

Students@Work

2023

SECU - Randleman Branch

Randolph Electric

RCSS Bus Garage

Randleman Middle School 8th Graders participated in Students@Work by visiting the State Employees Credit Union (SECU) Randleman Branch to learn more about careers in the finance career cluster. After students learned helpful information about personal finance at the SECU, they toured the Randolph County School System's (RCSS) bus garage and even got to ride on the new electric bus. The day ended at Randolph Electric Membership Corporation (REMC), where students learned about the dangers of electricity through a live wire demonstration. Students also experienced how outages are managed and monitored. Thank you to the SECU - Randleman Branch, RCSS Bus Garage, and REMC for having us!
