SUPERINTENDENT'S BUDGET MESSAGE 2023-2024 BUDGET

May 22, 2023

INTRODUCTION

Clatskanie School District, a political subdivision of the State of Oregon, was organized under the provision of Oregon Statutes pursuant to ORS Chapter 332 to provide elementary and secondary educational services to students. Clatskanie School District serves a large percentage of the population of Columbia County and a small percentage of the population of Clatsop County. The district serves approximately 700 students in grades K-12.

The community of Clatskanie is nestled in a valley of the Pacific coastal mountain range. The Clatskanie River flows into the mighty Columbia within the city limits of this picturesque and quaint inland town. The scenic, wild areas beckon sportsmen with abundant herds of elk and deer, and fishermen have close access to the Columbia and other rivers and streams full of salmon, steelhead, and trout. A mild winter climate and warm summers add to the enjoyment of living in Clatskanie.

The budget presented is aligned with district goals and continues our focus on the district's priority values of Instruction, Engagement, Community and Wellness.

REVENUE ASSUMPTIONS

This budget was developed based on an estimated \$10 billion State School Fund. The Oregon Legislature is still in session and the final State School Fund appropriation has yet to be established. Utilizing a \$10 billion State School Fund appropriation, Clatskanie School District is projecting General Fund Revenues of \$11,643,148. The district continues to utilize significant restricted federal revenue to supplement pandemic expenses, however, those funds will expire by September 30, 2024. With the end of these federal revenues, the district faces the need to establish a plan that will carry us into the 2024-2025 fiscal year with the ability to sustain services currently funded using these federal revenues.

The Special Revenue Funds budgets are based on the most recent estimates available to the district from both State and Federal funding sources. As noted above, the district anticipates a significant reduction in available federal funding. The primary decline relates to ESSER II and ESSER III funding. This budget anticipates a decrease in these funds of just over \$500,000. Federal Title I, II, IV-A and IDEA funds are expected to increase by approximately \$75,000.

State grants including SIA and High School Success are expected to see an increase of approximately \$40,000 while other miscellaneous state grants are expected to decline by approximately \$48,000. Overall, the Special Revenue Funds are expected to decline by nearly \$153,000.

EXPENDITURE ASSUMPTIONS

Personnel expenses make up approximately 80% of the program costs for the instruction, support, and administrative functions. These increasing costs and an extremely rapid rise in inflation are the most pressing concerns for the district as we attempt to balance student needs with the provision of a realistic compensation package for our staff. Health insurance costs are also expected to increase. Premiums for district health insurance plans have increased over the years, consistent with state and national trends, and this trend will likely continue. The cost of medical services and insurance continue to be a state and national issue and cannot be controlled locally.

The district is currently in negotiations with the licensed staff for salary and benefits. Inflation continues to run rampant, driving the costs of supplies, materials, and other services up at unprecedented levels. Despite the funding challenges and uncertainties, our commitment to supporting all students remains strong.

ENDING FUND BALANCE

Fund balances are the amount of money that remains after all revenues, expenditures, and other financing sources and uses are accounted for using Generally Accepted Accounting Principles (GAAP). Fund balances are a key measuring point for assessing the financial health of the district, particularly over the course of many years. Fund balances over time provide a basis for understanding how well the district lives within its means and maintains the financial integrity of operations, especially within the General Fund.

The General Fund includes an estimated beginning fund balance of \$963,761 as of July 1, 2023. Projections for the 2023-24 budget reflect an estimated ending fund balance at June 30, 2024 of \$458,837. That decrease of \$504,924 is an indication the district is spending more than they are collecting in revenue. The loss of federal ESSER funding in the future will cause further strain on already limited district resources.

PROPOSED CHANGES FROM THE 2023-2024 BUDGET

Contractual increases for salaries and associated payroll costs are reflected throughout the 2023-24 proposed budget pending negotiations. The following represent the changes proposed in this budget:

1. General Fund, Function 1111, two elementary teachers were moved from the General Fund to ESSER funds. These funds will not be available after the 2023-24 fiscal year. If the FTE are to be maintained in future years, the General Fund or other funding sources will be required.

2. As part of the Strategic Investment Act (SIA), a 1.0 FTE Behavior Specialist/Instructional Coach position has been added at Clatskanie Elementary School.
3. As part of ESSER III, funds have been budgeted for continued professional development in research-based instructional strategies and multi-tiered systems of support.

BUDGET TRANSPARENCY

A common concern expressed by citizens and elected officials relates to budget transparency. This is true not only at the local level, but also statewide, from the legislatively adopted budget, to how that translates to meeting individual student needs. Throughout the school year, meetings were held with administrators and staff to share information, receive comments and suggestions, and to gather feedback. School Board meetings provided another opportunity for the Board and administration to engage with the community.

The district has incorporated additional information in this budget document to assist readers in more fully understanding the budget document, the process utilized to develop the budget and the continued management and oversight of the budget.

SUMMARY/CONCLUSION

This has been another unusual year, and the unknowns will probably continue for some time. Staff has worked diligently and had to think “outside the box” to engage our students and increase growth. We continue to offer comprehensive distance learning as we have discovered there are students who thrive in that environment.

Staff have worked to prepare a budget that reflects the Board’s commitment to providing our community’s students with high quality educational opportunities while recognizing financial limitations. We are dedicated to delivering effective and innovative services that utilize the district resources as efficiently as possible to implement the Board’s policies.

The 2023-24 Proposed Budget is hereby submitted for your consideration.

Ken Parshall,
Superintendent

INTRODUCTION

This Page Intentionally Blank

District Vision & School Board Goals

The district vision statement states “All students will graduate, with the essential skills to attend a post-secondary education program of their choice, be able to compete in a global economy, and to become a productive, contributing asset in the workforce and their community.” This budget has been developed in support of the District Mission, Vision and Board Goals.

The Budget Process

The district’s budget is a planning tool that matches the financial, material, and human resources available with requirements to meet the school board’s goals and strategies. It also includes information about the organization and identifies the policy direction under which the budget was prepared. Although a budget is often discussed as a financial document, the budget is mainly the result of many different planning processes that determine the direction of the district.

The district annually prepares a budget in accordance with Oregon’s Local Budget Law, which establishes standard procedures for preparing, presenting, and administering the budgets of Oregon’s local governments; encourage citizen involvement in the preparation of the budget before its final adoption; provide a method of estimating revenues, expenditures, and approved taxes; institute a method for control of revenues and expenditures that promotes efficiency and economy when using public funds; and encourage citizen involvement.

The objective of the district’s budgetary controls is to ensure compliance with legal standards, board goals and student needs. Oregon Revised Statutes (ORS) limit expenditures to available resources and the level of board approved appropriations. Appropriations are established by fund (or fund group) and major function (i.e., Instruction or Support Services). The Board establishes appropriations for the General Fund, Special Revenue Fund, Debt Service Fund, and Capital Projects Fund.

Following adoption of the budget there are several ways to modify the budget to comply with legal requirements and ensure public awareness and participation. If the District receives unanticipated revenues or determines a change in

the financial plan is required, a supplemental budget may be adopted to authorize a change in the budget within the fiscal year. A supplemental budget cannot be used to authorize a tax levy. The school board may adopt a supplemental budget at a regular public meeting if expenditures in the supplemental budget are less than 10% of the annual budget of the fund being adjusted. If the expenditures are greater than 10%, the school board must first publish the supplemental budget and hold a special hearing. Transfers of appropriations between budget categories must also be authorized by a resolution of the school board.

STAFFING ALLOCATION AND RESOURCES

Employee compensation is the single largest expense incurred by the district. Staff work closely to ensure that staffing is aligned with board goals and student needs. In addition to staffing and compensation, the district allocates discretionary funding to each school. These funds allow school leaders the flexibility required to address their own individual school environment challenges in ways that they determine will be most effective.

Special Education and English Language Acquisition staffing is allocated to schools based upon the individual needs of each school's student population. Specific federal grant dollars and other state grant monies are allocated by enrollment and certain at-risk factors and these funds are used by schools to provide supplementary support to their educational programs.

BUDGET COMMITTEE

The budget committee consists of the members of the school board and an equal number of citizens at large. The citizens are appointed by the school board and serve three-year terms. Terms are staggered so that, as near as practicable, one-third of the appointive members' terms end each year.

The budget committee is tasked with receiving the budget message and proposed budget. They will review, discuss, and ultimately approve the budget. Budget Committee meetings are public meetings and should include a provision for public comment. Based on public comment and other input, the budget committee can revise the budget prior to approving it. The budget committee concludes its duties by approving a budget (the maximum expenditures by fund), total taxes or tax rate to be imposed. The approved budget then moves to the school board for additional public input and final adoption no later than June 30th of each year.

DEFINITION OF FUNDS

GENERAL FUND (100)

Accounts for all financial resources of the districts except those required to be accounted for in another fund.

SPECIAL REVENUE FUNDS (200)

Account for the proceeds of specific revenue sources (other than expendable trusts or major capital projects) that are legally restricted to expenditure for specified purposes. Some examples of special revenue funds might include restricted state or federal grants-in aid; restricted tax levies. A separate fund may be used for each restricted source, or one fund may be used, supplemented by the dimension project/reporting code; e.g., bus replacement fund. Food Service and Student Body Funds should be classified here.

DEBT SERVICE FUND (300)

Account for the accumulation of resources for, and the payment of, general long-term debt, principal and interest.

CAPITAL PROJECTS FUND (400)

Account for financial resources used to acquire or construct major capital facilities (other than those of proprietary funds and trust funds). The most common source of revenue in this fund would be the sale of bonds. A separate fund may be used for each capital project or one fund may be used, supplemented by the dimension project/reporting code.

TRUST AND AGENCY FUNDS (700)

Account for assets held by a district in a trustee capacity or as an agent for individuals, private organizations, other governmental units, and/or other funds. Trust funds would include nonexpendable trust funds, expendable trust funds, and pension trust funds. Agency funds could include funds for a teacher or a parent-teacher organization. Do not include Food Service or Student Body Funds here.

DEFINITION OF REVENUE FUNCTIONS

1000 LOCAL SOURCES

Revenues from Local Sources include taxes levied by the district, revenue from the appropriations of other local governments, tuition, transportation fees, earnings on investments, food service, revenues, extracurricular activity revenue, and other similar sources.

2000 INTERMEDIATE SOURCES

Revenue received as grants by the district and revenues received from city and county income taxes are recognized here.

3000 STATE SOURCES

State School Fund revenues are recorded here as well as all other restricted and unrestricted grants-in-aid received from state funds.

4000 FEDERAL SOURCES

All restricted and unrestricted revenue received from the federal government directly or through the state or through immediate agencies.

5000 OTHER SOURCES

Other sources of revenue include beginning fund balances, sale, or compensation for the loss of fixed assets, long-term debt financing, and interfund transfers.

DEFINITION OF EXPENDITURE FUNCTIONS

Function describes the type of activity that is carried out. The five major functional areas are: 1000—Instruction, 2000—Support Services, 3000—Enterprise and Community Services, 4000—Facilities Acquisition and Construction, and 5000—Other Uses. The four-digit function codes are sub functions to provide program and service area information. Functions and sub functions consist of activities which have similar general operational objectives.

INSTRUCTION (1000)

Activities dealing directly with the teaching of students, or the interaction between teacher and students. Teaching may be provided for students in a school classroom, in another location such as a home or hospital, or in other learning situations such as those involving co-curricular activities. It may also be provided through some other approved medium such as computer instruction applications, television, radio, telephone, and correspondence. Included here are the activities of instructional assistants of any type that assist in the instructional process. Expenditures for teachers' travel within the district in connection with teaching assignments are considered costs of instruction.

SUPPORT SERVICES (2000)

Support services are those services which provide administrative, technical, personal (such as guidance and health), and logistical support to facilitate and enhance instruction. Support Services exist to sustain and enhance instruction, and would not otherwise exist if not for instructional programs.

ENTERPRISE AND COMMUNITY SERVICES (3000)

Activities concerned with operations that are financed and operated in a manner similar to private business enterprises where the stated intent is that the costs of providing goods and services to the students or general public are financed or recovered primarily through user charges and community programs.

FACILITIES ACQUISITION AND CONSTRUCTION (4000)

Activities concerned with the acquisition of land and buildings; major remodeling and construction of buildings and major additions to buildings; initial installation or extension of service systems and other built-in equipment; and major improvements to sites. Major capital expenditures, which are defined as capital expenditures that are eligible for general obligation bonding, are recorded here. Maintenance and upkeep of buildings are charged to 2540.

OTHER USES (5000)

Activities included in this category are servicing the debt of a district, conduit-type transfers from one fund to another fund and apportionment of funds by ESD.

CONTINGENCIES (For Budget Only) (6000)

Expenditures which cannot be foreseen and planned in the budget process because of an occurrence of an unusual or extraordinary event. Use with Object 810 only.

UNAPPROPRIATED ENDING FUND BALANCE (7000)

An estimate of funds needed to maintain operations of the school district from July 1 of the ensuing fiscal year and the time when sufficient new revenues become available to meet cash flow needs of the fund. No expenditure shall be made from the unappropriated ending fund balance in the year in which it is budgeted. Use with Object 820 only.

DEFINITION OF EXPENDITURE OBJECTS

Object means the service or commodity obtained as the result of a specific expenditure. Seven major Object categories are identified and described: (1) Salaries, (2) Employee Benefits, (3) Purchased Services, (4) Supplies and Materials, (5) Capital Outlay, (6) Other Objects, and (7) Transfers. These broad categories are subdivided to obtain more detailed information about objects of expenditures. A three-digit code number, if used, makes it possible to search out detailed information. Following are definitions of the major categories and subcategories. Where the term "district" is used it means school district or educational service district.

SALARIES (100)

Amounts paid to employees of the district who are in positions of a permanent nature or hired temporarily, including personnel substituting for those in permanent positions. This includes gross salary for personal services rendered while on the payroll of the district.

ASSOCIATED PAYROLL COSTS (200)

Amounts paid by the district on behalf of employees; these amounts are not included in the gross salary but are over and above. Such payments are fringe benefit payments, and, while not paid directly to employees, nevertheless are part of the cost of salaries and benefits. Examples are: (1) group health or life insurance, (2) contributions to public employees' retirement system, (3) social security, (4) workers' compensation, and (5) unemployment insurance.

PURCHASED SERVICES (300)

Services which, by their nature, can be performed only by people or firms with specialized skills and knowledge. While a product may or may not result from the transaction, the primary reason for the purchase is the service provided. Included are the services of architects, engineers, auditors, dentists, medical doctors, lawyers, consultants, teachers, accountants, etc.

CONSUMABLE SUPPLIES AND MATERIALS (400)

Expenditures for all supplies for the operation of a district, including freight and cartage. If such supplies are handled for resale to students, only the net cost of supplies is recorded here.

CAPITAL OUTLAY (500)

Expenditures for the acquisition of fixed assets or additions to fixed assets. They are expenditures for land or existing buildings; improvements of grounds; construction of buildings; additions to buildings; remodeling of buildings; initial equipment; additional equipment; and replacement of equipment.

OTHER OBJECTS (600)

Amounts paid for goods and services not otherwise classified above. This includes expenditures for the retirement of debt, the payment of interest on debt, payments to a housing authority, and the payment of dues and fees.

TRANSFERS (700)

This object category does not represent a purchase; rather it is used as an accounting entity to show that funds have been handled without having goods and services rendered in return. Included here are transactions for interchanging money from one fund to the other and for transmitting flow-through funds to the recipient (person or agency).

OTHER USES OF FUNDS (800)

810 Planned Reserve Amounts set aside for operating contingencies for expenditures which cannot be foreseen and planned in the budget because of the occurrence of some unusual or extraordinary event. (Use only with function 6110.)

820 Reserved for Next Year (Use only with 7000 function.)

General Fund

The General Fund is the District's primary operating fund and accounts for all revenues and expenditures, except those required to be accounted for in another fund. Expenditure categories include salaries, associated payroll costs, purchased services, supplies and materials, capital outlay and other general expenses.

Revenues come from two main sources: state funding and local property taxes. The state revenue and local property taxes are components of the State School Fund (SSF), which make up almost 90% of all General Fund revenue.

Property taxes are levied and become a lien on all taxable property as of July 1. Property taxes are payable on November 15, February 15, and May 15. Discounts are allowed if the amount due is received by November 15 or February 15. Taxes unpaid and outstanding on May 16 are considered delinquent. Uncollected taxes are deemed to be substantially collectible or recoverable through liens; therefore, no allowance for uncollectible taxes has been established. All property taxes receivable are due from property owners within the District.

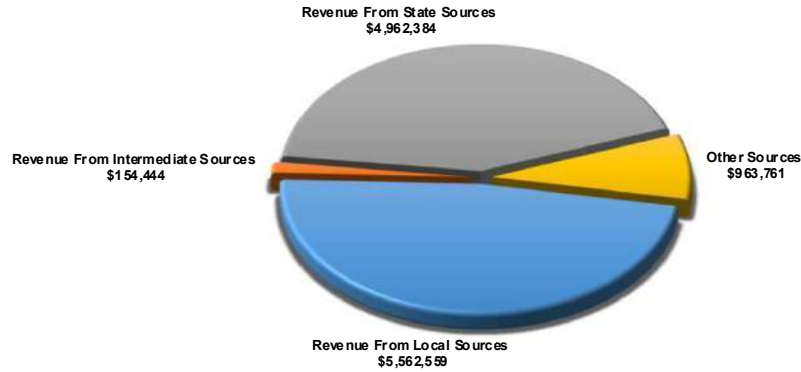

State School Fund is based upon estimates of Average Daily Membership (ADM), teacher experience, student transportation costs, local revenues and other statutorily prescribed factors. The amount received from the state is adjusted down based on tax revenues received from the permanent rate local property taxes.

Debt Service Funds

Oregon Budget Law requires the establishment of a Debt Service Fund when a bond levy is passed. These funds account for the accumulation of resources for, and the payment of, general long-term debt, principal, and interest.
