POSITIVE THINKING

Try a New Filter

In the age of social media, people love to add filters to their pictures. We can make them look bright, faded, futuristic, scary, or even airbrushed. We add text and stickers, emojis or effects. We can take what's real and alter it to make something new. You can also do this with your thinking. When negative thinking feels powerful and takes over, try a new filter. Add positive text and fun emojis by sending your thoughts through a positive filter.

In Varsity soccer action the Chemics beat Bay City Central 8-0. Scoring for the Chemics Matt Mecca, Kadon Caris x2, Aiden Marthaler x2 and Xavier Wisneski.
