School Advisory Council – Meeting Minutes

Friday, February 10, 2020

Members Present: Mr. Miller; Mrs. Outing; Mrs. Medina; Mrs. Griffiths; Mrs. Rivera; Ms. Mose

Review of Minutes- Needed to review January and February Minutes due to the attendance.

Administrative Report- Mrs. Griffiths

* We had a successful FTE in February. Our student count calculated to 447. We had over 30 acceptance letters mailed out and our PreK unit is at 17 for the 23/24 school year.

* Our literacy week was a success! We had our students do the following:

K-2: Students made habitat bags and filled them with facts about sea creatures from non-fiction books.

3rd: Students did a book tasting of the books that are apart of the Florida Standards

4th/5th: Our fourth-grade students did biography bags while our fifth graders read about volcanoes and recreated them.

* Our PYP Committee wanted to close out the year with an IB family night. Therefore we decided to add a culture night onto our calendar in the month of April.

* Teachers have started a Google Classroom that is dedicated to professional development. The consultant recommended that we read specific articles. The teachers will read their articles and write a reflection. This information will be used with the authorization team next year as we continue our journey with authorization.

* Mrs. Alexander has started Wida testing with a team of teachers as we have 97 ELL students K-5.

* Tutoring will begin on February 13th and go through the third week of April. We are very appreciative of staff and the work they do as they are going above and beyond. We appreciate the support of our parents for the transportation and pick up from after school.

* Our first graders did amazing with their performance! We are super proud of them!

* FDLRS is a wonderful resource and they are providing professional development to our ESE department and will be working with us to develop a stronger master schedule and have a more effective way of scheduling our ESE teachers.

* Mrs. Alexander has been working hard to create a mentor group for our students. We also have community members come in and speak to our fourth and fifth grade students every Friday morning. We are thankful for the community support!

Strategic Plan Feedback- Mrs. Griffiths

Reviewed the work from the Community Outreach Committee. The JHW staff that participates on this committee used the survey results to generate overarching goals. Please see the following goals below from the staff. Mr. Miller has asked for them to be sent out via email to the SAC committee as well. These overarching goals were shared with our PTO for feedback as well.

SIP Review- Mrs. Griffiths

We have to complete a SIP reflection but we needed to receive the authorization to do so. We will share the SIP reflection feedback at the next meeting as this is due to PCSB Board as well. Our sponsor district also wanted an updated on our progress with our SIP.

Janie Howard Wilson Elementary Strategic Plan – GOALS

Facilities Goals

1. The roof on building two.
2. Air condition for kitchen and the filter system changed in the cafeteria.
3. Classroom furniture to be replaced.

Growth Goals

1. To raise our school grade by teacher accountability.
2. To increase parental involvement with making home visits, more cultural events, and integrate the messages for callouts to one call instead of two.
3. To continue to increase our student enrollment.

Personnel Goals

1. Staff building activities to develop relationships to enhance work productivity.
2. To empower the staff to work cohesively to meet the needs of the school with addressing our ESSA subgroups with incorporating trauma enhanced supports.
3. To increase staff attendance by three percent improvement each year.

Resources Goals

1. To have a home economics class for students to have a basis for cooking, cleaning, dressing for an event, basic

hygiene, sewing through social media to showcase.

2. To empower staff to create resources for students such as clubs and groups.

3. Book vending machine for high traffic areas when students hit goals.

Technology Goals

1. Wireless headphone sets and this will reduce the jacks on the chrome books from being broken.

2. Update chromebooks according to age appropriateness. Support services need devices so students are not carrying chromebooks.

3. Instructional lessons for teachers to learn computer science standards and have support with learning Google platforms.
