Health Update: since the last meeting- (7 weeks) on average I saw 66 students, talked to 6 parents, gave 29 medications and sent 4 students home.

Counseling Update: 1 student using TChat from TTU via zoom. 2 students using LPC and they seem to be enjoying using these. Have a speaker on April 29th on mind set provided by grant money.

Cafeteria Update: still waiting to hear on the dyes. The numbers have gone down, but this is normal because of the # of activities going on outside of the school and it helps if they order a lunch from the school.

P.E. Update: Fitness gram completed. Field day May 1, 2025.

New Business: Discussed Measles.
