Once school begins, all students and visitors must check in through the district office. Thank you in advance for helping us keep the campus secure.

Counseling will begin to meet with in-person and online students, beginning with current juniors on August 24th to establish students' Education and Career Action Plan (ECAPs). ECAPs are to help students better understand credit requirements needed for graduation and plan for post-secondary goals. In planning for post-secondary goals, students are encouraged to explore many options afforded to them at MHS to help them reach those goals. These discussions will also help guide students when planning next year's course requests.

STUDENT IDS

Student ID badges were issued to in-person learning students on August 17th. As an important element to school safety, students are expected to have their student IDs with them while on campus during the school day and at school events. Student IDs can also help students take advantage of discounted admission fees to school events, like athletic competitions.
