Rooted & Built Up!

Colossians 2:7

Early Childhood Learning Center (ECLC) Overview

The emphasis of our program is to nurture, in each child, a love for God, for others, and for learning. Our desire is to partner with parents in a biblical education. Master's Academy's ECLC offers a well-balanced program, providing the play and movement that preschool age children require, while incorporating small group learning to prepare students for a successful Kindergarten experience. We provide a loving environment where children are encouraged to practice and reinforce the many developmental skills they acquire during these tender years. Each child is a unique individual made in God's image and we assist families in laying solid foundations spiritually, socially, emotionally, intellectually, and physically in order to live a life pleasing to God.

Our Mission

Master's Academy exists to spiritually develop and academically challenge students to impact the world for Christ. We are committed to excellence in education, the truth and authority of the scriptures, and a Christ-centered worldview. The philosophy of Master's Academy is based upon a biblical worldview: that God is the Creator and Sustainer of the universe and the Source and Essence of all goodness and truth. God's Word is our standard; it is central to every subject, activity and relationship of Master's Academy. Believing that a Biblically governed education will produce students of Christian character, industry, faith and charity, Master's Academy joins with parents and churches in a partnership to inculcate Christian self-government as the foundation for excellence in all of life, "...that in all things (Christ) might have preeminence." (Colossians 1:18)

History

As a ministry of Pathway Church (formerly First Church of God) in Vero Beach, Florida, Master's Academy hosted the inaugural Kindergarten class of 14 students in 1998. The school now serves students in Preschool through 12th grade, offering students rigorous educational opportunities underpinned by STEM learning, as well as a Self-Paced Learning path with an optional Ed-Tech track for Upper School students. In June of 2009, Master's Academy graduated its first five seniors and earned K-12 accreditation through the Association of Christian Schools International (ACSI).
