

EMERGENT BILINGUAL STUDENTS (ESL)

END OF THE YEAR INFORMATION

Dear Parents, the year has past by quickly! We hope your child had a fabulous school year and that you have observed them growing academically and socially throughout the school year. A quick recap of the year includes two in person parent information meetings held in the Fall and in the Spring in order to provide you with information regarding our offered Emergent Bilingual Student Programs as well as an introduction of TELPAS and STAAR testing. We will have additional meeting dates announced for the 24-24 school year when summer concludes. For our Community Engagement Virtual Information session please view the Spanish and English versions of the video at:
