

Fundamental Five

Best practices in the classroom = Quality Instruction

1. Framing the Lesson

- Posting and reviewing the daily Learning Objective with the students (We will...)

2. Work in the Power Zone

- Teaching or monitoring in close proximity to students. Allows for ongoing assessment of students and their work

3. Recognize and Reinforce

- Recognizes all levels of academic success and provides immediate support.

4. Frequent, small group, Purposeful talk (think, pair, share)

- Focused discussion

5. Write critically!

- Writing for the purpose of clarifying, organizing, defending, refuting, analyzing, dissecting, connecting, and/or expanding on ideas or concepts
