**COMPETITIVE SEALED PROPOSALS WILL BE RECEIVED UNTIL 3:00 P.M., WEDNESDAY, NOVEMBER 10, 2021.**

RETURN PROPOSALS TO: Frankston ISD  
Randi Westbrook  
100 W. Perry St.  
Frankston, TX  
75763

All proposals must be submitted in a sealed envelope on the enclosed proposal form and received on or before the time specified above. The proposal envelope must be marked **“Track Resurface 2021”**

## **SCOPE**

Frankston ISD is now accepting competitive sealed proposals for the replacement and resurface of the existing track surface located at 100 W. Perry St., Frankston, Texas 75763. The project will consist of removal of the existing track surface, any necessary repairs to existing asphalt and curbs and installation of a new surface, with the addition of a new chute on the northwest side of the existing track. A \$10,000 contingency should be established to the account for cleaning, repairing, or replacing additional work as needed. All work shall be performed at times to minimize the exposure to students and staff. All work shall be completed by July 31, 2022. The proposal will be a turnkey price which includes labor and all materials.

## **PERFORMANCE BOND**

A performance Bond in the amount of 100% must be furnished by the successful contractor.

## **SPECIFICATIONS**

The Synthetic Surfacing Contractor shall furnish all materials, labor, supervision, and equipment necessary for the accurate completion of the synthetic track installation and all project specific work indicated on the plans and specifications.

The guidelines established in this specification are to be considered minimum acceptable standards for installing a synthetic polyurethane track surface.

It is the responsibility of the Synthetic Surfacing Contractor to review the plans, specifications, field conditions, and to verify the locations where surface is to be installed.

## **SCOPE OF WORK**

### **Overview**

- Scrape & remove existing track surfacing material & dispose offsite.
- Mask areas adjacent to track with poly sheeting to protect from overspray.
- Supply & install new Track System in **black** over track areas to be resurfaced.
- Supply & install track striping per UIL/NFHS rules & regulations.
- Provide training & instruction for care & maintenance of new track surface.

The Synthetic Surfacing Contractor shall install a porous paved-in-place synthetic sport surface comprising of a base layer of polyurethane bound rubber granules topped with a spray-applied coat of one or two-component polyurethane and EPDM granules.

Layout and paint all track line and event markings in accordance with the latest edition of the IAAF, NCAA, NFHS or UIL rules and regulations, as applicable.

### **COORDINATION**

Prospective vendors may inspect the site by contacting Mark Ryals at (903) 876-5980. All work must be approved by the above-named person prior to commencement.

Conduct operations while minimizing the interference with daily operation of district. Do not obstruct walks, or other occupied facilities without permission from the Owner. Perform work while minimizing disturbance to Owner's scheduled events on the facility.

### **GUIDELINES**

Guidelines to be followed on this project are those set forth by the IAAF, NCAA, NFHS or UIL, as applicable; along with the current material testing guidelines as set forth by the American Society of Testing and Materials (ASTM).

### **SUBMITTAL DATA**

The following submittal data must be received as part of the bid submittal.

- a. Standard printed specifications of the polyurethane track system being installed as part of this project.
- b. A reference list showing similar projects installed in the last 8 years.
- c. A synthetic track surface sample a minimum of 8"x11" in size of the track system being installed on this project.

### **EXECUTION**

It is the responsibility of the Asphalt Paving Contractor to flood the surface immediately after the asphalt is capable of handling traffic, but within 24 hours. If, after 20 minutes of drying time, there are birdbaths evident, it shall be the responsibility of the Synthetic Surfacing Contractor to determine the method of correction. No cold tar patching, skin patching, or sand and oil mix patching will be acceptable.

Any oil spills (hydraulic, diesel, motor oil, etc.) must be completely removed, either by chipping out or removing and replacing with new, keyed in asphalt. The minimum depth of any asphalt replacement shall be 1". The curing time for the asphalt is 14-21 days. It shall be the responsibility of the Synthetic Surfacing Contractor to determine if the asphalt substrate has cured sufficiently prior to the application of polyurethane surfacing system.

It shall be the responsibility of the General Contractor to determine if the asphalt substrate meets all design specifications, i.e. cross slopes, planarity and specific project criteria.

### **LINE MARKINGS**

All line and event markings shall be applied by experienced personnel, utilizing latex - based paint that is compatible with the synthetic track surfacing.

All marking dimensions will be certified in accordance with the specifications issued by the appropriate sanctioning or governing body such as IAAF, NCAA, NFHS or UIL, as applicable.

No striping operations may commence if temperature is 45°F and falling.

### **WARRANTY**

Track surface is warranted against defects in workmanship, labor and materials under normal use and service for a period of sixty (60) months. The warranty excludes any damage or defects caused by an inadequate or defective base, by normal wear and tear, vandalism, abuse, neglect, lack of maintenance, or acts of God.

### **SELECTION CRITERIA**

Criteria for selection of vendor will include:

- 80% - Purchase Price
- 5% - Projected Timeline for Completion of Project
- 5% - Reputation of the Vendor and the Vendor's goods and services
- 5% - The Vendor's Past Relationship with the District
