WKU SUPER SATURDAYS

Super Saturdays encourages students in grades 1 - 6 who are of high ability or have high interest in a topic to pursue their passions outside the regular classroom. Through a minds-on, hands-on approach to learning, students explore and investigate such areas as math, art, science, history, writing, music, and performance under the thoughtful guidance of experienced teachers and in the company of enthusiastic, like-minded peers. Students attend Super Saturdays at WKU's main campus in Bowling Green, KY.
