

To: Board of Directors

From: Mark Bergthold, Bond Project Manager

Subject: Bond Activity Report as of May 31, 2023

Planning for this summer's work has been a monumental task. Paving will be done at both CES and CMHS. At CES, the Cardiff building's soffits and siding will be repaired. The rest of the work will be at CMHS – a new parent pick up/drop off lane, repair of a large crack in the brick wall, all 12 restrooms will be gutted and re-done with floor to ceiling partitions, the auditorium hallway will be re-tiled, most of the school will be painted, original carpet will be replaced, and the stairways will get new rubber tread. All floor tile being removed contains asbestos, which requires an expensive process for disposal.

Work on this summer's projects is scheduled to begin at 6am on Monday June 19<sup>th</sup>.

Respectfully submitted,

Mark Bergthold

Bond Project Manager
