TRANSPORTATION SAFETY INSPECTION

It shall be the policy of the Jefferson Davis Parish School Board to require all vehicles used for the transportation of children, whether privately or publicly owned, be inspected twice annually by authorized and qualified personnel. Such inspections should occur during the summer months and again in January. Any bus found to be deficient shall be so designated and shall not be used to transport students until the appropriate repairs have been made and further inspection reveals that the deficiency has been removed.

All vehicles used for the transportation of children, whether privately or publicly owned, shall be inspected periodically by local transportation personnel in accordance with standards established by the Louisiana Board of Elementary and Secondary Education (BESE) and/or Board.

All buses shall be inspected under the auspices of the Louisiana Department of Public Safety at the earliest possible date following the close of the school session. Any buses requiring repairs or replacements shall be re-inspected by qualified personnel on a date and at a location to be designated.
