(903) 736-1005

10/18/2021

Lake Wales Charter School District Search Team:

My name is William Teddy Ott. I was born and raised in Thomasville, Alabama. My family moved to Texas when I was 15 years old. I graduated from Midway High School in Waco. I have earned a Bachelor of Science in Psychology, Master of Education, and a Theological Doctor of Philosophy. My wife, Kelly, and I have been married for 31 years. We have two children and we have four grandchildren with one more on the way. My wife, Kelly also serves in public education and my kids serve in the medical field and live in Florida.

I have currently served as a senior pastor for a little over 22 years. I managed car dealerships for 15 years prior to serving in public education. I have always been very involved in my community. As a result, in July 2005, the Superintendent of New Diana ISD called and ask if I would come to work for NDISD as a coach, full-time substitute, and bus driver. In response to this call, I entered public education in August 2005. I would complete my Bachelor's degree and the alternative certification program through Region 7 during this time. My teaching experience includes teaching 8th grade Math and high school/middle school special education. I coached for 7 years until completing my Master's degree. I served as assistant principal for Ore City ISD for 3 years and currently have served as their Director of Special Services/Education for over 4 years. In my most recent position, I direct MTSS, special education, 504 and the dyslexia programs. I completed my superintendent of schools certification and a RTSBA (Registered Texas School Business Administrator) in November of 2020.

I am a servant leader whose expertise lies in overseeing areas such as staff recruitment and training, financial and budget administration, building community partnerships and policy implementation to realize increased productivity and improved academic performance while containing costs. I excel at directing strategic enhancements to drive goal achievement while communicating openly and collaboratively with teachers, staff, parents, and principals.

My most recent leadership experiences...

COVID-19 crisis response. When OCISD shifted to remote learning last March, the cabinet had been proactively planning for two weeks. We set-up "District Covid-19 Response Team" to determine how to best connect with disengaged students and promote virtual wellness. We formed a successful plan that provided social/emotional support, delivered meals, and launched and asynchronistic platform that promoted learning for all.

I managed the development of our nearly 100-page Continuous Learning Plan, which includes on campus, remote and virtual school options, as well as a four-phase approach

to safety and operations based on the risk of COVID-19 community spread. We re-opened in successfully in August and have yet to close for Covid-19. The goal for this team was to maintain Instructional equity.

Instructional leadership for equity has led to the turnaround in identification and the response to struggling learners. I championed whole-child supports and inclusion for students with disabilities. I led the launch of student success planning with the goal of identifying the interests, strengths and needs of every child. These efforts yielded greater student engagement through the arts, athletics, and career academies. This work reflects my commitment to a well-rounded education for all students.

Strategic planning and budgeting. At the OCISD, I authored strategic plans – formulating goals, developing action steps, and defining key performance indicators. I worked closely with the instructional leadership team, superintendent and community to lead strategic planning processes. With community buy-in, the strategic plan guides decision-making and priority-based budgeting. I have navigated large, complex budgets in both the public and private sectors.

Operations and human resources. My career began in automobile dealership management. This experience compels my vision to build excellent teams that optimize efficiency. I joined OCISD as teacher/coach then as an assistant principal in the middle school, and now I manage and direct the special services and special education departments I honed my skills in both HR compliance, special program compliance, talent development, and budget creation and management.

I love working with people. My efforts in educational settings, church, and in the community show that I am effective in reaching out to and connecting with others. I believe very strongly that every student deserves a high-quality education and I work diligently to make that a reality.

Please accept this letter as my letter of interest in your deputy superintendent of schools position at Lake Wales. I would appreciate a time that we could meet and sit down together to talk about what I could bring to your district in achieving the goals and vision of Lake Wales Charter School District.

Sincerely,

William Teddy Ott

To Whom It May Concern:

This correspondence is sent as a recommendation that you consider Dr. William Teddy Ott for the superintendent's position in your school district. In June of this year as Adjunct Professor-Field Supervisor for the Lamar University Superintendent's certification project, I had the opportunity to interview Dr. Ott as part of the superintendent certification program and learned of his successes in administrative leadership. I was impressed by the leadership qualities that he outlined. He left me with the belief that he is the type of educator who will be an asset to your district.

Dr. Ott has shown success in several instances of his career. As a mathematics and special education teacher in different locations, he implemented a system of tracking and evaluation of student progress that was effective in increasing student achievement. As a middle and high school football and baseball coach Dr. Ott was instrumental in working with boosters on successful fundraising projects and created a junior varsity baseball program that resulted in a winning record of 90% of the games played within a three-year period. This impressive record also included for the team members a 100% passing rate in all academic subjects.

Dr. Ott has been effective as an assistant principal and in various central office roles, including his current position as Director of Special Education in Ore City. He works well in community and partnership building and in helping to improve academic performance. He excels in working with teachers, other staff members, and parents. He builds positive rapport with stakeholders to conceptualize workable project plans that are successfully implemented for the targeted populations. Recently, he served on three district level teams: The COVID-19 Response Team, the Threat Assessment Team, and the District Instructional Leadership Team. Dr. Ott's role on these teams gave him the opportunity to make important decisions about the district's academic programs, facilities, maintenance, and transportation, ensuring compliance with state and federal regulations and guidelines.

I saw Dr. Ott as being very personable and positive in his approach to working with people. His efforts in educational settings, church, and the community show that he is effective in reaching out to and connecting with others. He has a strong belief that every student deserves a high-quality education and works hard to make that a reality. Because of his qualifications for the position and the success that he has experienced up to this point, I recommend him for a district leadership position.

Thank you for any consideration given to this candidate. If you need further information, please feel free to contact me.

Sincerely,

Johnny E. Brown

COLLEGE OF EDUCATION & HUMAN DEVELOPMENT

LAMAR UNIVERSITY

Department of Educational Leadership

October 6, 2020

To Whom It May Concern:

It is my pleasure to recommend Mr. William T. Ott for consideration as a candidate for employment by your district. Mr. Ott entered the Lamar University Masters Program in 2011 and continued in the program for his administrative certification culminating with his recent certification and qualification as a Texas Superintendent. As a professor in the Lamar University Department of Educational Leadership, I had the privilege of teaching several courses in which Mr. Ott was enrolled.

I found Mr. Ott to be persistently committed to success in his academic coursework and I observed his resolute efforts to apply concepts, knowledge, and skills to the practical experience required for strong leadership as he completed his internship in the Lamar Superintendent Certification Program. Based on my interactions with Mr. Ott and his outstanding work in the courses which I taught, I am confident that William Ott will perform admirably in any leadership position for which he may be considered. Please do not hesitate to contact me personally if I can provide any other information which may be helpful to you in your deliberation and selection of the best candidate for any leadership position in your district.

Respectfully,

Jimmy Creel

Elyse Peterson, Assistant Principal: petersone@ocisd.net Deborah Tilley, Counselor • EMAIL: tilleyd@ocisd.net

To Whom it May Concern:

14 October 2020

I am writing to recommend Dr. Teddy Ott to serve as Superintendent for your district. I have known Dr. Ott both professionally and personally for the past 2 ½ years. For the first six months, I was his direct supervisor. He served as the Assistant Principal on our middle school campus. For the rest of this time, he has served the district Director of Special Education.

I have observed Dr. Ott to be a man of the highest personal moral character and integrity as both an employee and co- worker. His integrity and character guide his decision making process and actions.

Dr. Ott is a lifetime learner with a unique ability to apply creative problem solving to difficult situations. These qualities have allowed him to lead the district in effectively retooling our content mastery program, special education classroom coverage, self-contained special education classroom structure, and discipline management techniques for students identified with emotional disturbances.

These innovations have been both constructive, creating entirely new systems, and destructive, replacing existing systems with new ones. In each of these cases, Dr. Ott demonstrated servant based leadership. He sacrificially worked to equip and empower those charged with carrying out these innovations. The outcomes of these innovations have yielded tremendous positive outcomes for all district stakeholders, teachers, parents, and most importantly students.

I can state with absolute certainty, based on both my personal and professional relationship with him, that Dr. Ott will bring the same servant based leadership based on integrity, knowledge, and wisdom to leading your district.

Dr. Ott is a devoted follower of Christ. I have never witnessed him use this devotion to proselytize or violate any standards of professional conduct. However, I have daily witnessed it influence the way he applies grace, mercy, and servant's heart to those who he is entrusted to lead. It is also the foundation of his unquestionable integrity and high sense of personable accountability.

I am certain that Dr. Ott would be an excellent leader for your district. Please feel free to contact me if you have any questions. Office: 903 968 1214; cell 409 289 1612.

Agape,

Beau Vincent
