

# Federal Programs - A Title IA School

Southwest Georgia STEM Charter School is a Title I School. Title I is a federal program with the purpose of increasing achievement of disadvantaged students. As a Title I school, we have a District/School Improvement Plan and a Parental Engagement Policy that focuses on improvement of student achievement at our school. Every spring, a comprehensive needs assessment is completed to identify areas of weakness for improvement planning. Stakeholders are invited to participate in the needs assessment and improvement planning process. This is your chance to become part of teams that focus on the improvement of the school. If you are interested in participating in this process, please contact Kadie Phillips: [kphillips@sowegastemcharter.org](mailto:kphillips@sowegastemcharter.org) Notices are also sent home with students and posted online when the process starts each spring.

All of our policies are plans that are given out upon request, just contact the school and request any federal programs information.
