

## COVID-19 DASHBOARD

***Great news, we have not had any positive cases of COVID-19 at our school since February 21, 2022! Should that change, we will update our COVID Dashboard.***

The purpose of this data is to provide our families, staff and community members with a transparent summary of active COVID-19 cases at Mountain Vista K-8 School. The data reflects the number of students and staff members who have tested positive for COVID-19.

Individuals who test positive for COVID-19 are excluded from participation in any in-person or on-campus activity until they meet the return criteria set by the state and local health authorities. Once the person is cleared to return to campus, they are no longer considered an active case and their case is removed from the dashboard.

When a positive case is identified, school officials notify the Pinal County Health Department and all known close contacts. Please note, in order to protect privacy, the District will not share names of identifying information. This dashboard will be updated daily.
