

Enrollment Update 2025-26 Online Registration Information

Please read the following information before starting registration!

“Enrollment Update 2025-26” online registration will open **Tuesday July 22, 2025**

Parents of **returning** students will choose “Enrollment Update 2025-26”.

Anyone registering a **NEW** student to the district will report to the zoned school for assistance. New student is defined as a student who has not ever attended any Coffee County School in any grade level.

Parents of students coming from **Westwood Middle School** will choose “**Enrollment Update 2025-2026**”. Your student is **not** considered new.

Important Note When parents open [ParentVUE](#) for enrollment updates, several documents will appear which require the parent to acknowledge and electronically sign.

Simply completing the acknowledgements **does not** complete the enrollment update registration. Continue to the screens where your student appears and begin the process. You cannot advance to the enrollment update until this step is complete.

All enrollment updates must be completed **before SEPTEMBER 12, 2025**

Students whose parents have not completed the process by September 12, 2025 will not have access to school email or school technology until the enrollment update is completed.
