Rights & Responsibilities

The Rights of Requestors and the Responsibilities of Rappahannock County Public Schools under the Virginia Freedom of Information Act

The Virginia Freedom of Information Act (FOIA), located at § 2.2-3700 et seq. of the Code of Virginia, guarantees citizens of the Commonwealth and representatives of the media access to public records held by public bodies, public officials and public employees.

A public record is any writing or recording – regardless of whether it is a paper record, an electronic file, an audio or video recording or record in any other format – that is prepared or owned by, or in the possession of a public body or its officers, employees or agents in the transaction of public business. All public records are presumed to be open to the public and may only be withheld if a specific statutory exemption applies.

The policy of FOIA is to promote an increased awareness by all persons of governmental activities. In furthering this policy, FOIA requires that the law be interpreted liberally, in favor of access, and that any exemption allowing public records to be withheld must be interpreted narrowly.

FOIA Rights

- Citizens of the Commonwealth and representatives of the media have the right to request to inspect or receive copies of public records, or both.
- Citizens of the Commonwealth and representatives of the media have the right to request that any charges for the requested records be estimated in advance.
- If a citizen of the Commonwealth or representative of the media believes that their FOIA rights have been violated, the citizen or media representative may file a petition in district or circuit court to compel compliance with FOIA. Alternatively, they may contact the FOIA Council for a nonbinding advisory opinion.

Making a Request for Records from Rappahannock County Public Schools

- Records may be requested by U.S. mail, fax, e-mail, in person or over the phone. FOIA does not require that a request be in writing, nor that it specifically state that records are being requested under FOIA.
- As a practical matter, it may be helpful to both the requestor and the person receiving the request to put the request in writing. This creates a record of the request. It also gives us a clear statement of what records are requested, so that there is no misunderstanding over a verbal request. However, we cannot refuse to respond to a FOIA request if it is not put in writing.
- A request must identify the records sought with “reasonable specificity.” This is a common-sense standard. It does not refer to or limit the volume or number of records requested; instead, it requires the requestor to be specific enough so that we can identify and locate the records that are requested.

- A request must ask for existing records or documents. FOIA creates a right to inspect or copy records; it does not apply to general questions about the work of Rappahannock County Public Schools, nor does it require Rappahannock County Public Schools to create a record that does not exist.
- A requestor may choose to receive electronic records in any format used by Rappahannock County Public Schools in the regular course of business. For example, if requested records are maintained in an Excel file, the requestor you may elect to receive those records electronically, via e-mail or on a computer disk or to receive a printed copy of those records.
- If we have questions about a request, please cooperate with staff's efforts to clarify the type of records sought, or to attempt to reach a reasonable agreement about a response to a large request. Making a FOIA request is not an adversarial process, but we may need to discuss a request to ensure that we understand what records are being sought.

To request records from Rappahannock County Public Schools, direct your request to Rappahannock County Public Schools' designated Freedom of Information Act Officer (FOIA Officer) who is responsible for serving as a point of contact for members of the public who wish to request public records. The Rappahannock County Public Schools FOIA Officer is:

Robin Bolt, Director of Administrative Services and Amy Newman, School Board Clerk, can be reached at 540-227-0023

In addition, the FOIA Advisory Council is available to answer questions about FOIA. The Council may be contacted by e-mail at foiacouncil@dls.virginia.gov or by phone at (804) 698-1810 or 1-866-448-4100.

Rappahannock County Public Schools' Responsibilities in Responding to Your Request

Rappahannock County Public Schools must respond to a request within five working days of receiving it. "Day One" is considered the day after the request is received. The 5-day period does not include weekends or holidays.

The reason behind a request for public records from Rappahannock County Public Schools is irrelevant and a requestor does not have to state why they want the records before we respond to the request. FOIA does, however, allow Rappahannock County Public Schools to require a requestor to provide their name and legal address.

FOIA requires that Rappahannock County Public Schools make one of the following responses to a request within the 5-day time period:

1. We provide the records requested in their entirety.
2. We withhold all of the records requested, because all of the records are subject to a specific statutory exemption or exemptions. If all of the records are being withheld, we must send a response in writing. That writing must identify the volume and subject matter of the records withheld and state the specific section(s) of the Code of Virginia that allows us to withhold the records.

3. We provide some of the records requested, but withhold other records. We cannot withhold an entire record if only a portion of it is subject to an exemption. In that instance, we may redact the portion of the record that may be withheld, and must provide the remainder of the record. We must provide the requestor a written response stating the specific section(s) of the Code of Virginia that allows portions of the requested records to be withheld.
4. We inform the requestor in writing that the requested records cannot be found or do not exist (we do not have the records requested). However, if we know that another public body has the requested records, we must include contact information for the other public body in our response.
5. If it is practically impossible for Rappahannock County Public Schools to respond to the request within the 5-day period, we must state this in writing, explaining the conditions that make the response impossible. This will allow us 7 additional working days to respond to the request, giving us a total of 12 working days to respond to the request.

If a request is made for a very large number of records and we feel that we cannot provide the records within 12 working days without disrupting our other organizational responsibilities, we may petition the court for additional time to respond to the request. However, FOIA requires that we make a reasonable effort to reach an agreement with the requestor concerning the production of the records before we go to court to ask for more time.

Costs

Except with regard to scholastic records requested pursuant to subdivision A 1 of Va. Code § 2.2-3705.4 that must be made available for inspection pursuant to the Family Educational Rights and Privacy Act (20 U.S.C. § 1232g) and such requests for scholastic records by a parent or legal guardian of a minor student or by a student who is 18 years of age or older, Rappahannock County Public Schools may make reasonable charges not to exceed its actual cost incurred in accessing, duplicating, supplying or searching for the requested records and makes all reasonable efforts to supply the requested records at the lowest possible cost. Rappahannock County Public Schools does not impose any extraneous, intermediary or surplus fees or expenses to recoup the general costs associated with creating or maintaining records or transacting the general business of the schools. Any duplicating fee charged by Rappahannock County Public Schools will not exceed the actual cost of duplication. Prior to conducting a search for records, Rappahannock County Public Schools notifies the requestor in writing that it may make reasonable charges not to exceed its actual cost incurred in accessing, duplicating, supplying, or searching for requested records and inquires of the requestor whether the requestor would like to request a cost estimate in advance of the supplying of the requested records as set forth in Va. Code § 2.2-3704.F. A requestor may request that Rappahannock County Public Schools estimate in advance the charges for supplying the records requested. This will allow the requestor to know about any costs upfront, or give the requestor the opportunity to modify the request in an attempt to lower the estimated costs.

The requestor may have to pay for the records requested from the Rappahannock County Public Schools. FOIA allows us to charge for the actual costs of responding to FOIA requests. This includes items like staff time spent searching for the requested

records, copying costs or any other costs directly related to supplying the requested records. It does not include general overhead costs. Any costs incurred by the Rappahannock County Public Schools in estimating the cost of supplying the requested records will be applied toward the overall charges to be paid by the requestor for the supplying of such requested records.

If we estimate that it will cost more than \$200 to respond to a request, we may require the requestor to pay a deposit, not to exceed the amount of the estimate, before proceeding with the request. The five days that we have to respond to the request does not include the time between when we ask for a deposit and when the requestor responds.

If a requestor owes us money from a previous FOIA request that has remained unpaid for more than 30 days, Rappahannock County Public Schools may require payment of the past-due bill before it will respond to a new FOIA request.

How Charges are Determined

The FOIA Officer, after receiving a request for records, promptly determines whether any requested documents exist and, if they do, the number and location of those records. Where a portion of individual records must be redacted prior to inspection and copying, the cost of doing this is taken into account. The following costs are charged at the rates indicated, not to exceed actual cost:

- Staff member search time, charged by the quarter hour; depending on the staff member(s) involved in the search, rates of \$2.50 to \$5.00 per quarter hour may apply
- Computer search time, charged at the rate of \$2.50 to \$5.00 per quarter hour
- Computer printouts, charged at the rate of 25 cents per page
- Photocopies (including those necessary to perform redactions), charged at the rate of 15 cents per page
- Incidental out-of-pocket costs necessary to assemble the records (for example: phone, postage, or courier charges)

3. Requesters must provide their legal name and address and verification that the requester is a citizen of the Commonwealth, a representative of a newspaper or magazine with circulation in the Commonwealth, or a representative of a radio or television station broadcasting in or into the Commonwealth.
5. The FOIA Officer or designee is present during inspection or copying of records. A record of each inspection is made, using form KBA-F2 Record of Inspection and/or Delivery of Copies.

3. Requesters should make their requests using Form KBA-F1 Request for Public Records. Requests received via telephone are transcribed onto Form KBA-F1 Request for Public Records by school board staff. Written requests other than on Form KBA-F1 Request for Public Records are appended to a copy of the form by staff, who fill out as much of the form as possible.

Telephone inquiries are redirected to the FOIA Officer. Any written requests received by building personnel are immediately forwarded to the FOIA Officer with a notation indicating the date and time the request was received.

Responding to Requests

1. Prior to conducting a search for records, Rappahannock County Public Schools notifies the requestor in writing that it may make reasonable charges not to exceed its actual cost incurred in accessing, duplicating, supplying, or searching for requested records and inquires of the requestor whether the requestor would like to request a cost estimate in advance of the supplying of the requested records as set forth in Va. Code § 2.2-3704.F. A requestor may request that Rappahannock County Public Schools estimate in advance the charges for supplying the records requested. This will allow the requestor to know about any costs upfront, or give the requestor the opportunity to modify the request in an attempt to lower the estimated costs. Any costs incurred in estimating the cost of supplying the requested records will be applied toward the overall charges to be paid by the requestor for the supplying of such requested records.
2. Promptly, but in all cases within five working days of receiving the request, the school division provides the requested records to the requester or makes one of the following responses in writing:
 - (a) The requested records are being entirely withheld. The response will identify with reasonable particularity the volume and subject matter of the withheld records, and, with respect to each category of withheld records, cite the specific Virginia Code section(s) or other law that authorizes the withholding of the records.

- (b) The requested records are being provided in part and are being withheld in part. The response will identify with reasonable particularity the subject matter of the withheld portions and cite, with respect to each category of withheld records, the specific Virginia Code section(s) or other law which authorizes the withholding of the records.
- (c) The requested records could not be found or do not exist. If the school division knows that another public body has the requested records, the response includes contact information for the other public body.
- (d) It is not practically possible to provide the records or to determine whether they are available within the five-day period. Such response specifies the conditions which make a response impossible. If the response is made within five working days, one of the preceding responses is provided within an additional seven-day period.

No public record is withheld in its entirety on the grounds that some portion of the public record is excluded from disclosure by law. A public record may be withheld from disclosure in its entirety only to the extent that an exclusion from disclosure applies to the entire content of the public record. Otherwise, only those portions of the public record containing information subject to an exclusion may be withheld, and all portions of the public record that are not so excluded are disclosed.

The school division may petition the appropriate court for additional time to respond to a request for records when the request is for an extraordinary volume of records or requires an extraordinarily lengthy search and a response within the time outlined above will prevent the school division from meeting its operational responsibilities. Before proceeding with the petition, the school division will make reasonable efforts to reach an agreement with the requester concerning the production of the records requested.

3. The five-day period begins on the first working day following the day the request is received by the school division. Any time that elapses between the time the requester is notified of an advance cost determination pursuant to the procedures detailed below and the time that the requester responds to that notice is not counted in calculating the five working days.

Processing of Requests

1. The FOIA Officer, after receiving a request, promptly makes an initial determination

as to whether the requested records will be provided to the requester, will be withheld, either completely or in part, or if it is practically impossible to provide the requested records or to determine whether they are available within five days.

2. If the FOIA Officer is unsure whether the requested documents should be provided to the requester, legal advice is promptly sought.
3. If the FOIA Officer is uncertain whether the requested records exist or where they may be located, efforts are promptly initiated to locate the records or determine whether they exist.
4. If the requested records will be made available either in whole or in part, the FOIA Officer promptly consults with School Board staff to determine the cost involved to assemble the records for inspection and copying. Where portions of individual records must be redacted prior to inspection and copying, the cost of doing this is taken into account. The following costs are charged at the rates indicated, not to exceed actual cost:
 - Staff member search time, charged by the quarter hour. Depending on the staff member(s) involved in the search, rates of \$2.50 to \$5.00 per quarter hour may apply.
 - Computer search time, charged at the rate of \$2.50 to \$5.00 per quarter hour
 - Computer printouts, charged at the rate of 25 cents per page
 - Photocopies (including those necessary to perform redactions), charged at the rate of 15 cents per page.
 - Incidental out-of-pocket costs necessary to assemble the records (for example: phone, postage, or courier charges).
5. If the requester has asked for an advance determination of the cost, or if the cost is expected to exceed \$200, the requester shall be notified in advance of the cost associated with the request. If the cost of the request is determined to exceed \$200, the School Board may, before continuing to process the request, require the requester to agree to payment of a deposit not to exceed the amount of the advance determination. The deposit shall be credited toward the final cost of supplying the

requested records. No further action shall be taken until the requester responds, and the requester must agree to pay the estimated amount before any further processing of the request is performed.

6. Before processing a request for records, the FOIA Officer may require the requester to pay any amounts owed to the school board for previous requests for records that remain unpaid 30 days or more after billing.
7. If school division records have been transferred to any entity, including any other public body, for storage, maintenance or archiving, the school division remains the custodian of the records for purposes of responding to requests and is responsible for retrieving and supplying the records to the requester.
8. Any records to be disclosed are assembled for inspection and copying by school board staff, under the direction and supervision of the FOIA Officer.
9. School board staff are responsible for recording the date the request was received, verifying identification and recording and assembling additional information about the request as indicated on Form KBA-F1 Request for Public Records.

Our website does not place any "cookies" on your computer.

Information collected through the division's website is used as follows:

How the collected information is used

Routing information is used to route the requested web page to your computer for viewing. We send the requested web page and the routing information to our Internet Service Provider (ISP) or

other entities involved in transmitting the requested page to you. We do not control the privacy practices of those entities. Essential and nonessential technical information helps us respond to your request in an appropriate format, or in a personalized manner and helps us plan website improvement.

Optional information enables us to provide services or information tailored more specifically to your needs or to forward your message or inquiry to another entity that is better able to do so, and also allows us to plan website improvements.

We may keep your information indefinitely, but we ordinarily delete the routing information from our computer within days after the web page is transmitted and do not try to obtain any information to link it to the individuals who browse our website. We use this routing information primarily in a statistical summary type format to assess site content and server performance. We may share this summary information with our business partners when needed.

However, on rare occasions when a “hacker” attempts to breach computer security, logs of routing information are retained to permit a security investigation and in such cases may be forwarded together with any other relevant information in our possession to the appropriate law enforcement agency.

Optional information is retained in accordance with the Records Retention Schedules promulgated by the Library of Virginia.

Under the Freedom of Information Act, any records in our possession at the time of a request for information, including the collection of logs and data of a website, may be subject to being inspected by or disclosed to members of the public for any purpose.

The Superintendent is responsible for creating and updating, as necessary, an internet privacy policy statement. The statement is available on the division’s website in a conspicuous manner.

TOBACCO PRODUCTS AND NICOTINE VAPOR PRODUCTS REGULATION

Use of Tobacco Products

The use and distribution of tobacco products; nicotine vapor products, or alternative nicotine products, including electronic smoking devices, and any components or accessory used in the consumption of a tobacco product (including liquid-containing nicotine) is prohibited by students, staff, contractors, and visitors on school property or school premises, on school buses, and at on-site or off-site school-sponsored activities, at any time, including non-school hours.

School property includes any building, structure, or vehicle owned, leased, or contracted by the Division, both on- and off-site.

School premises means any property surrounding buildings and structures, athletic grounds, parking lots, or any other outdoor property owned, leased, or contracted by the Division, both on- and off-site.

Appropriate signage will be posted in buildings and on school property in a manner and location that adequately informs students, staff, and visitors of the policy, including at entrances to school buildings and athletic events.

Consequences for employees who violate this regulation will be in accordance with School Board Policy GCPD, "Professional Staff Discipline." For RCPS employees, a first offense will merit a verbal warning and a referral to tobacco cessation resources. A second offense will bring a written warning that will be included in the employee's personnel file. A third offense will prompt a letter advising that the violation is "considered insubordination" and will be treated as a disciplinary matter.

Visitors using tobacco products as defined by this regulation will be asked to refrain or leave the premises. Law enforcement may be contacted to escort the person off the premises or cite the person for trespassing, if the person refuses to leave. Forfeiture of any fee charged for admission will be enforced for visitors violating this policy.

The Superintendent, Designee, and Principals are responsible for implementing and monitoring this regulation.

This regulation and related policy shall be reviewed at least every five years and revised as needed.

As used in this policy,

"Overdose" means a life-threatening condition resulting from the consumption or use of a controlled substance.

"School-connected student overdose" means any overdose of a student enrolled in a school in the division that occurs (i) on the premises of such school during regular school hours or (ii) during school-sanctioned activities whether on or off the premises of such school.

"Suspected school-connected student overdose" means a school-connected student overdose that is believed to have occurred and for which the response is the administration of naloxone, another opioid antagonist, or another similar medication with the intent to counter or temporarily reverse the effects of such overdose.

Parent Notification

Through the regular method of communication used for school-wide notifications and within 24 hours of the earlier of (i) law enforcement or medical personnel confirming a school-connected student overdose or (ii) the school principal having knowledge of a suspected school-connected student overdose, the school principal or principal's designee notifies the parent of each student enrolled in the relevant school of such school-connected student overdose or suspected school-connected overdose.

The notification includes information, to the extent it is known at the time of the notification, about the name or any identifiable features of the controlled substance and whether the confirmed or suspected overdose occurred on school premises during regular school hours or during school-sanctioned activities whether on or off school premises.

If any inaccuracies of the initial notification are subsequently discovered, the principal or principal's designee provides an updated notification to the parent of each student in the relevant school to correct any such inaccuracies.

Privacy

The Rappahannock County School Board, Superintendent, principals, school administrators, and employees will take reasonable steps to protect the privacy and dignity of individuals involved in any confirmed or suspected school-connected student overdose.

Any notification provided in accordance with this policy will ensure sensitivity to the privacy interests of affected individuals and compliance with any applicable law,

rules, or regulations relating to the disclosure and protection of a student's personal, confidential, or otherwise sensitive information, including compliance with the federal Family Educational Rights and Privacy Act (FERPA) and related regulations.

SCHOOL VISITORS

Generally

Visitors are welcome on school property provided their presence is not disruptive. Upon arriving at a school, all visitors must report to the administrative office and comply with visitor registration and identification procedures established by the school.

Access to school property by certain registered sex offenders is prohibited by Virginia law except as permitted by court order or statute. Potential visitors, including parents, who are registered sex offenders, should consult Policy KN on Sex Offender and Crimes Against Minors Registry Information before arriving on school property or at school-sponsored activities.

The school division expects mutual respect, civility and orderly conduct from all individuals on school property, including school buses, and at school-sponsored events. Unauthorized persons, including suspended and expelled students, who fail to leave school property, including school buses, or a school-sponsored activity upon the direction of the Superintendent, the principal, a designee, or any other authorized school official, will be considered trespassers. The School Board authorizes the superintendent to take all necessary actions regarding the safety, order and preservation of the educational environment on school property or at school division sponsored activities. Law enforcement may be called to enforce this policy.

Any person, including a student, who enters a school at nighttime without the consent of an authorized person except to attend an approved meeting or service or who enters or remains on any school property, including school buses, in violation of (i) any direction to vacate the property by an authorized individual or (ii) any posted notice which contains such information, and reasonably visible, may be prosecuted in accordance with Virginia law.

Parents

Unless restricted by law, parents are encouraged to visit the schools on scheduled days for conferences with teachers, assemblies, PTA meetings, volunteer service and other school programs. Noncustodial parents are not denied, solely on the basis of their noncustodial status, the opportunity to participate in any student activity that is supported or encouraged by the policies of the School Board.

Board Members

Periodically, Board members may visit schools within the division. The purpose of these visits is to assist in fulfilling their responsibilities and increase understanding of actual educational practices. When visiting a school, School Board members follow the same procedures applicable to all other visitors.

SERVICE ANIMALS IN PUBLIC SCHOOLS

A. Service Animals

An individual with a disability is permitted to be accompanied by the individual's service animal on school property when required by law, subject to the conditions of this policy.

A "service animal" means a dog that has been individually trained to do work or perform tasks for the benefit of an individual with a disability, including a physical, sensory, psychiatric, intellectual, or other mental disability. Other species of animals, whether wild or domestic, trained or untrained, are not service animals for the purposes of this definition. (See, however, Section D regarding miniature horses.) The work or tasks performed by a service animal must be directly related to the individual's disability.

School officials can ask the owner or handler of an animal whether the animal is required because of a disability and what work or task the animal has been trained to do unless the answers to these inquiries are readily apparent. School officials may not ask about the nature or extent of a person's disability and may not require documentary proof of certification or licensing as a service animal.

B. Requirements That Must be Satisfied Before a Service Animal Will be Allowed on School Property

Vaccination: The service animal must be vaccinated as required by law.

Health: The service animal must be in good health.

Control: A service animal must be under the control of its handler at all times. The service animal must have a harness, backpack or vest identifying the dog as a trained service dog, a leash (blaze orange in color) for hearing dogs, a harness for guide dogs, or other tether unless either the handler is unable because of a disability to use a harness, backpack, vest, leash, or other tether, or the use of a harness, backpack, vest, leash, or other tether would interfere with the service animal's safe, effective performance of work or tasks, in which case the service animal must be otherwise under the handler's control.

C. Service Dogs in Training

Experienced trainers of service animals may be accompanied on school property by a dog that is in training to become a service animal. The dog must be at least six months of age. Trainers must wear a jacket identifying the organization to which they belong. Persons conducting continuing training of a service animal may be accompanied by a service animal while on school property for the purpose of school

business. Persons who are part of a three-unit service dog team may be accompanied by a service dog while on school property provided that person is conducting continuing training of a service dog. A three-unit service dog team consists of a trained service dog, a disabled person, and a person who is an adult and who has been trained to handle the service dog. The dogs may accompany these persons while on school property for school purposes.

Use of Harnesses, Vests, etc. A dog that is in training to become a guide dog or a currently trained guide dog that is undergoing continuing training must be in a harness.

A dog that is in training to become a hearing dog or a currently trained hearing dog that is undergoing continuing training must be on a blaze orange leash.

A dog that is in training to become a service dog or a currently trained service dog that is undergoing continuing training must be in a harness, backpack, or a vest identifying the dog as a trained service dog.

The training cannot disrupt or interfere with a school's educational process. It is expected that training would not normally take place in the classroom during instructional time.

All requirements of this policy which apply to service animals, such as annual written requests, and supervision, care and damages, also apply to dogs in training.

D. Miniature Horses

The school division will make reasonable modifications in policies, practices, or procedures to permit the use of a miniature horse by an individual with a disability if the miniature horse has been individually trained to do work or perform tasks for the benefit of the individual with a disability. In determining whether reasonable modifications in policies, practices, or procedures can be made to allow a miniature horse into a specific facility, the school division considers the following factors:

1. The type, size, and weight of the miniature horse and whether the facility can accommodate these features;
2. Whether the handler has sufficient control of the miniature horse;
3. Whether the miniature horse is housebroken; and
4. Whether the miniature horse's presence in a specific facility compromises legitimate safety requirements that are necessary for safe operation.

All additional requirements outlined in this policy, which apply to service animals, also apply to miniature horses.

E. Extra Charges

The owner or handler of a service animal is not required to pay an admission fee or a charge for the animal to attend events for which a fee is charged.

F. Supervision and Care of Service Animals

The owner or handler of a service animal is responsible for the supervision and care of the animal, including any feeding, exercising, and clean up.

G. Damages to School Property and Injuries

The owner or handler of a service animal is solely responsible for any damage to school property or injury to personnel, students, or others caused by the animal.

H. Removal of Service Animals From School Property

A school administrator can require an individual with a disability to remove a service animal from school property under the following circumstances:

1. The animal is out of control and the animal's handler does not take effective action to control it;
2. The animal is not housebroken;
3. The presence of the animal poses a direct threat to the health or safety of others; or
4. The presence of an animal would require a fundamental alteration to the service, program, or activity of the school division.

If the service animal is removed, the individual with a disability shall be provided with the opportunity to participate in the service, program, or activity without the service animal.

I. Denial of Access and Grievance

If a school official denies a request for access of a service animal or a dog in training, the disabled individual or parent or guardian can file a written grievance with the school division's Section 504 Coordinator.

PUBLIC COMPLAINTS

Complaints involving a particular school are handled within the school through the established channel of responsibility. If the complaint cannot be resolved at the level of the principal, it is referred to the superintendent or superintendent's designee. If the central office staff and complainant cannot reach a satisfactory solution, the matter may, at the School Board's discretion, be heard at a regular board meeting.

Any parent, custodian, or legal guardian of a pupil attending the Rappahannock County Public Schools who is aggrieved by an action of the School Board may, within thirty days after such action, petition the local circuit court to review the action of the School Board. The court will sustain the action of the School Board unless the School Board exceeded its authority, acted arbitrarily or capriciously or abused its discretion.

PUBLIC COMPLAINTS ABOUT LEARNING RESOURCES

It is the responsibility of the Rappahannock County School Board to establish procedures for handling challenged controversial materials.

The procedure for filing a complaint concerning learning resources is as follows:

Despite the care taken in selecting suitable learning resources, and despite the qualifications and expertise of persons involved in that selection process, it is recognized that occasional objections to materials will be made by the public. It is, therefore, the policy of the School Board to provide channels of communication and a fair procedure for members of the community to follow in expressing and resolving concerns about learning resources, including instructional materials, used in teaching the curriculum.

Complaints about learning resources should be presented in writing using KLB-E, "Request for Reconsideration of Learning Resources" form, which may be obtained from the principal or the central office. The standards and procedure for review shall be consistently applied. Materials shall be considered for their educational suitability and shall not be removed because of partisan or doctrinal disapproval. Challenges which are not resolved at the building level may be submitted to the superintendent or superintendent's designee. The decision of the superintendent may be appealed to the School Board or reviewed at the School Board's request. The decision of the School Board will be final.

SCHOOL RELATED ORGANIZATIONS

KMA-R

Rappahannock County Public Schools encourages the establishment of parent and staff supported organizations that enhance the educational mission of the division. The School Board appreciates the support provided by school-related organizations such as Advisory Council Committees and the PTO.

Advisory Councils will be comprised of parents, grandparents, guardians, business representatives, and staff working together to fulfill the mission of the council and support education. Advisory Councils will have an assigned staff advisor who is familiar with Virginia Department of Education guidelines and who will coordinate and attend all meetings. The Parent Teacher Organization will be comprised of parents, grandparents, guardians, and staff working together to support the students and teachers with activities and fundraising. A principal/administrator will represent the division at these meetings. All activities must follow school policy, Federal, and state regulations.

These organizations recognize that final decisions of programs and the legal responsibility of decisions related to the educational system remains the responsibility of the Rappahannock County Public School system. All teacher requests for funding, programs, materials and supplies must be approved by administration prior to submission to the organization.

All activities and fundraising must be approved by the principal for school-level programs and the superintendent for division-level programs (see policy KH and KH-R). Gifts may be made in accordance with school needs as determined by the principal. All gifts remain the property of the Rappahannock County School Board.

RAPPAHANNOCK COUNTY PUBLIC SCHOOLS

SEX OFFENDER REGISTRY NOTIFICATION

Generally

Each school in the Rappahannock County division must register with the Department of State Police to receive electronic notice of the registration, reregistration, or verification of registration information of any person required to register with the Sex Offender and Crimes Against Minors Registry (the Registry) within the division.

The superintendent establishes procedures regarding the use and distribution of information received from the Registry. Information received from the Registry may not be used to intimidate or harass.

The superintendent notifies the parent of each student enrolled in the school division of the availability of information in the Registry and the location of the website.

Visitors to Schools

When the school division learns that a parent, other than a parent who has been convicted of a Tier III offense as defined in Va. Code § 9.1-902, of an enrolled student is required to register with the Registry, the parent is notified in writing that the parent is barred from being present on school property or school sponsored activities, without the express written approval of the student's principal. Such approval must be obtained in advance of the proposed visit and will state the conditions under which the parent may be present. When such a parent is permitted at school or at school functions the parent is monitored to ensure that the parent does not come into contact with any children other than the parent's own children.

When the school division learns that any individual other than the parent of an enrolled student, who is required to register with the Registry, but who has not been convicted of a Tier III offense, as defined in Va. Code § 9.1-902, seeks to be present at school or at school functions, the individual is notified in writing that the individual is barred from being present at school or school functions without the express written approval of the principal of the school the individual seeks to visit or which sponsors the event the individual seeks to attend. Such approval must be obtained in advance of the proposed visit and, if obtained, will state the conditions under which the person may be present. One of the conditions will be that the individual will be monitored to ensure the safety of students, staff, and others.

Principals consider requests to be present at school or at school sponsored activities from all individuals who are required to register with the Registry but have not been convicted of a Tier III offense as defined in Va. Code § 9.1-902 in accordance with procedures established by the superintendent.

Visitors to Schools—Conviction of Tier III Offenses

No adult who has been convicted of a Tier III offense, as defined in Va. Code § 9.1-902, may enter or be present during school hours, and during school-related or school-sponsored activities on any property the person knows or has reason to know is

a school or child day center property, school bus, or on any property, public or private, when such property is solely being used by an elementary or secondary school for a school-related or school-sponsored activity unless

- the person is a lawfully registered and qualified voter and is coming upon such property solely to vote;
- the person is a student enrolled at the school; or
- the person has obtained a court order pursuant to Va. Code 18.2-370.5.C allowing the person to enter and be present upon such property, has obtained the permission of the School Board or its designee for entry within all or part of the scope of the lifted ban, and is in compliance with the School Board's terms and conditions and those of the court order.

RELATIONS WITH LAW ENFORCEMENT AUTHORITIES

Investigations by Law Enforcement Officers at School

When it becomes necessary for any law enforcement officer to interrogate a student on school premises, the principal is contacted immediately. The principal or principal's designee makes a reasonable effort to contact the parent or guardian and have the parent or guardian in attendance for the interrogation. If the parent or guardian cannot be present for the interrogation, then the principal or principal's designee is present throughout the interrogation.

Service of Process at School

Should there be a need to serve a student or school employee with any "legal process", the School Board encourages the process server to make all reasonable attempts to serve such documents off school premises; however, if the documents must be served on school premises, they should be served at the principal's office of the school which the student attends or the main office of the facility at which the employee is assigned.

In any case in which custody or visitation of a minor child is at issue and a summons is issued for the attendance and testimony of a teacher or other school employee who is not a party to the proceeding, if such summons is served on school property, it may be served only by a sheriff or his deputy.

Development of Programs

The superintendent seeks to develop, in cooperation with the local law-enforcement agencies, juvenile and domestic relations court judges and personnel, parents, and the community at large, programs and procedures to prevent violence and crime on school property and at school-sponsored events. The superintendent obtains and uses Sex Offender Registry information in accordance with Policy KN Sex Offender and Crimes Against Minors Registry Information.

Report to Law Enforcement Officials

Except as may otherwise be required by federal law, regulation or jurisprudence, the principal immediately reports to the local law-enforcement agency all incidents involving alcohol, marijuana, a controlled substance, an imitation controlled substance, or an anabolic steroid on a school bus, on school property, or at a school-sponsored activity, including the theft or attempted theft of student prescription medications that may constitute a felony offense.

Except as may otherwise be required by federal law, regulation or jurisprudence, the principal immediately reports to the local law-enforcement agency all incidents involving

- the sexual assault, death, shooting, stabbing, cutting, or wounding of any person, abduction of any person as described in Va. Code § 18.2-47 or § [18.2-48](#), or stalking of any person as described in Va. Code § [18.2-60.3](#), on a school bus, on school property, or at a school-sponsored activity;
- any written threats against school personnel while on a school bus, on school property, or at a school-sponsored activity;
- the illegal carrying of a firearm, as defined in Va. Code § [22.1-277.07](#), onto school property;

Except as may otherwise be required by federal law, regulation or jurisprudence, the principal may report to the local law-enforcement agency any incident described in Va. Code § 22.1-279.3:1.A that is not required to be reported pursuant to the two previous paragraphs.

If the local law-enforcement agency employs school resource officers, the School Board and the agency have a memorandum of understanding that sets forth the powers and duties of the school resource officers. The memorandum of understanding addresses the use of seclusion and restraint by law enforcement personnel in school settings. The School Board and the law-enforcement agency review and amend or affirm the memorandum of understanding at least once every two years or at any time upon the request of either party. The School Board provides notice and an opportunity for public input during each review period for the memorandum of understanding. The current memorandum of understanding is conspicuously published on the division website.

REPORTS OF MISSING CHILDREN

The Rappahannock County School Division receives reports of the disappearance of any child living within the school division from local law enforcement pursuant to Va. Code § 52-31.1.

Upon notification by a local law-enforcement agency of a child's disappearance, the principal of the school in which the child was enrolled at the time of the disappearance indicates, by mark, in the child's cumulative record that the child has been reported as missing. Upon notification by law enforcement that the child is located, the principal removes the mark from the record.

Upon receiving a request from any school or person for copies of the cumulative records and birth certificate of any child who has been reported by a local law-enforcement agency to be missing, the school being requested to transfer the records immediately notifies the law-enforcement agency that provided the report to the school of the child's disappearance of the location of the school or person requesting the cumulative records and birth certificate of the child, without alerting the requestor of such report.

For the purposes of this policy, a "mark" means an electronic or other indicator that (i) is readily apparent on the student's record and (ii) immediately alerts any school personnel that the record is that of a missing child.

PARENTAL RIGHTS AND RESPONSIBILITIES

The Rappahannock County School Board recognizes that parents have a fundamental right to make decision concerning the upbringing, education, and care of their children and that parents have responsibilities in supporting their child's education. The Rappahannock County School Board is committed to partnering with parents to promote student success and respecting parental rights in accordance with the applicable state and federal laws.

Parental Rights

All staff members will respect the rights of all parents and legal guardians. The School Board recognizes the following rights of both custodial and noncustodial parents, unless a law, legally binding document, or court order provides otherwise:

- Inspect and review the child's education records, in accordance with the Family Educational Rights and Privacy Act (FERPA) and applicable Virginia law;
- Inspect instructional materials used as part of their child's curriculum;
- Visit the school in accordance with School Board policies governing visitors and school safety to include Policy KK on School Visitors and Policy KN on Sex Offender Registry Information;
- Receive all notifications required by law to include, but not limited to, their child's academic progress, promotion and retention, attendance, behavior, and progress towards graduation;
- Participate in conferences, Individualized Education Program (IEP) meetings, 504 plan meetings, and other processes affecting their child's education as required by law;
- Receive notification in accordance with Virginia Code § 22.1-272.1 if a School Board employee has reason to believe, as a result of direct communication with their child, that their child is in imminent risk of suicide;

- Exercise legally required opt-out rights and receive advance notice and inspect materials for certain curricula;
- Inspect surveys or questionnaires administered to their child and exercise applicable opt-out rights

Parent Responsibilities

The custodial parent has the responsibility to:

- Provide accurate and up-to-date contact, medical, and emergency contact information and information on how the parent may be contacted at all times;
- Provide the current address and phone number of the noncustodial parent at registration unless such address is unknown and the custodial parent signs a statement to that effect, or unless a court order restricts the educational or contact rights of the noncustodial parent; and

- Provide a copy of any legal document which restricts the educational and/or contact rights of the noncustodial parent; and
- Ensure their child attends school in compliance with compulsory attendance laws.

The noncustodial parent has the responsibility to:

- Keep the school informed of changes in the parent's phone number and address. At the request of a noncustodial parent, they may be included as an emergency contact for the student's activities unless a court order provides otherwise.

COMMERCIAL, PROMOTIONAL AND CORPORATE SPONSORSHIPS AND PARTNERSHIPS

Generally

The Rappahannock County School Board recognizes that corporate and other private sponsorship of programs and activities related to education can provide valuable enhancement of the educational program offered by the Board. For that reason, the Rappahannock County School Board may enter into commercial, promotional and corporate sponsorship and partnership arrangements under certain conditions.

Definitions

An “educational partnership” is a mutually beneficial, co-operative relationship in which partners share values, objectives and/or human or financial resources to enhance learning for students.

An “educational sponsorship” is an arrangement pursuant to which the sponsor provides money, price reductions, equipment, materials, services or other benefits in exchange for recognition of its products or entity for a specified period of time.

Authority to Enter into Agreements

On behalf of the School Board, principals may enter into sponsorships and partnerships for their schools when the sponsorship or partnership does not extend beyond a single school year or exceed \$5,000 in value to the school.

On behalf of the School Board, the superintendent may enter into sponsorships and partnerships which will benefit more than one school or the division as a whole. The superintendent may also enter into sponsorships and partnerships when the sponsorship or partnership extends beyond a single school year or exceeds \$5,000 in value.

The School Board may create a Sponsorship Review Committee to approve any sponsorship or partnership which the Board determines should be considered by the Committee. The School Board shall establish criteria identifying proposed sponsorships and partnerships which must be approved by the Committee rather than by a principal or the superintendent. If the Committee’s decision regarding the proposed sponsorship or partnership is not unanimous, the decision may be appealed to the School Board by either the potential sponsor or partner or by a member of the Sponsorship Review Committee.

Requirements

Any agreement to enter into an educational sponsorship or educational partnership will be in writing.

The written agreement shall include:

- A statement of the educational purpose for the relationship.

- A statement that the School Board has the right to terminate the agreement without penalty if it determines that the agreement is having an adverse impact on the educational experience of students.
- A statement that if an agreement is terminated because of an adverse impact on the educational experience of students, no other agreement for an educational partnership or sponsorship will be entered into between the School Board and the partner or sponsor whose agreement has been terminated for a specified period of time.
- A statement detailing the specific benefits to the school or school division from the agreement.
- A statement clearly defining the roles, expectations, rights, and responsibilities of all parties to the agreement. This statement shall include a statement of whether the agreement permits the sponsor or partner to advertise in connection with the agreement and, if so, the extent of such advertising.
- A statement clearly defining whether the agreement creates any exclusive rights for the sponsor or partner and, if such rights are created, clearly defining those rights. If no exclusive rights are created, the agreement shall include a statement that the existence of the sponsorship or partnership will not limit the discretion of the School Board or its personnel in the use of sponsored or nonsponsored materials.
- The duration of the agreement.
- A statement that the school or School Board retains the exclusive right to authorize the use of its name, logo, or other similar information.
- A statement that the school or School Board must approve its identification as a partner or co-sponsor in all publicity materials.
- A statement of the monetary value to be received by the school or school division pursuant to the agreement.
- A statement defining how the benefits arising from agreement will be distributed.
- A statement of the basis on which students will be permitted to participate in the program or otherwise benefit from the agreement.
- A statement that the sponsor or partner assumes the responsibility for obtaining the consent of any student or School Board employee whose likeness may appear in any materials disseminated by the partner or sponsor.
- A statement disclosing any relationship between the sponsor or partner, or any of its employees or major stockholders, and any student, School Board employee, School Board member, or the superintendent.
- A statement that all partnerships and sponsorships will be consistent with all federal and state laws, local ordinances, school division policies and regulations, and all preexisting School Board contracts. If the terms of the partnership or sponsorship agreement establish that the employees,

contractors or others acting on behalf of the partner or sponsor will have direct contact with students on school property during regular school hours or during school-sponsored activities, the sponsor or partner must certify that all such persons have not been convicted of any offense involving the sexual molestation or physical or sexual abuse or rape of a child, or the solicitation of any such offense.

- A statement that all partnerships and sponsorships will be consistent with all federal and state laws, local ordinances, school division policies and regulations, and all preexisting School Board contracts. If the terms of the partnership or sponsorship agreement establish that the employees, contractors or others acting on behalf of the partner or sponsor will have direct contact with students on school property during regular school hours or during school-sponsored activities, the sponsor or partner must certify that all such persons have not been convicted of any violent felony or crime of moral turpitude set forth in the definition of barrier crime in subsection A of Va. Code § 19.2-392.02; or, if applicable, states that such an individual was convicted of a violent felony or crime of moral turpitude; however, (i) such conviction did not involve the sexual molestation, physical or sexual abuse, or rape of a child, or the solicitation of any such offense; (ii) such an individual (a) has had their civil rights restored by the Governor; (b) has completed all terms of supervision and has been released from supervision for more than 20 years; (c) is, in the opinion of the school board, of upstanding character; and (d) has demonstrated commitment to public or community service and rehabilitation after completing all terms of supervision; and (iii) the school board certifies in writing that such an individual meets the requirements set forth herein and in accordance with Va. Code § 19.2-392.02 and does not involve the sexual molestation, physical or sexual abuse, or rape of a child, or the solicitation of any such offense, provided that in the case of a felony conviction, the individual's civil rights have been restored by the Governor.
- A statement that no partnership or sponsorship shall exploit any student or School Board employee.
- A statement that no sponsor or partner shall be permitted to collect personal information, including names, addresses or telephone numbers of students or School Board employees because of the partnership or sponsorship.

- A statement that any curriculum materials provided pursuant to the agreement will be held to the same standards as other curriculum materials.
- A statement that any participation by any student or School Board employee in any activity established pursuant to the agreement will be purely voluntary. If a student or School Board employee wants to participate in any sponsored or partnered activity but objects to using the materials provided by the sponsor or partner, the sponsor or partner must supply substantially similar materials to which the student does not object for that student to use in the activity. If a student objects to using materials provided by the sponsor or partner, the School Board employee in charge of the activity shall provide for a means by which the student's objections are made known to other students involved in the activity and by which those objections are discussed in an educational manner.

Prohibitions

No agreement shall be entered into if the sponsorship or partnership involves or gives the appearance of involving any activity which could result in the following:

- promotion of hostility or violence;
- an attack on ethnic, racial, or religious groups;
- discrimination prohibited by any law or School Board policy;
- promotion of the use of drugs, alcohol, tobacco products, nicotine vapor products, or firearms;
