SKILLS TO PAY THE BILLS

Students are hard at work already in the new year learning and perfecting skills to help them pay the bills.

The CAT Simulator is in full use now. We currently have two students using it and it is a highly requested course by all students!

The Warrior Cafe' is open once again! For now, the cafe' is only open once a week but it is a busy place on those days. If you are ever up for a tour, we are happy to make you a cup of your favorite coffee.

BARBERING

Monroe School now has a barbering program. We are working with McKiah Schroeder, owner of Hometown Barber, to expand our CTE program!

One of our goals at Monroe School is to grow and develop good neighbors. Students here are being supported by adults who not only have high expectations for them but model those high expectations, every single day.

In honor of School Board Appreciation Month, let me say, "THANK YOU" to board members Doug Furr, Joe Wright, Chad Boyd, Rachel Beaubien, and Randy Fulton for supporting the work we do with our districts most complex and challenging students. ~ Mrs. Fulton
