Different Waves of the Past

With the 50's came poodle skirts and bobbie socks, along with skin tight white tees and rolled up high cuffs. Drama and English teacher Susan Bardsley said, "In my time we wore long tight skirts, white bucks with anklets rolled down."

The rockin' 70's soon followed with the beebop hip huggers and pastel colors. American and World History teacher Jimmy Inman said, "History repeats itself. Rolled up tight jeans and side krimped ponytails were the trends of the 80's. Geometry and Algebra I teacher Jon Hall said, "Fashion was much better when I was in high school, all of our clothes fit, and we didn't buy clothes that were ten sizes to big."

Then in rolled the 90's with a mixture of the different waves of the past. Trends have returned with a unique style, but some have their doubts about the fashion today. "I don't like the mixture of the past fashion we need to make our own fashion, something new for the 90s", said freshman Andrew Thomas.

Concert Band met second semester, first period. The band was basically returning marching band students. They put in much time preparing for the festivals in which they were to perform. ...said senior Tommy Sherrill. Instead of five days it was six days of school spirited fun, since this was our first time playing the game on Saturday. The week started off in drowsiness with pajama day on Monday. Tuesday was a bit confusing on Kriss-cross day, when everyone wore their clothes backwards. Everyone was punked out for 80's day, with their crimped and colorful hairstyles on Wednesday. By Thursday everyone had "Jungle Fever" decked out in their safari outfits. Friday brought the true school spirit out especially at the pep rally where there was a conga line of Jet Pride and colors. Friday evening was full of "bump and grind at the homecoming dance. "...Everyone had a lot of positive energy." said, junior Amanda Threet. To end the fun, Jet fans gathered for a roaring defeat against Redbank. Harmonizing with a fellow classmate, sophomore Jarrod Steer says, "Mr. Gibson sings higher than most of the girls in here."

Making sure he's singing on the right pitch, sophomore Charles Green says, "We get to get away from written work."

To Act Or Not

For many students, drama was a way for them to express themselves. Sophomore, Will "Joey" Mitchell said, "Real life is too boring, drama is a great way to escape." Classes were taught by Susan Bardsley, and Jane Parris. This was the first year the teachers had taught a drama class. Teacher Jane Parris said, "Theatre offers an intriguing cast of characters who alternately, growl, laugh, scream, whisper, giggle, squirm, fidget, fuss, whine, whimper, whail, sleep, and eat. You know who you are, don't you?"

In theatre arts classes, students read plays, learned about famous authors and playwrights, and of course the most important of all, acted. Freshman, Ashley Bell said, "Drama has been a great experience for me, you can just go crazy and no one would even notice." One of the things most enjoyed by students in these classes, was improv. Freshman, Kerri D'Orlando said, "Drama was an enjoyable class, except for the princesses." Another enjoyable experience for the drama classes was a trip to the playhouse. Teacher, Susan Bardsley said, "We desperately need a theatre to practice and perform in so that the students can truly experience the feeling and power of drama."

Class cooperation allows for drama to be more exciting and fun for the students.

DRAMA is...

"It's been really great. All we need now is a real stage and auditorium and we'll be set!" -senior, Casey Smith

"I express my thought through drama. If it weren't for drama I might be in a ditch somewhere." -sophomore, B.J. Waters

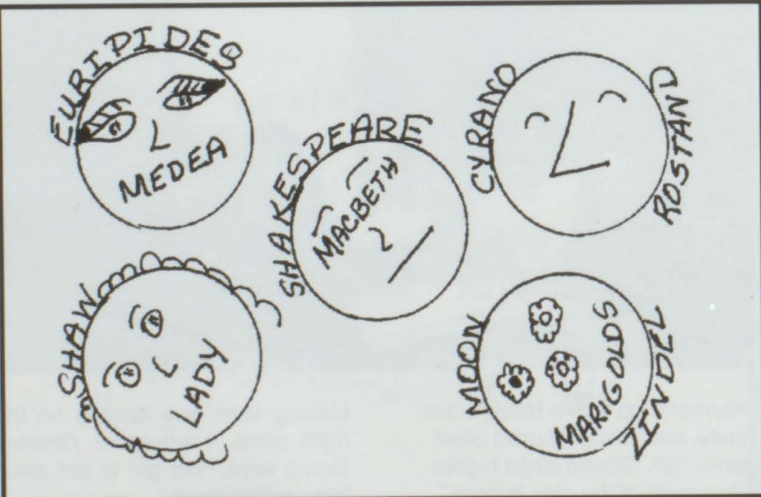

"One's expression of one's self is through acting." -freshman, Virginia Tabor

"purple prose," "...soul of wit," a "mirror" of the time, a stage where we "strut and fret our hour." -teacher, Jane Parris

"G oat, good stuff I learned in drama." - junior, Jayson Hassler

Entertaining fellow students, junior Nick Mayberry says, "I love Drama class!"

Playing the part, junior Susan Cramm says, "Drama is a chance to become someone else for a brief moment and escape from yourself. It's great!"

Laughing at his friend's feeble attempt to scare him is junior, Jay Montgomery.

Language as Self Expression

Language was a mandatory part of everyday life. It was necessary for the students to get along. There were several classes offered to help students with their language skills. These classes ranged from required English to foreign languages. College bound students were required to have two credits in either Spanish or French.

Spanish I teacher, Marti Wyatt, said, "Spanish helps in everyday life when you are competing for a job in any field that requires contact with the world abroad or in our own backyard." Junior, James LeCroix, said, "This was my second year in Spanish II. I think I'm beginning to catch on!"

French I and II teacher, Sharon Phillips quoted Goethe's statement, "He who is ignorant of foreign languages knows not his own." Freshman, Cain Demumra, said, "In French class we did a lot of challenging work, but I really enjoyed it because I know it will be beneficial in the future." Junior Crystal McGraw said, "I hope to apply my French knowledge in France one day. I love my Mrs. Phillips!"

English 12 teacher, Angie Turner said, "Language is an outlet for self-expression. It not only communicates our thoughts and ideas, but also our feelings, creativity, and identity." Sophomore, Dewayne Ford said, "English is something you are going to have to know. You might as well learn it while you have the chance." Junior Jay Laverack says, "English can be a great class as long as you have the right teacher. [Aaa-Hem!]"

Feeling philosophic, sophomore Taska Randolph says, "Without the extreme teachings of philosopher Bardsley we couldn't succeed in the circle of life."

Enjoying her English class, sophomore Nicole Simmons says, "Mrs. Wyatt is a great teacher. She has a fun and interesting way of teaching."

Math is Good, Math is Great!

"Math is the best thing that has ever been developed in the history of the world. It makes everything add up. It also gives one a method to find all the answers," said algebra teacher Janet Burnett.

The teachers of the math department went to the National Council Teachers Math Regional Convention in Atlanta in April 1997. The 1997 senior students Matt Selby, David Lovell, and Will Smith and 1998 senior Wayne Blaylock from Ms. Buck's calculus class helped as "student teachers" in Ms. Burnett's classes. These classes had certified substitutes in the class along with the students. Students competed in the state Math contest at Tennessee Tech in March.

"There are endless possibilities when you are learning math. Algebra II is the best," said sophomore Jadriem Wauthier. Even though Jad had a difficult obstacle to overcome because he is blind, he was one of the top math students.

Everyone was not as excited as some people were about math. Sophomore, Jacob Conley said, "Math should be over after the 8th grade, because high school math is useless." Junior, Randy Hurd made a rhyme about his dislike of math when he said, "Math is good, math is great, my final average was an eight." Basic math teacher Jenny Graham said, "Teaching basic math is a challenge to one's patience and ability to find numerous methods to teach a concept. It's really exciting to watch the light bulb turn on because you and the student have worked equally hard to flip the switch."

Laughing in the face of danger senior, Chris Fairall says, "Algebra II is a really fun class, even though I don't know what I'm doing."

MATH is...

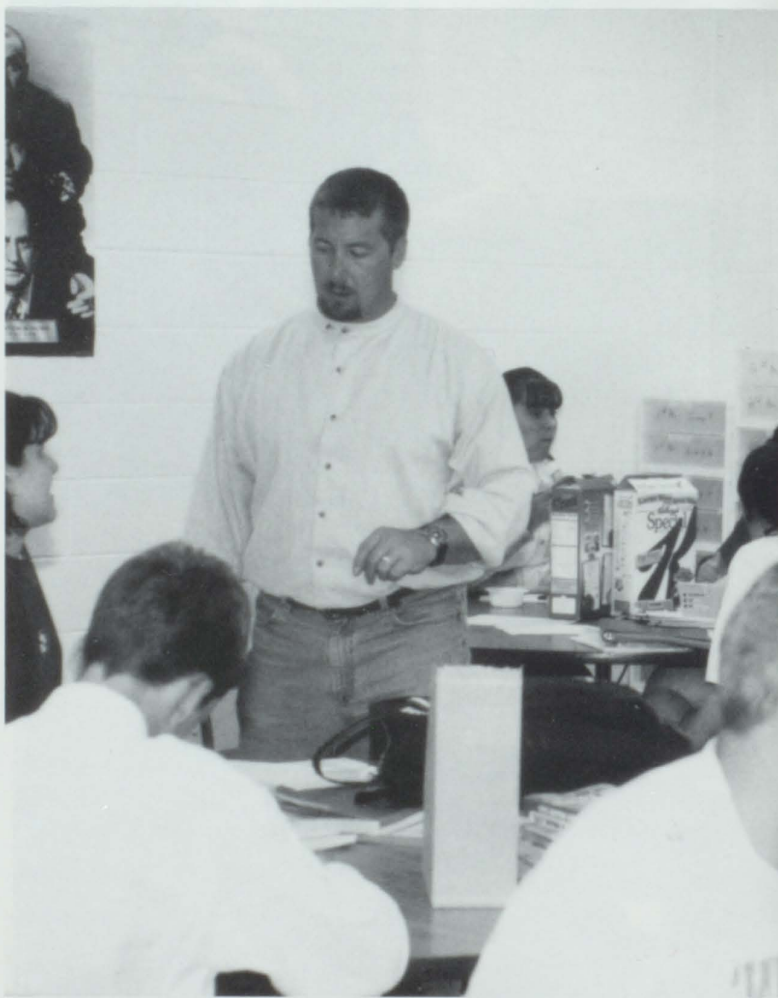

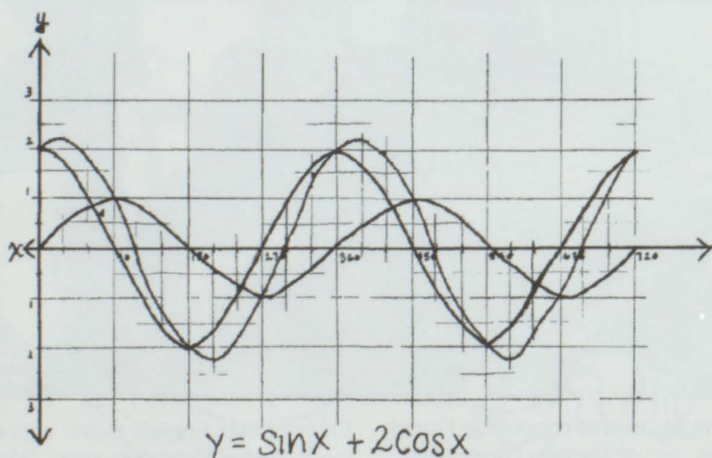

"Math is very challenging especially for me since I haven't got a clue what I'm doing." -**senior, Jared Barnwell**

"Math for Technology is, by far, the most practical math course in our high school." - **teacher, Scott Maddox**

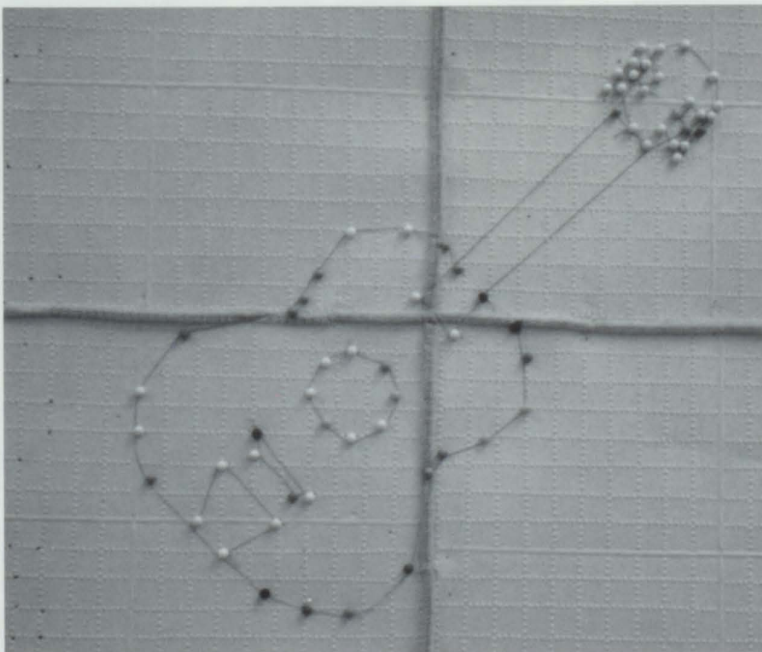

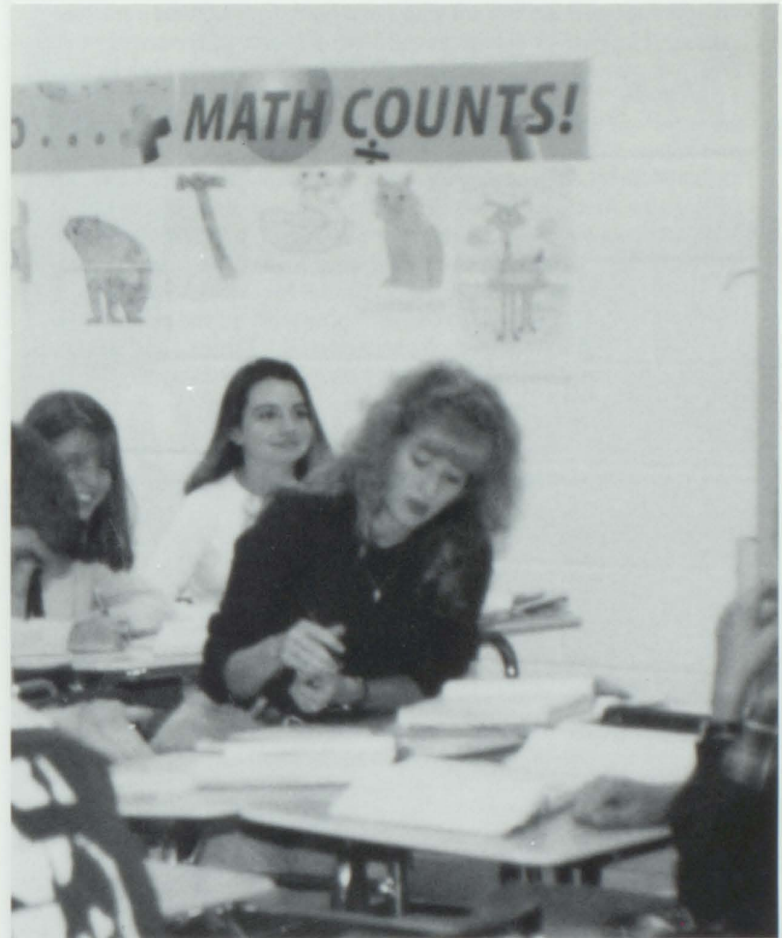

Teacher Scott Maddox assists some of his students in learning the marvels of math.

Working diligently, junior, Cassie Rogers says, "This class is a blast! Sarah Jo and I kept it going!"

Helping her classmates, senior, Hope Sisco says, "Math really isn't a fun subject, but there's never a dull moment in Ms. Burnett's class."

About his masterpiece, sophomore, Jad Wauthier says, "It definitely took a lot of creativity and time to make the graph. It also took two tries."

Pondering the answer, sophomore, Hillary Touton says, "I've learned a lot from Ms. B because she's a really good teacher!"

Ahh... Formaldehyde

"The smell of formaldehyde is just so invigorating in the morning," said sophomore Cassy Givens. Students had the opportunity to work hands-on in labs. Ecology teacher Annell Shaffer said, "Our science department takes pride in our state of the art laboratories, and our high tech audiovisuals. You should stop by and you'll see hands on activities going on in classrooms- science rocks!". Not all science took place in the classroom students visited a recycling center, a water treatment plant, and a nuclear reactor. The science department also did community service such as trash pickup, and fun events like canoeing, and hiking at Fall Creek Falls. The diversity of science courses available were vast: physical science, biology I and II, chemistry, and anatomy and physiology. The school received special recognition for having the 12th best Science department in the southeast. This was based on the 12th best Science exit exam scores. The school was invited to a conference in Atlanta, GA. over the summer. The recognition was sponsored by SREB (Southern Regional Education Board). Junior, Josh Hudgins, a student in Linda McDuffee's class said, "Science is a great subject, getting to play with all the chemicals is a lot of fun." Freshman, Jason Jackson said, "I think that Science is very important in school, it helps us learn about ourselves and our environment."

Looking hungry, sophomore Monica Kalbarczyk says, "Class is fun! We get to eat a lot."

SCIENCE is...

"It was a great and hard experience."-senior, **Amanda Hamilton**

"It's a breeze, science allows me to be aware of the world around me!"- junior, **Michael Willis**

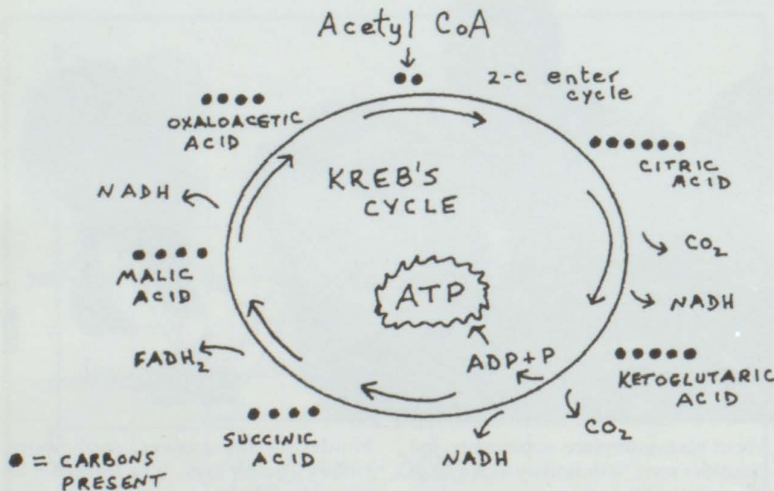

"Learning about science and all of the exciting experiments is the biggest highlights of my day."- sophomore, **Brandi Tate**

"Mr Strickland's class is very exciting, I enjoy it every afternoon."- freshman, **Amanda Hinch**

Jessica Parker had a hair-raising experience at the Oak Ridge Museum of Science.

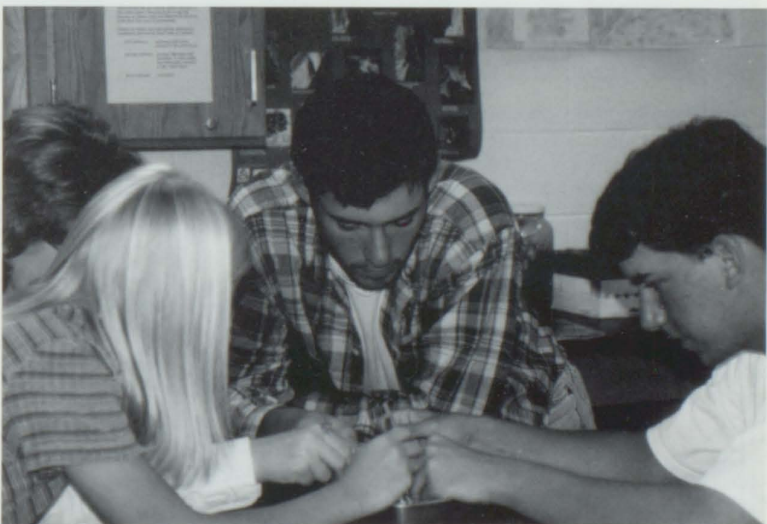

Searching through her book, junior Peggy Purdue says, "Science can be hard. I can't find the answers so I'll usually look confused."

Around the World and Back

Watching carefully, junior Natalie Brummit says, "Science is fun, if you want to learn it."

"Mrs. Mayfield-Loyless makes chemistry interesting!" says junior Brent England.

Junior David Coffey says, "Working with Professor Shaffer has been an honor and great experience! I love the discussions."

Around the World and Back

American history, world history, world geography, Honors American History, economics, and government were classes that brought students in touch with the world around them. American History teacher J.C. Davis's enthusiasm for history was noted by many students. Junior, Jamie Gunter said, "He is the most entertaining man in the world!" Senior foreign exchange student, Lygia Teixeira said, "The class is interesting and he gives a lot of fun examples." Two classes aimed to make seniors aware of financial and government situations were economics and government. Senior, Christy Rogers said, "Economics helps you prepare for the future in life." Not all students believed that social studies classes were as informative. Senior Lane Goodwin said, "Government was boring. I'd rather be out mudding." Students also had a choice between taking world history or world geography. "My favorite part of world history was learning about Greece. I think mythology is really interesting," said freshman Lauren Parks. Before taking world geography, sophomore Dustin Dodson said, "I had no idea where Albuquerque was." Social studies classes were a major part of the required curriculum. Some students found these classes useful. On the other hand, some students didn't understand the need to take social studies. American and world history teacher Jimmy Inman said, "Social studies, it opens worlds of adventure, if you let it." "Coming to U.S. History is the highlight of my day," said sophomore Jennifer Harvel.

Chowing down, junior Amanda Marlow says, "U.S. History with Mr. Davis is great! He makes it more interesting. You feel like you're part of history."

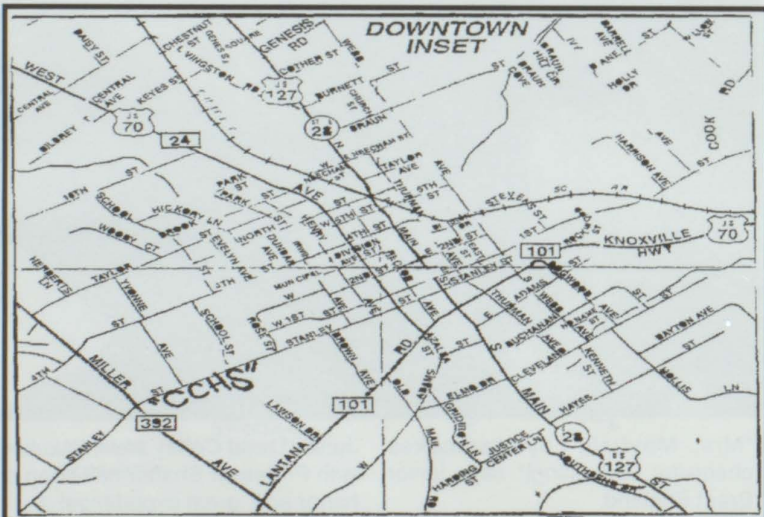

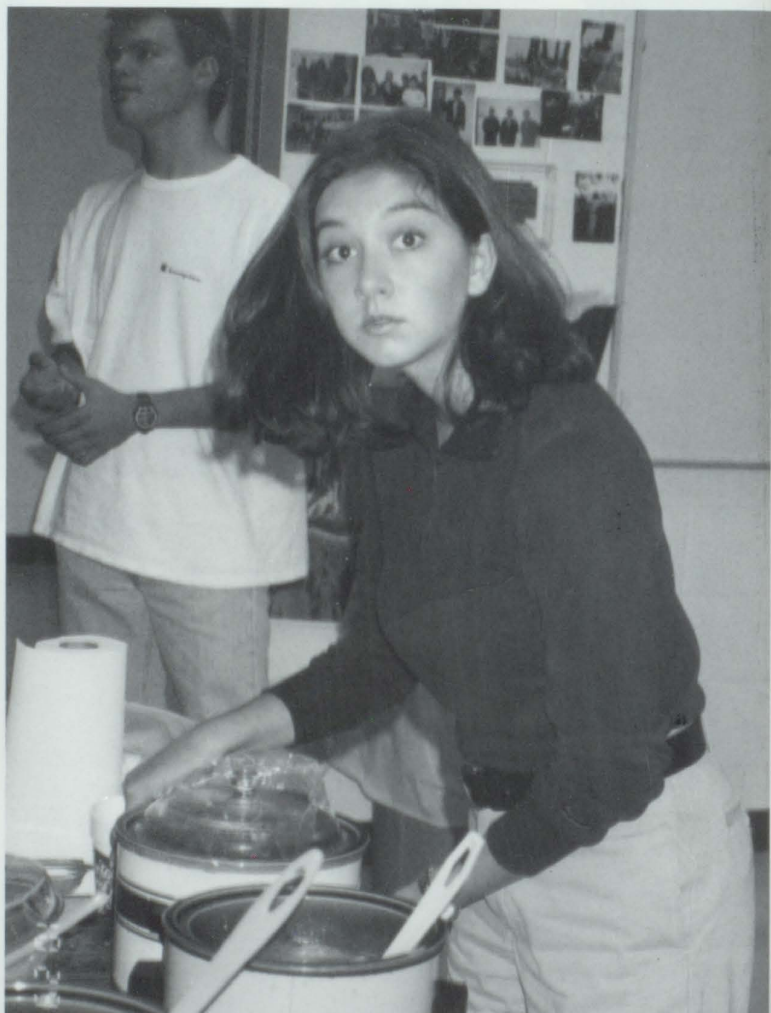

Social Studies is...

"I still remember the wonderful scale of evil bad guys. Thank you so much Mrs. Akins!"- **senior, Jeff Petro**

"I really see no reason for geography because I'm going to be in Crossville for the rest of my life."- **sophomore, Ryan Flynn**

"I enjoy world geography very much because Mr. Brock makes it interesting."- **freshman, Nathaniel Kokes**

"The social studies provide a broad framework to examine the elements of culture that make up our society."- **teacher, April Wilkerson**

we get to bring food. I eat like a sow so I always bring food! He makes class interesting and fun. I've really enjoyed it."

Freshman Ashley Smith is working hard to keep her notes up, in U.S. History.

Taking notes, senior Brandi Wyatt says, "Mr. Davis makes history interesting and fun."

Asking her teacher a question, junior Katie Marsh says, "Government is really boring."

Looking for an answer in world geography is junior Daniel Sitton.

New Opportunities

Vocational education classes varied from family and parenting to residential construction. Marketing teacher, Judy York said, "These courses give students the opportunity to gain information and learn skills that will enable them to develop successful careers. They also are designed for every student not only those with a technical concentration major, but also those interested in a university pathway." Senior Tiffany Hughes said, "Vocational classes were great, because I got to leave the hard life at school." Senior Jason Davis said, "I think co-op is great, especially with Ms. McCoy!"

Family and parenting was just one of the many vocational classes offered. Students gained an understanding of married life with children. Sophomore Tabettha Christopher said, "It's fun except for the teachers who complain about our babies." Photography taught by Art Sanderson offered students the chance to learn about all aspects of photography. "Developing film in Mr. Sanderson's class is cool," said freshman, Christopher Blaylock. Residential construction classes completed a house that will soon be for sale. Junior Andrew Bolles said, "Mr. Freeman's class is a lot of hard work but we always have fun." Seniors had the opportunity to receive credit and gain experience through part-time employment. Teacher Alfred Gilliam said, "Greenhouse provides students with a hands-on opportunity." Vocational classes gave students a well-rounded outlook on everyday life. Junior, Jake Imes said, "It is a fun learning experience."

Braving a taste test in nutritional science, junior Ashley Burnett says, "This class is like chemistry all over again except we get to eat almost everyday."

VOCATIONAL is...

"Vocational classes are a real good way to prepare you for life on the outside." - **senior, Virgil Thompson**

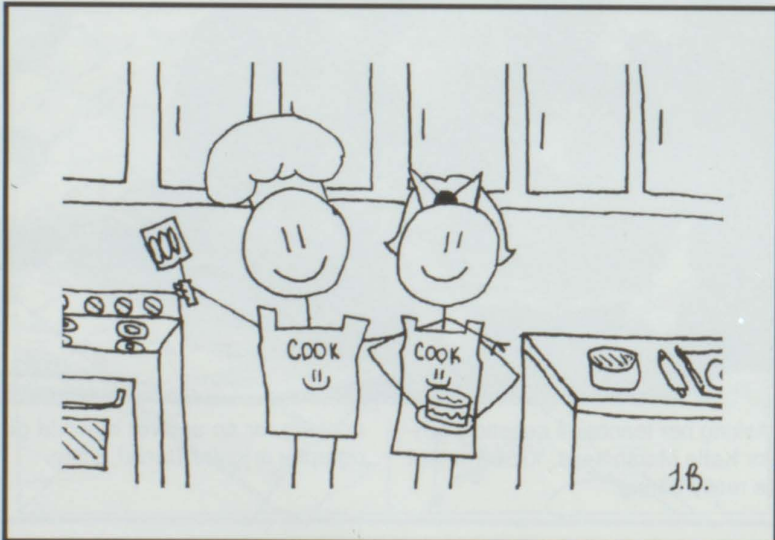

"The weddings are the greatest part of the family dynamics class." - **sophomore, Lyndsey Woodall**

"Vocational classes are great. Mrs. Nixon's class is wonderful, especially the nano babies." - **junior, Jessica Wolcott**

"A **Club** is a covey, a gaggle, a pod
If you're in, you're cool;
If you're out, you're odd!

A club is a might, a strength, a muscle
Sometimes it's a force
And sometimes just bustle!

A club is a melange
Of working a pleasure,
Projects accomplished
And memories to treasure!"

- Sharon Phillips, teacher

"I enjoy being in clubs very much. It is a great opportunity to meet new people and just have fun!" - Rachel Wood, 9

"To do all that one is able to do is to be a woman, to do all one would like to do is to be a goddess. The quality of life is determined by its activities."
Katherine Reed, 12

"Clubs are a good opportunity to meet new people and fun to be in. Even though they can be hard work, they pay off." -Jennifer Wyatt, 10

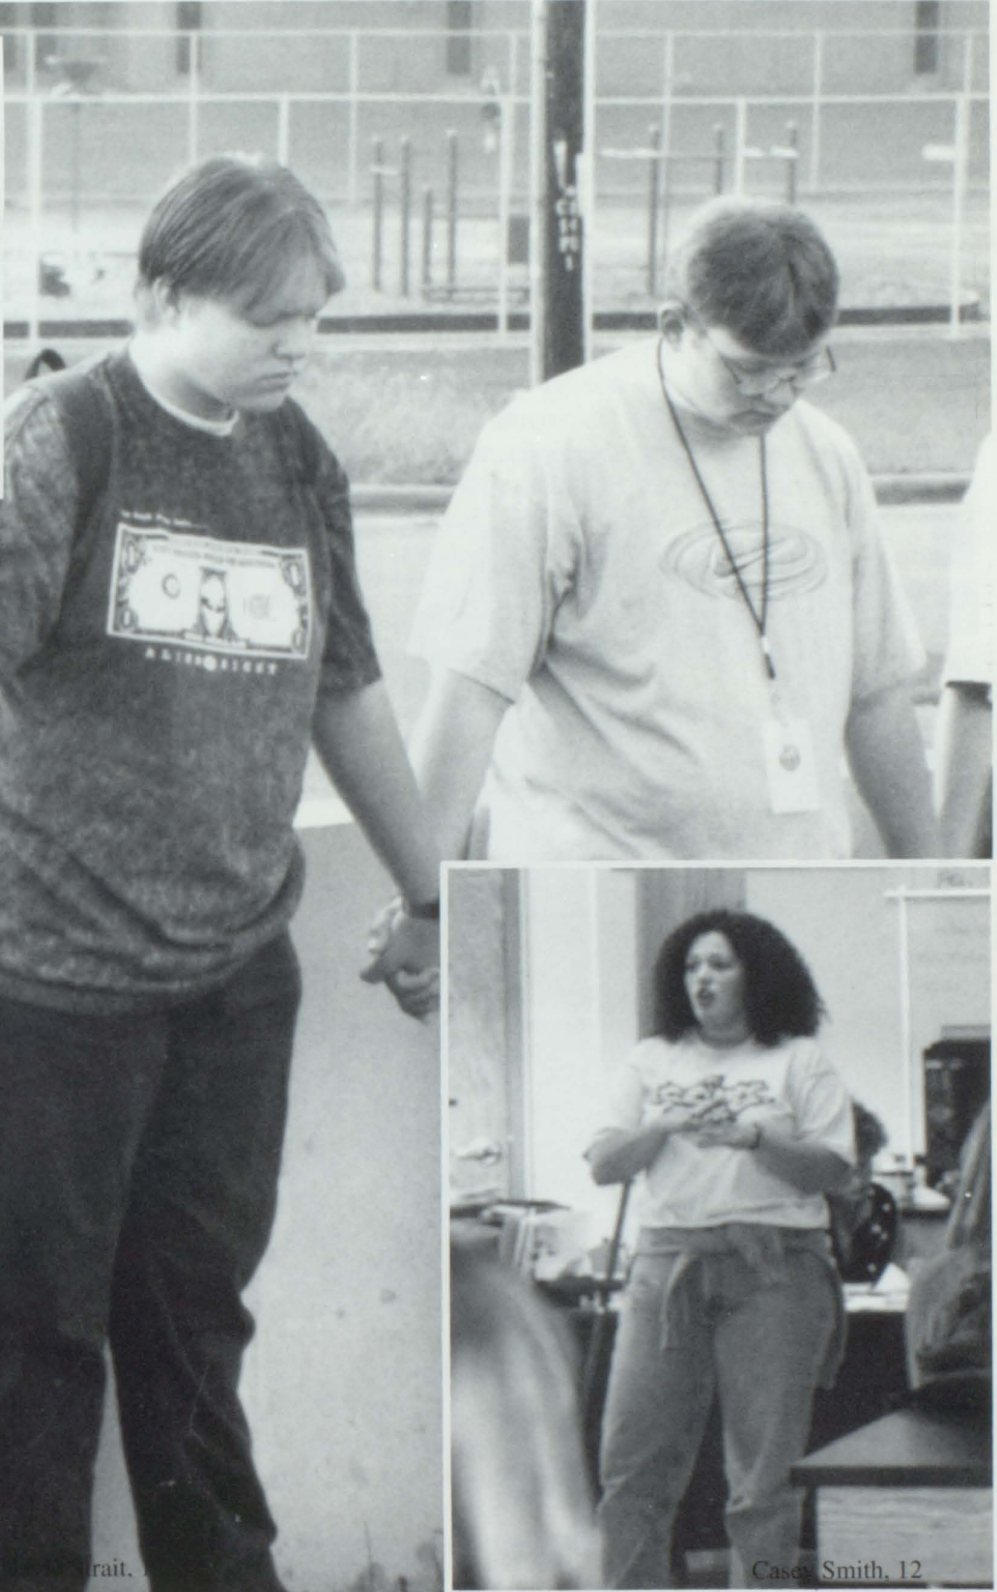

"Clubs are fun when the teachers aren't around. When our clubs get together, we all enjoy it."

-Chuck Standridge, 11

Is it 6 A.M Already?

Up with the sun and onto the field, that's how the cheerleaders spent their summer, practicing every morning from 6-8 AM. Sponsor Anna Gilbert helped to form the girls into more than stereotypical cheerleaders. She made them athletes.

All those early mornings paid off. While at TTU Dance Camp, they qualified for UCA Nationals in Orlando, Florida. They competed with their home-pom routine and won first place. Other awards included cheer champs in partner stunts, and jump-offs. "Camp was an experience I will never forget. Mrs. Gilbert's enthusiasm helped to get us through the weak," said junior Ali Barnwell.

The squad went through many changes throughout the year, but continued to stay strong and give it their all. Senior Stacey Turner said, "We have been through good times and bad times, but in the end only the strong and dedicated survive." A goal of the girls was to become a competition squad. They achieved this by competing in several state and national competitions. They were even honored, with an invitation to compete in the NCA Nationals in Dallas, Texas. Coach Gilbert said, "I have enjoyed working with this group of athletes. We as a squad have tried to elevate cheerleaders to a new level of intensity."

Sophomore Amanda Smith said, "I think track was a great experience. Next season will be even better!" Senior Carrie Holloway said, "It takes dedication to be a good runner." One was held at Hardees on Peavine over the summer. There they collected the twenty percent of all the receipts given. Projects, along with donations, helped them buy new uniforms and attend competitions. Their first competition was December 13th in Pigeon Forge where they placed fifth. "This year has been different for all of us. I hope the upcoming years for everyone will be just as rewarding," said junior Shannon Carter. The group continued to improve their routines. Ten teams signed up for the 1997-98 basketball intramurals league. With more teams and a variety of mixed competition, this season proved to be quite successful to the players and also the faculty. For the first time in intramural history, a faculty team joined the competition. Head football coach Mark Wattenbarger said, "I think intramurals at the high school level is a great idea. Since P.E. is not required it gives a lot of people some form of activity which they all need."

At seven o'clock every Saturday morning, the teams forced themselves out of bed to meet at the CCHS gymnasium and begin competition. Sophomore Kyle Miller said, "I really think that it is a good way to get out and have some fun on Saturday mornings." The teams played one game each Saturday, with the last game ending at noon.

Each intramural game consisted of two twenty minute halves with a five minute break between them. The average game lasted about an hour, thus allowing five games to be played before it was time to go home. Some of the players took the intramural season very seriously. Junior David Coffey said, "Intramurals is the most highly established and distinguished basketball league in the land. The best athletes around!" Many others were convinced that their team was the best. Junior Sean Jones said, "My team is from the fat farm and all our shots are straight butter." Senior Travis Davidson said, "We hardly practice, but you will see us do some amazing things with the basketball. We are the best."

Attempting to score two points, faculty team member Chris Zimmerman says, "I can't understand why Coach Darnell is trying to block my shot."

Dribbling around the defender, sophomore Kevin Wolcott says, "It's a lot of fun, but we need more competition. We're too good!"

Unique Group

New coach Chris Zimmerman began a summer training program. The program started off with two practices a day and lots of running. Zimmerman also began a mandatory study hall after school to keep up their academic grades.

Zimmerman said, "How lucky am I, to have the opportunity to coach such a unique group of ladies? They work harder, have more focus, and are more dedicated than any group I've seen."

They won 2 out of 3 games at their first jamboree. Senior, Stephanie Brawner said, "The team has improved as a whole. I will definitely miss the langes." Junior, Cheryl Smith said, "We really kicked butt at Livingston. I thank the bees for the speed."

They continued to play aggressively and persistently. Sophomore, Crissy Larson said, "The game at Murfreesboro was intense and competitive."

Though soccer has not yet built a big following, many are enthusiastic over the prospect. Sophomore Chris Bilbrey said, "I think soccer is cool. We need to make it big like other sports in Crossville." Most faced the season with an attitude of intensity and excitement. Sophomore Wes Selecman said, "Soccer to me is like praying for a monk. I'm one with the ball. The opposing team is my sworn enemy. I must use my powers to defend my country and my world."

Fighting for the ball, senior Tyler Biss says, "Soccer is a great way to release bottled up frustration on the opposing teams."

Coach Inman, getting his revenge, says, "Look at this tomboy. Don't mess with the Coach, Gunter. I always get even!"

Dedication

Once again the Lady Jets softball team finished the season with a winning record at 15-10. Assistant Coach Teddy Wanamaker said, "I thought I knew quite a bit about the game of softball until I started coaching it. The girls do an incredible job in a very complicated game." The things that helped produce yet another winning season were the girls' hard work and dedication. Senior pitcher Desiree Rogers said, "All the hard work we have put into this game the last four years will pay off this year when we win the championship." According to junior outfielder Vicki Dills, "It's really different when you are on the field. People think it is such an easy sport, but it takes a lot of concentration and ability. Most people can't take the pain." Despite the time, pain, and hard work this game requires, the girls still had loads of fun. Senior short-stop Denise Ledbetter said, "Last year we had a really good season. This year I look forward to being even better. This year I hope we win the district and keep on going. Softball is great!" Head coach Jim Inman said, "We are looking forward to a great season this year. We have almost all of our starters back and the girls are working hard in the weight-room. We need all the help we can get, so come out and support your Lady Jets'!"

Sophomore Kristen Bridges says, "Softball is a lot of fun. The Coaches are the best and we have a blast."

The tennis team started the year looking forward to a new challenge. The change in districts gave them a chance to test their skills against new competitors. Sophomore Jennifer Bradley said, "I'm looking forward to playing in the new district."

Another exciting factor for the team would be playing for new tennis courts. Coach Jill Lay said, "The most exciting aspect of the upcoming season is the possibility of having our own courts for practice and match play."

Building Program Begun

Returning coaches Jason Atkinson and Tracie Buckner, were joined by John Hoffman. Hoffman a volunteer from Michigan, brought many new ideas to the team. Atkinson said, "This season was another step in our programs rebuilding process. Our upperclassmen have done a good job instilling an attitude in our younger players that we have to work hard in order to get better. I think the fruits of our labors can be seen in our skill level and style of play. I am looking forward to good times in the future."

There were six returning players. The team learned that pulling together as a team was an important factor. With the help of my family, friends, and teachers, I have reached the top, and I plan to keep doing my best. I hope to remain successful in my college years and throughout my life. I want to thank everyone for their encouragement and support, especially the one who deserves thanks the most-God."

Salutatorian Ivy Doster says, "I feel greatly honored to be the salutatorian of the class of 1998. I am especially grateful to my family, for all of the love, encouragement, and support they have always given me. I consider myself fortunate to have had some wonderful teachers who have dedicated their lives to helping students, and who have taught me so much. I have learned important lessons throughout high school, not only in the classroom, but also through friendships which matter the most. Above all, I am thankful to the Lord who has blessed me with friends, teachers, and family, and without whom my life would be nothing. I may not always be remembered for being the salutatorian, but I will surely never forget all of the things I have learned during my four years at Cumberland County High School."

"Publications is an awesome class! This year has been great. Being sports editor was something I'll never forget! I always got to harass the coaches!" - Billie Davis, 12

"I work with mad people. They are all insane! I am the normal one...really I am... don't look at me like that! I know what I'm talking about! Doesn't anyone believe me?" - Sparky, 12

"Um...um... publications is like...groovy and like stuff ya know. But seriously its far out being editor. This is the only class where an early morning trip can end up as a nightmare at the Waffle House. But I still like waffles, and pub." - Natalie Cobb, 12

"Being a pub staff editor has made a dramatic change in my life this year. Mental instability is now an everyday thing. Wal-Mart is a place of coincidental meetings. Surge protectors are our friends." - Scott Garren, 12

"Without my pub what... oh what, would I do. It provides me with many strange voices in my head. My secretary keeps me on schedule and she has beautiful eyes like the ocean so blue, on a warm summer day. Bye- bye. I'll miss my High School Pub. =(" - Jeff Petro, 12

"This year I started with the realization that my photographers had graduated ...Thank God, two students came out of nowhere and had that photographers eye. Thank you Pearl Thomas and Tyler Biss and to the rest of the photo class for making my job fun." - Art Sanderson, teacher

"Publications students not only sell ads...we save lives." - Sara Stone, 12

"Each years staff is unique. I don't know ...maybe someday I'll know what I'm doing...ha! Help Me!" - Diane Hemmati, Advisor

From the Editors

The yearbook had a rather rough start this year due to complications with policies concerning student driving. After two weeks we started off. All of the section editors and staff did a great job getting information, typing in stories and not getting in too much trouble with the powers that be (Hi Mr. Bolin!). We have had numerous laughs and interesting situations. Several staff members learned valuable lessons such as, don't lock your keys in your car while you are selling ads. Co-Editor Natalie Cobb(Nads) said, "I must have been crazy when I took this job, but it has been really fulfilling. Deadlines, lost pictures and cropping nightmares (Hi Tiff) made this editors job quite interesting. I'll never be able to forget any of it even with therapy. My job would have been much easier if certain people (Melinda & Billie) who will remain unnamed would have left my screen saver ALONE!" Much thanks to the Great Ms. H., our wonderful advisor and mentor in the ways of yearbook and life. We could never have pulled this off without her, YOUR GREAT!

Sincerely,
Jeff R. Petro, & Natalie B. Cobb

Getting in touch with the artist within senior Tiffany Farr and senior Heather D'Orlando say, "Publications was a great experience you could say it was a walk in the park after a healthy breakfast. We enjoyed a lot of new challenges through the highs and lows of life."

Relaxing after a hard day junior Vanessa Laffoon says, "Being in both journalism classes is hilarious. There's so many funny people in there. Of course, both Ms. H and Mrs. Purcell are great."

Senior Scott Garren says, "After all the setbacks, the problems encountered by the staff this year, we still got the annual finished. We will be leaving a few nerves behind, and some have already gone insane (like Petro), but we did it."

Taking 70's day a little too serious senior Ashley Montgomery says, "We're not really editors, that's just our cover. We're actually Bond girls!"

After spending the night working on the annual senior Jessica Sparks says, "I love to eat fruit cakes in the shade of the cactus tree in my Arabic pub."

It's Kristie's party, but she is all alone.

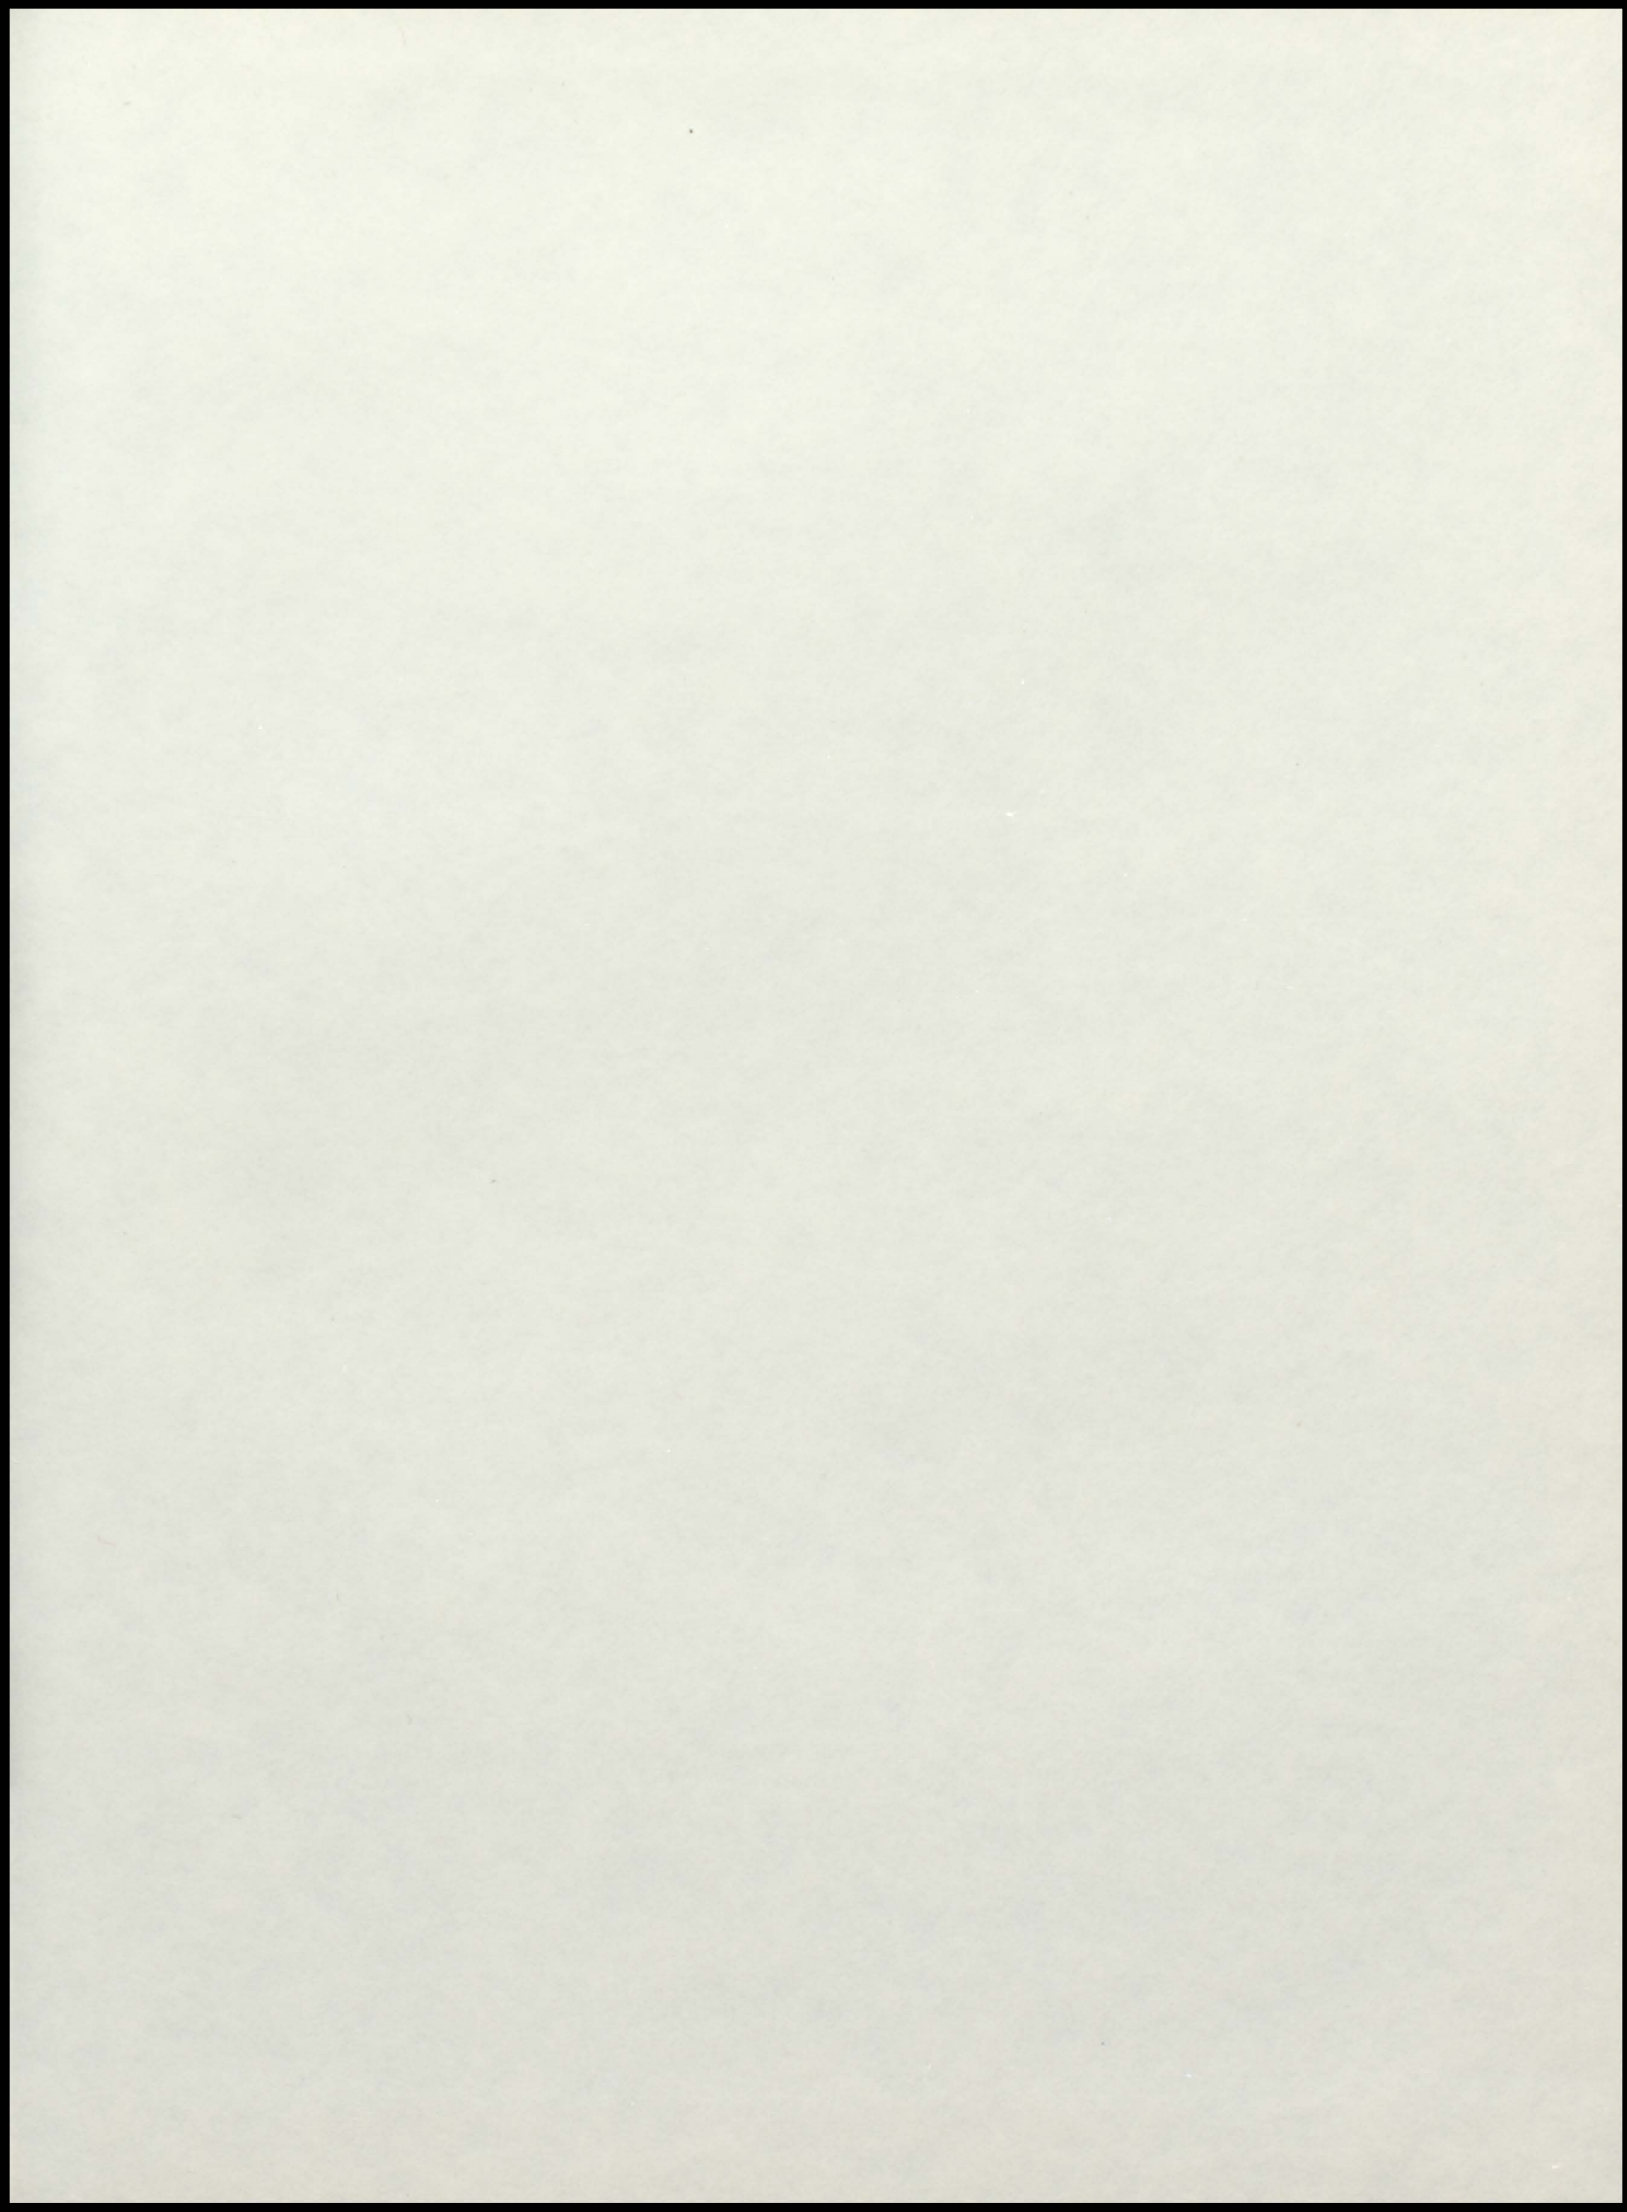

At CCHS, help is always available to anyone who wants to learn.

Teacher Jenny Graham says, "The ability to adapt to your classroom environment on a daily basis is a skill both teachers and students must develop to have a successful high school experience. You can always count on change."
