<b>Description</b>	<p>Do you miss the Student Achievement Model (SAM) sessions of the past where you were guided to look at your data? Are you wondering if you're missing critical components of MDE's Continuous Improvement Plan (MICIP) Process? Have you painted a less-than-Whole-Child view with your data?</p> <p>If so, bring a team and spend a few hours delving into your data, digging for underlying causes for gaps, and investigating intervention options.</p> <p>We will create a basic data packet with your school's EWI charts and the School Index report from MISchoolData. You are welcome to bring additional local data as well, such as NWEA or Star; you can bring your own laptop or use ours to look up public data.</p>
