips will be contained within the normal school day.
2. Students who receive multiple detentions and suspensions may not be permitted to attend the field trip, which will be at the discretion of the administration. Detentions and suspensions will be cumulative beginning on the first day of school.
3. Subject area teachers will determine the destination and schedule for the field trip with input from the parents and administration.
4. Subject area teachers will be responsible for planning the field trip, the distribution and collection of forms, and the scheduling of the trip.
5. Deadlines for collection of forms and money will be strictly enforced.
6. Subject area teachers will select the chaperones with input from the parents and administration.
7. Field trips are considered a valuable learning experience, but are not mandatory.
8. Students attending field trips will have one day per absence from class to complete any missed assignments.

District Graduation Requirements

Students must meet the following requirements in order to graduate from Frazier High School:

1. Complete a graduation project in one or more areas of concentrated study during their senior year.
2. Earn a minimum of thirty (30) units of study, (18.5) of which must be earned from the Planned Instructional Chart listed below:

English	4 units
Mathematics	4 units
Science and Tech	4 units
Social Studies	3 units
Arts/Humanities	2 units
Wellness	.5 unit
Freshman Seminar	1 unit

- Students who are not eligible to receive a diploma at the time of commencement will not be permitted to participate in the commencement program.
- Students will not receive a diploma at the time of commencement if they did not clear all hold slips.

State Graduation Requirements

(Beginning with the Class of 2023)

Students can meet the statewide graduation requirement by:

- Scoring proficient or advanced on each Keystone Exam - Algebra I, Literature, and Biology.
- Earning a satisfactory composite score on the Algebra I, Literature, and Biology Keystone Exams. The passing composite score will be available in August 2019.
- Earning a passing grade on the courses associated with each Keystone Exam, and satisfactorily complete one of the following: an alternative assessment (SAT, PSAT, ACT, ASVAB, Gold Level ACT WorkKeys), advanced coursework (AP, IB, concurrent enrollment courses), pre-apprenticeship, or acceptance in a 4-year nonprofit institution of higher education for college-level coursework.
- Earning a passing grade on the courses associated with each Keystone Exam, and pass the National Occupational Competency Testing Institute (NOCTI) or the National Institute of Metalworking Skills (NIMS) assessment in an approved Career and Technical Education concentration.
- Earning a passing grade on the courses associated with each Keystone Exam, and demonstrate readiness for postsecondary engagement through three pieces of evidence from the student's career portfolio aligned to student goals and career plan. Examples of evidence will include ACT WorkKeys, SAT Subject tests, AP, IB and concurrent coursework, higher education acceptance, community learning project, completion of an internship, externship or co-op or full-time employment.

Homework Requests/ Make-Up Work:

Students have the right to make up all class work missed due to excused absences or suspensions. If a student will be absent from school for **3 or more days** due to illness, surgery, etc., parents/guardians may request homework by calling the office as early in the day as possible to request assignments. The student or parent must make arrangements for books and assignments to be picked up.

PLEASE NOTE: To fulfill a request for homework, teachers must be given sufficient time to prepare the assignments. It would be greatly appreciated if you could provide at least 24 hour notice to the Office to allow sufficient time for teachers to gather the assignments.

- If a student will be absent from school for field trips, educational trips, athletic events, etc., **it is the responsibility of the students to find out from their teachers what class work or assignments will be missed.**
- Students returning from suspension must submit make-up work to their respective teachers immediately upon arrival back to school.
- Students attending school sponsored activities or events are to be considered in attendance and are responsible for turning in all work assigned as if they were physically in class.
- Students have one day per absence to turn in make-up work.

Incomplete Grades

No incomplete grades (“I”) will be given as a final grade in any subject except in cases where the incomplete grade (“I”) is the result of an excused absence supported by a medical excuse and/or has the approval of the principal.

Incomplete grades (“I”) given during the first three (3) grading periods will change to a failing grade (“F”) unless the missing work is made up within four (4) weeks of the end of the grading period.

High School Honor Roll

The honor roll for Frazier High School will be calculated for each nine-weeks grading period according to the student’s grade point average using the weighted quality points. The following guidelines are established to determine honor roll status: Honor Roll GPA = Quality Points / Total Credits

Highest Honors – 4.0 and above

High Honors – 3.5 to 3.99

Honors – 3.0 to 3.49

		Level I	Level II	Level III
Grade	Quality Points	Weight	Weight	Weight
A+	4.33	4.33	5.41	6.495
A	4.00	4.00	5.00	6.00
A-	3.66	3.66	4.58	5.49
B+	3.33	3.33	4.16	4.995
B	3.00	3.00	3.75	4.50
B-	2.66	2.66	3.325	3.99
C+	2.33	2.33	2.9125	3.495
C	2.00	2.00	2.50	3.00
C-	1.66	1.66	2.075	2.49
D+	1.33	1.33	1.6625	1.995
D	1.00	1.00	1.25	1.50
D-	0.70	0.70	0.875	1.05
F	0.00	0.00	0.00	0.00

The Honor Roll Grade Point Average (weighted) is determined at the end of each 9 week term. The Term Grade Point Average (unweighted) is calculated based on the term grade for each marking period and is used to determine eligibility for participation in extracurricular activities and sports. This GPA is included on the report card and is called the Term GPA. When calculating a student’s Term GPA, all courses are counted equally on a 4.0 (unweighted) scale.

Calculating the Honor Roll GPA is calculated by multiplying the course grade with the credit awarded to get the weighted quality point, divided by the total credits.

Example Only -

COURSE	FINAL	CREDIT	COURSE LEVEL	Quality Points
Algebra I	B	1	I	3.00
Honors Biology	A-	1	II	4.58
American Government	B	1	I	3.00
Tech 9	B	.5	I	1.50
Wellness	A-	.5	I	2.29
	Total	4		14.37
Quality Points Earned / CREDITS (14.37/4) = Honor Roll GPA				3.5925 = 3.59*

**GPA for Honor Roll and Class Rank are not rounded up.*

Loss of Course Credit Due to Class Cuts or Excessive Tardy Violations

Students who cut class and/or are tardy to class will be disciplined according to provisions outlined in the disciplinary policy.

In addition to the provisions outlined in the disciplinary policy, students who cut a class more than three (3) times will lose the credit value assigned to that class. **Students who are tardy to class more than twelve (12) times will lose the credit value assigned to that class.**

Record keeping for class cuts and class tardiness is the responsibility of the individual classroom teacher. These records shall be kept in the teacher's grade book.

The classroom teacher is also responsible for keeping parent(s) and/or guardian(s) informed of their child's class cuts and class tardiness. This notice will be made on forms provided by the school administration. A separate notice must be sent home for each class cut and for every three (3) instances of class tardiness. A copy of each notice must be filed with the school administration. Credit value for a class cannot be withheld unless all requirements relating to parental notices have been met.

Students shall not lose course credit for an **excused** tardiness. Tardiness shall only be considered excused when **proper** written verification is provided noting that the tardiness was the result of a medical appointment, legal appointment, binding religious obligation, attendance at the funeral of a relative or close friend or involvement in an approved education meeting or activity.

Objections to Classroom Activities

Parent(s) and/or guardian(s) may decline to have students participate in classroom activities that involve harmful or destructive use of animals (dissections, etc.). Alternative assignments will be given and no academic penalty will be issued. Teachers will notify students in advance of any such project. In order to be excused from the assignment, a written objection from the parent(s) and/or guardian(s) must be submitted prior to the day of the project.

It should also be noted that the secondary wellness curriculum is designed to address a wide variety of health issues. These involve human reproduction and sexually transmitted diseases, including AIDS. Any parent(s) and/or guardian(s) who wish to exempt his/her child from such instruction should notify the school in writing, stating the basis of the objection. Alternative assignments will be given and no academic penalty will be issued.

Parent/Teacher Conferences

Parent/Teacher conferences can be arranged at any time during the school year by contacting the classroom teacher or the guidance office.

Promotion Guidelines

- a. Freshman must successfully complete six (6) units of study, as scheduled by the school administration, to be promoted to 10th grade.
- b. Sophomores must successfully complete fourteen (14) units of study, as scheduled by the school administration, to be promoted to 11th grade.
- c. Juniors must successfully complete twenty-one (21) units of study, as scheduled by the school administration, to be promoted to 12th grade.

Report Cards

Reports on the progress of the student's academic work are issued four (4) times each year at nine (9) week intervals using the Skyward system. If you would like to receive a paper copy, please call the District Office at 724-736-9507.

Remediation Programs (but not limited to):

1. In-Class Remediation – Classroom Teacher

Scheduling Procedures

Requests for schedule changes will be difficult if not impossible to accommodate after the last week of school. Schedule changes requested after the last day of school will be limited to the following categories. The principal and BOTH teachers involved must approve these requests for the upcoming school year.

1. Failure of a required subject that must be repeated.
2. Successful completion of a summer school/correspondence course.
3. Schedule conflicts occur or there are errors made by the school during the scheduling process.
4. Students register for a class with prerequisites during the scheduling process and then perform poorly during the remainder of the school year.

Any other reason for changing a schedule must have both principal and counselor approval and will result in a Withdraw Failing (WF) grade on his/her report card. The WF will be factored into the student's quality point average.

***** IMPORTANT NOTICE TO STUDENTS AND PARENTS: Be absolutely certain of your selections. There will be no student or parent initiated schedule changes after the first 3 days of the course. Dropping a course after the 3-day period will result in a Withdraw Fail (WF) on your transcript.**

Textbooks

Students are responsible for maintaining their textbooks in good condition. Students should put their names on the inside cover of the books and provide a book cover in some fashion. Students will be charged for books that are lost, damaged or worn excessively.

All instructional books must be stamped and numbered. Teachers must record the number of each book assigned to each student. Each book must be accounted for at the end of the course. All damaged or lost books must be reported to the building office on a form provided by the principal.

Fines for damaged or lost books will be assessed by the principal. The minimum fine for damaged hardback books is five dollars (\$5.00), and the minimum fine for paperback books is one dollar (\$1.00). The fine for books determined to be destroyed or lost is the replacement cost of the book.

Valedictorian/Salutatorian

The valedictorian and salutatorian of each graduating class will be selected on the basis of their cumulative class rank as calculated at the end of the fourth (4th) marking period of the senior year. Weighted grade point averages

will be used to determine class rank. The weighted grade point average will be rounded at the fifth (5th) decimal or to the extent necessary.

The valedictorian and salutatorian are individuals who have demonstrated outstanding academic performance and citizenry among the members of their graduating class over an extended period of time. Eligibility for these honors are, therefore, limited to students who have been enrolled as members of their graduating class at Frazier High School for a minimum of six (6) consecutive semesters preceding graduation.

The valedictorian and salutatorian must have maintained proper student conduct and demeanor appropriate of a top tier student at all times during their high school career. Discipline referrals may be taken into consideration during the selection process.

Wellness Class

Students enrolled in Wellness classes are required to change clothes in order to participate in physical education activities.

The following attire will be required for participation in all physical education activities:

- Gym shorts or sweatpants
- T-shirts or sweatshirts
- Tennis shoes (students are encouraged to bring a separate pair of tennis shoes for physical education. This is encouraged due to the fact that shoes worn for street wear can damage the gymnasium floor.)

Students who do not participate in physical education activities, due to their unwillingness to participate and/or due to their failure to wear the proper attire, will have their class grade lowered for each day of non-participation. The scale governing this reduction in the student's grade will be developed by the Wellness teaching staff and will be distributed to each student at the beginning of their Wellness course.

Attendance Policy

The Frazier School District Board of School Directors believes that daily attendance is an integral part of an effective educational environment. Since learning occurs in a sequential order, regular attendance is necessary for students to build upon previous information, to provide understanding and to develop skills in all areas of the curriculum. Daily attendance contributes to the total development of the student and helps the student develop a sense of responsibility, self-discipline and good work habits. Regular school attendance is essential if students are to derive maximum benefit from their education and reach their fullest potential.

Participation Requirements

1. Academic Guidelines

Each nine-week period, all students participating in co-curricular activities must have a minimum of a 1.75 cumulative grade point average for the current school year. Students who fail to maintain a 1.75 grade point for the current school year shall be denied participation in co-curricular activities for the first twenty (20) school days of the next marking period, effective the day after the issuance of report cards.

Students who wish to participate in interscholastic athletics must also comply with PIAA academic regulations. These regulations require students to pass at least four (4) full credit subjects or their equivalent (two (2) full credit classes on a block schedule, one of these being a core subject class) during the previous grading period in order to participate in that activity during the first (1st) fifteen (15) days of the next grading period. At the end of the school year the student's final credits, rather than the credits for the last grading period, shall be used to determine eligibility for the next grading period. For the first marking period of the current school year, the students' eligibility will be determined by the cumulative grade point average of the prior year.

During each grading period, students must continue to pass four (4) full credit subjects or their equivalent (two (2) full credit subjects on a block schedule, one of those being a core subject class) in order to participate in that activity. Eligibility shall be cumulative from the beginning of the grading period and shall be reported weekly. In cases where a student's cumulative work from the beginning of the grading period does not, as of any Friday, meet the standards provided in this article, he/she shall be ineligible from the immediate following Sunday through the following Saturday and until such time that his/her grades meet these standards.

2. Attendance Guidelines

Students cannot participate in any co-curricular activity/sporting event on the day of their absence from school. Students who report to school after 7:30 A.M. and/or students, who are dismissed early, will not be permitted to participate in any co-curricular activity/sporting event held on that day unless documentation is provided to the

principal showing evidence of a medical appointment (with time of appointment stated), legal appointment, binding religious obligation or attendance of the funeral of a relative or close friend. If the tardiness occurs on a Friday, these provisions shall apply to any co-curricular activity/sporting event held on the following Saturday or Sunday.

Students who are illegally absent twenty (20) or more days without a medical excuse during any semester shall not be permitted to participate in any co-curricular activity/sporting event during the following semester. Variances, as stipulated in WPIAL regulations, will be considered.

School principal has final authority over participation.

3. Discipline Guidelines

Students who are suspended or expelled from school are not permitted to participate in or attend any co-curricular activity/sporting event held during the period of their suspension or expulsion. Students who are assigned to detention are not permitted to participate in or attend any co-curricular activity during the time of the detention.

***Students who are suspended or expelled from school are not permitted on school property for the duration of this period.**

Discipline Policy Student Code of Conduct

Introduction

The rules and guidelines set forth in this document represent the code of student conduct for secondary education in the Frazier School District.

This document is intended to serve as a guideline for discipline in secondary school. Students should know in advance what procedures would be used to deal with various discipline problems. Also, it is important that the parent(s) and/or guardian(s) and school staff be thoroughly familiar with the information contained in these rules and guidelines.

This document is not intended to contain all of the information needed for handling every discipline problem in the secondary schools. However, for those situations not specifically mentioned, the material in this document should serve as a guide for handling such situations.

Authority

The Board of School Directors of the Frazier School District has the authority to make reasonable and necessary rules governing the conduct of students in its school. The rule making power, however, is not unlimited; it must operate within statutory and constitutional restraints. A school board has only those powers, which are enumerated in the law of the state, or which by reasonably be implied or necessary for the orderly operation of the school.

Boards of school directors may not make rules which are arbitrary, capricious or outside their grant of authority from the General Assembly or State School Board Regulations. Their rules must stand the test of fairness and reasonableness. A rule is generally considered legitimate if it uses a rational means of accomplishing some legitimate school purpose.

School rules are assumed to be reasonable until they are rescinded or waived. Students, therefore, should obey rules while working through channels to help change those which they feel are not applicable.

Coverage

The board of school directors of the Frazier School District requires each student of this district to adhere to the rules and guidelines promulgated by the administration and to submit to such disciplinary measures as are appropriately assigned for infraction of those rules and guidelines.

The Student Code of Conduct governs student behavior in all of the following situations:

1. During travel to and from school and anytime within the School Safety Zone, which is within 1,000 feet of the real property of the school district.
2. In school or during school hours at school-sponsored activities.
2. In concert with after school and weekend school-sponsored activities on or off school premises.
3. During non-curricular related student group meetings on school premises.
4. During meetings/activities on school premises sponsored by non-school person(s).
5. Anytime outside of school involving violations or possible violations of the Pennsylvania Criminal Code and/or when such conduct or conditions may directly, and/or immediately result in adverse effects on the educational process, when there is a reasonable need to preserve overall school discipline, when there is a reasonable need to preserve respect for teachers and other school employees, and/or when there is reason to believe that the effect could include endangering the health, safety, welfare, or moral of students within the school system.

Such student rules and guidelines shall require that students conform to reasonable standards of socially acceptable behavior, respect the rights, person, and property of others, preserve a degree of order necessary to the educational program in which they are engaged, obey constituted authority, and respond to those who hold that authority.

The Student Code of Conduct shall be the standard for discipline within secondary schools in the Frazier School District unless altered by the board of school directors, with the recommendations of the superintendent.

The superintendent shall promulgate, where necessary, additional regulations for student code during the school year that carry out the purposes of this policy.

The superintendent or superintendent's designee shall be responsible for the enforcement of the School Code of Conduct.

The Frazier School District recognizes that if any provision of this policy or application thereof to any person or circumstances is judicially determined invalid, the provisions of the remainder of the policy and the application to other persons or circumstances shall not be affected thereby.

The Frazier School District recognizes that the provisions of this policy supersedes all other provisions of school district policy that may be inconsistent with the provisions of this policy.

Rights and Responsibilities

Students in the Frazier School District have rights as private citizens just as private citizens have rights. Likewise, students have certain responsibilities. During enrollment in the Frazier School District, there is always the possibility that a student might ignore responsibilities and infringe on someone else's right to learn. It is also possible that a given school official may unintentionally infringe upon a student's rights. It is with the intent of creating this mutual understanding between students, teachers and administrators that these statements of rights and responsibilities exist. Better understanding can be achieved when everyone acknowledges the rights and responsibilities of others.

Student Responsibilities

Students share in the responsibility for good discipline in the schools. Moreover, students share with the administration, faculty and other school staff a responsibility to develop a climate within the school that is conducive to wholesome learning and living. **No student has the right to interfere with the education of his fellow students.** It is the responsibility of each student to respect the rights of administrators, teachers, students and all others who are involved in the educational system and associated with the right to a free public education.

A student will be disciplined when he/she ignores his/her responsibilities or infringes on the rights of others to learn. Past experiences in the Frazier Secondary Schools have shown that only a small percentage of students face teacher or administrative discipline. Quite often, misunderstandings are worked out by an informal talk between the parties involved.

Students have the responsibility to:

1. Be aware of all rules and guidelines for students' behavior and conduct themselves in accordance with them
2. Be able to express their ideas and opinions in a respectful manner so as not to offend or slander others
3. Be willing to volunteer information in matters relating to health, safety and welfare to school community and the protection of school property
4. Dress and groom themselves so as to meet fair standards of health, safety and welfare of school community and the educational process
5. Assume that until a rule is waived, altered or repealed, it is in full effect
6. Assist the school staff in operating a safe school for all students enrolled therein
7. Be aware of, and comply with, state and local laws
8. Exercise proper care when using public facilities and equipment
9. Attend school daily, except when excused, and be on time to school, class and other school meetings, activities and events
10. Make all necessary arrangements for making up work when legally absent/tardy from school
11. Pursue and attempt to complete satisfactorily the courses of study prescribed by state and local school authorities.
12. Avoid inaccuracies in student newspapers or publications and indecent or obscene language
13. Strive for mutually respectful relations with teachers, administrators and other staff
14. Know and respect the rights of teachers, administrators, school staff members and other students.
15. Take advantage of the academic opportunities offered at school and make a conscientious effort in classroom work

It shall be the responsibility of all employees, including without limitation, coaches, assistant coaches and athletic and extracurricular coordinators to protect the rights, safety and welfare of the students and athletes and to ensure an atmosphere free from all forms of hazing. Any and all information received by such individuals and all knowledge or reports of hazing, or anticipated hazing, shall be reported to the principal.

2. The coach shall immediately notify the principal and Athletic Director, all of whom shall take immediate measures to address the situation, as hereinafter set forth.

A student who willingly participates in a hazing event, regardless of whether he/she initiated it, shall have violated this policy and shall be subject to disciplinary action.
4. Upon receipt of information regarding hazing, the coach shall inform the principal and Athletic Director thereof. Likewise, the coach shall be notified, should either the principal or the Athletic Director be the first recipient of information pertaining to hazing.

If, after the due process meeting the Superintendent finds that a violation occurred, then the Superintendent shall take such disciplinary action as may be appropriate.

Reckless Endangerment

No one has the right to place another person at risk or peril. The creator of any situation that poses any threat to another will be held responsible. Further, any student who creates a dangerous situation with an automobile will immediately forfeit the privilege of driving to school.

Searches

In general, searches must be reasonably related to the objectives of the search and not be excessively intrusive in light of the past history, school record, age and sex of the student and the nature of the infraction. Searches should be no more intrusive than necessary to discover that for which the search was instigated.

In general, at no time should school officials conduct a search, which requires a student to remove more clothing than his/her shoes or jacket. If school officials are convinced that a more intrusive strip search is required to expose contraband, they should advise the proper law enforcement agency and the student's parent(s) and/or guardian(s) as soon as possible, of the grounds for their conclusion, unless there is an immediate threat to other students or staff; health, safety or welfare or to school property.

School lockers and other storage spaces are school property loaned to the student for the student's convenience and use of legitimate purposes. Students have no expectation of privacy in relation to their assigned lockers. Lockers can, and will be, searched as provided in the following guidelines:

1. School lockers and other storage spaces are provided to students for their convenience. These storage areas remain school property, and as such, are subject to periodic administrative inspections by school authorities. Students are, therefore, warned not to store items in lockers, which they do not want to bring to the attention of school authorities.
2. The principal or principal's designee shall be required to hold locker inspections throughout the school year. Reporting rooms will be extended for said inspections and each shall be reported to the superintendent.
3. Circumstances, which put the safety of students or school officials at risk or could result in substantial property damage, will also constitute sufficient reasons for school, police and/or fire officials to conduct a thorough search of all school property. A bomb scare is an example of such an emergency. School authorities may search a student's locker if they have reasonable suspicion that a student has violated a rule guidelines set forth in the Student Code of Conduct.
4. School authorities may search a student's locker if they have reasonable suspicion that a student has violated a regulation set forth in the Student Code of Conduct.
5. Prior to such a locker search, the student shall be notified and given an opportunity to be present. Any inappropriate or illegal materials found in the locker will be seized and shall be used as evidence against the student in disciplinary proceedings.
6. However, where school authorities have reasonable suspicion that a locker contains materials, which pose a threat to the health, welfare, and safety of students in the school, students' lockers may be searched without prior warning. Materials shall be used as evidence against the student in disciplinary proceedings. If reasonably possible, the student will be present for the search.
7. Blanket searches of every locker lack individual suspicion and will not be permitted except in an emergency search.
8. Students are responsible for the contents of the locker assigned to them. Therefore, it is important that students keep their lockers locked and do not give another student access to their locker.

School authorities are authorized to conduct searches of student property when reasonable suspicion indicates that a particular student is in possession of an item or a substance that represents a material threat to school routine, poses a threat to the health, welfare, and safety of students or is prohibited by school board regulation or by law.

1. Student property may include, but not limited to purses, book bags, coats, luggage, cars and other such belongings
2. Such searches of student's property will be done by a school employee of the same sex in the presence of a second witnessing school official, if possible

Where school authorities have reasonable suspicion that a student has on his/her person, materials which pose a threat to the health, welfare, and safety of students in the school, a pat-down search of such a student's person may be done by a school employee of the same sex, in the presence of a second witnessing school official.

Where school authorities have reasonable suspicion that a student has on his/her person materials that pose a threat to the health, welfare, and safety of students in the school, a pocket search of the student's person may be done where the student is asked to empty his/her pockets. A school employee of the same sex, in the presence of a second witnessing school official, will do this search.

Referral to Civil Authorities for charges under the appropriate Pennsylvania statute shall be made, when deemed necessary by school officials.

Sexual Harassment

It is the policy of Frazier School District to maintain an environment conducive to learning and working that is free from sexual harassment. It is a violation of district policy for any member of the district staff to harass any student or any other member of the district staff through conduct or communication of a sexual nature. It is also a violation of district policy for students to harass other students or members of the school staff through conduct or communications of a sexual nature.

activity, will be maintained until his/her graduation. A copy of the record would follow the student if he/she transferred to another school district.

DISCIPLINARY OPTIONS

Disciplinary actions occur on four (4) levels, referred to as Level I, II, III, and IV. With each higher level, the severity of the behavior problem, and the repetitious nature of the behavior problem are addressed with stronger disciplinary action.

A strong behavior plan starts with classroom rules regarding Level I behavior. Each student is to be aware of the rules of the individual teacher and the penalties regarding misconduct in each classroom assigned. Classroom rules will be kept on file in the office for referral by the administration. Students must know what each teacher expects and be prepared for penalties if the rules are not followed.

Students will receive no administrative warnings for any discipline report filed with the office, except for the first (1st) violation of the guidelines listed in this handbook under "Appearance." All other behavior problems that are referred to the administration will be handled according to the level of the misconduct as follows:

Level I

Level I misconduct involves minor behavior problems that must be addressed in order to insure the orderly operation of the classroom, school, and/or school-sponsored activities.

Such behavior seen as Level I will be addressed as follows:

OFFENSES

- Disruptive behaviors

Guidelines for Detention, Suspension, Expulsion and Probation

Detention

Detention is a designated period of supervised study held during or after the regular school day, on Saturday or during student vacations. The building shall set the date, time and place of detention. A designated detention monitor shall provide supervision of students serving detention.

Parent(s) and/or guardian(s) are responsible for providing transportation for any of their children who are assigned to detention. Students must be informed of their detention assignment at least twenty-four (24) hours in advance in order for their parent(s) and/or guardian(s) to arrange for transportation.

Students who owe any detention time at the end of the school year will be assigned summer detention or may be served during the next school year at the discretion of the building administrator. Report cards, diplomas, transcripts and all other school records will be held until this obligation is made up.

After-School Detention

1. After-school detention will be held at the end of the regular school day from 2:10 P.M. to 3:10P.M.
2. Detention responsibilities take precedence over all other school activities, including band, athletics and organizational meetings. Students who miss after-school detention for any reason other than an excused absence (see the "Attendance Policy" for a definition of an excused absence) will be assigned to Saturday detention.

 - e. Students will sit in seats assigned by the detention monitor.
 - f. Students who violate any of these rules will be assigned another day of after-school detention.
 - g. Any teacher or administrator may assign after-school detention. Teachers must adhere to the following guidelines when assigning after-school detention:
 - h. Meet with the student and provide him/her with a written statement noting the reason for assigning after-school detention and the date, time and location of the detention.

- i. Provide the parent(s) and/or guardian(s) with information regarding the after-school detention. This information will include the reason for assigning after-school detention and the date, time, and location of the detention.

Students who miss Saturday detention for any reason other than an excused absence (see the “Attendance Policy” for a definition of an excused absence) will be assigned one (1) day of suspension.
3. Rules governing behavior during Saturday detention:
 - a. Students must report to the after-school detention on time with all assignments and supplies.

Suspensions and Expulsions

The board of education and the high school administration recognizes that public schools have a legal and moral obligation to educate all children. It is a responsibility of the board of education and the school district to provide a curriculum and an atmosphere within which students can be educated. It is also the responsibility of the school district to formulate policies and procedures governing the exclusion of students who are disruptive to the education process. **Students who are suspended or expelled for any reason are not permitted on school property or other properties hosting a school event involving any participants from the suspended student’s school of record.** Students that are suspended or expelled may NOT attend any athletic competition at home or away competitions or events. A violation of this rule shall be considered a defiant trespass and the local police shall be notified for possible citation.

The following information provides a description relating to the types of exclusion used by the school district. The information also provides the guidelines under which these exclusions can be imposed.

Spectators are considered participants in all school events.

Suspension Up To Three (3) School Days

Exclusion from school for a period of up to three (3) days can be issued by the building principal. Prior to the suspension, the principal will meet with the student to provide the reason for the suspension, along with the dates of the suspension. The principal will also provide the parent(s) and/or guardian(s) with a written notice regarding the suspension.

Students who are suspended can turn in homework assignments for full credit but must do so the first day of their return to their assigned teachers.

Suspension between Four (4) to Ten (10) School Days

Exclusion from school for a period of four (4) to ten (10) days can be issued by the building principal. Prior to the suspension, the principal will meet with the student to provide the reason for the suspension, along with the dates of the suspension. The principal will also provide the parent(s) and/or guardian(s) with a written notice regarding the

suspension. An informal hearing relating to the suspension shall be offered to the student and parent(s) and/or guardian(s). This hearing must be offered during the first (1st) three (3) days of the suspension.

Expulsion

Expulsion refers to the exclusion from school for a period of more than ten (10) days. The building principal and superintendent may recommend expulsion; however, only the board of education has the power to expel a student. Expulsion requires a formal hearing before the board of education. Specific requirements relating to this formal hearing are spelled out in state law.

Students who are expelled may not attend or participate in any school activities/events including Graduation and Proms. **Students who are expelled are not permitted on school property or other properties hosting a school event involving any participants from the expelled student's school of record.** Students that are suspended or expelled may NOT attend any athletic competition at home or away competitions or events. A violation of this rule shall be considered a defiant trespass and the local police shall be notified for possible citation.

Spectators are considered participants in all school events.

Probation

Under the laws of the Commonwealth of Pennsylvania, the board of education has the right to place a student on probation in addition to any disciplinary action stated in the discipline code. Generally, some form of probation is imposed when a student returns from expulsion. Probation means that the student must be on his/her "best behavior" for a specified period of time. Any "Level II," "Level III," or "Level IV," disciplinary infraction committed while a student is on probation will automatically result in an expulsion hearing before the board of education.

For more serious offenses, the board of education may impose intensive probation. Intensive probation means that any two (2) disciplinary offenses of any level will automatically result in an expulsion hearing before the board of education.

Emergency Procedures

Fire Drill Regulations

In order to vacate our building safely in case of an emergency, it is imperative we conduct fire drills as orderly, quickly and quietly as possible.

When the fire bell rings, all students will remain quiet and listen for orders from the teacher. Turn off the lights and close the door when leaving the room.

Students will leave the room in single file and proceed to the assigned exit. Teachers will accompany their students, taking their grade books with them. Upon reaching the outside, move away from the building, but stay with your class in order that attendance can be taken. Remain outside and away from the building until an “all clear” bell is sounded; then proceed back into the building the same way you left.

Severe Weather Drills

Periodically, severe weather drills will be conducted in all Frazier schools. An announcement will direct teachers to take their students to their severe weather stations. Teachers are to see that the students sit facing the wall in a crouched position with hands protecting the back of the head. Students are to remain in this position until the “all clear” is given.

Delays – Cancellations of School

All parents/guardians and staff will be notified of delays/cancellations through an automated calling system. Cancellations may also be found on local television stations and their websites.

Food Service

Breakfast

Breakfast will be served from 7:10 until 7:25. Students must place all trash in the appropriate trash cans throughout the building.

Cafeteria Service

The secondary school cafeteria provides each student with the opportunity to purchase a nourishing breakfast and lunch. Menus are posted in the cafeteria and in the newspaper.

We have purchased Point of Sale software for each of our cafeterias called “NutriKids,” which will give parents the opportunity to purchase breakfasts and/or lunches in advance. All students will be assigned a “pin number” which they will punch into a keypad each time they purchase a meal.

School officials would like to encourage parents to take advantage of this option. We would appreciate it if parents would purchase at least five [5] meals in advance. There is no maximum number of meals that can be purchased for each year. By doing so, your students will earn one bonus meal for every five [5] meals purchased in advance. Breakfast is **\$1.35** for full-price students and \$.30 for reduced. Lunch is **\$2.45** or full-price and \$.40 for reduced. The software will automatically credit a meal for students who are approved for a free meal.

Students who forget their breakfast/lunch money must see the cafeteria cashier before breakfast or lunch. Charges will be permitted provided all bills are paid by the end of each month. Students will be permitted to charge up to three [3] meals. Once they have reached their limit of three [3] meals and have not paid their debt, they will still receive a lunch, but it will consist of a peanut butter and jelly sandwich and a carton of milk. They will be charged for this meal and the parent will be responsible for paying this debt.

Students who do not wish to purchase their meal from the food service department may carry their lunch to school. No student will be permitted to leave school grounds to purchase their lunch from an outside vendor. Students may not order food for delivery to the school.

Cafeteria Charge Policy (Updated May 2013)

PURPOSE

The Board acknowledges the need to have a policy to allow meal charges and a policy to collect delinquent account balances.

DELEGATION OF RESPONSIBILITY

The Board authorizes and directs the Cafeteria Coordinator to enforce the policy and the procedure to collect delinquent account balances.

GUIDELINES

The Frazier School District uses a Point of Sale System for meal purchases. With this system, each student is issued a Personal Identification Number (PIN) when they register for school and that number is carried with them until they graduate. Even though a student may be identified to receive a free or reduced lunch, all parents have the ability to deposit money into their child's accounts and to use the PIN to make meal purchases in the cafeteria. As a convenience to parents/guardians, Frazier School District permits students who forget their lunch money or who do not have sufficient funds in their student account to charge their lunch.

This policy is designed for the convenience of the parents and students so a student may charge his/her lunch when the student forgets his/her meal money or does not have enough funds available in their account. It is anticipated that student and parents/guardians will not abuse this privilege and will affirmatively monitor the cash balance in the student's account to assure that sufficient funds are available to cover the cost of all meals purchases, and to deposit the necessary funds whenever it is determined that the student's account balances is deficient. Cafeteria cashiers or monitors are required, when asked by a student or a parent/guardian, to provide account balance information relative to a particular student's account. In that the school district permits meal charges but reasonable controls must be established by the school district to limit the school district's cumulative exposure from losses resulting from negative account balances.

In order to keep track of your child's account, we are asking that parents set-up an account at www.myschoolbucks.com. You will need your child's student ID number in order to setup the account. You will also be able to setup a low balance email alert that will send you an email when your child reaches a dollar amount of your choice. You are also able to pay online but there is a transaction fee.

Students in grades 6-12 will receive written notification from the cashier once their charged dollar amount reaches **three (3) meals, \$7.05**. Once the student reaches **\$11.75** a telephone call will be made to the parent/guardian and a written letter will be sent home. **After the students reach a dollar amount over \$16.45, the student will not be permitted to charge a meal until his/her outstanding debt is paid in full. If the child does not have money, he/she will be given an alternate lunch which consists of a cold cheese sandwich, fruit and milk.** Parent Broadcasts are made monthly to alert parents/guardians when their child has a negative balance.

Seniors will be expected to pay all their lunch charges before receiving their cap and gown. Money owed can be from previous years, not just their senior year.

All student debt must be paid in full one week prior to the last day of school. If your child eats in the cafeteria during the last week of school, he/she must have money in their account or with them in order to eat.

If charges exceed **\$100.00**, the parent/guardian will be sent a certified letter letting them know the amount owed and to give them the option to pay the amount in full or set up a payment plan. If the parents/guardians choose not to adhere to one of the options, the district will seek the assistance of the local magistrate in order to collect the debt.

Student's in all grade levels are not permitted to charge "a la carte" items, additional breakfast or lunch meal items (second sandwich, additional milk, or orange juice) or second breakfast or lunches.

The student's account balance (positive or negative) will remain with the student from year to year through the time of graduation from High School. At the end of each marking period if an **elementary student owes \$5.85 or more** and a **secondary student owes \$7.05 or more** a hold slip is placed on the student's report card. In the event the student has a negative balance at the end of his/her senior year, the student's diploma will not be released until all outstanding debts are paid in full.

Cafeteria Rules

All students are to report directly to the cafeteria and remain there throughout their assigned lunch period. Quiet conversation will be permitted. Loud, boisterous behavior will not be tolerated. Each student is responsible for cleaning his/her place at the lunch table, depositing trash in the proper container and returning his/her tray. All food and drink must be consumed in the cafeteria. Pupil Services

Child Find

The school district must maintain an ongoing system to identify, locate and evaluate all children who are disabled (as defined by IDEA) and in need of special education. This duty is owed to all students regardless of whether or not they attend school or the kind of school they attend. There is a copy of the Annual Public Notice for Child Find on Edline under Special Education. If you have any questions regarding Child Find, call at 724-736-9507 extension 128 for the Supervisor of Special Education.

*** All parents/guardians can pick up a copy of the annual Public Notice for Child Find at the beginning of each school year in the office**

Counseling Service

Counseling services are available to all students through the office of the school guidance counselor. The guidance counselor is available to assist students with both educational problems and personal problems that may have bearing upon their academic performance. When appropriate, referrals can also be made to counseling services outside of the school.

In regard to the educational program, the guidance counselor is available to assist students in the selection of courses and with difficulties encountered in a particular course. The guidance counselor is also available to help students plan for their post-secondary education and career search. The guidance counselor also helps coordinate the school testing program and maintains a complete record of student progress from the time the student first entered school.

The guidance counselor is available to assist students in dealing with personal problems that may have bearing upon their academic performance. Through the Student Assistance Program, special counseling can also be arranged on such topics as chemical dependency, depression, peer difficulties and family problems. All counseling services are governed by school district and state regulations regarding confidentiality.

Students who want to see a counselor must seek an appointment. No student is permitted in the guidance office without a pass from his/her classroom teacher.

Health Services

The school nurse will coordinate school health services. Students who need to see the nurse must obtain a pass from his/her classroom teacher. The nurse is on a schedule that does not permit her to be in the high school full time. Should the nurse not be available, students in need of health room services should report to the office. Under no circumstances should a student use the telephone and/or leave the building.

Students are not permitted to carry any kind of medication, (prescription or over-the-counter) in school.

Students who are under medication are to report to the nurse with a note from home. The nurse will keep the medication during the school day, and at the appropriate time, the student will report to the health room to take the medication.

Immunization

All K–12 students admitted to the Frazier School District must meet the immunization requirements of the Commonwealth of Pennsylvania. Students who do not meet these requirements will not be admitted unless they meet the following criteria:

1. **Medical Exemption:**

Children need not be immunized if a physician provides a written statement that immunization may be detrimental to the health of the child. This written statement must be renewed prior to the start of each school year.

2. **Religious Exemption:**

Children need not be immunized if the parent(s) and/or guardian(s) object, in writing, on the grounds of a bona fide religious belief or ethical conviction. The parent(s) and/or guardian(s) must identify, in writing, the religious or ethical criteria upon which they base their objection.

3. **Kindergarten Exemption:**

Those children who have evidence of having received at least one (1) dose of each of the required antigens may be provisionally admitted to attend Kindergarten if the parent(s) and/or guardian(s) presents a plan, in writing, to the School Nurse for completion of the required immunization and the plan is made part of the student's school health record. The School Nurse shall review the plan for completion every (60) sixty days. All immunization requirements must be completed within (8) eight months of the date of provisional admission. If the requirements are not met, the school principal will not permit the student to enroll for the next school year until said requirements are fulfilled.

4. **Out-of-State Exemption:**

Children who move into the school district from out of state shall be provided the same exemption as that listed under Kindergarten Exemption.

Student Assistance Program

Many times in the course of our lives we come to a point where we must make a decision that will determine the road we will follow for years to come. We might have to make a decision about who our friends are, how we can get along without family members, if we will use drugs or alcohol or how we can succeed in school.

These are difficult decisions. Sometimes we need someone to talk to when we're confronting these problems. The Student Assistance Team is available to help students cope with these problems.

The Student Assistance Team helps students with problems related to drugs and alcohol, abuse, school adjustment, emotional adjustment, pregnancy, suicidal tendencies and personal health. When a student is referred to the Team, a Team member will meet with the student and gather information about the problem. Then the Team will design a course of action to resolve the problem.

Finally, the Team assists the student and the parent(s) and/or guardian(s) as they pursue this course of action.

There are three (3) ways in which the Student Assistance Team may get involved. Contacting any member of the team or placing a referral sheet in the box in the library may constitute self-referrals. All information will be held in strict confidence. Peer referrals may be appropriate if someone you know is genuinely at risk. These referrals may be made to a Team member or through the box in the library. The identity of the person making peer referrals will be held in strict confidence, but anonymous referrals will not be accepted. Any member of the school staff who identifies behaviors that indicate that a student may be at risk may make staff referrals.

Contact the high school at 724-736-9507 for members of the SAP Team.

FERPA provides that educational records cannot be released without the written consent of the parent(s) and/or guardian(s) or eligible student, except in certain specified instances.

Disclosure of Social Security Number

Section 7; Pub. L. 93579 provides that:

1. It shall be unlawful for any federal, state or local government agency to deny to any individual any right, benefit or privilege provided by law because of such individual's refusal to disclose his social security account number.
2. The provisions of paragraph one (1) if this subsection shall not apply with respect to:
 - a. Any disclosure which is required by Federal Statute, or (b) the disclosure of a social security number to any federal, state or local agency maintaining a system of records in existence and operating before January 1, 1975, if such disclosure was required under statute or regulation adopted prior to such date to verify the identity of an individual.

In the Frazier School District, directory information that is released to the public consists of student's name, address, telephone number and grade or class. Students are not permitted to carry any kind of medication (prescription or over-the-counter) in school.

Students who are under medication are to report to the nurse with a note from home. The nurse will keep the medication during the school day, and at the appropriate time, the student will report to the health room to take the medication.

Students must follow the CDC/ Department of Health Guidelines. Masks must be worn at all times unless authorized by school administration.

Homeless Students

Under McKinney-Vento all school districts are responsible for identifying students experiencing homelessness and connecting them with the resources needed to ensure academic success.

Who is considered homeless—Children or youth living in a shelter, transitional housing, hotel/motel, vehicle, campground, on the street or doubled up with friends or family due to a lack of alternate resources are considered homeless. An unaccompanied homeless youth is a child or youth that is not in the care of their parent or legal guardian and meets the definition of homeless under McKinney-Vento.

Where can students experiencing homelessness attend school? —The law indicates that homeless students have the right to remain in their school origin (the school they attended at the time of the homeless episode or last school attended) through the end of the school year in which they find permanent housing, provided it is in the child/youth’s best interest.

If through consultation between the school and the family and/or unaccompanied youth it is determined that remaining in the school of origin is not in the student’s best interest, then the student has the right to immediately enroll in the school that non-homeless students living in the attendance area in which the child/youth is actually living are eligible to attend, even if they do not have all of the required documentation. Additionally, unaccompanied homeless youth have the right to immediately enroll in school, even if they do not have a legal guardian present.

What supports can school districts provide to homeless students? —Homeless students are eligible for supports and services to remove barriers to educational success. This may include transportation to the school of origin, free meals, referrals to physical/mental health providers, clothing to meet school requirements, access to school supplies and resources, assistance with credit recovery, tutoring supports, expedited evaluations and assistance to participate in school activities including parent engagement opportunities, sports, club, etc.

Homeless Dispute Process—If at any time there is a disagreement about homeless status or best interest for school placement, the district will notify the family in writing of their determination that the family/unaccompanied youth is ineligible for McKinney-Vento services. At this time, the district will provide the family/unaccompanied youth with the ability to dispute their determination. Throughout the dispute process, the child/youth, including unaccompanied youth, will continue to be educated in the school of origin or immediately enrolled in the school they are seeking enrollment until the dispute process is finalized. Transportation will continue throughout the dispute process. All disputes will be sent to the ECYEH Regional Coordinator who will issue a determination. If any party is unhappy with the determination, they can elevate the dispute to the state coordinator.

What if I think that I am eligible for services under McKinney-Vento?

If you believe your child may qualify for this service please contact the district Homeless Liason, Amanda Law at 724-736-9507, Ext. 119 or by email at alaw@fraziersd.org.

It is expected that lockers will be locked. Students do not have an expectation of privacy regarding the use of lockers. Lockers are the property of the school and, as such, they may be searched under the guidelines in the "Student Code of Conduct."

Students are responsible for keeping their lockers clean and orderly. Students are not permitted to share lockers with other students.

In some cases, students may have their photos taken for publication if they earn recognition in a school-sponsored activity. Parent(s) and/or guardian(s) who do not want their child's photo published should notify the building principal in writing indicating that they do not give permission to have the photo published.

Religious Expression/Students

The establishment clause in the First (1st) Amendment to the Constitution has been interpreted by the federal court system to mean the public schools may not take sides in matters of religion, may not endorse a particular religion, nor take any action to promote or inhibit religion.

The free exercise clause in the First (1st) Amendment has been interpreted to mean that students have the right to exercise their religious beliefs in school, as long as they are not disruptive, nor attempt to coerce other students to join them or listen to them.

Students are free to pray, say grace before meals, read religious literature and discuss their faith in school as long as they are not disruptive, interfere with the educational process, obey school rules and do not infringe upon the rights of others, harass other students to accept their religious views or proselytize. These actions must be truly voluntary and student initiated. These activities can occur in formal settings before school begins, during class breaks, at lunch and after school.

Students may wear religious garments and display religious messages on clothing, subject to the same guidelines put forth in the Student Dress Regulations Section of this handbook.

Students may express their beliefs about religion in the form of homework, artwork and other written and oral assignments as long as the student's work directly relates to the assignment made by the teacher.

Students may distribute religious literature on school grounds, subject to the time, place and manner regulations found in the Literature Distribution Section of this handbook. This section only applies to students and is not applicable to non-students.

Restrooms

Students are not to be excused to the restroom without following the proper restroom procedures through e-hallpass.

School Police

The Frazier School District has secured the services of a School Police Officer. The School Police Officer has the power to arrest, the authority to issue citations for summary offenses and the authority to detain students until the arrival of local law enforcement or any combination thereof.

The School Police Officer's authority shall be exercised on school grounds and on school vehicles owned or leased by the school district.

Security Cameras

Security cameras monitor the buildings and grounds of Frazier School District. Videotapes, recorded by the security cameras, are reviewed and maintained by school officials. Audio and video security cameras will also monitor school buses. These tapes can and will be used in disciplinary action and legal proceedings, as deemed necessary.

Special Education Monitoring

The Frazier School District, along with all school districts in Pennsylvania, and other public agencies in the Commonwealth, must establish and implement procedures to identify, locate and evaluate all children who need special education programs and services because of the child's disability. This notice is to help find these children in our districts; offer assistance to parents; and, describe the parents' rights regarding the confidentiality of information that will be obtained during this process.

The content of this notice has been written in English. If a person does not understand any of this notice, he or she should contact the district's LEA (see list below) to request an explanation.

Identification Activity

Child find refers to activities undertaken by public education agencies to identify, locate, and evaluate children residing in the State, including children attending private schools, who are suspected of having disabilities, regardless of the severity of their disability, and determine the child's need for special education and related services. The purpose is to locate these children so that a free appropriate public education (FAPE) can be made available. The types of disabilities that, if found, cause a child to need services are: autism, deaf-blindness, deafness, emotional disturbance, hearing impairment, mental retardation, multiple disabilities, orthopedic impairment, other health impairment due to chronic or acute health problems, specific learning disabilities, speech or language impairment, traumatic brain injury and visual impairment including blindness. In the case of a child that is of preschool age, developmental delay is a type of disability.

The Albert Gallatin School District, Brownsville School District, Connellsville Area School District, Frazier School District, Laurel Highlands School District and Uniontown Area School District, along with other school districts in the state, are required to annually provide notice describing the *identification* activities and the procedures followed to ensure confidentiality of *personally identifiable information*. This notice is intended to meet this requirement.

Identification activities are performed to find a child who is suspected as having a disability that would interfere with his or her learning unless special education programs and services are made available. These activities are sometimes called *screening* activities. The activities include: reviewing group data; conducting hearing and vision screenings; assessing the student's academic functioning; observing the student displaying difficulty in behavior; and, determining the student's response to attempted remediation. Input from parents is also an information source for *identification*. After a child is identified as a suspected *child with a disability*, he or she is evaluated, but not before parents give consent for the evaluation to be conducted.

Protected Handicapped Students' Identification

In compliance with state and federal law, the Albert Gallatin School District, Brownsville School District, Connellsville Area School District, Frazier School District, Laurel Highlands School District, and Uniontown Area School Districts will provide to each protected handicapped student-without discrimination or cost to the student or his/her family-those related aids, services or accommodations which are necessary to provide the student equal opportunity to participate in and obtain the benefits from the school program and extracurricular activities to the maximum extent appropriate to the student's abilities.

To qualify as a protected handicapped student, the child must be of school age with a physical or mental disability which substantially limits or prohibits participation in or access to an aspect of the school program. These services and protections for "protected handicapped students" are distinct from those applicable to all eligible or exceptional students enrolled (or seeking enrollment) in special education programs.

Gifted Identification/Services

The Albert Gallatin School District, Brownsville Area School District, Connellsville Area School District, Frazier School District Laurel Highlands School District and Uniontown Area School District provide services for mentally gifted students which enable them to participate in acceleration or enrichment programs, or both, as appropriate, and to receive services according to their intellectual and academic abilities and needs. The gifted support coordinators also plan a variety of enrichment opportunities and learning extensions outside of the classroom through educational trips, conferences, workshops and competitions. Students may be referred for evaluation to determine mental giftedness through a teacher or parent nomination or when their performance meets established criteria. To identify a student with mental giftedness, the district secures permission to evaluate from parents. A team comprised of district staff and parents then gather information for the evaluation which is summarized in the gifted written report (GWR) and used by the gifted individualized education program (GIEP) team to determine if the student meets criteria for mental giftedness and needs specially designed instruction. The GIEP team develops a program for the student.

Referral for a gifted multidisciplinary evaluation shall be made to the building principal when the student is suspected by teachers or parents as needing referral for a gifted evaluation. Parents who suspect that their child is gifted may request a gifted multidisciplinary evaluation of their child at any time, with a limit of one request per school term. The request must be in writing. Parents may obtain additional information regarding Gifted services for students by contacting the child's school principal or the Supervisor of Special Education.

Confidentiality

If disability is suspected following the screening, your child will be evaluated, given your consent. A written record of the results is called an Evaluation Report, which is directly related to your child and is maintained by the school district. These records are personally identifiable to your child. *Personally identifiable information* includes the child's name, the name of the child's parents or other family members, the address of the child or their family, a personal identifier such as social security number, and other information that would make the child's identity easily traceable.

Your school district of residence will gather information regarding your child's physical, mental, emotional and health functioning through testing and assessment, observation of your child, as well as through a review of any records made available to the district through your physician and other providers of services, such as day care agencies.

The school district protects the confidentiality of *personally identifiable information* by assigning one school official as the person responsible for ensuring the confidentiality of those records. This official is responsible for training all persons using this information and for maintaining for public inspection a current list of employees' names and positions who may have access to this information.

When the school district no longer needs this information for the provision of educational services, you will be notified. And, the district will destroy this information at your request—with the exclusion of general information such as your child's name, address, phone number, grades, attendance record, classes attended, and grade levels completed, which may be maintained without time limitation.

As the parent of the child, you have several rights regarding the confidentiality of your child's records. You have the right to inspect and review all educational records related to your child that are collected, maintained, or used by the school district. Your district will comply with a request from you to review the records without unnecessary delay. You may also review the records before any meeting regarding planning for your child's special education program (IEP meeting) and before a hearing (should you and our school district disagree about

how to educate your child who needs special education services). In no case, shall the district take more than 45 days to furnish you the opportunity to inspect and review your child's records.

You have the right to an explanation and interpretation of the records; to be provided copies of the records if failure to provide the copies would effectively prevent you from exercising your right to inspect and review the records, and; the right to have a representative inspect and review the records.

Upon your request, the school district will provide you a list of the types and location of education records collected, maintained, or used by the agency. The district may charge a fee to search or retrieve information.

You have the right to request an amendment to your child's education records if you believe they are inaccurate or misleading, or violate the privacy or other rights of your child. The school district will decide whether to amend the records within a reasonable time of receipt of your request. If the district refuses to amend the records, you will be notified of the refusal and your right to a hearing. You will also be given additional information regarding the hearing procedures; and, upon request, the district will provide a records hearing to challenge information in your child's education files.

Parent consent is required before personally identifiable information contained in your child's education records is disclosed to anyone other than officials of the school district. School officials collect and utilize such information for purposes of identifying, locating, or evaluating children and to provide a free appropriate public education to children. A school official has a legitimate educational interest if he/she needs to review an education record in order to fulfill a professional responsibility. The school district may also, upon request, disclose records without consent to the officials of another school district in which your child seeks or intends to enroll. Further information regarding the Policy of the Collection, Maintenance, and Dissemination of records is available through the principal's office.

When a child reaches age 18, the rights of the parent regarding confidentiality of personally identifiable information is transferred to the student.

A parent may file a written complaint alleging that the rights described in this notice were not provided: Pennsylvania Department of Education

Bureau of Special Education
Division of Compliance
333 Market Street
Harrisburg, PA 17126-0333

The Department of Education will investigate the matter, issue a report of findings and necessary corrective action within 60 days. The Department will take necessary action to ensure compliance is achieved.

Complaints alleging failures of the school district regarding confidentiality of personally identifiable information may also be filed with:

Family Policy Compliance Office
U.S. Department of Education
400 Maryland Avenue, SW
Washington, D.C. 20202-4605

In accordance with 34 CFR § 300.624, please be advised of the following retention/destruction schedule for the Pennsylvania Alternate System of Assessment (PASA), Pennsylvania System of School Assessment (PSSA), and Keystone Exam related materials:

- PSSA, Keystone Exam, and PASA test booklets will be destroyed one year after student reports are delivered for the administration associated with the test booklets.
- PSSA and Keystone Exam answer booklets and PASA media recordings will be destroyed three years after completion of the assessment.

Early Intervention Identification

In Pennsylvania, a child between three years of age and the school district's age to begin school who has a developmental delay or one or more of the physical or mental conditions listed above is identified as an "eligible young child." The parents of these children have the same rights described above.

*The Pennsylvania Department of Education is responsible for providing programs and services to eligible young children under Act 212 of 1990, the Early Intervention Services System Act. Screening for preschool children is available upon request. For additional information or to schedule an appointment for screening call the Supervisor of Early Intervention Services, Intermediate Unit 1 at 724-938-3241.

Potential Indicators of Weaknesses In The Developmental Domain Areas And Other Risk Factors That Could Indicate A Disability (Requirement of Section 14.212(b))

A developmental delay is determined by the results of a developmental evaluation. The results of one or more domain areas (adaptive, personal-social, communication, motor or cognitive) must show at least a 25% delay or a score of 1.5 standard deviations below the mean (Standard Score of 77 or below). The delay results in the need for specially designed intervention/instruction (SDI) to participate in typical activities and routines.

Children with a developmental delay may show weaknesses in the following areas:

Adaptive – Pre-kindergarten aged children with a developmental delay may have difficulty dressing/undressing; using utensils to eat; removing shoes without assistance; distinguishing between nonfood/food substances; or, with toileting needs. They may also have difficulty moving independently around the house; understanding that hot is dangerous; putting away toys when asked; indicating an illness or ailment to an adult; or demonstrating caution to avoid common dangers.

Other Factors That Could Indicate a Disability

Developmental disabilities are birth defects related to a problem with how a body part or body system works. They may also be known as **functional** birth defects. Many of these conditions affect multiple body parts or systems.

Researchers have identified thousands of different birth defects. Birth defects can have a variety of causes, such as: genetic problems caused when one or more genes doesn't work properly or part of a gene is missing; problems with chromosomes, such as having an extra chromosome or missing part of a chromosome; environmental factors that the expectant mother is exposed to during pregnancy, such as Rubella or German measles; or if drugs or alcohol are used during pregnancy.

If you wish to learn more, have questions, or believe your child requires evaluation services, please contact the Supervisor of Special Education at 724-736-9507.

Student Records Policy

The following information is provided to notify you of your rights and privileges under the Family Educational Rights and Privacy Act (FERPA), a federal law that protects the confidentiality of student educational records by limiting their disclosure. FERPA guarantees parent(s) and/or guardian(s) or eligible students (students eighteen (18) years of age or older) certain rights which are described below.

Listed here is a summary of the comprehensive student records policy with specific areas highlighted for your information.

Student Transfer

Students must notify the guidance counselor of their transfer to another school. Arrangements will be made to sign-out of Frazier and transfer all records to the new school. All school property must be turned in and obligations paid before records will be transferred to the next school.

Summer School Policy

Students who receive less than a proficient grade in any course at Frazier High School may make up that course in a summer school program, or a private tutoring program that has received the prior approval of the building principal, or a pre-approved correspondence program.

Summer school programs must be conducted and supervised by a public school district or by an accredited private school, which has been approved by the Pennsylvania Department of Education. A properly certified teacher must conduct private tutoring programs. The private tutoring program must consist of a minimum of (30) thirty hours of direct instruction by the properly certified teacher.

The student's parent(s) and/or guardian(s) shall pay the cost of all summer school programs and private tutoring programs. Students who successfully complete a course in an approved summer school program or approved private tutoring program will receive full credit for the course and full points (quality points) for the grade earned in that course. That credit and grade will be added to the student's permanent record card and shall be counted in determining the student's cumulative grade point average. The district will follow the State Board of Education regulations for the awarding of credits.

Visitors

All visitors must report to the building office, sign in, state their business and receive a visitor's identification badge. Such visitations are limited to those with a specific, legitimate reason for being in the building. Any stranger in the building without a visitor's badge should be immediately reported to the office.

Work Release

Philosophy

Frazier School District recognizes that as students reach their senior year there sometimes exist a need to be released from school on a daily basis for reasons of employment and/ or family illness. This Work Release Program is designed to meet that need while ensuring that the student fulfills all of the requirements needed to graduate from Frazier High School

Requirements

1. The applicant must be a 2nd semester graduating senior.
2. The applicant must have a class schedule that will fulfill all requirements for graduation.
3. If under age, the applicant must possess a valid Employment Certificate.

To continue in the Work Release Program, the student must submit an Employer Verification Form that shows the hours worked and that employment is continued to the school guidance counselor at the end of each month. The form will reveal the days and hours that the student has worked and contain a description of his/her job duties and other accomplishments related to the position. A minimum of six (6) hours per week must be worked during the school day.

Participation in the work release will be terminated when the student's job is terminated. Work release will also be terminated when the student accumulates more than three (3) unexcused absences or more than five (5) unexcused cases of tardiness to school. Work release will also be terminated if the student's grade point average falls below 1.75 or if the student receives an "F" in any of his/her classes during any grading period.

Under no circumstances will any student, approved for this program, be released from school prior to the end of their second period class.

The Work Release Program may be applied to situations involving long-term family illness. If a student is to be released for a reason of long-term family illness, the student must present proof that he/she is needed at home. This proof will be in the form of a letter from the student's family doctor. The letter will describe the need for the student's early release and will list the days and hours that he/she will be needed at home. The student must also present a letter from his/her parents verifying the need for the student to be at home and granting permission to be released at a designated time. This requirement for parental verification will be waived if the applicant is eighteen years of age or older and no longer lives with his/her parents. This requirement will also be waived if the applicant has been declared an emancipated youth as provided by law.

Frazier Digital Academy

In order to accommodate all learners today, the school must provide alternate ways for our students to have a successful learning experience. The Frazier Digital Academy is our district's program that is designed to provide an educational environment that accommodates, engages, and challenges all learning styles. It incorporates 21st Century skills that enrich their learning through digital media and resources. Our FDA students will experience a technology filled environment that is supported by the 'brick and mortar' teaching staff on a daily basis making our students active, knowledgeable, and creative life-long learners ready to meet the workforce with valuable technology skills.

Our digital students are expected to follow all the rules found in the Frazier Student Handbook. This is especially important because they can experience the learning environment both in and out of the school building. Your child will receive all appropriate consequences listed for any infraction in the handbook. Please make sure that you have read the handbook in its entirety – calendar, dress code, bus conduct, etc.

Frazier Digital Academy follows the curriculum, grading scale, and attendance policy approved by the Frazier School Board. If this is not adhered to, digital students can and will be held responsible for the reimbursement of courses that they do not successfully complete.

The Chromebooks have wireless network capability. If parents have a home wireless network, students may connect. Parents will be responsible for setting up and monitoring student Internet access at home. Internet access at home will not be mandatory. Settings allow for the students to work offline when the Chromebooks are used off campus without Internet access. FSD Tech Support will not be responsible or troubleshoot connection problems outside the school district buildings. Connection to your home network is rather easy as long as you do not have a major security setup on your home network. We will give a little demo to the students on how to connect at home but any issues beyond that will have to be taken care of by you or a local technician.

What if a student already has another model or brand of Chromebook computer?

At this time, students will be required to use the FSD issued Chromebook for school purposes. This is necessary to ensure that students have a computer that gives them network capability and the ability to access the software needed for their classes. It is a direct violation of the PA Computer Crimes code for a non-district issued device to connect to the district network without prior permission.
