CONSTRUCTION UPDATES:

Safety Grant: The District is ready to move forward on plans for Safety Vestibules for each of the buildings. Drawings were received from Garrison Architects to complete the vestibules and install Access Control Systems for the doors and Security Cameras. Using the Camden County Educational Services Cooperative Pricing system, a quote has been received to complete the brick-and-mortar portion of the vestibules that is within the funding limit of the Safety Grant Award. We will look for additional funding sources to complete the project at a later date but are moving forward with this critical project so that we can get this into the construction material supply chain.

Informational: **ROD and Non-ROD Grants**

District Consultant Frank Domin has established contact with and conducted meetings with the official at the School Development Authority (SDA) charged with the Paulsboro projects that are jointly funded by the 2015 Bond Referendum and SDA. All parties are reviewing and familiarizing themselves with the projects since they have been dormant for approximately four years.

The first task is to assemble all of the required documents to apply for reimbursement from SDA for projects that are at the 65% completion level. When this information is submitted to and approved by SDA, reimbursement will be paid to the district.

The second task is to determine what facilities upgrade are included in the application to SDA. It appears that some of the items in the application to SDA were not part of the original scope of the bond referendum. On the other hand, some items included in the original scope of the project seem to have been “de-scoped” which removed them from funding consideration by SDA. Mr. Domin, working with representatives of SDA and School Architect Robert Garrison has resolved these concerns. All parties now agree that the project is now just as it was presented to the public for the 2015 bond referendum.

The SDA official emphasized the importance of beginning work on those items that all parties agree are within the scope of the projects. The work needs to be completed quickly for two reasons. First, the projects are critical repairs to district facilities. Second, to protect the funding available by SDA. Mr. Domin is now working with the School Architect and Camden County Special Services School District in order to restart projects. It seems likely that within a month or two, the Board of Education will be able to award contracts for projects such as heater controls, drainage projects, etc. so that the work begun in 2015 can move forward.

January 2023 Update

ESIP Energy Savings Improvement Program: We have been working with the ESIP provider to apply for additional Federal Energy Grants that can be used to enhance the proposed energy savings plan. These are competitive grants. One grant has a deadline to be submitted January 25, 2023 that if approved will be for classroom unit ventilators. We have very exciting news, having received approval for a FIVE Million dollar grant from the Schools and Small Business Energy Efficiency Stimulus Grant. This is the maximum that could be received. Paulsboro was approved for \$6.7 million because the District is required to cover 25% of the costs. Even better news is that the grant will be rolled into the ESIP which will use the future energy savings to finance the District share. The Grant has short time lines for completion, one year, but we will be up for the challenge.

ROD Grant Program: We have been in contact with the State representative that is reviewing our Grant submissions. Now that the High School projects have been submitted for reimbursement, they will begin processing reimbursements for one of the other two schools. They will only work on one school at a time. There have been two submissions, one each for the Billingsport and Loudenslager Schools. We have learned that some of these documents have been sitting at the State for five years. We are told they will be reviewed in the next two weeks and we will receive a detail of deficiencies so that we can move forward with seeking reimbursements.
