***A Message from Superintendent:*** *I want to express my gratitude to the many individuals who participated in the School Security Survey. We had 843 participants across the Region, reflecting the community's strong commitment to our schools' safety and well-being. Each Board of Education has reviewed the survey results during their January meetings. Over the coming months, the local Boards will continue to analyze their findings and determine the next steps for their respective communities. Thank you again for your engagement and valuable input.*
