

Update of activities performed

- Had both front tires replaced on the electric bus. An appointment is scheduled for the alignment.
- Most track meets have been in the west of the state so we have been transporting them to the meets throughout the week.
- C&R Fire Suppression came and inspected all fire extinguishers in the school and vehicles. They swapped out 5 extinguishers due to time.
- We have been spraying for weeds along the sidewalks and parking lot.
- We had 1 vacuum that had broke between the body of the vacuum and the head or roller. Took vacuum to D&E and it was repaired. Vacuum will be picked up on the 30th.
- Had a water leak coming from the ceiling in the multipurpose room. Contacted A2Z Plumbing and he found where the leak was occurring, repaired the copper pipe. Had a faucet in the science room that would not turn off. Finally found where to shut the water off to the room and he repaired a fixture on the faucet.
- Sam and I have been taking online classes through Infinit which is required to get our CDL. 98 videos with quizzes at the end.
