

Mini Milestones

The Pre-Primary Center at Carpenter Street School at Partners in Learning

At the Pre-Primary Center, we believe that learning doesn't just happen in the classroom—it flourishes when schools and families work together! As partners in your child's education, we invite you to join us in creating a strong foundation for learning, growth, and play.

We are excited to launch a monthly newsletter to help build the connection between school and home. Along with the newsletters, we will also share related resources on our family *padlet*. Each month will focus on different topics related to play, and give families a glimpse of what our staff is further exploring.

Together, we can nurture curiosity, build confidence, and celebrate the amazing milestones our students achieve every day!
