

Foreword

This advisement guide is a tool for use during Night Advisement Sessions. It provides information needed to answer parent and student questions regarding course specifics, shows a normal progression through each subject area and lists both pre-requisite and recommended follow-on courses for each course offered in our curriculum.

Although a valuable tool, this guide will not cover all situations and, for that reason, we will have content area experts and counselors available at all night advisement sessions to provide assistance as needed.

Pre-registration counseling visits, content area teacher recommendations, and advisor conferencing in advance of night advisement guides the registration for the next year's courses.

Ashley Brock

Graduation Requirements Class of 2012 and beyond

- 4 units of English (must include 9th Literature and American Literature)
- 4 units of Mathematics
- *4 units of Science (must include Biology, Physical Science or Physics, Chemistry or Environmental Science)
- 3 units of Social Studies (must include American Government, World History, US History and Economics)
- At least 3 units of Career/Technical/Agricultural, **Foreign Language and/or Fine Arts courses (any combination)
- 1 unit of Health/Physical Education OR 3 years of ROTC (requires signed letter)
- At least 5 elective units

* The 4th science unit may be selected from academic science courses or from approved CTAE courses. This course will earn one Carnegie unit of science credit; however, this same 4th science course could also be used to meet a requirement of a career pathway course.

= 24 Units Required for Graduation

GRAPHIC DESIGN & GRAPHICS COMMUNICATION COURSE FLOW CHART

NOTE: Career, Technical, and Agriculture students finishing courses that complete pathways will be administered an End of Pathway Assessment (EOPA) to ascertain the level of technical skill attainment. This generally occurs after Advanced Graphic Design or Advanced Graphic Output Processes.

Veterans High School Night Advisement Guide

<u>GRAPHIC DESIGN & GRAPHICS COMMUNICATION</u>						
Course Name	Course Description	Pre-Requisites	Follow-on or Pathway Courses	EOC T (Y/N)	Meets HOPE Rigor Req.	Primary Target Group
Introduction to Graphic Design	This course introduces students to the principles of graphic communications and design and its place in the world. It teaches students to use computers effectively in their lives and provides a foundation for successfully integrating their own interests and careers with the resources of a technological society. Students acquire a fundamental understanding of the graphic communications and design world, learn the theories behind creating designs and how to work with consumers. Exposure to career possibilities and discussion of ethical issues relating to graphic communications and design are explored.	None	Graphic Design & Production	No	No	All first-year graphic students
Graphic Design & Production	Students will become familiar with the many ways images are created either physically or electronically by delineating through description the differences between the various output processes and describe how each process creates or transfers an image. Students will describe how an image transitions through to a finished product and will participate in its development.	Introduction to Graphic Design	Advanced Graphic Design	No	No	Second-year graphic design students complete Graphic Design or Graphic Communication Pathway.

Veterans High School Night Advisement Guide

GRAPHIC DESIGN

Course Name	Course Description	Pre-Requisites	Follow-on or Pathway Courses	EOCT (Y/N)	Meets HOPE Rigor Req.	Primary Target Group
Advanced Graphic Design	Students will continue to explore the principles of design and layout procedures as they relate to graphic design. Content will cover electronic systems and software programs used in graphic design, page composition, image conversion, and digital printing. Knowledge and skills in digital design and imaging will be enhanced through experiences that simulate the graphic design industry and school-based and work-based learning opportunities.	1. Introduction to Graphic Design 2. Graphic Design & Production	Advanced Graphic Output Processes, if desired	No. Will take End of Pathway Assessment	No	11 th -12 th Graders Third-year graphic wishing to complete the Graphic Design Pathway.
Advanced Graphic Output Processes.	Students will gain more advanced levels of experience to complete the output processes of various projects in an increasingly independent manner. Students also learn to manage the output and completion process including customer relations management, printing, finishing, and binding. Students will continue to accumulate work samples that will constitute their personal portfolio. Upon successful completion of the course, students are prepared to move into employment or a post-secondary educational environment where self-motivation and a high level of skill are expected.	1. Intro to Graphic Design 2. Graphic Design & Production	Advanced Graphic Design, if desired	No Will take EOPA	No	11 th -12 th Graders Third year graphic students wishing to complete the Graphic Communication Pathway.

BAND COURSE FLOW CHARTS

NOTE: Music Theory is a stand-alone course for students with a music background and some ability to read music. It may be taken any time. Target group is 11th and 12th graders. *Audition based

Veterans High School Night Advisement Guide

BAND

Course Name	Course Description	Pre-Requisites	Follow-on or Pathway Courses	EOC T (Y/N)	Meets HOPE Rigor Req.	Primary Target Group
Concert Band	This class offers the opportunity to hone and develop fundamental musical skills through the study of intermediate band music centering on Levels 2-3. This course is intended for students with some prior musical experience and will focus heavily on the fundamental production tone, intonation, balance, note and rhythm reading, and ensemble development. Placement in this class is determined by Director Recommendation of the student's most recent Director and the current High School Directors.	None	Symphonic Band	No	No	All students with band experience, primarily 9 th -10 th graders
Wind Symphony	Wind Symphony is an upper-level performance opportunity for accomplished wind and percussion players. Wind Symphony offers students great variety and challenge in musical performance, including experiences in chamber music, analysis, theory and history. Membership is by audition only.	Audition Only	None	No	No	Advancing band students, primarily 10 th – 12 th graders
Symphonic Band	This class emphasizes the study and performance of quality intermediate to advanced band music, centering on Level 3-4. Class activities emphasize the continued development of characteristic tone, instrument technique, intonation, music reading, listening skills, and also the fundamentals of music theory. Placement in this class is determined by audition for current high school band students and/or director recommendation of the student's most recent director and the current high school directors.	Audition Only	Wind Ensemble	No	No	All students with band experience, primarily 9 th -10 th graders

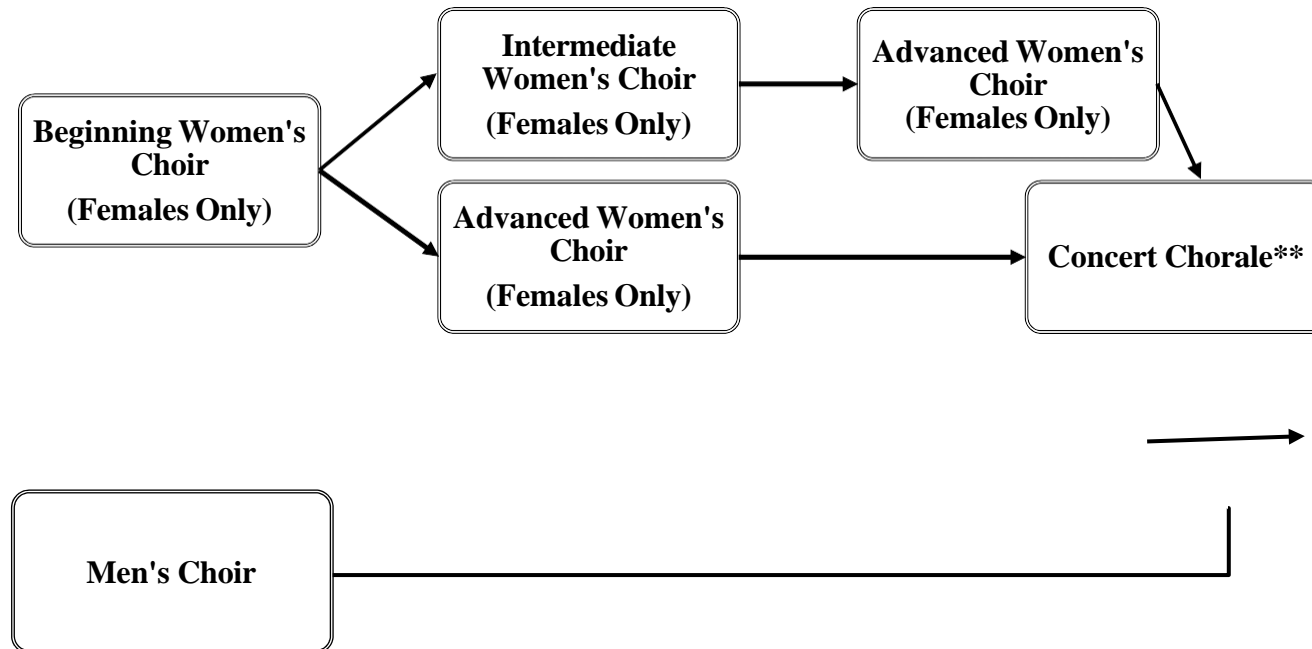

Veterans High School Night Advisement Guide

BAND

Course Name	Course Description	Pre-Requisites	Follow-on or Pathway Courses	EOC T (Y/N)	Meets HOPE Rigor Req.	Primary Target Group
Wind Ensemble	Wind Ensemble is the premier wind band here at Veterans. It is comprised of only the elite musicians and is audition based. They will perform the highest level of music possible and are highly encouraged to take private lessons. This is an audition only group.	Audition Only	None	No	No	Most advanced band student and competitive students willing to practice their instrument regularly.
Music Theory	Music Theory is a course that offers a study of notation, harmony, chord progression, style, expressive elements and ear training. The course covers material offered in university theory level 1, but at a slower pace. It is an introductory class designed for students who already have a background in some kind of music.	Knowledge of reading music		No	No	Advancing music students. Not limited to band /chorus students. Can be taken by guitarists and pianists as well.

CHORUS

Course Name	Course Description	Pre-Requisites	Follow-on or Pathway Courses	EOC T (Y/N)	Meets HOPE Rigor Req.	Primary Target Group
Beginning Women's Choir	A choir composed of women who are new to choral singing on the high school level. This group places emphasis on reading basic musical notation, development of vocal tone and breathing, and elements of performance. This choir will prepare and present three or four concerts during the school year.	None (Women Only)	Intermediate Women's Choir	No	No	9th grade females, and any females who are new to choir.
Intermediate Women's Choir	This is our mid-level women's choir and is the next step up after the Beginning Women's Choir. This is a group for those more experienced in choral singing, and are looking to take their training to the next level. Singers will further develop concepts of tone and resonance, as well as intonation in consistent 3-part literature. Students must be able to read music at a basic level and at least one year of high school chorus is preferred. This choir will prepare and present three or four concerts during the school year.	One year of high school choir experience preferred. Students who made All-State Chorus at least one year in middle school are eligible for this choir. (Women only)	Advanced Women's Choir; Concert Chorale	No	No	Advanced 10 th - 12 th grade females who want to take the next step in choir.

Veterans High School Night Advisement Guide

CHORUS

Course Name	Course Description	Pre-Requisites	Follow-on or Pathway Courses	EOC T (Y/N)	Meets HOPE Rigor Req.	Primary Target Group
Men's Choir	A choir composed of men who are new to choral singing on the high school level. This group places emphasis on reading basic musical notation, development of vocal tone and breathing, and elements of performance. This choir will prepare and present three or four concerts during the school year.	None (Men Only)	Concert Chorale	No	No	9th grade males, and any males who are new to choir.
Advanced Women's Choir	This is the most advanced of our female groups, composed of students with at least one year of choral experience with a high aptitude for singing and music reading. This choir performs high level literature with precision and expression and presents three or four concerts during the academic year.	At least one year of high-school choral experience. Women who made All-State Chorus in both 7 th and 8 th grade are eligible for this choir. (Women Only)	Concert Chorale	No	No	10 th -12 th grade girls with at least one year experience.

Veterans High School Night Advisement Guide

CHORUS

Course Name	Course Description	Pre-Requisites	Follow-on or Pathway Courses	EOC T (Y/N)	Meets HOPE Rigor Req.	Primary Target Group
Concert Chorale	Concert Chorale is the most advanced choir and is composed of the most dedicated, talented, and hard-working singers in our school. It offers the opportunity to sing literature at the highest level, all the while developing advanced singing techniques that will last a lifetime. All students must be reasonably comfortable with reading music and should have over one year of experience in high school choir. This choir will prepare and present six to eight performances throughout the school year.	(Audition Only)		No	No	Advanced musical students

3. ** Must Have Math Department Approval

Veterans High School Night Advisement Guide

<u>MATH</u>					
Course Name	Course Description	Pre-Requisites	Follow-on or Pathway Courses	EOCT (Y/N)	Primary Target Group
Algebra 1	Algebra I formalizes and extends the mathematics that students learned in middle school. Critical areas, organized into units, deepen and extend understanding of functions by comparing and contrasting linear, quadratic, and exponential phenomena. Mathematical Practice Standards apply throughout each course and, together with the content standards, prescribe that students experience mathematics as a coherent, useful, and logical subject that makes use of their ability to make sense of problem situations.	None	GSE Geometry	Y	9 th Graders
Honors Geometry	Geometry is devoted primarily to plane Euclidean geometry, studied both synthetically (without coordinates) and analytically (with coordinates). It is characterized by the Parallel Postulate that states that through a point not on a given line there is exactly one parallel line and spherical geometry. In high school, students begin to formalize their geometry experiences from elementary and middle school, using more precise definitions and developing careful proofs.	Algebra 1 and Math Honors identified	Honors Algebra 2	N	9 th Graders

Veterans High School Night Advisement Guide

<u>MATH</u>					
Course Name	Course Description	Pre-Requisites	Follow-on or Pathway Courses	EOCT (Y/N)	Primary Target Group
Geometry	Geometry is devoted primarily to plane Euclidean geometry, studied both synthetically (without coordinates) and analytically (with coordinates). It is characterized most importantly by the Parallel Postulate that states that through a point not on a given line there is exactly one parallel line and spherical geometry. During high school, students begin to formalize their geometry experiences from elementary and middle school, using more precise definitions and developing careful proofs.	Algebra	Algebra 2	N	10 th Graders
Honors Algebra 2	Students pull together and apply the accumulation of learning from their previous courses. They apply methods from probability and statistics to draw inferences and conclusions from data. Students expand their repertoire of functions to include quadratic (with complex solutions), polynomial, rational, and radical functions. And, finally, students bring together all of their experience with functions to create models and solve contextual problems.	GSE Honors Geometry	GSE Honors Pre Calculus	N	10 th Graders

Veterans High School Night Advisement Guide

<u>MATH</u>					
Course Name	Course Description	Pre-Requisites	Follow-on or Pathway Courses	EOCT (Y/N)	Primary Target Group
AP Pre Calculus	Focuses on standards to prepare students for a more intense study of mathematics. The study of circles and parabolas is extended to include other conics such as ellipses and hyperbolas. Trigonometric functions are introduced and developed to include inverses, general triangles and identities. Matrices provide an organizational structure in which to represent and solve complex problems. Students expand the concepts of complex numbers and the coordinate plane to represent and operate upon vectors. Probability rounds out the course using counting methods, including their use in making and evaluating decisions.	Honors Algebra 2	AP Calculus AP Statistics or both	N	11 th Graders

Veterans High School Night Advisement Guide

<u>MATH</u>					
Course Name	Course Description	Pre-Requisites	Follow-on or Pathway Courses	EOCT (Y/N)	Primary Target Group
Advanced Placement (AP) Calculus	Calculus AB is primarily concerned with developing the students' understanding of the concepts of calculus and providing experience with its methods and applications. The course emphasizes a multi-representational approach to calculus, with concepts, results, and problems being expressed graphically, numerically, analytically, and verbally. The connections among these representations also are important.	Honors/AP Pre-Calculus	None	N (AP Exam at the end of the year)	12 th Graders
Math of Finance	The course concentrates on the mathematics necessary to understand and make informed decisions related to personal finance. The mathematics in the course will be based on many topics in prior courses; however, the specific applications will extend the student's understanding of when and how to use these topics. This course is generally not accepted for core credit by colleges and universities.	None	None	N	Seniors only

Veterans High School Night Advisement Guide

SCIENCE

Course Name	Course Description	Pre-Requisites	Follow-on or Pathway Courses	EOCT (Y/N)	Meets HOPE Rigor Req.	Primary Target Group
Chemistry	Students continue investigations of the physical sciences and develop the necessary skills to be proficient in chemistry. Abstract concepts such as the structure of atoms, structure & properties of matter, and the conservation & interaction of energy & matter are covered. Students investigate chemistry concepts through experience in laboratories & field work using the process of inquiry.	Algebra (with a grade of 85 or higher)		No	Yes	11 th Graders
Anatomy	This curriculum is extensively performance and laboratory based. It integrates the study of the structures and functions of the human body. Areas of study include organization of the body; protection, support and movement; providing internal coordination and regulation; processing and transporting; and reproduction, growth and development. Whenever possible, careers related to medicine, research, health-care, and modern technology are emphasized. Case studies concerning diseases, disorders and ailments are emphasized.	Biology		No	Yes	11 th and 12 th graders

Veterans High School Night Advisement Guide

SCIENCE

Course Name	Course Description	Pre-Requisites	Follow-on or Pathway Courses	EOCT (Y/N)	Meets HOPE Rigor Req.	Primary Target Group
Environmental Science	This course integrates the study of many components of our environment, including the human impact on our planet. Students investigate the flow of energy and cycling of matter within ecosystems, and evaluate types, availability, allocation, and sustainability of energy resources. Instruction focuses on student data collection and analysis from field and laboratory experiences. Whenever possible, careers related to environmental science are emphasized.	Biology		No	No	11 th Graders
Forensic Science	This course builds upon science concepts and applies science to the investigation of crime scenes. It serves as a fourth year of science for graduation and may serve in selected CTAE programs. Students will learn the scientific protocols for analyzing a crime scene, how to use chemical and physical separation methods to isolate and identify materials, how to analyze biological evidence and the criminal use of tools, including impressions from firearms, tool marks, arson, and explosive evidence.	Biology		No	Yes	12 th Graders

Veterans High School Night Advisement Guide

SCIENCE

Course Name	Course Description	Pre-Requisites	Follow-on or Pathway Courses	EOCT (Y/N)	Meets HOPE Rigor Req.	Primary Target Group
AP Biology	The AP Biology course is designed to be the equivalent of the general biology course usually taken during the first college year. AP Biology students may earn college credit by scoring adequately on the AP Biology exam.	Biology, Chemistry, and Teacher Recommendation		No	Yes	11 th and 12 th graders
AP Chemistry	The AP Chemistry course is designed to be the equivalent of the general chemistry course usually taken during the first or second college year. AP Chemistry students may earn college credit by scoring adequately on the AP Chemistry exam.	Chemistry and Teacher Recommendation		No	Yes	11 th and 12 th graders
Physics	Students continue investigations of physical science and develop the necessary skills to become proficient in physics. Topics include more abstract concepts of nuclear decay processes, interactions of matter and energy, velocity, acceleration, force, energy, momentum, properties, interactions of matter, electromagnetic and mechanical waves and electricity, magnetism and their interactions. Students investigate physics concepts through experiences in laboratories and field work using the science and engineering practices.	Algebra and Geometry (grade of 85 or higher)		No	Yes	11 th and 12 th graders

Veterans High School Night Advisement Guide

SCIENCE

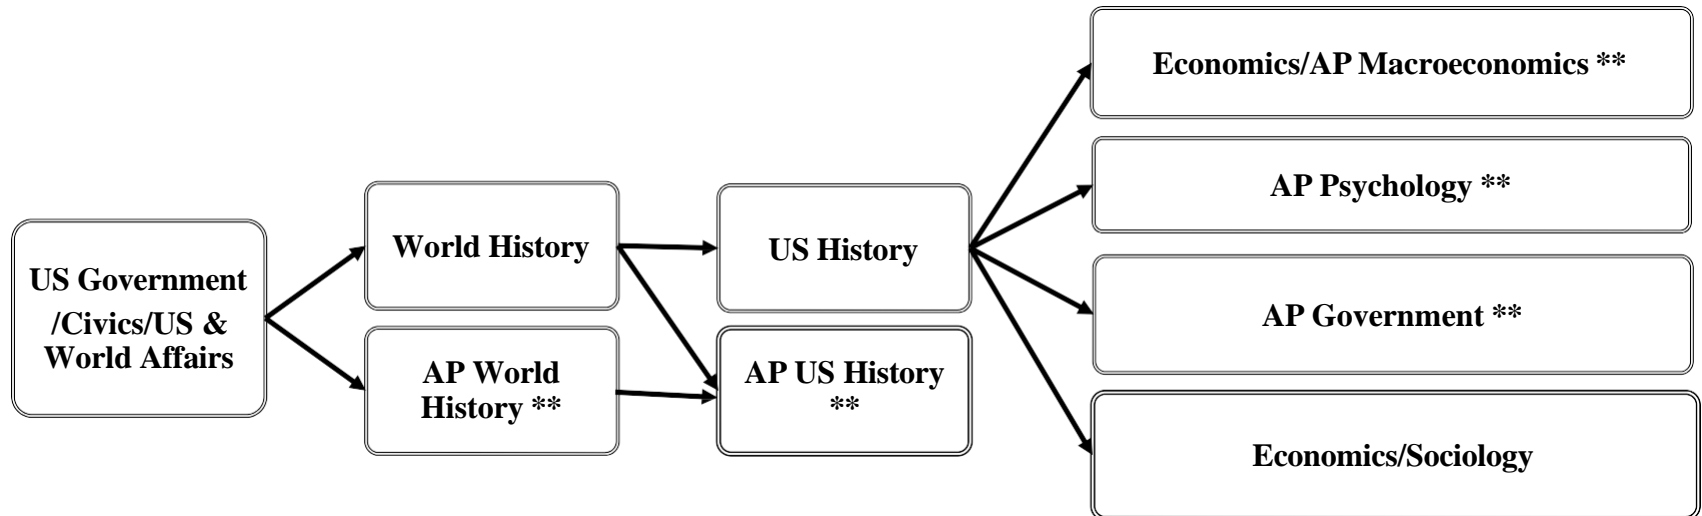

AP Environmental Science	This course is designed to be the equivalent of an introductory college environmental science course. The course provides students with the scientific principles, concepts, & methodologies required to understand the interrelationships of the natural world, identify & analyze environmental problems, evaluate the risks associated with these problems, & examine alternative solutions for resolving or preventing them. AP Environmental Science students may earn college credit by scoring adequately on the AP Environmental Science Exam.	Biology, Chemistry, and Teacher Recommendation		No	Yes	11 th and 12 th graders
AP Physics 1	AP Physics 1 (Algebra-Based) is the equivalent to a first-semester college course in algebra-based physics. The course explores foundational Physics principles of Newtonian mechanics (including rotational dynamics and angular momentum); work, energy, and power; and simple harmonic motion. AP Physics 1 students may earn college credit by scoring adequately on the AP Physics 1 Exam.	Geometry, Algebra II (can be concurrent), and Teacher Recommendation		No	Yes	11 th and 12 th graders

Spanish 1	Students will learn Spanish using guided practice to become proficient in the listening, speaking, reading and writing in the language. Instructional strategies that allow and encourage the students to practice using Spanish in the four areas mentioned above will be used. Focus will be on the vocabulary and grammar of the language, along with the culture of countries where Spanish is spoken.	None	Spanish 2	No	No	College Prep Students
Spanish 2	Focus is on the continued development of communicative competence in Spanish and understanding the culture(s) of the people who speak the language. Students will focus on communicating about their immediate world and daily life activities, read material on familiar topics, and write short, directed compositions. Communication between students and instructors in the target language will be increased at this level.	Spanish 1	Spanish 3 (optional)	No	Yes	College Prep Students

AP Spanish	<p>This course's main objective is to develop student's communication skills in Spanish and help them achieve a high level of ability in all four skills (listening, reading, speaking and writing). Students will be exposed to a variety of materials and genres to help them expand their knowledge of formal Spanish in both oral and written forms. During this course, students will hear, read, write and speak exclusively in Spanish. There are 6 themes covered, which prepare students to take the A.P. exam: Families & Communities, Personal & Public Identities, Beauty and Aesthetics, Contemporary Life, Global Challenges, and Science and Technology. Students will also become familiar with the format of the A.P. exam.</p>	Spanish 3		No	Yes	College Prep Students
