

# Specials

## Lower School

### Inspiring Creativity, Curiosity, and Growth

At Master's Academy, our Lower School students benefit from a well-rounded education that extends beyond core academics. Each week, students participate in a rotation of engaging specials classes designed to enrich their learning, spark curiosity, and uncover new talents and passions.

#### Music

Our music program lays a strong foundation in rhythm, melody, and basic music theory. Students enjoy singing, moving to music, and exploring musical concepts through interactive lessons. They also have opportunities to perform during chapel services and school events, building confidence and joy in artistic expression.

#### Art

Art class invites students to explore their creativity while learning about various artistic styles, techniques, and mediums. Through hands-on projects, they create original works of art and gain appreciation for influential artists and cultures throughout history.

#### STEM

Our STEM program fuels innovation and inquiry through hands-on, project-based learning. Students explore science, technology, engineering, and math by building, experimenting, and solving real-world challenges. Every lesson encourages critical thinking and discovery, connecting classroom learning to everyday life. In 2025, we're launching an exciting, enhanced STEM experience to further inspire the next generation of problem-solvers and creators.

## Inspiring Creativity, Curiosity, and Growth

### Physical Education (P.E.)

Physical education helps students develop strength, coordination, and teamwork through games, exercises, and skill-building activities. P.E. encourages healthy habits, teaches the value of perseverance, and promotes good sportsmanship in a fun and active environment.

### Whole Child Focus. Lifelong Impact.

These enrichment classes play a vital role in our commitment to educating the whole child—academically, socially, and spiritually. At Master’s Academy, we strive to cultivate confident, well-rounded students who are equipped to thrive in the classroom and beyond.
