Delivery Feb 1 to Mar 15 – whenever the berries get ripe.

# COVID 19 OR NOT – WE ALL GOTTA EAT!

Fundraising strawberries from Team Sales Corp  
(since 1970) are the safest you can buy!

## BECAUSE...

One person picks them directly in 1-lb. plastic containers and another person stacks them onto a pallet. From there only our forklift handles them until your parent, who sold them, picks them up at school.

SEE PHOTOS 1, 2, 3, 4 & 5

## OTHER FUNDRAISERS...

Use groups of people on the truck, bringing the strawberries into the school and restacking them. 25-50 people are needed and every time they move around there is close personal contact with different people and with the strawberries + everyone involved is breathing on them.

SEE PHOTO 6

## STORES ARE EVEN WORSE...

The strawberries are stored in their walk-in refrigerator and many store employees are walking in and out, moving and re-stacking the strawberries and then putting them in a display out front. Their customers handle and examine them sometimes handling several packages before selecting one.

**STRAWBERRIES WILL BE DELIVERED TO YOUR SCHOOL  
AND THEN TO YOUR CUSTOMERS  
BETWEEN FEB 1 AND MARCH 15,  
DEPENDING ON WHEN THEY GET RIPE IN THE FIELD.**

1

The picker picks the strawberries directly into the protective clam shell containers.

2

A second worker loads them onto pallets.

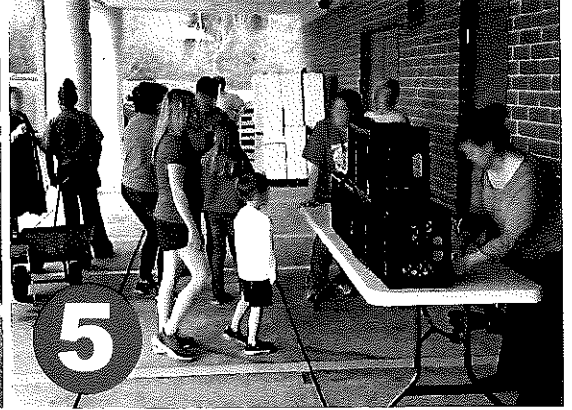

3

Team Sales Corp forklifts unload the berries ... not school people!

4

Teams Sales Corp strawberries waiting for drive up, load up and go.

5

Moms picking up strawberries they sold.

**These strawberries are untouched from the patch to your school and the next person to touch them is the parent who sold them.**

6

Other fundraisers.
