b. IPC [ByLaws](#) and Committee Member Election: **Mrs. Murrieta read the proposed bylaw aloud and highly encouraged those in attendance to please consider the roles of chair, vice chair and secretary. No one was interested in the positions and suggested that we try again at our first meeting next year. Mrs. Murrieta suggested that she can send out the bylaws and information about the positions prior to the first meeting next school year and elections can be held at that time. We will need to work hard to get more parents/families in attendance at the meetings next year.**

- c. Review of Title VI EASIE Pt.2- April 20, 2026 (email/text PDF version to Officers for review):
Mrs. Murrieta read the narratives that are planned for the Title VI grant and asked for any additional feedback or ideas. None of the members suggested changes. She will send out the PDF version to the committee once we receive them on April 20, 2026 for a final review. The grant will also be shared with ADE representatives and the main areas of focus will be academic achievement, attendance, and parent involvement. Mrs. Murrieta asked the committee members to connect her with Tribal leaders and the Education Committee so that we can build parent partnerships and attempt to connect our meetings. The team reviewed the 26-27 calendar and selected the dates of the IEC/IPC meetings so that we can share this information at the banquet and have families "save the date". We also discussed that the format of the meetings would include our general meeting and a planned activity for the children that would include arts/crafts or a cultural connection.
- d. IPC Form–complete/attach to EASIE (due May 11)--**Those in attendance at the meeting tonight were asked to sign the IPC Form so that Mrs. Murrieta could upload it with our grant. Although we do not have a chair, Ms. Venita Garcia signed as a designee because she has attended all of our meetings this year and has been an active member of the committee.**
