

Update of activities performed

- Electric bus door glass replaced.
- Issue started with the exterior charging unit for electric bus, it is a software problem. Blink sent us charging cards which allow the unit to now charge the bus, the plug and play function is not working.
- Something plugged the disposal in the kitchen. Obstacle was cleared and disposal functions correctly now.
- DeeAnn, Bob, and Sam took on the activity driving while I was away and did a good job getting everybody where they needed to be.
- Bob cleaned the outside of the windows on the elementary side and the kitchen.
- Problems have been occurring with the electric bus, LION is sending a technician to diagnose and hopefully repair issues. A strobe light was mailed to us to go on the roof of the bus. The emergency window on both sides and the windshield leak water.
- Electric bus has been used to transport the Glen Ullin track athletes to Hebron for practice.
- We are transporting the softball players to Beulah for practice. Mrs. Christiansen will be transporting the softball players to Beulah on game days.
