SUBJECT: SCHOOL VOLUNTEERS

The Board recognizes the value of using school volunteers to support District instructional programs and extracurricular activities. The purpose of these volunteers will be to:

- a) Assist employees in providing more individualization and enrichment of instruction;
- b) Build an understanding of school programs among interested citizens, thus stimulating widespread involvement in a total educational process;
- c) Strengthen school/community relations through positive participation.

SUBJECT: CHARTER SCHOOLS

A charter school is a public school financed through public local, state and federal funds that is independent of local school boards. Although the New York Charter Schools Act of 1998 designates certain "charter entities," only the local School District may approve the conversion of an *existing public school* to a charter school. Prior to any such conversion to a charter school, the parents/guardians of the majority of the students then enrolled in the public school must have voted in favor of the conversion.

For charter schools approved by the Board of Trustees of the State University of New York or the Board of Regents, the local School District within which the charter school is located has the right to visit, examine, and inspect the charter school for compliance with all applicable laws, regulations, and charter provisions.

Charter schools may be located in part of an existing public school building, a private work site, a public building, or any other suitable location. At the request of the charter school or prospective applicant, the School District shall make available a list of vacant and unused school buildings and vacant and unused portions of school buildings, including private school buildings, within the School District which may be suitable for the operation of a charter school.

The School District's high school(s) may accept academic credit from students who transfer from the charter school as authorized and/or permitted in accordance with law, Commissioner's Regulations, and local District standards. Either the charter school or the local School Board may issue a high school diploma upon students' graduation from a charter school depending on the charter school's relationship with the School Board.

For the purposes of the Textbook Loan Program defined in Education Law Section 701, the Library Materials Loan Program defined in Education Law Section 711, and the Computer Software Loan Program defined in Education Law Section 751, and Health and Welfare Services defined in Education Law Section 912, students attending a charter school have the same access to textbooks, software and library materials loaned by the School District as if enrolled in a nonpublic school. Within available School District inventory and budgetary appropriations for purchase of such materials, the School District is required to provide such materials on an equitable basis to all public school students and to all nonpublic school and charter school students who are residents of the District (Textbook Loan Program) or who attend a nonpublic or charter school in the School District (Software and Library materials Loan Programs). The base year enrollment of students in the charter school may be claimed by the School District for the purposes of Textbook, Software and Library Materials Aids, in the same manner as nonpublic school enrollments are claimed.

(Continued)

SUBJECT: CHARTER SCHOOLS (Cont'd.)

For the purpose of transportation, charter schools are considered nonpublic schools, which means that students attending charter schools who reside within a fifteen (15) mile radius of the charter school [or a greater radius if the voters of the *school district of residence* have approved nonpublic transportation for more than fifteen (15) miles] will receive transportation from their *school district of residence* on the same basis from nonpublic school students; that is, subject to the applicable minimum mileage limits for transportation in the *school district of residence*, and the requirement of the timely filing of the request for transportation pursuant to Education Law Section 3635(2).

A student *cannot* be dually enrolled in the charter school and District schools. However, the *school district of residence* of students attending a charter school may, but is not required to, allow such students to participate in athletic and extracurricular activities.

Special Education programs and services shall be provided to students with disabilities attending a charter school in accordance with the individualized education program recommended by the Committee or Subcommittee of Special Education of the student's *school district of residence*. The charter school may arrange to have such services provided by the *school district of residence* or by the charter school directly or by contract with another provider.

All employees of a public school *converted* to a charter school are included within the negotiating unit for the local School District, *but* the collective bargaining agreement of that negotiating unit may be *modified by a majority vote* of the members who work at the charter school, with the approval of the Board of Trustees of the charter school.

Teachers employed by the School District may apply for a leave of absence for purposes of teaching at a charter school. Approval for such leave of absence for a period of two (2) years or less shall not be unreasonably withheld. If such approval is granted to a teacher by the District, the teacher may return to teach in the School District during such period of leave without the loss of any right of certification, retirement, seniority, salary status, or any other benefit provided by law or by collective bargaining agreement. If an appropriate position is unavailable, the teacher's name shall be placed on a preferred eligible list of candidates for appointment to a vacancy that may thereafter occur in an office or position similar to the one such teacher filled in the District immediately prior to the leave of service.

Charter School Finances

Charter school financing shall be based on the number of students projected to be served by the charter school and the approved operating expenses of the *district of residence* of those students. The New York Charter Schools Act requires that the *school district of residence* forward payments to the charter school, which shall include State and Federal aid and any other pertinent aid to students with disabilities, in six (6) substantially equal installments each year beginning on the first business day of

(Continued)

SUBJECT: CHARTER SCHOOLS (Cont'd.)

the months of July, September, November, January, March, and May. Failure by the School District to make such required payments will result in the State Comptroller deducting the required amounts from State funds due to the District and paying them to the charter school.

Approved operating expenses include the essential operating cost of the School District. Excluded are costs for transportation, debt services, construction, tuition payments to other school districts, some BOCES payments, cafeteria or school lunch expenditures, balances and transfers, rental income from leased property, and certain other limited categories.

Federal and State aid attributable to students with disabilities *are* required to be paid to a charter school by the *school district of residence* for those students attending such charter school *in proportion to the services the charter school provides such students*.

Amounts payable to a charter school by the School District will be determined by the Commissioner of Education.

Neither the School District, the charter entity, nor the State is liable for the debts of the charter school.

Notice And Hearing Requirements

The New York State Board of Regents is required to provide the School District information on the charter school process. If a charter school is proposed, the charter entity and the Board of Regents *have to notify the school district in which the charter school is located and public and nonpublic schools in the same geographic area* as the proposed charter school at each significant stage of the chartering process.

Before a charter is issued or renewed, the *school district in which the charter school is located* is entitled:

- a) To hold a *public hearing* to receive comments from the community, and
- b) To comment on the proposed charter to the charter entity.

Time limits on the charter application process will be in accordance with the Charter Schools Act.

SUBJECT: PUBLIC EXPRESSION AT MEETINGS

It is the desire of the Board to organize and operate its regular monthly meetings to provide maximum opportunity for effective and reasonable participation by members of the community while also preserving the decorum necessary for the Board to transact its business thoughtfully and efficiently. To this end, the agenda for each regular Board meeting will provide up to thirty minutes of time for hearing petitions, comments, suggestions, etc., from delegations or individuals from the community. Individual petitioners or speakers will be limited to presentations of about five minutes, subject to the discretion of the President of the Board of Education in his/her role as chairman of the meeting.

The Board will hear comments or proposals on any significant issues related to the school and its programs but not involving complaints against or criticisms of people. It is the policy of the Board that personnel complaints must first be handled through administrative channels and when not adequately resolved at that level, will be dealt with by the Board in executive session upon formal written request from the complainant that will include a statement of the nature of the complaint.

It is also the policy of the Board that proposals introduced by the public not already under consideration by the Board or not included in the agenda of the meeting will, when practical, be tabled until the following regular meeting of the Board. This delay is designed to provide the Board with adequate opportunity for study or reflection on the matter raised.

During the regular course of the Board meeting, and not at the time designated for public comment, members of the public will not ordinarily be invited to participate in Board discussion of items under consideration except in cases where a citizen has previously requested the right to be heard on an issue at the time it is being discussed (or when requested for clarification of earlier comments by a member of the Board) rather than during the established time for public participation at the beginning of the meeting. Granted such privilege, the citizen's presentation will be subject to the same limitations in content and length as if it had come at the beginning of the meeting.

The Board of Education reserves the right to enter into executive session as specified in Policy #1730 -- Executive Sessions.

SUBJECT: PUBLIC COMPLAINTS

Complaints by citizens regarding any facet of the school operation often can be handled more satisfactorily by the administrative officer in charge of the unit closest to the source of the complaint. In most instances, therefore, complaints will be made to the Assistant Superintendent and/or his/her assistant if the matter cannot be resolved by the teacher, coach, or other school employee.

If the complaint and related concerns are not resolved at this level to the satisfaction of the complainant, the complaint may be carried to the Superintendent and/or one of his/her assistants. Unresolved complaints at the building level must be reported to the Superintendent by the Assistant Superintendent. The Superintendent may require the statement of the complainant in writing.

If the complaint and related concerns are not resolved at the Superintendent level to the satisfaction of the complainant, the complaint may be carried to the Board of Education. Unresolved complaints at the Superintendent level must be reported to the Board of Education by the Superintendent. The Board of Education reserves the right to require prior written reports from appropriate parties.

Booster clubs or other related organizations may be created to promote community support and to raise funds for specific school activities or programs. These groups must receive official Board approval and may not discriminate on the basis of sex, sexual orientation, color, national origin, ethnic background, disability, religion or any other arbitrary criteria.

Rules and regulations will be established to govern the activities of booster clubs and other related organizations. The Board further requires that:

- a) Financial records be maintained and made available, upon request, for Board and/or public inspection;
- b) Fund raising activities be approved in advance by the Superintendent; and
- c) Groups wishing to make a contribution adhere to the District's policy and regulations regarding the acceptance of gifts.

The Board retains final responsibility and authority on all activities which have an impact on students, the school, school programs, and/or school-owned property. Violations to District policy or regulations may result in the dissolution of the club or organization.

SUBJECT: SOLICITATION OF CHARITABLE DONATIONS FROM SCHOOL CHILDREN

Direct solicitation of charitable donations from children in the District schools on school property during regular school hours shall not be permitted. It will be a violation of District policy to ask District school children directly to contribute money or goods for the benefit of a charity during the hours in which District students are compelled to be on school premises.

However, this policy does not prevent the following types of fund raising activities:

- a) Fund raising activities which take place off school premises, or outside of regular school hours during before-school or after-school extracurricular periods;
- b) Arms-length transactions, where the purchaser receives a consideration for his/her donation. For example, the sale of goods or tickets for concerts or social events, where the proceeds go to charity, shall not be prohibited as the purchaser will receive consideration - the concert or social event - for the funds expended;
- c) Indirect forms of charitable solicitation on school premises that do not involve coercion, such as placing a bin or collection box in a hallway or other common area for the donation of food, clothing, other goods or money. However, collection of charitable contributions of food, clothing, other goods or funds from students in the classroom or homeroom is prohibited.

The Board of Education shall decide which organizations, groups, etc. can solicit charitable donations and for what purposes, as long as the activities comply with the terms of this policy and the Rules of the Board of Regents.

- a) Schools may cooperate in furthering the work of any non-profit, community-wide, social service agency, provided that such cooperation does not restrict or impair the educational program of the schools or conflict with Section 19.6 of the Rules of the Board of Regents;
- b) The schools may use films or other educational materials bearing only simple mention of the producing firm;
- c) The Superintendent of Schools may, at his/her discretion, announce or authorize to be announced, any lecture or other community activity of particular educational merit;
- d) The schools may, upon approval of the Superintendent of Schools, cooperate with any agency in promoting activities in the general public interest that are non-partisan and non-controversial, and that promote the education and other best interests of the students.

SUBJECT: CODE OF CONDUCT ON SCHOOL PROPERTY

The District has developed and will amend, as appropriate, a written Code of Conduct for the Maintenance of Order on School Property, including school functions, which shall govern the conduct of students, teachers and other school personnel, as well as visitors. The Board of Education shall further provide for the enforcement of such Code of Conduct.

For purposes of this policy, and the implemented Code of Conduct, school property means in or within any building, structure, athletic playing field, playground, parking lot or land contained within the real property boundary line of the District's elementary or secondary schools, or in or on a school bus; and a school function shall mean a school-sponsored extracurricular event or activity.

SUBJECT: THREATS OF VIOLENCE IN SCHOOL

The School District is committed to the prevention of violence against any individual or property in the schools or at school activities whether such acts and/or threats of violence are made by students, staff, or others. Threats of violence against students, school personnel and/or school property will not be tolerated whether or not such threats occur on school grounds or during the school day.

Any acts and/or threats of violence, including bomb threats, whether made orally, in writing, or by e-mail, shall be subject to appropriate discipline in accordance with applicable law, District policies and regulations, as well as the *Code of Conduct for the Maintenance of Order on School Property* and collective bargaining agreements, as may be necessary.

While acknowledging an individual's constitutional rights, including applicable due process rights, the District refuses to condone acts and/or threats of violence which threaten the safety and well being of staff, students and the school environment. Employees and students shall refrain from engaging threats or physical actions which create a safety hazard for others.

All staff who are made aware of physical acts and/or threats of violence directed to students or staff are to report such incidents to the Assistant Superintendent/designee, who shall report such occurrences to the Superintendent. Additionally, the Assistant Superintendent/designee will also report occurrences of violence, whether involving an actual confrontation or threat of potential violence, to the school psychologist and/or Director of Special Education if applicable. Local law enforcement agencies may be called as necessary upon the determination of the Superintendent/designee.

Students are to report all acts and/or threats of violence, including threats of suicide, of which they are aware by reporting such incidents to the school hotline, a faculty member, or the Assistant Superintendent.

The District reserves the right to seek restitution, in accordance with law, from the parent/guardian and/or student for any costs or damages which had been incurred by the District as a result of the threats or acts of violence in the schools.

This policy will be enforced in accordance with applicable laws and regulations, as well as collective bargaining agreements and the *Code of Conduct* as may be necessary. Additionally, this policy will be disseminated, as appropriate, to students, staff, and parents and will be available to the general public upon request.

Regulations will be developed to address safety concerns in the schools, and appropriate sanctions for violations of this policy by students will be addressed in the *Code of Conduct*.

SUBJECT: ANTI-HARASSMENT IN THE SCHOOL DISTRICT

The Board of Education affirms its commitment to nondiscrimination and recognizes its responsibility to provide an environment that is free of harassment and intimidation. Harassment is a violation of law and stands in direct opposition to District policy. Therefore, the Board prohibits and condemns all forms of harassment on the basis of race, color, creed, religion, national origin, political affiliation, sex, sexual orientation, age, marital, military or veteran status, or disability by employees, school volunteers, students, and non-employees such as contractors and vendors as well as any third parties who are participating in, observing, or otherwise engaging in activities subject to the supervision and control of the District.

Sexual orientation is defined as heterosexuality, homosexuality, bisexuality or asexuality whether actual or perceived.

The Board also prohibits harassment based on an individual's opposition to discrimination or participation in a related investigation or complaint proceeding under the anti-discrimination statutes. This policy of nondiscrimination and anti-harassment will be enforced on School District premises and in school buildings; and at all school-sponsored events, programs and activities, including those that take place at locations off school premises.

It is intended that this policy apply to the dealings between or among employees with employees; employees with students; students with students; employees/students with vendors/contractors and others who do business with the School District, as well as school volunteers, visitors, guests and other third parties. All of these persons are hereinafter referred to collectively as "the named group."

For purposes of this policy, harassment shall mean communication (verbal, written or graphic) and/or physical conduct based on an individual's actual or perceived race, color, creed, religion, national origin, political affiliation, sex, sexual orientation, age, marital, military or veteran status, or disability that:

- a) Has the purpose or effect of substantially or unreasonably interfering with an individual's work performance or is used as a basis for employment decisions (including terms and conditions of employment) affecting such individual; and/or creates an intimidating, hostile or offensive work environment;
- b) Has the purpose or effect of substantially or unreasonably interfering with a student's academic performance or participation in an educational or extracurricular activity, or creates an intimidating, hostile or offensive learning environment; and/or effectively bars the student's access to an educational opportunity or benefit;

SUBJECT: ANTI-HARASSMENT IN THE SCHOOL DISTRICT (Cont'd.)

The School District will act to promptly investigate all complaints, either verbal or written, formal or informal, of allegations of harassment based on any of the characteristics described above; and will promptly take appropriate action to protect individuals from further harassment.

In order for the Board to enforce this policy, and to take corrective measures as may be necessary, it is essential that any employee, student, or other member of the above named group who believes he/she has been a victim of harassment in the school environment and/or at programs, activities and events under the control and supervision of the District, as well as any individual who is aware of and/or who has knowledge of, or witnesses any possible occurrence of harassment, immediately report such alleged harassment; such report shall be directed to or forwarded to the District's designated complaint officer(s) through informal and/or formal complaint procedures as developed by the District. Such complaints are recommended to be in writing, although verbal complaints of alleged harassment will also be promptly investigated in accordance with the terms of this policy. In the event that the complaint officer is the alleged offender, the report will be directed to the next level of supervisory authority.

Upon receipt of an informal/formal complaint, the District will conduct a thorough investigation of the charges. However, even in the absence of an informal/formal complaint, if the District has knowledge of any occurrence of harassment, the District will investigate such conduct promptly and thoroughly. To the extent possible, within legal constraints, all complaints will be treated as confidentially and privately as possible. However, disclosure may be necessary to complete a thorough investigation of the charges and/or to notify law enforcement officials as warranted, and any disclosure will be provided on a "need to know" basis.

Based upon the results of this investigation, if the District determines that an employee and/or student has violated the terms of this policy and/or accompanying regulations, immediate corrective action will be taken as warranted. Should the offending individual be a student, appropriate disciplinary measures will be applied, up to and including suspension, in accordance with applicable laws and/or regulations, District policy and regulation, and the District Code of Conduct. Should the offending individual be a school employee, appropriate disciplinary measures will be applied, up to and including termination of the offender's employment, in accordance with legal guidelines, District policy and regulation, and the applicable collective bargaining agreement(s). Third parties (such as school volunteers, vendors, etc.) who are found to have violated this policy and/or accompanying regulations and/or the Code of Conduct, will be subject to appropriate sanctions as warranted and in compliance with law. The application of such disciplinary measures by the District does not preclude the filing of civil and/or criminal charges as may be warranted.

SUBJECT: ANTI-HARASSMENT IN THE SCHOOL DISTRICT (Cont'd.)

The Board prohibits any retaliatory behavior directed against complainants, victims, witnesses, and/or any other individuals who participated in the investigation of a complaint of harassment. Follow-up inquiries shall be made to ensure that harassment has not resumed and that all those involved in the investigation of the harassment complaint have not suffered retaliation.

Regulations will be developed for reporting, investigating, and remedying allegations of harassment based on the characteristics described above. An appeal procedure will also be provided to address any unresolved complaints and/or unsatisfactory prior determinations by the applicable complaint officer(s). Such regulations will be developed in accordance with federal and state law as well as any applicable collective bargaining agreement(s).

The Superintendent/designee(s) will affirmatively discuss the topic of harassment with all employees and students, express the District's condemnation of such conduct, and explain the sanctions for such harassment. Appropriate training and/or "awareness" programs will be established for staff and students to help ensure knowledge of and familiarity with the issues pertaining to harassment in the schools, and to disseminate preventative measures to help reduce such incidents of prohibited conduct. Furthermore, special training will be provided for designated supervisors and managerial employees, as may be necessary, for the investigation of harassment complaints.

A copy of this policy and its accompanying regulations will be available upon request and may be posted at various locations in each school building. The District's policy and regulations on anti-harassment will be published in appropriate school publications such as teacher/employee handbooks, student handbooks, and/or school calendars.

This policy should not be read to abrogate other District policies and/or regulations or the District Code of Conduct prohibiting other forms of unlawful discrimination, inappropriate behavior, and/or hate crimes within this District. It is the intent of the District that all such policies and/or regulations be read consistently to provide the highest level of protection from unlawful discrimination in the provision of employment/educational services and opportunities. However, different treatment of any member of the above named group which has a legitimate, legal and nondiscriminatory reason shall not be considered a violation of District policy.
