

Painting, Heat, Light and Plumbing

Painting schedules will be planned to provide for the periodic regular painting of school property. Efforts will be made to schedule approximately the same amount of work to be done each year.

Information that will increase efficiency of repair and maintenance operations will be kept on file with the Head Custodian. This information will include:

1. Complete plans and specifications for the building.
2. Instruction guides and servicing schedules for all mechanical equipment.

These are to be kept in proper files with other pertinent information, together with the names of repairers.

Adopted: September 8, 2005

Revised: February 11, 2020
